

## Read I am a quadrillionaire chapter 2851

I am a quadrillionaire chapter 2851-Now, Townlet Pescado had stopped all activities. The people from other villages were sent away, while those from the townlet stayed behind closed doors.

Everyone was afraid that they would get affected when the fight started.

Even though the people gathered here were the younger generation of Planet Gorgon, they still made up a pretty huge force.

Their backgrounds aside, they should not be underestimated.

Jade and Peach stood side by side at the highest point of Townlet Pescado, looking at the dense crowd in the distance.

The two frowned as they were worried about David.

David was undoubtedly strong, but he was alone after all.

This incident had caused such a big fuss, and more than half of the young geniuses from Planet Gorgon were here. So, how should he deal with them?

Both Jade and Peach wanted to help David, but they were unable to do so.

This was not a battle that they could participate in.

“Jade, do you think David will be in danger with so many people here?” Peach asked.

“I don’t know! But honestly, I can’t think of any other person who would be capable of facing almost 90% of Planet Gorgon’s young geniuses, along with four exceptional ones.” Jade shook her head.

“Are you saying David will lose?”

“Logically speaking, David doesn’t stand a chance at winning. He is indeed strong, and even my father praised him, but he is still too young. Of course, nothing is absolute. No one knows what David’s limits are! What if he can work miracles?”

“I believe he can,” said Peach confidently.

“Oh? Peach, you have a lot of faith in David,” Jade said, surprised.

Over the past three years, Jade and Peach had become good friends who would share everything.

During that time, Jade learned some information about David from Peach.

However, Jade still did not think David could survive against the four top geniuses of Planet Gorgon.

Not to mention, there were many other outstanding young geniuses ready to make a name for themselves in this battle.

“I just do,” Peach nodded.

“Can you tell me why?”

“No reason, it’s just a gut feeling.” “Okay! I hope David can prove you right,” Jade finished speaking and shifted her gaze to Fairy Eden in the distance.

Fairy Eden was the only woman among the four top geniuses of Planet Gorgon and served as a role model for all young women.

Jade’s goal had always been to surpass Fairy Eden.

Unfortunately, no matter how hard she tried to catch up, the gap between them only widened.

This greatly shocked Jade.

Fairy Eden and the others had made a pact to take down David first, and then to compete among each other for the title of number one on Planet Gorgon.

However, they were not able to decide who should make the first move, causing a prolonged disagreement.

Each of the four geniuses wanted to be the first to confront David, as it would give them a psychological advantage in the competition for the title.

Little did they know the kind of monster they were about to face.

Planet Gorgon was just a small living planet, and its strongest person had not even reached the Star Realm.

On the other hand, David was a true partial Heavenly Overlord.

The gap between them was unimaginably vast.

Inside Townlet Pescado, David sat cross-legged, his face showing pain as a flood of memories rushed into his mind.

After absorbing all the memories, he opened his eyes and a beam of light shone out from them.

His dormant mental power had been awakened, and he regained all his memories.

It turned out that he was not a native of Planet Gorgon, but was from Earth.

There were still people on Earth waiting for news about him.

David wanted to contact Celia and the others, but unfortunately, the communication device and his clothes were destroyed when he arrived on this planet. He had also lost his Space Stone, so he had to temporarily give up on that idea.

Instead, he activated the system.

(Body: Ancient Level 10 (You may upgrade one level using ten million lavish points)) [Mind: Heavenly Level 1 (You may upgrade using one million lavish points)] [Combat: Partial Heavenly Overlord (Rank)] [Lavish Points: 32,825,395] [Special skill: Cloning (Level 6)] After more than six years of accumulation, his lavish points had surpassed over 32 million.

This indicated that Beanie and Thor had been progressing well in The Spirit Cage.

With over 32 million lavish points, David could upgrade his Body and Mind to Heavenly Level 10.

By doing so, his combat power would surpass the Overlord Realm and take another half-step forward.

Although he would not be an Almighty, it would be enough to deal with Heavenly Overlord Lufian.

He would need time to break through to another realm but now would not be the right time for it. David planned to send the people outside away first and retrieve the Space Stone, as it contained items he needed. Only then would he focus on improving his strength.

Once he enhanced both his Body and Mind, it will be time for him to leave Planet Gorgon.
