I am a quadrillionaire chapter 2882-The best result that Blaze and others could think of is to open a gap in the seal and send some young people out so that the Metaverse's bloodline could continue.

They never thought they could beat the Sky Demons; it was almost impossible.

The Sky Demons were so strong that only ten Metaverses at their peak could defeat them.

The current Metaverse should just forget about this.

"Hahaha! You? Do you know who we are? We have destroyed countless low level cosmic planes like yours, and you are the first one who dares to threaten us," the Super Sky Demons laughed.

The other Sky Demons also laughed.

"I'm not threatening you. Aren't you very strong physically? Let's see if you can recover the part of your body that my Evil -Splitting Sword chopped down."

David smiled slightly.

When he killed dozens of Sky Demons just now, he discovered that his Evil Splitting Sword seemed to have a very strong ability to restrain the Sky Demons.

Since it was deadly against Sky Demons, Super Sky Demons would be no exception.

The two Super Sky Demons were stunned when they heard this. Then, they noticed that there seemed to be a mysterious force preventing the recovery of the parts that were chopped off.

They tried all kinds of methods, but they could not escape this force.

At the same time, this force was also eroding their bodies.

What happened?

The Sky Demons had plundered many universes, and this was the first time they encountered a weapon that could restrain them.

The two Super Sky Demons panicked.

“What’s that sword in your hand?” The Super Sky Demon stared at the red long sword in David’s hand and asked.

“It’s called an Evil-Splitting Sword, and it’s made to fight evil. Coincidentally, you’re the evil it hates. How do you feel?”

“Even so, can you eradicate us with that sword? You’re so naive. You have no idea how strong...”

“That’s why I want to give it a try!”

David grinned. While holding the Evil-Splitting Sword, he instantly rushed the Sky Demons.

At the same time, he did not forget to announce, “Everyone, stay put for now! I want to show you how I avenge those martyrs who died at the hands of the Sky Demons!”

“You’re asking for it, you brat!” The Super Sky Demons roared.

They were furious that David was not taking them seriously.

“Everyone, watch out for that sword!” shouted another Super Sky Demon.

David swung his sword, and the red light flashed.

Even though the Sky Demons were prepared, several of them were still injured by the sword light.

“Ah!”

Screams echoed through the void.

“You *ashole!* You *bstard!*” The Super Sky Demons were furious.

Two Super Sky Demons and hundreds of ordinary Sky Demons surrounded David.

The Almightyes of the Metaverse looked at the battlefield with worried expressions.

“Blaze, what should we do? Should we just watch like this? David is the hope of our Metaverse.” “Just trust him. I always think that guy is not simple, so he must have some trump card!” Blaze replied.

Suddenly, a voice said, “Thank you for trusting me, Blaze!”

Everyone looked at the source of the voice with shocked expressions.

David had appeared among them at some point.

“David, what is going on?” Blaze also looked shocked.

He looked at David among them. Then he looked at the figure holding a red sword surrounded by Sky Demons.

How come there were two Davids?

“Just watch. I will explain to you later,” David smiled

I am a quadrillionaire chapter 2883-With David’s cautious character, he would not take risks himself.

If something went wrong, it would be too late for regrets.

Wouldn’t it be better to use a clone?

He could summon another if it got injured or died.

Moreover, it could also self-detonate to injure the enemy at critical moments.

So, right after the battle, he quietly summoned a clone.

The one holding the Evil-Splitting Sword was just a clone.

Meanwhile, his main form was watching this with the other Almightyes.

When Blaze and others heard David ask them to watch the show, they did not ask any questions and stared at the battlefield curiously.

They wondered, ‘Did this kid really just become an Almighty?’

'Moreover, that sword is not simple. It can actually restrain Sky Demons.' David's clone was facing the siege of countless Sky Demons and two Super Sky Demons. Then, he found the right moment and threw the Evil-Splitting Sword in his hand at one of the Sky Demons.

When the Sky Demon saw the Evil-Splitting Sword coming his way, he shook with fright.

They had already seen the power of the Evil-Splitting Sword, as evidenced by the dozens of Sky Demon corpses on the ground and the injuries of the two Super Sky Demons.

Once they got into contact with the sword, they would either die or be injured.

He wanted to escape, but the Evil-Splitting Sword was too fast, and it instantly pierced its body and came out of his back.

After it penetrated the Sky Demon's heart, a mysterious force surged inside him, preventing him from recovering while destroying his body. The Sky Demon who was stabbed by the Evil-Splitting Sword felt weak before his body collapsed involuntarily.

When one of the Sky Demons was seriously injured, the other Sky Demons were delighted because David's most threatening Evil-Splitting Sword was gone.

They would not be afraid of this human being now that he had lost his Evil Splitting Sword.

One by one, the Sky Demons tightened their encirclement and wanted to tear David into pieces.

The two Super Sky Demons had long wanted revenge, but due to the power of the Evil-Splitting Sword, they dared not get close.

Now that David did not have the Evil-Splitting Sword in his hands, they began to get closer to him.

Little did they know that there was a bigger trap waiting for them.

"Everyone, let's step back a little. I'll show you a firework show, and then I'll give you a big gift. I believe you will like it." David smiled slightly.

“Let’s listen to David and retreat!” Blaze ordered.

All the powerful Almightyies quickly retreated to a safe distance.

Boom!

Then, they heard a deafening noise. So, all of them covered their ears and stared blankly at the scene in front of them.

They saw an extremely terrifying explosion in the center of the battlefield.

All the Sky Demons were blown to pieces in this big explosion.

Even the two Super Sky Demons were no exception.

A powerful shockwave swept over them. Even though they were far away, the Almightyies were knocked back although they resisted it with all their strength.

If they were not in the extraterritorial battlefield but in the outside world, this explosion alone could destroy a level 9 civilization, and even the surrounding civilizations would be affected.

An Almighty’s self-detonation was no joke.

Besides, David was not just any ordinary Almighty.

What was that?

Blaze and the others were stunned.

Since the Metaverse was sealed, the Sky Demons had launched countless attacks. If they wanted to kill these extraterrestrial Sky Demons, they had to exchange their lives with theirs.
