

## The Mans Decree Chapter 2389 -

The phantoms were also ignoring Kai's presence as if he wasn't there. Kai was dumbfounded. Why can't I attack those phantoms here? After a few more tries, Kai eventually gave up.

With Dragonslayer Sword in his grip, Kai walked mindlessly around the area surrounded by mountains. As he was walking, the skeletons on the ground exuded wave after wave of icy aura. What exactly happened here? How did so many people die here? Shortly after, Kai stumbled upon a giant skeleton, and he couldn't help but gasp in astonishment.

The skeleton was over ten meters high, and it was still completely intact. However, it was a strange sight because not only was the skeleton in a kneeling position, but its bones were also shiny and crystal clear. Besides, it was exuding an intense wave of aura.

Again, Kai was baffled. Judging by the size of this person's skeleton, he seemed to have been a lot bigger than Hadad. Other than that, they look the same! Even the bones are crystal clear! Still, I've never seen this giant before. Although the skeleton is in a kneeling position, I still have to lift my head to look at it!

As Kai was scanning the skeleton, he noticed that there was a crystal clear arrow in the skull. If I hadn't taken a close look at it, I would've missed it!

Kai then slowly floated into the air to get closer to the skull. Right then, he noticed that the arrow was only a few inches long. The arrow is in between the brows! Hence, the owner of this skeleton was most probably killed by this arrow!

Curious, Kai reached out his hand toward the arrow. He wanted to pull it out to see if it was a magical item. Right before he could touch the arrow, Kai suddenly felt a sense of danger. In the next moment, the arrow shone brightly and unleashed a wave of intense aura to send him flying backward.

Kai was flung a few dozen meters away before crashing onto the ground violently. Upon impact, Kai felt his internal organs churning and spat out a mouthful of blood.

Obviously, Kai's body was incredibly strong at that time, and he had Golem Body activated. By right, not even a Martial Arts Sovereign could cause an injury of that severity to him. Yet, the arrow almost killed Kai with its aura.

After getting injured, Kai took a deep breath and stared at the arrow. If it's capable of unleashing such an intense wave of aura, it's definitely something extraordinary. It might be a magical arrow!

At that thought, Kai used his spiritual energy. to unleash waves of aura to resist the overwhelming pressure the arrow was exuding. Again, he tried to approach the arrow. I need to take it out to have a good look at it!

The moment Kai got closer to it, he was sent flying away once again by an enormous wave of aura. Kai tried a few more times after that, and it was clear that he couldn't get close to the arrow.

Even when Kai was unleashing the Power of Dragons, he still failed to get close to it. Evidently, the aura the arrow was exuding was a lot more intense than Kai's spiritual energy and the Power of Dragons.

After several attempts, Kai's face was as pale as a sheet, and blood was streaming down the corners of his lips. "F\*ck! How am I not strong enough to retrieve the arrow? I refuse to accept this!" Kai was seeing red.

When Kai tried again, he suddenly noticed that Ultimate Force in his body was shining brightly. Seeing that, Kai quickly unleashed his Ultimate Force. As soon as he did that, the arrow in the skull shone brightly as well. In fact, it even started to vibrate.

"Can Ultimate Force control the arrow?" Kai unleashed his Ultimate Force continuously and made his way toward the arrow.

## **The Mans Decree Chapter 2390 -**

True enough, the arrow was no longer exuding the strong wave of aura. However, right when Kai was about to grab the arrow, it started to vibrate even more violently all of a sudden. A second after that, it flew out of the skull and flew away.

The skeleton crumbled to the ground right after the arrow dislodged itself. "You're not getting away!" Kai ignored the crumbling skeleton and went after the arrow.

Like a ray of light, the arrow flew toward one of the highest peaks in the area, and Kai just kept chasing after it. When the arrow arrived at the peak, it suddenly lost its speed. Therefore, Kai quickly grabbed it.

The arrow was so cold that Kai almost let go of it as soon as he caught it. It's crystal clear and cold. It's as if the arrow is made of ice! "It seems like there's nothing special about this arrow." Apart from the icy touch, Kai didn't find anything special about it.

Kai then tried to infuse it with his Ultimate Force, but the arrow remained the same. Just as Kai was feeling puzzled, the ground suddenly shook, and he heard a series of beastly roars echo through the air.

Kai instantly looked down from the mountain and saw an army of phantoms. One of the phantoms was a dozen meters tall. Right away, he knew the giant skeleton from moments earlier belonged to the tall phantom.

In the face of the ferocious and roaring phantoms, Kai couldn't help but shudder. Just now, the atmosphere in the area was peaceful. Why did they all become startled?

Confused, Kai looked up into the sky. He was stupefied when he saw that the black hole in the sky had disappeared. The phantoms have nowhere to go! No wonder they all became violent! Wait... What should I do now? Where should I go? If the black hole is gone, how am I supposed to go back?

Needless to say, Kai found himself in a tight spot. Will I be trapped here forever? This is a deserted place I don't even know where this is! As Kai stood there, unsure of what to do, the phantoms started climbing up the mountain.

Seeing that the phantoms were about to attack him, Kai kept the arrow and pulled out. Dragonslayer Sword. I'll fight these phantoms to my death!

Right before the phantoms arrived at the peak, a glaring ray of light shot out. In the blink of an eye, the phantoms on the mountain vanished into thin air. The other phantoms on the ground saw that and halted in their tracks.

Kai looked at the source of luminosity and saw a bow embedded in a stone wall, with only a small part of the bow exposed. That bow emitted that glaring ray of light!

With that in mind, Kai rushed toward it and freed the bow with Dragonslayer Sword. Shortly after, the entire bow was exposed. An exquisite bow emitting bursts of golden light appeared before Kai's eyes, and he reached out to grab it. A buzzing sound rang out from the bow after Kai grabbed it. At the same time, his Ultimate Force started churning from within.

Although Kai didn't know what grade of weapon the bow was, he knew it was an impressive weapon. An ordinary weapon isn't capable of emitting golden rays of light and unleashing an aura as strong as this!

Kai scrutinized the bow and quickly saw two words on the grip. The words read: Divine Bow. "Huh? Is this weapon called Divine Bow?" Kai fell in love with Divine Bow instantly.
