

Read I am a quadrillionaire chapter 2638

I am a quadrillionaire chapter 2638-Checking the messages one by one, he found that most of them were from Celia and the others. A few were from Evie.

Only with the help of the system could David receive messages from all over the universe.

He could receive all messages whether they were from Celia and others on Earth, or Elven Princess Evie on Leila.

Moreover, the messages he sent back could be sent to the destination as soon as possible.

This was the power of the system.

It made absolutely no sense, just as how David's strength had improved.

How did the system manage to upgrade an ordinary person to partial Heavenly Overlord Rank in just a few decades?

It was unfathomable!

Even the host David was confused about the system.

He only knew that it came from a relic of the God Tier Civilization.

As for where the ruins of the God Tier Civilization were from, no one knew.

David, from another timeline, encountered it by mistake.

When he tried searching for it again by memory, the ruins of the God Tier Civilization had completely disappeared.

It was as if it appeared out of thin air.

Celia and others sent messages of concern and greetings.

For example, they inquired whether he had arrived safely, if there was any danger during his journey, or if he was accustomed to traveling.

David responded one by one.

He asked them not to worry, explaining that he was fine, though he hadn't reached Leila yet. He assured them he should be there soon and mentioned that he was tracking his progress along the way.

He also added that, in the future, after everyone had reached Eternal Realm, he would take everyone on a trip.

After replying to Celia and the others, David started to reply to Elven Princess Evie.

She asked David when he would arrive at the Elven Forest.

When he arrived, he should contact her so that she could take David around the Elven Forest.

The Elven Forest was one of the most scenic places on Five Continent.

Since the southern area was a wood attribute area and was full of wood attribute energy, the vegetation there would grow very nicely.

It would be dozens of times thicker than other places.

When everything was done, David turned on the system.

[Body: Ancient level 10 (You may upgrade one level using 10 million lavish points)]

[Mind: Heavenly level 10 (You may upgrade using 1 million lavish points)]

[Combat: Partial Heavenly Overlord]

[Lavish points: 2868524]

[Special skill: Cloning (level 6)]

David was quite satisfied with the increase in lavish points.

In more than half a year, it had risen to more than 2 million and was close to 3 million.

Although it was not as fast as before, that kind of opportunity was rare.

Now that Amber City had returned to calm, David was very satisfied that it could still rise so much.

At this rate, it would only take two or three years for it to reach 10 million.

When his Body reached Heavenly Level 1, in combination with his 81 Level 6 clones, Heavenly Overlord Lufian, whom Sylvio mentioned, would no longer be a concern.

At that time, he would not be evenly matched with Lufian, but instead, he could completely crush him.

David figured that it had been more than half a year, so he should go to The Spirit Cage to see Thor and Beanie.

The two of them were working hard to help him earn lavish points, so he, the absent master, should go and encourage them.

David felt that since he had nearly reached Leila, he should meet the two of them in reality as well. After all, they had helped him a lot.

I am a quadrillionaire chapter 2639-David found a relatively secluded place in the forest beside the public road. He casually arranged an array to hide his body and then entered The Spirit Cage through the system.

In fact, with his current Ancient level 10 Body, even if he did not set up an array, no one could harm him even if he was discovered.

This was only Level 4 civilization Boundless Galaxy's Planet Brechen. Even the top powerhouses in the Boundless Galaxy could not do anything to David's body.

The strongest person in a level 4 civilization was nothing but an Eternal.

They had not even reached Saint Realm.

So, how could they harm an Overlord's body?

Those two were not on the same level at all.

An Eternal trying to destroy an Overlord's body would be like an egg in a rock fight.

It was just like cutting a superalloy with a piece of paper. No matter what they did, they would not damage it in the slightest.

David set up the array because he did not want to be discovered.

Inside Jumbo Court in Amber City.

David, Thor, and Beanie sat together.

Since David caused a huge sensation when he killed Perry and Fabiola, the entire Amber City knew that the boss behind Jumbo Court was untouchable.

Naturally, no one dared to trouble Jumbo Court.

Therefore, there was no problem that he needed to deal with.

“Thor, Beanie, I entered The Spirit Cage this time to check what your needs are but, in addition, I also want to consult with you two on something,” David said casually, taking a sip of tea.

“Master David, we’re all ears,” Thor and Beanie replied at the same time.

David put down the teacup in his hand and looked at both of them. “You have been following me for a long time, you have helped me a lot and solved a lot of troubles for me. To be honest, I am very grateful to you two,” he said seriously.

Those were words from the bottom of his heart.

Thor and Beanie did help him very much.

If it were not for the two, he might not have reached where he is now.

David was very grateful.

So, he would not be stingy toward the people who helped him.

“Master David, please don’t say that! I am just doing what I should. If it weren’t for Master David, I, Thor Rivers, would still be making a living in a small place like Sole. How could I have gained so much experience and gotten the opportunity to realize my own value? I should be the one to thank you.” Thor stood up quickly.

“Thor is right! Master David, you brought us out, allowed us to see the majesty and prosperity of the eight main cities of The Spirit Cage, and also allowed us to realize our own value. It is us who should say thank you.” Beanie followed suit.

“Okay, okay! Let’s sit and talk. I’m just saying what I feel casually.” David motioned for the two of them to sit down.

Thor and Beanie looked at each other and sat down slowly. They instinctively felt that something was wrong with Master David today.

Master David had never said this before.

To them, being able to follow Master David was the greatest blessing in their lives.

He dared to go against the two top families, the Campbell and Marche families, and kill their direct descendants. In the end, he was still left unscathed.

Could anyone get close to such a person?

David spoke again, “You also know that The Spirit Cage is a virtual world after all. It is just a place for everyone to train their soul power. After I’ve dealt with my business here, my

focus will be the real world. At that time, you have two choices. You can continue to help me in the real world, or I can give you enough resources and benefits. After that, it’s up to you if you want to return to your family or develop on your own.”

David said what was in his heart.

What he meant by dealing with his business here was raising both his Body and Mind to Heavenly level 10.

Then, it would be time for him to evacuate The Spirit Cage.

According to calculations, he still needed more than 20 million.
