I am a quadrillionaire chapter 2640-At the current rate, his goal could be achieved in four to five years if quick. If slow, perhaps seven or eight years. No more than ten years, at most.

Ten years was a long time for people on Earth.

But for Leila's creature, it would pass in a flash.

After all, the lifespan of the creatures here was too long.

The Eternals had a lifespan of at least one era. Even if one did not reach Eternal Realm, they could still live for thousands of years with no problem.

"Master David, we choose to follow you." Thor and Beanie answered almost simultaneously without thinking.

"You don't have to answer me so quickly. You can still work in The Spirit Cage thing for a few more years. During this time, you can think about it slowly and give me an answer when the time comes. You have been with me for such a long time and you know my character. No matter what choice you make in the end, I will fully support it and will never treat you badly. If you have any difficulties in the future, you can always come to me." David added.

"Thank you, Master David!"

"Thank you, Master David!"

The two stood up again, bowed to David, and said sincerely.

Just like David said, they know the character of their Master David.

Even if they chose to leave in the end, Master David would keep his word and not mistreat them.

Of course, neither of them were fools.

They had already decided in their hearts.

No matter what, they would definitely not leave David unless he no longer needed them.

“Okay! That’s all I’m here for. Next, you have to continue to help me collect treasures in The Spirit Cage. I may have less and less time to come here in the future, so I’ll leave this place to you.”

“Don’t worry, Master David! We will complete the tasks you assigned.” Thor promised.

“Master David, please feel free to go about your own business! Just leave this place to us and we guarantee that you will not be disappointed,” Beanie also added.

In fact, they were all confused.

Why did Master David buy so many treasures?

Was it because he liked collecting them?

Did he spend tens of billions of L Dollars to make himself happy?

Ordinary people could never understand the minds of big shots after all.

In the eyes of Thor and Beanie, no matter how rich Master David was, it was not appropriate to spend money like this, right?

To be honest, neither of them believed this.

Based on their understanding of David, he was someone sensible.

Master David must have his reasons for doing something.

They just had no idea what it was.

“Okay, I have to go now. I’ll leave you my contact. If you need me for something you can’t handle, just send news back to your family in the real world and ask them to contact me there.”

David said this was because Thor and Beanie’s descending point was not in Amber City, so they could not return to the real world from here.

So, this was the only way for them to contact him.

“Yes, Master David.” They both replied at the same time.

Then, David left his contact and left The Spirit Cage.

He estimated that he would rarely come back in the future.

He recalled that when he first entered The Spirit Cage, he was only at partial Divine Realm.

Now he had crossed Divine Realm and reached partial Heavenly Overlord Realm. He was only half a step from achieving the last level of Overlord realm and standing on top of Leila.

This kind of speed could no longer be described as fast.
