

Married At First Sight

Married At First Sight Chapter 3333-The old lady smiled and said, “This is Audrey, that I know. She should be able to reclaim the matriarchal position if she wishes. What reason does she require? Even if Mr. Jimenez doesn’t have much evidence about your grandma’s death, he was the one who experienced it, and what he said is evidence. If your grandma wasn’t killed, why was Mr. Jimenez hunted down?”

The people who saved Mr. Jimenez were the old miracle doctors. Although they had retired from the world for decades, their legends were still circulating around the world. Coupled with Dr. Carden’s reputation, they returned to everyone’s world and aroused everyone’s emotions. Reflect on their past.

Their testimony demonstrates that Mr. Jimenez was apprehended and severely injured. Everyone will believe everything Mr. Jimenez says. Now, as long as Mr. Jimenez takes care of himself, it would be ideal if he could accompany you to confront Clarissa. If not, have him record a video, and then ask those old guys to join you on the trip. Testify: even if Clarissa refuses to admit it, others are still considering it.”

The old lady’s words suddenly enlightened Serenity.

Grandpa Jimenez was still a reliable witness, even though they had run out of other relevant evidence.

“Yes, we have a strong witness.” Serenity held the old lady’s arm and said, “Grandma, you’re still smart, and you have figured it out.”

The old lady said, “It’s not that I’m smart; it’s that you only care about Mr. Jimenez’s health and think about how to make Mr. Jimenez live a few more years. For a while, you didn’t think of the powerful witness of Mr. Jimenez. However, the miracle doctors are all witnesses. Those old guys are about the same age as Grandma. They are expected to live for at least ten years. They can serve as witnesses for you.

You don’t want to trouble Mr. Jimenez anymore. Mr. Jimenez is too old and not in good health, so let him record a video. With the old miracle doctor and the others accompanying him to testify, they can also prove Clarissa’s ruthlessness back then.

Mr. Jimenez is your grandma's assistant. Clarissa has no evil intentions. Why should she pursue Mr. Jimenez? And your aunt, Clarissa, has something to do with her death."

At this point, the old lady sighed and said, "Sometimes, a family's rules can kill people. If the head of the Farrell family is a capable and wise person, although there will be competition, at least others can see a little hope.

Clarissa's abilities are not bad. Your grandma is not in good health, and your aunt and your mother were young at the time. If Clarissa hadn't taken action, maybe your grandma would have done something good."

The old lady sighed again.

The feuds between big families decades ago were even more intense.

"Family rules are important, but character is also important."

Serenity said, "People will change with the environment."

The old lady was silent and then said, "That's right."

"When will you two return to the city?"

The old lady changed the topic, pulled Serenity to look up and down, then looked at Zachary, frowned, and said, "Zachary Is my vision poor? I believe you have gained weight; why is that? Conversely, you didn't put on weight, but your lower abdomen did protrude a little, giving the impression that you are pregnant. Haha.."

Zachary: "..."

He looked completely helpless.

Grandma's eyesight is bad! She even said Zachary had gained weight.

Tania had something to say: "Mom, I said that Zack has gained weight, but he still doesn't admit it and is not convinced. He says that every time he comes back, I tell him that he has gained weight. Zack, look, I am not the only one saying that about you; your grandma also says you've gained weight."

Zachary: "..."

Serenity couldn't help laughing again. She laughed and said, "Grandma, it's okay. It's because you haven't seen us for a while that you think one of us is fat and the other is thin. That's because Grandma thinks I'm thin. My mom thinks I'm losing weight, but in fact, I'm not.

Zachary is not fat, either. He maintains his weight very well. Grandma, please stop hitting him. Seeing how hopeless he is, I have to suspect that you don't love him anymore."

The old lady chuckled. "Really, then I'm really blind and didn't see it."
