Chapter 21

Lilac felt her heart was beating against her ears when she followed the warrior to the main hall. She knew this warrior, though they were not close, but she could feel how he tried to be sympathized with her.

“Lilac, I only want to give you a gentle reminder,” the warrior said in small voice. “Aiden is very furious with you and he wanted to banish you from the pack, so you better choose your words carefully when you face him,” he said before he opened the door to the main hall.

“Thank you, Mille, Iris said in gentle tone, grateful he told her about this, though Hunter had reminded her earlier about what Aiden tried to do, but knowing this warrior cared for her enough to tell her, warmed her heart slightly.

They were not as careless as she thought.

“Good luck,” the warrior named Mille said and Lilac gave him a small smile before she stepped into the main hall and immediately she could feel the tension that rose in the air.

People were staring at her, at the very least, there were a dozen of them, including all the other five alpha and luna from different pack, aside from alpha James and Luna Jasmine.

And of course, Aiden was there with Ruby at the other side of the room, the pregnant woman was so quiet, as she watched Lilac walked across the room.

“I want her to be banished from the pack!” Aiden roared once Lilac was standing next to him, he looked at her furiously, as if she had murdered his family. This was the man, who had stolen her first kiss under the moonlight, while telling her how much he loved her and how he couldn’t live without her, but right now, he wanted to throw her out of the pack and making her a rogue.

How could there was someone like him? He changed so much in the span of a year and now Lilac was not sure this was the same man, who had exchanged letter with her in the past year, writing about how much he missed her and how the battle was way easier than his inner battle to meet with her.

What a bullshit he was spewing..

“She has tarnished our pack’s name!” Aiden roared again when he didn’t get the reaction he wanted. He thought, Lilac would fall to her knees and cry, begging him not to throw her out of the pack, but the lack of reaction from her only made Aiden furious even more.

“How can I tarnish our pack’s name?” Lilac asked this time, her voice was so soft and her tone was even, as if she didn’t have any emotions regarding this matter before her eyes.

“You still ask?!” Aiden was so mad, his eyes flashed with rage, as if he was going to kill someone at this point. “You have slept with the alpha lycan!” He couldn’t stop himself, he showed Lilac how much he was disgusted by her

Hearing that, all the alphas and the lunas inside the room frowned, because they felt it was a little bit unfair for Aiden to say something like that when the woman, who was not his mate, was carrying his own child.

However, just like how the norm had been formed that a woman would have the disadvantage in this case, when Aiden had made a grief mistake by impregnating another woman, they couldn’t raise their complain because he was the future alpha and they could only feel bad for Lilac.

However, if the situation was reversed, Lilac would have been condemned for having any intimacy with some other man that was not her mate, the hypocrisy was very thick in this case.

Just like what happened right now, though they felt it was unfair for Aiden to talk about Lilac’s affair in the public like this and purposefully humiliated her, but none of them stood up for Lilac, because they didn’t want to have a beef with the future leader of the pack.

Lilac was no one, they wouldn’t meet her again once she stepped down from her status as Aiden’s mate, but Aiden was different, he would be the future alpha of the pack once his father retired.

Therefore, they could only watch when Aiden ashamed Lilac for what she had done.

“I want her to be banished from the pack. She has tarnished this pack’s good name!” Aiden said with vigor, as he didn’t look ashamed at all for what he was doing right now.

On the other hand, luna Jasmine and alpha James looked like they were not completely on their child’s side.

This time, it was alpha James, who shifted his attention at Lilac. The woman looked so calm and unperturbed by the awful accusation from Aiden and somehow, luna Jasmine felt so proud of her.

After all, it was her, who had taught Lilac to be like this. Now, she had done a great job to keep her

composure.

“Is what Aiden said true?” alpha James asked Lilac patiently. He liked this child and thought of her as his own daughter, especially after a year they were together. He felt like she was a daughter that he never had, not to mention how well behaved Lilac was.

And right now, all Lilac needed to do was to deny it and alpha James would take care of the rest. He knew Aiden was only being impulsive right now and he would deal with him later.

But, who would have thought that Lilac would admit it.

“Yes, I slept in the mansion, where the lycan have been staying.” Lilac said calmly and a wave of shock rippled in the air, as the gasping sound echoed throughout the wall. “I was drunk and the only thing I remember was when luna Jasmine took me to one of the empty rooms.”

Chapter 22

Aiden felt the anger that surge within his body when he watched how Lilac readily answered every

question honestly. She didn’t even try to deny it, neither she tried to save herself by begging, pleading with him not to throw her out of the pack.

Why she acted tough? She didn't have anyone aside from this pack, what she could do if she was really banished from the pack?

Deep down, Aiden didn't really want to banish her, he only wanted to scare her and let her have a taste of some punishment, so she could keep her act together, but more so because he felt this anger within his chest when he learned that she had been sleeping in someone else's bed. God forbade what he was going to do if he learned they were doing something inappropriate,

"Did you sleep with him?" Alpha James asked, his voice darkened a little bit. He narrowed his eyes.

"I don't know. I slept throughout the night because I was so drunk. More so, I thought I was inside the room that Luna Jasmine took me in, but then I saw Alpha Hunter once I woke up."

Lilac didn't even tremble when she told them about all of this.

"You know what kind of damage that you have done for your action, right?" Alpha James looked like he was trying so hard to keep his temper in check, because he didn't want to escalate things further than this. He had not yet decided what he had to believe and what to do.

Of course, banishment was out of the table. He wouldn't banish Lilac over something like this, especially after what his son had done to her.

"Why didn't you take her to her bedroom, Jasmine?" Alpha James asked his mate and Luna Jasmine startled a little when she answered that, she regained her composure quickly,

"I didn't think much about it," Luna Jasmine said. "I only want her to rest quickly and the room was so close." The answer was smooth, as if she was genuine with what she was saying and none of them asked further about her motive.

"I thank Luna Jasmine for looking after me," Lilac said sincerely, but Luna Jasmine looked uneasy when she said she didn't need to mention it.

"We need to call Alpha Hunter to clear things up, Alpha James said sternly. "We need to know why you ended up with him, since you can't remember anything about last night,"

Lilac could see how alpha James was trying to be just, but she was too exhausted and spent to waste her time here for this ridiculous accusation. She couldn't care less about it. More so, it was none of Aiden's business anymore with whom she was sleeping with.

"I don't think this is necessary," Lilac said in small voice, but what she said attracted attention from all the people, especially Aiden, who was standing right beside her.

"What do you mean it's not necessary? Don't you want to clear your name?" luna Jasmine asked in confusion.

"Why should I clear my name when I didn't do anything wrong?" Lilac could feel her grievances resurfaced and the more she spent her time close to Aiden, the more she couldn't stop herself from being

so upset.

Before, his letter alone could bring comfort toward her, but right now, the sight of him alone had drained Lilac's energy.

"What do you mean you didn't do anything wrong when you were sleeping with another man when you have a mate already?! You tarnish our pack's good name!" Aiden barked angrily at Lilac.

However, just like before, Lilac didn't really listen to him, as she stared at him straight into his soul, while speaking in gentle voice.

"What about you, who had impregnated woman that is not your mate?" Lilac asked casually.

Aiden wanted to humiliate her in front of so many people and wanted to put her down, devalued her, but she wouldn't go down alone.

"LILAC!" Aiden screamed on the top of his lungs dangerously.

And before anyone could react, a harsh slap landed on Lilac's face, which caused her to fall to the ground. while clutching her cheek. No one saw this coming, including Aiden. He didn't mean to slap her, but he lost his temper a little there and did something that he had never done before.

Hitting a woman was not something that could make you proud of yourself, especially toward your mate.

“Li–lilac.. are you, okay? I didn’t mean too... I was so angry.

There, Aiden didn’t even apologize for what he had done. Not only he didn’t take the accountability of his action, but also he didn’t have the decency to apologize first. It seemed this particular word would be something that one never heard from his mouth.

“Are you, okay?” Aiden saw how red Lilac’s cheek was, but her eyes set with fire, as she glared viciously at Aiden

The force of Aiden’s slap, sent Lilac to the ground.

This was the first time for Aiden to receive such hostility from Lilac. It was a surprise because this young woman used to talk with hirm with respect and love in her eyes, but right now, those beautiful eyes were so dimmed.

Right at that moment, Hunter walked into the main hall, he strode with his beta beside him. “I don’t know there is another meeting again here,”

“This is none of your concern!” Aiden was fuming to see Hunter was there.

“Shouldn’t I be here because of what happened and the groundless thing that you have accused Lilac, involved me.” Hunter walked toward Lilac and helped her to get up on her feet, under dozen pair of eyes...

However, ignoring Hunter’s presence, Lilac spoke in small voice, but it was enough for all of them to hear what she was going to say.

“I reject you as my mate,” Lilac said clearly.

Chapter 23

“I reject you as my mate.” Lilac said clearly. Her voice rang inside the main hall, followed by a loud gasp from people around them. She stared at Aiden when she felt the snap of the mate bond between them.

The pain was staggering, as she fell to her knees and breathed heavily, while Aiden took a step back, clutching his chest, as she felt the same pain that Lilac tried to endure right now.

“No..” Aiden muttered the word in disbelief when he watched Lilac’s face contorted in pain. He didn’t mean to push her this far, he didn’t mean for her to reject him. He only wanted to scare her, so she would know she had nowhere to go.

Why she didn’t plea and ask for forgiveness for what she had done and why she took things too far?

Aiden didn’t expect the rejection. He expected for her to beg and plea with him, to save her life because she had no one aside from him and this pack...

“No... Lilac... I don’t...” Aiden clutched his chest tightly, as he was having a hard time to breath, he felt the mate bond snap and this feeling would linger for a few days before it really disappeared and there was nothing that could tie them down.

On the other hand, Lilac’s rejection took Hunter by surprised as well, because not so long ago, she was still having a doubt to reject Aiden. Whatever was in her mind to reconsider the rejection must have vanished the moment Aiden landed a harsh slap on her cheek

However, he was also the first person, who snapped back to the reality and carried Lilac in his arms because she was in so much pain to be able to stand on her own feet.

The sight agitated Aiden even more, as he growled at Hunter to put her down.

“Put her down! PUT HER DOWN!” Aiden roared, he was about to approach Hunter, staggering on his feet, as he was still trying to hold back the almost unbearable pain.

But right at that time, alpha James came to stop his son. He knew the fight would break loose the moment Aiden got his hand on Hunter and with his current condition, there was no way his son would be able to tackle down the alpha lycan.

More so, it would ruin the purpose of the meeting. It would trigger another war with different reason and the peace treaty they had earned in so much difficulty with a lot of blood and lives would go to the drain if

another war broke

Alpha James couldn't let that to happen, especially when the cause of it was because Aiden's impulsiveness.

"HOW DARE YOU TO TOUCH MY MATE?!" Aiden was enraged with jealousy, the pain only made it hard for him to think straight, as he wanted to make Lilac took back what she had said. This woman had gone too far! "HOW DARE YOU TO TOUCH MY MATE!"

With that, Hunter turned around and Aiden could see how Lilac rested her head against his chest, while closing her eyes, her face contorted in pain, as her breathing became shallow.

However, what Aiden saw was how Lilac was being too close with the other man and he couldn't accept that.

She was his mate and no one should touch her that way, aside from him. They were too close and the sight

Chapter 23

of them right now only made his blood boiled with anger. Aiden didn't even care with his father's warning to keep it down and cut it out.

"Mate?" Hunter repeated the way Aiden claimed Lilac, he used a mocking tone when he spoke and this didn't go well with Aiden. "I thought you don't understand it, but as far as I know, less than ten minutes ago, she has rejected you as her mate. Don't you think the cause of the pain you have to endure right now is the valid evidence that you are no longer able to call her as your mate, because you are not."

Hunter didn't even falter when he criticized Aiden. He didn't hold himself back and alpha James narrowed his eyes at him.

"Alpha Hunter, I think you don't need to be nasty about it. This is our internal problem, you shouldn't be here in the first place, alpha James said sternly.

Yet, Hunter simply chuckled when he heard that and then looked around him to the other five alphas and lunas that presence there, his gesture was very clear.

“It’s so funny when you said this is your internal problem when all the alphas and lunas are here, except from me. I thought, we have united and will work together in the future, but with your statement, why I feel like I was being left alone? Does the peace treaty hold any meaning for you?”

Hearing that question, alpha James couldn’t retort, so did the rest of the alpha, because they didn’t know what the right word to say.

And when they thought alpha Hunter would be petty enough to bring alpha James’s mishap with his statement, actually the alpha lycan turned around and continued to walk, as if there was nothing happened. He literally took away Lilac under her mate’s nose, or he could say it was her ex mate.

Once Hunter had taken Lilac away, Aiden broke down, he roared on the top of his lungs, the pain and anger mixed together and it was not a good combination to say the least.

Meanwhile, Hunter decided to take Lilac to her own bedroom, because he had caused so much trouble. and stir the situation into a murky water. He couldn’t provoke them more than this.

“I will return to take you with me, just wait for me, okay?” Hunter said, as he leaned over to kiss Lilac’s lips, which startled her.

Belong to the Lycan Alpha by Jikanyotomare Chapter 24

Chapter 24

“What Are you doing?!” Lilac immediately pushed Hunter away from her, but she was too weak due to the pain of the rejection that she did, but thankfully, the alpha lycan gave her space. It was actually not a kiss, but a simple peck.

Still, it was not appropriate for someone like him to do such thing. If Lilac was Aiden’s mate and their relationship was a smooth sailing, what Hunter had done would cause a great dispute between two packs.

This could be the reason the peace treaty could be broken. This thing was so fragile, especially when things were still so tensed up among the alphas and the war between them was still very recent.

There were so many casualties from all the packs.

“I am sorry, I can’t hold back my impulse,” Hunter said, he licked his lips, feeling the taste of Lilac that still lingered there.

It surprised him as well to act so recklessly, because he couldn’t hold back his happiness to see she finally rejected that scumbag.

“Do you have the same impulse with every woman you met?” Lilac wanted to be more angry than this, but then to get mad needed a lot of energy, which currently she didn’t have. Therefore, she could only settle with a vicious glare at this alpha lycan before her eyes. “Get out from my room!”

“Alright, alright. I will see you again soon,” Hunter said lightly, as he raised both of his arms, in surrender gesture. He really didn’t have the quality to be the leader of the pack with his casual nature and easy going personality like this.

“I don’t want to see you again,” Lilac hissed, but Hunter didn’t answer her, as he walked out of her bedroom. yet she had this feeling the alpha lycan would appear in front of her sooner or later.

Currently, Lilac didn’t want to think about that, because she needed to rest, the pain was so extreme, she felt like someone just twisted a rusty knife against her chest.

She knew it would be painful, but there was nothing could prepare her for this agony.

Lilac remembered the disbelieve in Aiden’s eyes and how the pain hit him so hard, but he still could withstand it.

Of course, he was a warrior after all, this kind of pain must be bearable for him. He could endure it just fine.

And with that, Lilac fell sick for three days straight, in which Aria came to visit her and check on her condition. Luna Jasmine also came to see her, but

because most of the time Lilac would be sleeping, there was not much that she could do or say to her.

“Let me know if she woke up and fit enough to be in the presence of other people,” luna Jasmine instructed Aria. She told her to stay by Lilac’s side and she was free from her duty as the omega of the pack, because her main focus right now was to nurse Lilac back to her health.

Meanwhile, Aiden were being scolded harshly by alpha James to cause this trouble,

I only want her to understand where she was standing in this pack! She shouldn’t have ignored and avoided me in the first place, especially to sleep in another man place! This is not any random man! This

ago was our s sworn enemy! We can say this as an act of a betrayal!”

is the man that not so long ago

Aiden was very furious because he was not allowed to meet with Lilac. He wanted to know her condition and he wanted to make sure that fucking lycan stayed away from her,

He still could feel the pain, but because his body was built differently, it was still bearable, more so, the feeling still lingered, which meant, it still could be fixed. They could work on it and fix it only if Lilac wanted it.

And Aiden was sure, if he got a chance to talk with her, he could convince her to take back the rejection.

About Ruby... he would think of another plan for her once the baby was born.

“And then what?! Get her killed?! That’s what you want?!” Alpha James roared angrily and luna Jasmine immediately came to his side to calm him down. “Can you be more senseless than this?! You have caused so much trouble when you created a ruckus in the main hall!”

If before it was only a rumor, now every single soul would know how unfaithful the future alpha of this pack was, since he had impregnated another woman, who was not his mate and wanted to banish his own mate out of the pack.

If there was someone, who had ruined the pack's good name, it must be Aiden.

"I didn't mean to banish her, I only want to teach her a lesson, so she will stop ignoring me! She should know her place!" Aiden was so stubborn. No one ever had ignored him in his entire life. How could his own mate do that to him?

"You become so dense because of this! Go back to your training, so you can clear your mind!" Alpha James commanded his son, he didn't say it as a father, but as an alpha, thus Aiden couldn't reject that.

More so, his mother gave a sign for him to oblige, this was not the right time for him to be so stubborn and go against his father's order

Still not satisfied, Aiden walked out of the study room and went to the training ground, while Luna Jasmine tried to calm down her mate.

"Why do you look exceptionally upset right now?" Luna Jasmine asked, as she massaged Alpha James's shoulder.

"You can tell"

"Of course, I have known you for over two decades.

Alpha James sighed and closed his eyes. "Alpha Hunter asked for Lilac, as a symbol of peace."

Belong to the Lycan Alpha by Jikanyotomare Chapter 25

Chapter 25

"What do

you mean he asked for Lilac for a symbol of peace! She is a person, not a thing." Luna Jasmine didn't look pleased at all when she heard about that. She had disliked the alpha lycan ever since she laid her eyes on him.

In her eyes, that kind of attitude and how laid back he was, made it hard for everyone to give him respect. He looked so easy going.

At the very least, his father was an ambitious alpha, who knew what he wanted and what he needed to do to achieve his goal, but Hunter was the opposite.

He looked like someone, who didn't take anything seriously. It was a good thing. Aiden managed to kill his father, because it looked like, it was easier to deal with Hunter.

However, luna Jasmine made a huge mistake to think that way.

"What do you mean a symbol of peace?" Luna Jasmine demanded her mate to elaborate further what he meant with that because her guts feeling told her this was not something she would like.

"Jasmine, I know you really fond of Lilac, but you need to be more logical here. This is a pack matter, you can't get your personal feeling involved in this decision." Alpha James turned his chair and faced his mate's unhappy expression.

"I didn't say anything, I only want to know what do you mean that alpha Hunter wanted Lilac as a symbol of peace? I have never heard that term before," luna Jasmine retorted, but her expression saw her inner thought

It was not that luna Jasmine didn't have any idea about it, though she had never heard such term, she must have figured out what it meant, since she was very shrewd, but she was in denial that Aiden couldn't end up together with Lilac

"Alpha Hunter used that term to soften the meaning. He wanted Lilac to be a hostage in his pack, if I have to put it bluntly." Alpha James sighed deeply when he watched how dark his mate's expression had turned.

"What do you mean she became a hostage? Did he ask the other five pack to do the same thing? Did he ask the other pack to hand over their women?" The crease between luna Jasmine's brows deepened when she heard such unpleasant explanation. She had figured it out, but the fact her suspicion was proven right. didn't make her happy at all.

"No. He didn't ask the other pack to hand over their woman. He only asked for our pack to give Lilac." Alpha James used to tell everything to luna Jasmine and her words held so much value for the alpha in making a decision

Even though alpha James would be the decision maker, but luna Jasmine's involvement had a big role in the decision,

In that case, why he asked for us?"

"He said, because the battle between the lycan and the werewolf, which our side involved six packs in it, he only wanted one representative and he wanted it from our pack." Alpha James frowned deeply. He also found this suspicious that alpha Hunter specifically only asked for his pack.

We can send another girl. There is no need to be Lilac for that,"

However, alpha James shook his head, if the problem could be solved easily, he wouldn't have had a headache right now, knowing his mate would react like this. "He specifically wanted Lilac."

"Why?!" Luna Jasmine was almost hysterical when she heard that. She was against this idea. "Why he only wanted Lilac?"

"Alpha Hunter didn't give a specific explanation. He only asked for her because she was the only person he knew in this pack."

"We can introduce him to someone else, there is no need for Lilac to go to the other pack," luna Jasmine said adamantly. She would fight for Lilac to stay in this pack and find a way to make Lilac accepted Aiden

back.

However, alpha James shook his head again. "You don't understand, Jasmine. Alpha Hunter only wanted to stir trouble. You can see now that he didn't care about the woman and you know, he didn't really need someone to be a hostage in his pack. This idea just came up all of sudden because of the ruckus that Aiden raised in the main hall."

Luna Jasmine didn't talk back this time, she was deep in thought. "He only wanted to upset Aiden in a way to take his mate, right? He still has vendetta with the fact Aiden had killed his father."

"Yes." James nodded. "That's what me and the other five alphas suspected. He only wanted to create inconvenient for Aiden. This is his way to get his revenge after the peace treaty."

“No way..” Juna Jasmine was in disbelief. “That’s such a lame excuse. There is no way someone like the lycan would do something to that extent.” Luna Jasmine took a step back, but her eyes still lingered on her mate’s. “What about the other alphas? What they said about this matter?”

If the other alphas complained, there was a huge chance that Luna Jasmine could turn the table to her favor and Lilac didn’t need to go to the lycan pack.

“The other alphas had agreed with the decision.”

Of course, they were agreed!

“Yes.

“What?!”

Actually, this was not a shocking news, Luna Jasmine must have anticipated it if she was not too emotional.

“They don’t lose anything, Jasmine if we hand over Lilac to Hunter, as she will represent the whole six pack if she came with alpha Hunter and live in his pack.” Alpha James then added grimly. “Not to mention what Aiden had done. They thought it’s a win win situation, where Aiden wanted to banish Lilac and alpha Hunter wanted to take the woman as a symbol of a peace treaty between our packs.”

Belong to the Lycan Alpha by Jikanyotomare Chapter 26

Chapter 26

Luna Jasmine felt so agitated when she heard what her mate said, the alpha of the lycan pack really made the best out of the situation to get Lilac for his OWIL

Luna Jasmine couldn’t think another reason why the alpha would do such thing and was very adamant to take Lilac back to his pack, aside from; he wanted to rub it on Aiden’s face that he could take his mate away from him, this was some kind of a sick revenge for the fact that Aiden had killed the previous alpha lycan, who was no other than Hunter’s father and now he wanted to take away his destined mate.

“I don’t agree with that decision.” Luna Jasmine had taken so much care and was very meticulous when she took Lilac under her tutelage, now she had turned into the perfect luna she wanted and also a perfect mate for her son.

She liked Lilac so much, especially when she was very obedient. She was sure, she could change Lilac’s mind for taking back her rejection and waited for Aiden a little bit longer, but Lilac’s condition was not really great at this moment, since she spent her time to sleep a whole day and night. It was hard to hold a conversation with Lilac when her mind was not presence for any discussion.

“This is not u to you, Jasmine, James said in tired tone. He had expected the rejection from Jasmine because she would be so adamant to keep Lilac by her side. “If we don’t agree with alpha Hunter’s suggestion, we will risk our good relationship with the other five alphas, because we don’t want to give up someone as insignificant as Lilac for a greater purpose. To keep the realm in peace.”

“Lilac is not someone insignificant. She is our son’s mate. They supposed to be together and I have taught her a lot of things for this past year. If you agreed for that barbaric lycan to take her away, all of my effort in this past year would go to the drain. I don’t want that.”

James sighed again when he heard the argumentation. “You heard it yourself that our son wanted to banish her out of the pack.”

“You know that Aiden was not serious with what he was saying in the main hall. He let his impulse to get the best of him and now he knew better.

“Yes, but the problem is not as simple as that. If you failed to remember, I will remind you that Lilac had rejected Alden, which technically, she is no longer his destined mate.”

“There was a misunderstanding there!” Luna Jasmine was almost hysterical and she stomped her feet, as a

displeased she was at this moment, a habit that she had every time things didn’t go the way gesture of she wanted. “I will talk to Lilac and ask her how to take it back. She is not in her right mind when she rejected Aiden.”

Alpha James kept shaking his head. "We need to hand over Lilac to alpha Hunter," he said that without any room for discussion. "Or, we need to face the five alphas and ruined the good relationship between us."

That's not an option at all,

Just in case the peace treaty failed, no matter how much effort they put into this matter at this moment and if another war broke loose, of course, the deep connection between the six alphas would come into a testament and how well they worked together, just like right now.

It wouldn't bring any good for alpha James's Golden Claw pack if he had a strain relationship with the other five alphas because of this matter or if the peace treaty failed because he refused to hand Lilac over to alpha Hunter.

Chapter 26

"We can't do that," Juna Jasmine was still in denial, even though she knew very well her mate's position in this matter and how serious the consequences of not fulfilling alpha Hunter's request. "What alpha Hunter will give us in return?"

GIVE

"He will us all the prison war that his father had imprisoned for the year we were in dispute. There must be one hundred twenty eight people." Alpha James shook his head. "He will hand over all those people and he only demanded one person. It's hard to refuse. The other five alphas will raise hell if I refused this."

Luna Jasmine shook her head. She had underestimated the alpha lycan and thought he was only a jokester. There was no way all of this was a coincidence, he strike right at the great moment, rendering the with no way to retreat or to dodge the demand.

"Lilac is our son's mate."

"Yes. She was. What Aiden had done in the main hall was really stupid, because all the alphas used that to let go of Lilac." Alpha James shook his head again. He looked so tired. "How could he become so clueless and dense when he is so gallant in the battlefield?"

Aiden had been praised for his achievement to kill the previous alpha lycan, which ended the war, but in this matter, his son was very immature.

“Lilac will return to the lycan pack along with the alpha lycan and his entourage three days from now.” It had been decided and there was no room for negotiation.

“How are you feeling?” Hunter asked, he had his palm against Lilac’s forehead, as he knelt down beside her bed. He stared at the woman ever so gently, while the moonlight framed on the window behind his back.

Probably Lilac was still dreaming, but at this time, Hunter looked so radiance under the pale light of the

moon

“What are you doing here?” Lilac frowned. She wanted to push him away and scream, but she didn’t have the strength to do so.

“To see you, of course!

Chapter 27

If this was a nightmare, Lilac wished for someone to wake her up, since she didn’t want to dream about this man, especially when she didn’t have the energy to entertain him.

“What do you want?” Lilac asked tiredly, she wanted to close her eyes, but she needed to stay vigilant, just in case this man was about to do something inappropriate again with her.

She

really couldn’t understand what was in his mind. This was not something an alpha should do, he didn’t even try to keep his image and appearance at all, as he did whatever he liked without thinking what other might think of him.

Something that no alpha should do, at the very least, that was what Lilac learned from luna Jasmine. The alpha and the luna were the face of their pack, thus they needed to be aware of how people perceived

them.

Yet, here he was. Hunter didn't care much about such thing. He was so free and careless and probably there was this small part of Lilac that envied him for that.

"Get out of my bedroom, you are trespassing..." Lilac tried her hard to look so fierce, but she couldn't muster the energy. The pain of rejection took a toll on her and she wondered how Aiden cope up with this.

However, from what she heard, it didn't really affect him, since he still led the training for the warrior. It was really not fair. Why it always her, who got the brunt?

"Don't be so hostile with me, I came here to bring you this," Hunter said, he didn't take it to heart with the way the weak woman before his eyes treated him. He fished out something from his pocket and showed it

to her.

It was a small bottle that contain red liquid.

"Poison?" Lilac said with hostility. This was the man, who had kissed her without permission, so her guess was not out of the blue, it was still within the range of how random this alpha used to act.

However, Hunter pursed his lips when he heard such random guess. "If I want to kill you, do you think I need to make it less painful by using poison, in this state, you will not be able to fight me." Hunter touched his chin, as if he was thinking about it. You will not stand a chance to fight me even in your great day."

That was true. What a scrawny woman like Lilac could do to this alpha lycan?

"What is that?" Lilac asked, she didn't want to talk with him, but she found herself couldn't help, but engaging in conversation with him.

Hearing the normal question, Hunter's eyes lit up. "This is a tonic. This can help to regain your vitality!" he said enthusiastically

"Pass" Lilar must be a fool if she drank the tonic from him. This man had proven to her that he couldn't be trusted.

“Don’t be so mean. I really made an effort to come and visit you, don’t you think it’s 100 much to reject my kind gesture to this extent? Hunter didn’t look offended, even though he tried to look defensive for Lilac’s refusal, but it was not enough for him to back down.

Then, you shouldn’t have come in the first place.”

“Is this how you repay someone’s kindness?”

Lilac narrowed her eyes, she really wanted to sleep because the pain was still overbearing and she was not sure how long she would be in so much pain. She wanted this to be over.

Luna Jasmine told her that the pain could stop if she took back her rejection and accepted Aiden again, but she was too stubborn to do so and she didn’t want to give another chance to that man.

“No. This is how I used to react to someone, who kissed me without permission.” Lilac wanted her words. to be sounded so sarcastic, but she didn’t have the energy for that, thus she could only settle for this annoying look

e was an

Still, Hunter didn’t look so bother. His main goal was for Lilac to get better and he accepted that he ass for kissing her without permission. “Come on, you will not be in pain soon if you take this.”

Lilac narrowed her eyes, she didn’t like to be forced to do something, but even so, her determination started to falter.

“How do I know if that’s a tonic and not a poison?” Lilac finally cracked, but Hunter rolled his eyes when he heard that

“I told you. if I want to kill someone, I will go for physical pain, not using poison. This method is too girly for me.

Lilac really wanted to roll her eyes in response, just like how he rolled his eyes earlier, but instead, she widened her eyes when he saw Hunter drank some of the tonic..

“You can see now. I am still alive.” Hunter showed that the tonic had decreased slightly.

“Drink more,” Lilac said, she had not yet convinced with what Hunter showed to her.

“You are really a pain in the ass,” Hunter grumbled. “If I drink it more, the effect will not really helpful with you.”

“Drink more,” Lilac insisted and Hunter obliged, because from the look of it, this woman wouldn’t drink anything if he didn’t do as per her request.

In the end, Hunter drank half of the tonic and helped Lilac to drink the rest. He carefully cradled her head so she wouldn’t choke.

“See? You are still alive,” Hunter said in cheerful tone. “Now, I need to go, I hope to see you soon.”

However, before Lilac could say that she didn’t want to see him again, Hunter had leaned over and her forehead and then he left as soon as possible before Lilac could yell at him for kissing her w permission again.

What Hunter said was right and the tonic worked wonder on her, because in the next morning Lilac woke up. she could feel the pain eased a little bit and she could breathe easily

The pain was still there, but it was more bearable and more like discomfort feeling rather than the actual pain.

However, the first thing that she heard when she woke up was the commotion outside of her bedroom and this made her frowned.

“What is going on?” Lilac muttered to herself, her body was still weak because she had to endure the paint for days, which caused her unable to eat properly, but aside from this discomfort, she was fine.

Lilac then heard the voice that she didn't want to hear at all. It was Aiden and from the sound of it, he was having an altercation right in front of her bedroom. Nasty words were thrown and this startled her a little bit because she had never heard Aiden was swearing like a rogue

What was going on? Lilac was curious and her curiosity got the best of her, as she heard the other person didn't put up a fight and try to calm Aiden down.

Once she opened the door, she saw Aiden was seething at Roland, he was the warrior of the pack and Lilac was clueless why the two of them were here.

-What is going on here?" Lilac asked to the two stunned men before her eyes.

"Lilac! You are awake!" Aiden exclaimed, his expression looked relief, though Lilac didn't show the same emotions as him when she saw her ex mate.

The mate bond between them was so faint, she almost couldn't feel it, thus she felt a little bit confused why Aiden was still trying to meet with her, since the bond between them was barely there.

"Move away, Roland!" Aiden growled at the warrior. "I will not be polite if you still stand on my way." That was a threat and Lilac just knew Aiden liked to threaten the other people to get his way.

"Aiden, this is a direct order from the alpha, I can't allow you to meet with her." Roland then glanced at Iris. "You better come inside and spent some time there. I will take care of this

Actually, Lilac was fine and was even more grateful because Roland wanted to deal with Aiden, since she didn't have the capacity to do so right now, but she was still curious about what was going on.

Yet in the end, she decided that her curiosity was not worth and she didn't really want to know what actually had transpired. Her head was aching now.

"Okay," Lilac said, but when she turned around and was about to close the door when Aiden suddenly dashed forward and grabbed her hand, while Roland tried to prevent him by doing so, as he put his hand

on his shoulder.

Both men glared at each other, neither of them wanted to back down and Lilac was trapped in the middle. of it

She was in predicament, because if one of them decided to break into a fight, she would be the one, who would take the advantage, since it was pretty clear, being in a close range within their fight would put her in danger.

“I don’t want to talk with you, Aiden. There is nothing to talk about,” Lilac said, she hoped Aiden would let go of her hand because right now she could feel how painful it could be when his grip tightened around

her wrist.

“Lilac!” Aiden shouted at her viciously. “You can’t just reject me without saying anything!”

It was actually pretty funny when Lilac heard that. “You wanted to banish me from the pack, remember? she threw that fact to his face and now Aiden was at lost for words because he really did that

“I can explain that, there is no need to throw away our bond like this!”

“So, it’s fine for you to throw me out of the pack?”

Once again, Aiden was at lost for words, as he opened his mouth and closed it again, without being able to think of a way to retort what Lilac said.

“Wow! I don’t know you can snap back like that!”

The three of them turned their heads around and found Hunter had been watching this dispute, nobody knew how long he had been there, because they were too tensed to realize there was someone else had been staring at them.

“What the fuck are you doing here?” Aiden roared, he completely turned his body around to face Hunter, but he didn’t let go of Lilac’s hand, which made her grimaced in pain, because without Aiden realized it, he had twisted her wrist.

The sight of Lilac was in pain turned Hunter’s eyes slightly darker.

“Let go of her hand,” Hunter said, his easy-going nature and his playful side disappeared, as his voice and expression darkened.

“Why?” Aiden growled. He heard what Hunter had asked for in exchange of all the prisons war and all of them thought it was a small price to be paid, but of course, Aiden didn’t think the same. Lilac was his mate, he still thought of her as one, there was no way he would let her out of the pack in exchange to those people. He couldn’t care less about them!

“Because you hurt her,” Hunter said in a matter of fact tone. He approached the three of them and Roland could feel the situation would escalate further.

“Alpha Hunter, may I know why do you come here?” Roland asked politely, but his whole body stiffened the closer this alpha was to them.

“I will take her back with me today.”

“Bullshit! She will not go anywhere! She will stay here!” Aiden roared angrily and his grip on Lilac tightened even more.

Lilac was simply clueless about what was going on and she didn’t have any idea why Aiden was looking for her and was so angry right now.

But she knew a simple fact that this situation wouldn’t end up in good note if Aiden and Hunter entangled into an unnecessary fight.

“Alpha Hunter, please back down. It’s still not decided yet whether Lilac will go with you or not, you are still a guest here,” Roland said politely..

Even though earlier he was having an altercation with Aiden, but against the outsider, he would choose to side with his pack member all over again and this was understandable.

“Don’t be so sure, warrior,” Hunter said darkly, his eyes never left Lilac’s hand that was held by Aiden and this irked the man even more. He felt so attacked by the audacity of the alpha lycan showed to his mate. “You can ask your alpha now what the decision that has been made?”

“What decision?” Finally, Lilac spoke up, she tried to struggle from Aiden’s clutch, but she didn’t have the strength to do so.

She just recovered from the pain recently, thanked to the tonic that Hunter gave to her. She needed to remind herself that she needed to thank the alpha for that, even though she was reluctant to admit it.

“You are not going anywhere, Lilac,” Aiden said with stern voice.

It was rich when the words came from him, since he was the one, who wanted to banish her from the pack a few days ago.

Though Lilac managed not to say something sarcastic, but Hunter was so free to laugh at his face for his audacity to say such thing.

Of course, it didn't help with the current situation.

“Mutt, you wanted to banish her a few days ago. Was being rejected turned you senile?” Hunter mocked. Aiden openly and that was the time when the latter saw red and rushed toward the alpha lycan in his beast

form.

Of course, Hunter had predicted this and was ready with this reaction, as he shifted into his lycan's form

The distance between them was not too far, thus the collision happened almost instantly and Roland immediately pushed Lilac into the room and slammed the door, so she wouldn't get the impact of it before he himself shifted into his beast.

It was a high risk that he had to take to throw himself between the two beasts that tried to tear each other

apart.

Inside the bedroom, Lilac was stunned to see a lycan beast for the first time, because she just realized how huge and fearsome that creature was.

The lycan had bigger size than a normal werewolf beast, even an alpha of the werewolf was not a comparison for the lycan in their beast form.

No wonder, even after six packs joined hand together, they still had a hard time to beat down the lycan

Chapter 29

pack, as they could literally fight more than two werewolves at the same time.

Lilac felt worry for Aiden and Roland, but she was too scared to go out. The lycan's beast was so different. from the wolf beast, as they looked more vicious and feral

Thankfully, it didn't take long before Lilac heard the commotion outside grew louder, which meant there were a few people came and tried to deescalate the situation.

Lilac pressed her ears against the door and tried to hear their conversation after alpha James managed to make the two beasts shifted back to their human form.

"Take Roland to see a healer!" He ordered someone furiously and then more commotion happened.

Out of curiosity, thinking the situation was no longer dangerous for her, she opened the door slightly and through the crack, she could see a few people. But, the first thing that she noticed was a thick smell of blood in the air.

The fight happened only less than a minute, but there were so many blood that had been spilled.

Most of it must have come from Roland, since the alpha told someone to take him to see the healer. And the next question in Lilac's mind was; how much Alden and Hunter hurt? She couldn't see the two of them because luna Jasmine's figure stood right in front of her door, thus she couldn't see the entire situation without opening her bedroom door widely and stepped out.

However, Lilac was reluctant to do so, she didn't want to get involved in this mess.

Yet, her curiosity got the best of her and she opened the door slightly wider, while alpha James asked in harsh tone about what was actually going on and why the fight could happen.

Sensing the door behind her was opened, luna Jasmine turned around and saw Lilac.

"Lilac!" luna Jasmine called her named loudly, which drew attention from the people there.

Aside from the four of them, there were another four warriors that came and two alphas, all of them were surrounded Hunter and Aiden.

Lilac's eyes

yes grew wider when she saw the injuries that Aiden sustain, he looked.. beaten up and he avoided her eyes, as if he was too ashamed for her to see him in such state

However, in contrary, Hunter only got a few scratches on his cheek, which now started to heal. Aside from that, there was nothing serious and he was perfectly fine after fighting two werewolves at the same time.

“Lilac, come here, let's talk inside your room,” luna Jasmine immediately tugged Lilac into the bedroom and closed the door behind her.

But, before that, Lilac's eyes met with Hunter's and the alpha lycan actually winked at her playfully. He was

insane!

“What is going on?” Lilac asked with confusion because luna Jasmine looked so worn out, as if she didn't have enough sleep last night.

“Lilac, I want to tell you about an unpleasant news.”

“Lilac, I want to tell you about an unpleasant news. Luna Jasmine felt so bitter. It was her, who had taught Lilac everything that she knew today and all the mannerism that she needed to have as the future luna of the pack, but then everything went to the drain when this alpha lycan came and wanted to take her away.

How could she take that? lilac was a perfect daughter in law for her and she had learned how to be a good Juna for the pack and a perfect mate for Aiden.

And now, she had to let her go and wasted everything she had worked on when that nasty alpha lycan took her away.

“What is it, mother? I mean, luna Jasmine,” Lilac asked. She used to call luna Jasmine as her mother, since she didn’t have one, neither she knew who was her mother, but she should stop to call her that, because she was no longer Aiden’s mate and luna Jasmine would never be her mother.

On the other hand, luna Jasmine felt this pang in her heart when she heard that and this made Lilac felt so bad to see the sadness in her eyes. She felt so tired and forgot about everything that happened. Even though she was no longer in pain, but it didn’t mean, she had regained her strength to deal with this madness.

Especially to what Juna Jasmine was going to tell her.

However, before luna Jasmine could say anything, someone had banged the door and asked Lilac to come out, which startled them.

“Lilac! We need to talk!” Aiden refused to leave before he talked with his mate. He adamantly rejected the fact she would be taken away under his nose. “I didn’t mean to banish you from the pack! You need to listen to me!” Aiden shouted from behind the door and they could hear how alpha James tried to calm his son down.

“What is it? What is going on?” Lilac felt something was completely wrong with this whole situation. Why the people kept saying she would go somewhere?
“What happened, luna Jasmine?”

Aside from Aiden and alpha James’s voices, they could hear alpha Hunter talked something in the background, but they couldn’t figure out what he said, only it sounded like a mocking, which only ser

Aiden more off.

“Lilac, I know this must be shocked you, but you should know that I have done everything in my power to prevent this from happening”

Lilac felt frustrated because luna Jasmine didn’t talk straight to the point and this made her felt even more anxious with the way she talked to her.

“What is it? She felt like she wanted to shake her body, so she could get the answer out of her mouth right

away.

Lilac, alpha Hunter asked for you,” luna Jasmine finally said it, after she sighed deeply. “He wants you to come to his pack, as a symbol of a peace treaty between us. In exchange, he will release all the prison wars.”

“What?!” Lilac was dumbstruck, this was the last thing she needed when she felt slightly better after the tonic Hunter gave to her last night, never in her wildest dream she would imagine something like this thight happen to her. “What he wanted!”

Luna Jasmine immediately grabbed both of her hands and lowered her voice when she spoke again. “Don’t worry, Lilac. I have figured out a way for you to stay. Or at least, you will return to the pack soon.”

Lilac’s mind was still reeling with the fact that Hunter wanted to take her away. How could he strike such deal with the other alpha?

But then, she immediately remembered luna Jasmine said, she would be an exchange of those prison wars. Of course, no one would object such deal.

She was no one now when she rejected Aiden, thus she held no value compared to those prison wars. How many of them? Hundreds

“What... what is it?” Lilac stammered when she saw how determined luna Jasmine was, she looked like she was going to fight head and tail to keep her in this pack.

Honestly, Lilac was not sure what to think of right now and the only question in her mind was; why Hunter was adamant to take her with him? She didn’t have any use for him, even if he managed to get her to his pack.

What else she could do there?

“I know you will be shocked,” luna Jasmine said in warning tone. “But, please, listen to me first, okay?”

“O–okay...” Lilac was slightly worried to see how serious luna Jasmine was right now. What she was going to tell her?

“There is a way for you to be in this pack... and that’s could happen if you... conceived Aiden’s child.” Luna Jasmine held her breath in the end of her words and Lilac immediately pulled her hands away from her grip.

“Luna Jasmine! How can you say something like that?!” What kind of plan was that?! Lilac was flabbergasted to hear such thing came out of her mouth. She respected her so much, but how could she suggest something so degrading like that? “have rejected Aiden, luna, there is no way I will have an intimacy with him and conceived his child.”

The thought of being pregnant at the same time like Ruby made her sick, she literally wanted to vomit.

“Lilac, this is the only way for you to stay here in the pack. Do you really want to go to the lycan pack? You have no one there,” luna Jasmine said with urgency, as she grabbed her hands again. “You need to understand the importance of this.

“Luna Jasmine... I don’t think I can do that... That’s too much.” Lilac was dreadful to even imagine it. “Even so, I can’t miraculously pregnant within a day.”
