An Understated Dominance by Marina Vittori Chapter 2210

### **Chapter 2210**

“Roar!”

Suddenly, the lion roared.

The sound was like thunder, resounding throughout the whole place, deafening.

The key point is that the sound coming from his mouth does not sound like a human voice, but more like an animal roar.

Immediately afterwards, a shocking scene happened.

The lion’s physique suddenly began to swell, and the muscles all over his body bulged, bursting through the ragged clothes and shoes under his feet.

“Roar!”

The lion roared again.

Its limbs were propped on the ground, its back was bulging high, and thick and hard black hair began to grow on the surface of its skin.

In just a few breaths, these black hairs spread all over the body.

At first glance, the lion looks like a huge black bear!

Not only that, as the black hair grows, the lion’s facial features are also undergoing tremendous changes.

The area below its eyes began to protrude outwards rapidly, and its teeth became sharp and sharp.

The hands and feet also grew into claws.

“Roar!”

When the lion roared for the third time, the whole person had completely transformed into a ferocious beast.

This beast looked like a bear but not a bear, like a wolf but not a wolf. It looked ugly but fierce, and exuded an aura of destruction.

Just looking at it makes one’s scalp numb.

“This, this, this... what is this?!”

“Damn it! How could a good person suddenly turn into a beast?”

“I understand! This guy is not from the Dragon Kingdom at all, he is a genetic warrior researched by the Western world!”

“The genetic warrior only strengthens his physical fitness, how can he transform directly into a beast? This guy is clearly a monster!”

“...”

The beast-like appearance of the lion shocked all the warriors and left them with chills all over.

They never dreamed that a good person could turn into a huge beast in just a few breaths.

It’s so scary!

“Damn it! No matter if he is a human or a monster, let’s all come together and kill him directly!”

A warrior raised his long sword and started shouting loudly.

But his words didn’t get any response.

After all, the lion was already very powerful in his human form. Now that he has transformed into a beast, who knows how terrifying it will be?

Although there was little support, the warrior's shouts successfully attracted the attention of the transformed lion.

"Roar!"

The lion roared again and kicked off its limbs.

Debris flew and the ground collapsed.

The lion turned into a beast and turned into a blurry afterimage with a "swish" sound, passing by the warrior.

The speed was so fast that people around him couldn't react at all.

When the lion stopped again, it had already grabbed a bloody human head in its sharp claws.

It's the warrior's head!

"Boom!"

After a slight freeze, the headless corpse fell to the ground, splashing a cloud of dust.

The beast-turned-male lion took the warrior's head, slowly raised it high, and finally opened its mouth and swallowed it directly!

Such a bloody and terrifying scene scared everyone to the point of being stunned.

The lion's speed just now was so fast that they couldn't react at all.

The most terrifying thing is that the other party actually eats people.

The bloody and cruel scene directly caused a shadow in their hearts.
