

Married At First Sight Chapter 2963

Married At First Sight Chapter 2963-Tania didn't close the door. She said, "I was in a bad mood, but I'm fine now."

"Mom, what happened?" Serenity asked with concern.

Tania asked her first, "Do you want to drink water?"

Serenity said, "No, thank you, Mom."

Tania came over, pulled Serenity to sit down on the sofa, and said, "It's not a big deal. I just had to argue with your dad about Tatum. I got so angry that I ran away from home."

Serenity: "That means my dad doesn't know you came here?"

Tania was a little embarrassed now. She said, "I haven't told him yet, and I asked Sam not to say it yet. I want to calm down."

"My dad will be worried to death. Mom, what happened to Tatum?"

Serenity asked with concern. Then she said to Tania, "Mom, you should send a message to dad first and tell him that you are with us, so that dad will not look for you everywhere."

Tania pursed her lips and said, "I've been here for a few hours, but he hasn't come over. Maybe he's not worried about me at all."

After a pause, she added in a low voice, "But I went out secretly. He didn't know that I went out. Maybe he thought I locked myself in the room."

Otherwise, with how much Liam cares about her, it would be impossible not to look for her.

However, Tania could send a message to Liam, telling him that she was with Zachary.

Liam sent her a lot of messages, which she read but did not reply to.

After seeing that Tania sent a message to Liam, Serenity asked curiously, "What's wrong with Tatum?"

"Seren, I told you before that Tatum likes cooking. He now wants to be a chef. Personally, I don't agree with it, but your dad backs him up and lets him do what he wants."

All the young masters of the York family could cook.

Grandma May cultivated this. She required her grandchildren to all have the ability to be independent. Even without the protection of the family, they could still support themselves.

Everyone was versatile. If the family company went bankrupt one day, they could still survive based on their abilities.

Kevin was a good cook, but the sixth young master of the York family, Tatum York, was the one who liked cooking the most. He was Zachary's biological brother and Serenity's biological brother-in-law.

Serenity smiled and said, "Mom, you and dad even quarreled over this matter."

Tania said, "It's not really a quarrel; it's just a disagreement and a few arguments. You also know that the men in their family dote on their wives. He has lavished me with attention for many years. If a united front is used against me, I will get angry."

As Tania spoke, she blushed and felt that she was being a little pretentious.

Serenity said, "Mom, I think what Dad said is right. Let Tatum do whatever he wants. His career is already stable. It's good to let him do something he likes."

There are nine young masters in the York family, and the three young masters in front of them were the eldest in each house who carried the heavy burden.

Who called them the boss?

The boss took the lead.

Starting with the Fourth Young Master, Evan York, if he didn't join the family company and help manage the family business, he would start his own business with a sum of money.

Tatum not only helped take care of the family business but also started his own business. He liked cooking, but his business was not in the catering business. Maybe this was a bit disappointing for her.

Married At First Sight Chapter 2964-ow that Tatum wants to be a chef and show off his cooking skills, Serenity thinks it's okay.

The Sixth Young Master, Tatum, was an adult. What he wanted to do must be carefully considered. The York family had never acted impulsively.

Tania didn't want Tatum to be a chef, maybe because she felt that being a chef would make her embarrassed.

No matter how she put it, Tatum was the sixth young master of the York family.

"Mom, where does Tatum want to work?" Serenity asked curiously after persuading her mother-in-law.

Which restaurant or hotel attracted her brother-in-law, Tatum, to go to work?

Tania said: “He doesn’t go to work in a big hotel; he goes to work as a home cook for others, and he has to go out to the market, not in our Wiltspoon Hotel.”

Serenity’s beautiful eyes twinkled as she asked Tania, “Mom, could it be that the person grandma picked for Tatum was in need of a cook, so Tatum took the opportunity to get close to her? Who did grandma pick for Tatum? Mom, do you know?”

Tania was stunned for a moment and said, “I really don’t know about this. I only know that she has chosen people for Evan and Elian, and she thought that she would not consider Tatum and River first.”

Tatum had just been brought into social interaction. He would definitely not choose a wife for him too quickly.

However, Tatum had been in the business world for a few years, and he just kept a low profile because he was Zachary’s biological brother. As long as others know that he is Zachary’s biological brother, they will look down upon him. If he makes achievements, others will also look down upon him. They would think that he was relying on his brother’s blessing.

Therefore, Tatum did not want to bear the halo of Zachary, so he kept a very low profile. When discussing business with others, he would not say that he was Zachary’s biological brother and even said that he had nothing to do with the York Corporation.

His own business indeed had nothing to do with the York Corporation, not even business dealings.

He had Zachary, his elder brother. As the middle child, he was also under a lot of pressure. It was easy for others to compare him with Zachary.

“When grandma comes back, I’ll check what grandma has to say.”

Serenity had the best relationship with Grandma May.

She was where she was today thanks to Grandma May’s efforts in bringing her and Zachary together.

Grandma May loved Zachary the most. She also loved Serenity, the eldest granddaughter-in-law, the most.

When she was choosing wives for her other grandchildren, she paid special attention to character. She was afraid that the other granddaughter-in-law would not have good character, would not get along with her, and would dislike her for coming from a rural background.

It would make her suffer.

Grandma May really loved Serenity.

Serenity was willing to tell Grandma May if she had any concerns.

“Where is your grandma?”

From the moment Grandma May started arranging Zachary’s marriage, Tania completely let go of his sons’ life events.

Let Grandma worry about it if she wanted to cause trouble. So she wouldn’t just sit around at home and stare at her daughters-in-law when she was bored; she made plans to do something.

They were afraid that Grandma May’s claws would fall on their heads.

It was better for the elderly to torment their grandchildren than to torment them.

Anyway, Grandma May loved her grandson the most, and no matter how hard she went, she would not hurt her grandson. The most important thing was that all those br*ts were loyal to Grandma May and listened to her words the most.

Because Tania could safely leave her son’s life matters to Grandma May to worry about, she really didn’t know whether Grandma May had chosen a wife for Tatum.

Tania said, “Grandma is going to meet an old friend. She is away from home all day.”

Serenity’s words contained tolerance and pampering for Grandma May. She smiled and said, “Grandma will come back if she misses us, or if Zachary and I have a conflict, she will come back immediately like a gust of wind.”
