

## **Read I am a quadrillionaire chapter 2681**

I am a quadrillionaire chapter 2681-Lucia did not take action for a long time because she was waiting for Spencer's breakdown.

For an intelligent creature, sometimes, death was not that terrifying.

The terrifying thing was the fear one felt before they died.

They knew they were going to die, but they could not change the outcome.

This was the most tormenting.

Spencer could not stand the pressure and went completely insane.

Even if Lucia did not kill him now, he would still be a madman in the future.

However, Lucia would never let Spencer go.

She wanted to avenge the nearly 40 thousand people of the Darling family.

Then, she reached out and pulled out a soft sword from her waist. With a slight shake, the sword straightened instantly and penetrated Spencer's heart like a venomous snake.

First, the tip of the sword pierced Spencer's chest, then the blade.

After about a few centimeters, the tip of the sword plunged into Spencer's heart, penetrating it.

Finally, Lucia twisted her right hand and Spencer's heart suddenly burst into pieces.

The tyrant of the Great Quinn Empire died just like that.

After killing Spencer, Lucia sheathed her sword and stood up, tears flowing out of her eyes unconsciously.

She finally avenged her people.

David watched the whole process coldly.

Not only did he help Lucia elevate her state of mind by helping her with her grudge today, but he also had some other selfish motives.

If Spencer continued to live, there would be many uncertainties for Leticia and Zion.

Fortunately for Zion, he was Spencer's biological son after all, so he would inherit the throne of the Great Quinn Empire after Spencer's death.

However, it would be uncertain for Leticia.

Maybe Spencer would kill her before he died and bury her with him.

It was not that there had never been such cruel and ruthless emperors in the history of Earth.

Coincidentally, Spencer happened to be such a ruthless person.

So, David simply asked Lucia to kill Spencer.

It would not only relieve Lucia's inner demon but also settle Leticia and her son.

It was the best of both worlds!

Things would be easier after this.

Zion succeeded to the throne, and as Zion's mother, one could only imagine Leticia's status in the Great Quinn

Empire. This mother and son duo finally found a good home.

"Thank you, Master David, for helping Lucia get rid of her inner demons. Her state of mind has also improved a lot and she will also cultivate much easier in the future," Reva suddenly thanked David.

She genuinely did not expect that a few words from David would have such a big impact on Lucia.

Originally, she thought Lucia would only let everything go after another year of her torturing Spencer enough.

She did not expect David to change Lucia's mind so quickly.

Now it seemed that if David's heartfelt words had not enlightened her, she might still not be able to let go of everything even if she took revenge in the future.

I am a quadrillionaire chapter 2682-Reva did not know that David had used mind power, how would Lucia listen to David's few words when her hatred for Spencer was so deep?

It would be easy for David to wake up Lucia with his Heavenly level 1 mind power.

'You're welcome, Miss Marwood, it's nothing so don't take it to heart,' David responded politely.

"It is a small thing for you, but for Lucia, it is a major event that affects her life. With your enlightenment, her achievements in the future may be higher than I imagined."

'This is all Miss Darling's luck.'

'That's right! Meeting Master David is indeed Lucia's blessing.'

The two exchanged a few pleasantries.

David locked his eyes on several ministers and asked, "Are you all important ministers of the Great Quinn Empire?"

The ministers in the room were startled, and cold sweat broke out on their bodies.

"Master David, although we are the subjects of the Great Quinn Empire, we have never done anything harmful to the world. It was all Spencer. After he became the emperor, we didn't dare to oppose him or question him. If we do, we'll be suppressed by him and may even lose our life," A minister stood up and cried.

"Yes, Master David, you have no idea. Ever since Spencer became the emperor of the Great Quinn Empire, we dare not speak out in anger in case we get ourselves into trouble," another person stood up.

Then, several ministers came out one by one to accuse Spencer of his tyranny and crimes.

They all thought that David was going to settle accounts with them, the ministers who were assisting Spencer, and they were all frightened.

They watched Spencer die in front of them.

A monarch who was once so arrogant and high-spirited died just like this.

The more well-off Spencer was back then, the more pain he was in over the past year and the more miserable and aggrieved his death was.

“Don’t be nervous. I didn’t come to you because of Spencer. He is already dead, so let’s just let bygones be bygones. I want to tell you that this is the illegitimate child abandoned by Spencer. Since Spencer is dead, any grudges between them are wiped out now. In the future, I hope you can assist Zion to become the emperor of the Great Quinn Empire and I believe Zion will not learn from his father,” David explained.

The ministers collectively breathed a sigh of relief.

As long as they were not implicated by Spencer, they would be fine with anything.

They could not fight for the throne anyway, so they would just assist whoever.

Moreover, wasn’t it easier to control a teenager?

Of course, they certainly would not dare to go too far, after all, Zion had a big backer like David behind him.

Who could guarantee that David would not come back to Planet Brechen on a whim in the future?

They would not dare to block their own escape route.

“Don’t worry, Master David! We will definitely follow your wishes and do our best to assist the new emperor and help him on the right track,” the ministers replied at the same time.

‘That’s good!’

After David finished speaking, he turned to look at Leticia and her son.

“Madam Chandler, Zion is still young and will need some guidance from you in order to become a talented person in the future.”

“Thank you, Master David. Please rest assured, Master David, I will definitely teach Zion well and make him a wise emperor. If you have time in the future, please come back and see us. The door of the Great Quinn Empire will always be open for you,” Leticia said gratefully.

“Ok, I will!”

David looked at Zion again.

“Zion, from now on you must listen to your mother. As the emperor of the Great Quinn Empire, you must remember one sentence, the water that bears the boat is the same that swallows it up. The best way to stabilize the Great Quinn Empire is to make the country and its people safe. Killing anyone who goes against you will only accelerate its destruction.”

“David, don’t worry. I’ll remember and I won’t let you down,” Zion promised with red eyes.

Although he was still young, he knew in his heart how much kindness David had to him and Aunt Leticia.

“Alright, my work here is done and I should leave now.

Madam Chandler, Zion, Miss Marwood, Miss Darling, it’s fate that allows us to meet in the vast universe. We’ll meet again in the future,” David bade farewell to them.
