

Married at First Sight Chapter 4347

“Mom, that’s for the future. Don’t talk about that now. Yangyang is only five or six years old and hasn’t even started elementary school yet. What’s the point of talking about that?”

Zhou Honglin talked about his mother while driving.

“Liberty has remarried. It’s her freedom to have a second child or not. It’s her business. We can’t control it, and we don’t need to worry about Yang Yang.”

“She is not the kind of person who would abandon Yangyang after having a second child. Even Haitong will still love Yangyang as before.”

“We just need to do our own job and don’t worry about the rest. During the May Day holiday, we will go pick up Yangyang and let him stay for two days. But mom and dad should stop talking nonsense in front of Yangyang.”

“Don’t think Yangyang doesn’t understand. Yangyang is very smart and he knows everything.”

“Especially don’t say this or that to my sister. Yangyang is the future of our family. My sister’s child belongs to her in-laws. My sister is very selfish. Haven’t you seen through my sister’s true colors yet?”

Mother Zhou curled her lips and said reluctantly, “I know. I just thought that Yangyang is alone and has no brothers, so I wanted him to interact with his cousins and cultivate relationships.”

“His cousins will be able to help him in the future, so that he won’t be alone and have no one to discuss anything with.”

Father Zhou tilted his head and glared at his wife, “Don’t you see clearly at this point? Xiaobao and the others always bully Yangyang. They are used to bullying Yangyang. Yangyang doesn’t want to associate with them at all.”

“After Dabao bullied Yangyang and was seen by the Zhan family, Yangyang still doesn’t want to talk to Dabao. Dabao almost strangled him to death at that time.”

“Do you really think Yangyang is a saint, has no temper, won’t get angry, and won’t bear grudges?”

“You only know how to favor Hong Ying’s three children. You say Yang Yang is your grandson, but you always favor your grandson. Every time Yang Yang comes back, you nag in front of Yang Yang, or say bad things about Yang Yang and Mr. Lu.”

“Yangyang doesn’t like coming back to live here anymore. It’s all because you, as a grandmother, don’t know the seriousness of the situation. How come Yangyang is alone? His mother can still have children, and he has other cousins.”

“Now Haitong has given him a cousin. If he gets along well with this cousin, he will be able to help him a lot.”

Zhou’s father was helpless about his wife’s partiality.

After his son got divorced, he gradually regretted and came to his senses.

As for the old wife, she said she regretted the divorce. Liberty had turned her life around and became rich. She felt that if they had not divorced, Liberty’s money would have belonged to their Zhou family.

“Hai Tong’s son was born with a silver spoon in his mouth. He will be the successor of the Zhan family in the future. He has plenty of money and power. Yang Yang can be of great help to him if he has such a cousin.”

“Hai Tong’s son was born with a silver spoon in his mouth. He will be the successor of the Zhan family in the future. He has plenty of money and power. Yang Yang can be of great help to him if he has such a cousin.”

Zhou’s mother stopped talking.

I also know in my heart that Yangyang has Haitong as his aunt, so he doesn’t have to worry about his future.

She just feels sorry for her grandson. Xiaobao is about the same age as Yangyang, but Yangyang is living a much better life than Xiaobao. The kindergarten that Yangyang attends costs more than 100,000 or 200,000 yuan a year.

My daughter’s business doesn’t make that much money in a year.

He only has two children and not many grandchildren, only one grandson. His grandson has a bright future, so why can’t he let his grandson take care of his cousin?

Mother Zhou grumbled in her heart but didn’t dare to say it out loud.

If she tells it out, her son will get angry and scold her again.

Hong Ying seldom comes over now. Whenever she comes, Hong Lin gets angry and the two siblings will quarrel.

After all, she will have to rely on her son for support in her old age, so it is not easy for Zhou’s mother to help her daughter openly.

“Mom, did you listen to what Dad and I said? If you talk nonsense in front of Yangyang again and say bad things about Liberty, I will send you back to your hometown and let you live with my sister.”

“You helped my sister so much in the past. You raised all three of her children. I only have one child, and you never helped me take care of him. Not only did you not take care of Yangyang, you even used money to help my sister.”

“When I was making 100,000 a month, I gave you that much living expenses every month, and you all lived together at my sister’s house.”

“I also have a share in the retirement.”

“You and my dad, one will live with me, and the other will live with my sister.”

Zhou Honglin knew clearly what kind of person his biological mother was.

He had to threaten to send his old mother back to her hometown, lest she would continue to speak ill of Liberty and his wife in front of Yangyang.
