Married At First Sight Chapter 3099-After Matriarch Farrell received the news that Shiloh fell from the building and died, she made a special trip to the hospital.

Holden, who could go through the discharge procedures in the next two days, looked as if his parents had died. He was haggard, and his eyes were red and swollen. He had been crying for a long time.

It was his younger son who accompanied him to the hospital last night.

After Sage found out that his former sister fell to her death from a building, he rushed to the celebrity garden community and came back after a fight with Shiloh's two brothers.

When Matriarch Farrell saw the two men like this, her eyes were deep, making it impossible to guess what she was thinking at the moment.

Matriarch Farrell regarded the father and son in this manner. They didn't dare to express their anger and were very nervous.

Holden winked at his younger son, Sage, signaling for him to break the silence between the three of them.

Sage didn't dare. He wanted his father to speak.

The father and son stared at each other for a while, and finally Sage spoke.

He brought a chair for Matriarch Farrell, placed it behind Matriarch Farrell, and said to Matriarch Farrell, "Mom, sit down."

The Matriarch Farrell family sat down.

Sage hurriedly poured a glass of warm water for his mother and washed the fruits.

"I don't want to eat fruit anymore. Just talk to your dad and return to the company later."

Matriarch Farrell spoke calmly and stopped Sage, who was about to wash the fruits.

"Mom, then you talk to my dad, and I'll go outside to smoke a cigarette." Sage said this and quickly slipped out.

They have been afraid of Matriarch Farrell since they were young. Matriarch Farrell was always very strict with them; she always insisted on her words at home or in the company and did not allow them to challenge her majesty as a mother.

On the contrary, Holden was a gentle man and loved them very much. No matter what request they made to Holden, Holden would satisfy them as much as possible. Sometimes, in order to satisfy their requests, Holden had to go to Matriarch Farrell, and then she called him a b!tch.

All four siblings have the best relationship with Holden.

Now, Shiloh is gone.

In Sage's heart, Shiloh was always his sister. He occasionally went to Mingren Community to see Shiloh. He had no other thoughts and simply cared about Shiloh. He also knew about Marco and Shiloh.

He did not stop or persuade her, but felt that if Shiloh followed Marco, at least she would have a place to live and someone to protect her.

Marco told Sage and Noel to keep the secret and not let the women in the family know; otherwise, Shiloh would be tortured to death.

Consequently, the women in the family still discovered the truth.

Erika went to the celebrity garden community last night to cause trouble. She had a fight with Shiloh and almost strangled Shiloh to death.

Kathryn also went.

Sage walked out of the ward, lit a cigarette at the end of the corridor, and took two deep puffs.

When the news of Shiloh's death came, neither Sage nor Holden could accept it.

Shiloh was still so young; her life had just begun, and she died. Her mother and brothers just wanted to force her to die.

Shiloh told them that her biological mother asked her for money.
