

# No 1 Supreme Warrior

Chapter 3709

Violet wanted so badly to rush and see what was inside Violet City.

Violet City was a level-two city, so there was something unique about it. Even if Violet could not gain any profits from the city, it was good to experience things and expand his horizons.

Anne raised an eyebrow and looked at Violet, about to say something when a red glow suddenly appeared from his hand.

He looked down and noticed that the words ‘Capture Hall’ suddenly appeared on the badge that had nothing on it.

What was the Capture Hall?

Amid his confusion, a faint red light suddenly came from the badge, pointing toward the north. Anne immediately understood that the badge was leading him to the Capture Hall.

Could the badge be of use there?

Bokir and Violet looked over curiously as well.

Anne raised an eyebrow and said, “To the Capture Hall!”

The Vibrant Hall was within Violet City. All of the challenges in the various cities had their special names. It was possible the Capture Hall was not far away from the Vibrant Hall.

The three of them followed the badge and arrived outside a massive palace. The palace was at least 10 kilometers in diameter. It was so tall that the roof touched the skies. The whole palace was like a small mountain that stood in front of everyone.

The large palace had a plaque in the middle that said ‘Capture Hall’, and many excited people gathered in its perimeters.

No matter if they were leaving or entering, their expressions were full of excitement. That was a very familiar expression to Alder.

He regularly saw it in the level-six and level-four cities. When Anne walked toward the Capture Hall, he could clearly hear all the discussions around him.

“Another failure?! This is already the second group. Why is the purple-feathered beast so hard to deal with?! I think we’ll need another three groups to kill it!”

“That might not be true. The purple feathered beast is one of the strongest beasts I’ve seen today. A beast that’s almost at that level appeared before this, and even ten groups weren’t able to deal with it. In the end, Seymour was the one who killed it!”

“Seymour? Well, I’m not surprised! Only someone as ridiculously strong as him would be able to deal with such a strong beast. However, I heard that even Seymour only managed to get five Life Points?”

“That’s right! He did get five Life Points, but what’s with that tone? What do you mean, only? Five Life Points is already a lot, okay? Do you think they’re worthless? He had to work hard to get those points!”

Anne was no stranger to Seymour’s name. He had heard it being mentioned before.

Seymour was the strongest warrior from second-grade worlds. He was very famous, much more so in the higher-level cities. Anne felt like he would need to face Seymour eventually. You are reading on virtual novel dot com. After all, Seymour was from a second-grade world, the natural enemies of third-grade worlds. When there were profits at stake, they would definitely not hold back.

However, Anne was not worried at all.

Both Bokir and Violet seemed very interested in the discussions.

Even though they did not know what the purple-feathered beast or what Life Points were, they knew that it was related to the Capture Hall. From all the discussions, they could see that the Capture Hall was not a place regular warriors like them could challenge.

Only someone as strong as Anne would be able to challenge it. Even though they could not participate, it was not a bad idea to entertain themselves here.

The two of them estimated that there would still be some time until the Vibrant Hall opened. They would have nothing to do until then, so they might as well entertain themselves.
