

Married At First Sight

Married At First Sight Chapter 3107-“Mom’s health is getting worse. She has to see a doctor every month, and it costs a lot of money to get injections and medicine.”

Shiloh’s eldest brother shamelessly told them their true purpose. “Yes, my eldest brother and I don’t have a high income, and we have to support the family. In the past, my father paid for all the expenses at home. After you made money, you also got some money back. Now my father...mother has no income. You left our house again.

It’s difficult for me and my eldest brother to support our own small family with the money we earn. How can we still have money to support my mother? She always needs injections and medicines. We spend too much money, and we can’t support it.”

Kathryn looked at her adoptive mother.

The adoptive mother turned away, not daring to look at Kathryn.

It was the intention of the two sons to come to Kathryn to ask for money.

The adoptive mother actually didn’t dare to come. She knew that Kathryn hated their family. When Kathryn was transferred to their home, they didn’t treat her well. In the past, Kathryn thought they were a family. If she were to harbor resentment towards them once more, her temper would erupt once she had earned some money. Give some living expenses from home.

Later, the truth was revealed. After Kathryn learned the real reason why she had been abused since she was a child, she had no feelings for their family at all.

Some were resentful and hateful.

After Kathryn returned to the Farrell family, her adoptive mother also inquired a little bit about her behavior. She knew that Kathryn was getting stronger and more and more recognized by her biological mother, and Kathryn’s strength indicated Shiloh’s weakness.

Shiloh’s life in Farrell would become increasingly difficult.

Shiloh also had no chance to sit as head of the family again.

When she learned about these things, her adoptive mother resented Kathryn, feeling that it was Kathryn who had put her biological daughter at a disadvantage.

Now their biological daughter accidentally fell down and died, and it was related to them. If they hadn't come here to take Shiloh back, Shiloh wouldn't have fallen down accidentally because of excitement, and she wouldn't have died.

The two sons said that since they were here and Shiloh died, their future hope was gone, and they would ask Kathryn for a sum of money no matter what.

Their little life was neither good nor bad, but Kathryn's life was good, which left them feeling unhappy and wanting to ask Kathryn for money.

It's also a test.

If they can get money this time, knowing that Kathryn still misses the kindness of raising her in the past, they can come to Kathryn to ask for money from time to time in the future. Even if the Farrell is not as good as before, her father said that the Farrell has a strong foundation and still has a fortune of tens of billions.

Ten billion!

So much money!

As long as Kathryn is willing to give money, they don't have much money—tens of thousands or hundreds of thousands at a time. For the Farrell with a fortune of tens of billions, it is nothing.

Kathryn was the successor of Farrell and would be the owner of tens of billions of assets in the future.

Kathryn asked her adopted brother coldly, "What does my relationship have to do with you? We have no relationship at all! The moment we know the truth, we have no relationship. Shiloh is your biological sister. If you need money, go to her."

"Kathryn, you can't say that. Our family has raised you up after all."

Kathryn interrupted her adopted brother, "Didn't my family raise your biological sister? What kind of life did your biological sister live in my family? What kind of life did I live in your family?"

You are all the people who know the truth. You know that I am the daughter of Farrell, but you still treat me so badly, bully me, and abuse me. Is this kindness? This is hatred. I have had no feelings for you for a long time; some are filled with resentment and hatred.

I didn't settle a score with you, and I didn't make your life worse than death. I'm very generous."

The adoptive mother opened her mouth to say something but couldn't.

She had no face to ask Kathryn for money.

The two sons were also blushing at Kathryn's words, hesitating and speechless.
