

Read I am a quadrillionaire chapter 2606

I am a quadrillionaire chapter 2606-Sylvio thought for a while and said, "Lufian has already achieved Heavenly Overlord Rank. When I entered The Spirit Cage, he should be taking action on the Robotias and the Soul Devourers to destroy them as a means of avenging you. I don't know the situation now."

"What? Lufian achieved Heavenly Overlord Rank? When did it happen?" Elora was taken aback.

The first thing she thought of was not revenge, but David's safety.

How could Elora not understand how Lufian felt about her?

If he found out that Elora was with a man in The Spirit Cage, one could imagine the consequences.

With her understanding of Lufian, that man appeared outwardly generous and refined, but in reality, he was exceedingly narrow-minded when it came to relationships.

Once he found out about David, David would definitely lose his life.

Naturally, even ordinary individuals could be possessive in matters of relationships.

However, Lufian was different.

He had another violent personality in his body and that was the biggest uncertain factor.

If Heavenly Overlord Lufian went berserk, who could stop him?

"After you failed to restore your body, Lufian felt that he was incompetent and failed to protect you, so he forcibly tried to break through to Heavenly Overlord Rank, but failed. At that time, the violent personality in his body stepped forward to bewitch Lufian into fusing their dual souls. Right now, Lufian has not only become a Heavenly Overlord but also has dual souls. In other words, if anything goes even slightly wrong for him, he may go berserk at any time," Sylvio added.

When Elora heard this, she was stunned on the spot and her mind went blank.

Lufian fused his dual souls and became a Heavenly Overlord for her.

At the same time, he also became so emotional that he would easily lose his mind.

What should they do?

After Sylvio saw Elora's expression, he told her another major news.

"After Lufian became a Heavenly Overlord, he came to me and wanted to know your whereabouts. I didn't dare to let him come to The Spirit Cage as he might run into David, so I didn't tell him. As a result, he almost killed me."

"What? Sylvio, you... You were almost killed by Lufian? He... How dare he! You are our teacher!" Elora's eyes widened with disbelief.

"Elora, it's not like you haven't seen Lufian go berserk. After he goes berserk, he won't recognize anyone at all. Besides, I am not as important as you in his heart. Leila as a whole is not as important as a single hair of yours in Lufian's heart." Sylvio smiled bitterly.

"How could this happen? How could this happen?" Elora muttered to herself.

She knew everything Sylvio said was true.

Deep down, she could not accept this happening.

"Elora, you should know in your heart that the only thing Lufian cares about is you. After he wipes out the Soul Devourers and the Robotias, he will turn the entire Leila upside down if he can't find you, which will certainly cause a horrible situation and a lot of casualties for the living creatures in Leila. No one could stop him as well."

"Sylvio, t-tell me, w-what should I do?" Elora turned to look at Sylvio, her eyes filled with hurt.

Right now, she was at a complete loss after hearing what Sylvio said.

She completely lost the calmness that an Overlord should have.

“Elora, tell me honestly, if you were asked to stay with Lufian to prevent him from going berserk, would you be willing to do so?” Sylvio asked seriously.

Elora gritted her teeth and did not answer.

After a moment, she stubbornly shook her head and made herself clear.

She only had David in her heart, so of course, she would not want to be with Lufian.

Emotions were often so mystical.

If she did not like someone, she would still not like them even after they were super nice to her.

Hundreds of epochs of companionship and pursuit were not as good as a few years of getting along with others.

This was God’s will.

“Gosh.”

Sylvio sighed.

He knew this would be the result.

He had already thought of it before coming.

Only the variable David could surprise everyone.
