I am a quadrillionaire chapter 2860-Sylvio, if you don't want to die now, just be quiet and wait for David and Elora to arrive. Otherwise, I don't mind killing you immediately! Don't think that I won't do it. Nothing matters to me anymore, including destroying Leila!"

As soon as he heard that Lufian wanted to destroy Leila, Sylvio became anxious and quickly tried to calm him down," Lufian, you can't do this. Leila is your hometown, the place where you were born and raised. You can't be so ungrateful to destroy your hometown!"

"Haha! The place I was born and raised? How ridiculous! If I hadn't been so tough, I might have been killed long ago!" Lufian sneered.

"No matter what, Lufian, Leila is always your hometown. You can just go to them if you have a grudge against someone! There is no need to involve other living beings."

"Sylvio, do you know who I hate the most?"

Lufian paused for a moment before speaking. After that, he gritted his teeth and said without waiting for Sylvio to answer.

'You! If you hadn't been covering for Elora and told me her whereabouts so I could find her, none of this would have happened. When Elora disappeared for the first time, you clearly found her but didn't say anything. It was your action that caused all of this! If Leila is destroyed, it will be your fault, Sylvio! You have to take full responsibility!"

After hearing what Lufian said out of anger, Sylvio stood there blankly and started recalling, 'If I told Lufian about Elora's whereabouts and he went to The Spirit Cage without giving her a chance to get along with David, would all this not happen?

'Did I make a mistake?' At this time, Sylvio had serious doubts about his actions.

However, a female voice interrupted at this moment.

“Sylvio, you don’t have to blame yourself. This is not your fault. It is all God’s arrangement. Don’t you think David is here to save us and Leila since he’s appearing at this moment?”

As Elora said that, she faced Lufian with Sylvio.

“Elora, you’re finally here.” Lufian put his fists together to forcefully suppress his anger that was about to get out of control.

“I’m here, Lufian, so come at me if you are dissatisfied.

Don’t make things hard for Sylvio. Did you forget who was the one who taught you the secret techniques? Sylvio is half of our master, so are you planning to kill your master?” Elora asked in a cold voice.

“Haha! Kill my master? What an unfair label, but yes, Elora, I want to kill him. So what? Not only do I want to do that, but I also want to destroy the entire Leila in front of you! I would like to see if David, who you claim will come to save you and Leila, will show up!” Lufian roared in anger.

After he said that, he opened his eyes.

His black hole-like eyes appeared before Sylvio and Elora.

They had never seen such eyes before, so they were startled. A deep terror rose from their chests.

Before they could speak, Lufian’s eyes shot out countless black beams that headed towards Leila at lightning speed.

Elora and Sylvio immediately felt their vitalities decreasing even faster.

Moreover, Lufian was absorbing their vitality.

‘He has the heaven-defying secret technique of absorbing the vitality of others?’ Sylvio thought as his eyes widened with an expression of disbelief.

He was not shocked when he learned that Lufian had broken through to Heavenly Emperor Rank.
