

Married At First Sight Chapter 3368

Married At First Sight Chapter 3368-Marco quickly apologized, “Mom, I’m sorry; it’s my fault; I was just too straightforward.”

He sympathized with Holden.

He had seen Holden being humble in front of Clarissa since he was young.

Men empathize with men.

If his wife treated him the same way his mother treated his father, he would not be able to accept it.

“Help your sister more in the company; Kathryn is your real sister!”

Clarissa was too lazy to talk to Marco.

After saying this to Marco, Clarissa said, “If there’s nothing else, hang up the phone.”

Marco said, “Mom, I will. I will help Kathryn. There’s nothing else, mom. Go ahead.”

Clarissa hung up the phone.

Marco was relieved after his mother hung up the phone. He raised his hand to wipe the cold sweat oozing from his forehead. After impulsively accusing his mother just now, he broke out in a cold sweat.

It was so cold that he was sweating, which showed that he was scared enough.

Kathryn picked up the tissue and handed it to Marco.

Marco put down his phone, took the tissue handed to him by Kathryn, wiped the cold sweat, and said as he wiped, “I was scared to death just now; I don’t know how I dared to say it.”

Kathryn said, “Brother, you ate a lot of jars of food, so you got brave enough to say it.”

Marco glared at her and complained, “It’s all your fault. You were talking to mom on the phone; why did you hand me the phone? I’m scared of mom now, and seeing mom is like a mouse seeing a cat.”

Kathryn said, “Didn’t you ask when mom would be back? I didn’t know, and mom called, so it’s a good time for you to ask, so you will know the answer, and you don’t have to ask me. You are afraid of mom, but that’s because you made a mistake and did something that disappointed her. Not only is mom disappointed, but my sister-in-law is also extremely disappointed in you. You

ruined a good marriage by yourself. You men just can't control the rest of your lives. You don't want to live a good life, so you like to toss and turn, wanting to have your cake and eat it too."

Marco's face was dark. "Kathryn, I am your elder brother after all, dear elder brother; can you be more polite? You'd better find a man who can control your lower body in the future; otherwise, hehe..."

Marco didn't say anything else.

Kathryn said coldly, "If my man dares to betray me, I will dump him immediately, divorce him, and kick him out. Even if he is willing to castrate himself, I will not give him a chance! My marriage cannot tolerate any betrayal!"

Marco: "..."

As expected of the biological daughter of the Farrell family, she had the same character as Clarissa.

She was so cruel!

He began to sympathize with his future brother-in-law.

He didn't know which unlucky person would marry Kathryn, a cruel woman.

"You can only find a weak man." Marco said, "Weaker than our father, and more tolerant."

Kathryn's face was dark. She didn't like men like Holden.

"The blind date that Dad arranged for you last time is quite suitable for your status. Otherwise, I can help you arrange it again. You are not young anymore. When I was your age, your nephew was already a few years old."

Kathryn: "I don't like that kind of weak and incompetent man. I would rather be single than have a man like that."

She was not a mother. She wouldn't just invite a man to come home just to have a daughter.

"But you need a daughter as your successor; otherwise, you will adopt your niece as your daughter, and you can train her to be your successor in the future?"

Marco suddenly felt that this method was feasible.
