

Read I am a quadrillionaire

I am a quadrillionaire chapter 2676-The more killings one caused and the more evil karma one accumulated, the stronger the Eternal Catastrophe would be, and the less likely they would survive.

No one could guarantee that they could 100% reach Saint Realm within an epoch, so Eternals would restrain themselves in this regard.

Of course, this did not mean they would not kill, on the contrary, they just would not kill too many people.

After the room stabilized, everyone opened their eyes and immediately looked at both sides of the battle.

They saw Lucia's master Reva standing in front of David while grabbing his neck with her right hand. However, her hand was stopped five centimeters away and they were maintaining this posture.

No matter how hard Reva tried, she still could not make any progress even after using a bit of Eternal power

Spencer felt happy when he saw such a scene.

He thought, 'Very good! Haha! That's awesome!

'This boy's strength is indeed not inferior to that bitch who cursed me.

'Now, the bitch has taken action.

'As a powerhouse, that boy will definitely not be able to bear this and then, a battle between the two sides will be imminent.

'It'll be best if both sides lose.

'Then, it will be my chance to take control of the situation.'

However, the reality was often cruel.

Time passed by second by second and yet, the situation Spencer imagined did not appear.

David still stood there as steady as a rock.

Reva stared at him with her beautiful eyes.

On the inside, she was shocked by the ability of this boy.

She had already used a bit of her Eternal power, but she still could not move him at all.

At this time, Lucia also came to Reva and called out, "Master!"

Then, she and Reva faced David.

Reva nodded in response.

"Who are you? Why do you want to help the villain? Do you know what outrageous things Spencer did before he became the emperor of the Great Quinn Empire? Destroying dozens of families and killing millions of people on an unfounded charge is just one of them. He had done other outrageous things too and as far as I know, even after he became the emperor of the Great Quinn Empire, he did not do anything good," Lucia looked at David and asked aloud.

After listening to what Spencer said, she naturally thought that David was the helper he hired to deal with her and her master.

"When was I helping the villain?" David smiled.

He did not take the other party's attack on him to heart at all.

After hearing what happened to Lucia, he sympathized with her.

After all, a family was suddenly wiped out without any warning.

All of her relatives died and she was the only one who survived.

Anyone would be devastated by this kind of thing.

No wonder she showed such crazy emotions.

She did not even want Spencer to die and wanted to continue to torture him.

Her home had been destroyed, so it was only natural for her to do such crazy things.

‘You didn’t? Then why did you help that scum Spencer?’ Lucia asked.

‘I’m helping him? If I am helping him, do you think you two can still stand here and talk to me?’ David asked nonchalantly.

‘What big words! I only used a little bit of strength just now because I didn’t want to hurt any innocent people. Do you

really think you are invincible?’ It was Reva who spoke this time.

She would not allow someone to brag in front of her, let alone someone so young.

After all, she was an Eternal, so how could she let other people manipulate her like this?

According to the kid in front of her, he was not taking her seriously as an Eternal at all.

There were not many people in the entire Boundless Galaxy who dared to say such things and this person was definitely not one of them.
