

Married At First Sight Chapter 3325

Married At First Sight Chapter 3325-Zachary said, "Seren, let's go back to Wildridge Manor and tell grandma. She should want to meet some elderly people."

People of the same era.

Grandma May was considered a thing in Wiltspoon at that time.

Those old people should also know about Grandma May.

Thinking of Serenity getting up early, Zachary changed his mind again. He said, "You go home and rest, and I'll go back to Wildridge Manor. If grandma wants to come over, I'll take grandma over."

Serenity said, "I'm not tired; I'll go back with you. I haven't been back for a while. I'll take Sonny back to stay for two days this weekend. I'll also tell my family that after the winter vacation next week, I'll take Sonny to Annenburg for a few days."

Zachary asked with concern, "Will it be very tiring? If you are tired, rest. Don't tire yourself."

Serenity stretched out her belly and patted it gently. "You think your baby is very big, but he is still very small and cannot tire me."

"Don't pat him. He might be sleeping and wake up if you pat him." Zachary said that and stretched out his hand to touch her belly.

At night, if he came back early after taking a rest in Sonny, he liked to lie next to his wife and stare at her belly.

He needed to touch it a few times from time to time. Sometimes, he felt that the baby was responding to him.

When he accompanied her for an NT examination, the doctor could see the baby when he put the probe on her belly.

He had to take out the test results every morning before going out.

The crystallization of his and Serenity's love.

Became a fetus.

Previously, it could only be called an embryo.

Only after it is formed can it be said to be a fetus.

He opened the car door and asked his wife to get in, and then he followed her.

After getting in the car, Serenity sat firmly and said, "He just sleeps a lot now. How old is he? Even after he was born, he slept a lot at the beginning and would reverse day and night. When I sleep, he doesn't sleep; if I don't sleep, he sleeps."

Zachary said, "Don't be afraid. If you are in confinement, I will take a month off and accompany you during confinement. I will take care of the baby. You just need to rest and take good care of yourself. I bought so many books related to pregnancy and how to be a good father. When the baby is born, I will apply what I have learned and see how well I learn.

I will sign up for new father training after the year. Seren, I can't replace you when it comes to pregnancy. I can only let you suffer alone. But after the baby is born, I can replace you and take good care of our child. If I arrange some work for Alex, I can feel more relaxed."

Before getting married, Zachary was the eldest brother, and he had a very big-brother style. He took the lead in all the heavy and tiring work so that his younger brothers could relax and live the carefree life they wanted.

He never complained or envied his brothers. Because he was the eldest brother.

Since he was a child, his elders had instilled in him the idea that he was the successor and head of the family and that he was better than his brothers in order to maintain the York family's business.

A family wanted to be prosperous for a long time. It was necessary to have excellent and qualified successors from generation to generation.

He was the successor, trained by the elders.

Knowing that he was going to take over, Zachary got used to it since he was a child.

This kind of life continued until he had a flash marriage with Serenity and fell in love with her. After that, his life and his thoughts changed drastically.
