

Chapter 14 Secrets

Damien

I am listening to the annoying voice of my Mate as we are driving towards the location of the Alpha bloodline competition. My mind drifts back to the day we met, I had snuck across the borders of White Crescent Pack as they were having a party and we hadn’t gotten an invitation.

The party was on the night before the Full Moon and that meant I would be able to find my Mate if she was there. Penelope had caught my eye the moment I saw her and even my Wolf was pleased with her. My Brother and I had been raised to treasure the Mate-bond, to treasure our fated Mate.

My Wolf and I didn’t like the idea of being tied to one woman and for that reason we wanted a chosen Mate, but my Brother and our Grandparents would not like it if I would reject my fated Mate to chose a Mate like our parents had done.

I had just turned twenty two and still hadn’t found my fated Mate, so my Wolf and I decided to take a chosen Mate and we would tell everyone she was my fated Mate. Penelope kept looking at me as I looked around the party and from time to time I could smell this intoxicating smell, but it was gone before I could trace it.

An Alpha I was talking to pointed at Penelope and told me she was his daughter, the woman my Wolf and I were interested in was an Alpha’s Daughter. This evening was getting better by the minute and when the Alpha asked me if I would take his Daughter as my chosen Mate, I decided to tell him the truth.

“Alpha, my family wants me to wait for my fated Mate. I am not so sure I want to wait for her any longer and my current lifestyle might have something to do with that.” I answered him and he told me that if I stayed faithful to his Daughter until she had a Pup, I could live my life the way I wanted after that.

I thought about it for a moment and I told the Alpha I would take Penelope as my chosen Mate, but we had to tell everyone that she was my fated Mate. Penelope came over as soon as her Father looked at her and we quickly tell her that I will take her as a chosen Mate, but that she is to tell everyone that we are fated Mates.

Penelope had been to this Pack before and knew where their guestrooms were, so we snuck into the Pack-house to seal the deal as chosen Mates. The intoxicating scent I had smelled earlier was strong inside the Pack-house and Penelope pulled me to the right as we reached the first floor.

She walked all the way to the end of the hallway to open a door on our right and the moment we are inside she jumped into my arms, I pushed her up against the closed door. I grinded my rock-hard cock against her core and in seconds I could smell her arousal, making my cock become even harder.

We kept grinding against one and other as the room filled with the smell of her arousal and as I put my hand under her dress I felt that her panties were soaking wet. I asked her if she was still a virgin and as she shook her head I pulled my cock out of my pants, slamming hard into her pussy.

She had cried out in pleasure as I had started pounding her hard and in mere minutes we both had come hard. I had taken her to the bed for round two with her on her back and again I hadn’t taken it slow, but she didn’t seem to mind at all.

My Wolf and I had been ready for round three in minutes and I had pulled her up on all fours to take her from behind. I was pounding into her soaking wet pussy when the door had opened and I had smelled the scent of my fated Mate, without thinking twice I had rejected her as I was still fucking Penelope.

My rejection was accepted within seconds and I fell to the ground in pain, Penelope was quickly by my side. She told me we had to mark one and other for the pain to stop and as she lowered herself onto my still rock-hard cock I pulled her closer, we marked each other as she was riding my cock.

Penelope had been right, because after marking her I felt a lot better and I fucked her a few more times before we were finally done. I only told my Father were I had met Penelope, but even he doesn’t know that she is not my fated Mate.

The first few months with Penelope had been amazing and even my horny Wolf had been satisfied with one woman for a while, but when she had gotten pregnant with Joseph everything changed. Penelope had no longer been interested in having sex and I had started looking else were to get satisfied.

After Joseph had been born Penelope had started to come to me again, but I no longer had a real interest in her. I had just used her whenever my Wolf I had the need for release and she happened to be the closest, other than that we had lost all interest in our Mate.

The only good thing that had come from my relationship with Penelope was Joseph and my ticket to the position of Alpha. If my Brother were to die before he met his second chance Mate, Joseph would be next in line to become Alpha and if he was not old enough yet than I would have to take over until he was old enough.

I don’t think my Brother is aware of the fact that I want his title, but I also know that I can not challenge him for the title. Penelope pulls me from my thoughts by pushing against my arm, “Babe, we are almost at the hotel and don’t forget my Brother wants to see you.” She says.

I give her a small smile as I don’t want her to wonder why I am happy to go see her brother and No, I am not gay. Her Brother, Harver, also has a chosen Mate and they have a very interesting love life as he likes to watch her being with another man or to share her with another man.

Penelope and I had been together for over a year when we went to visit her family and I was surprised when her Sister in law showed an interest in me. She had lured me to a room on the second floor and I almost peed my pants when Harver had walked into the room, but he told me he was just there to watch.

Jane had stripped naked in front of me and she had gotten down on her knees as she opened my pants, she took my cock out to suck it into her mouth. My Wolf and I had loved every second of it and after she had sucked me dry Harver asked if I was willing to share his Mate with him.

The moment I nodded my head Harver had grabbed his Mate and pulled her to the floor with him. She was riding his cock as his hands slid down her back and he had pulled her butt cheeks apart, telling me to take her hard. I didn’t hesitate a second and pushing my cock into her backdoor was the best feeling ever.

During that visit and every visit since Harver and I have been sharing his Mate, Jane is always soaking wet and she loves it when one of us takes her by surprise. I have watched the two of them going at it a few times and each time I would stroke my own cock until I came with them.

After that first time I realized I liked taking a woman in her ass and it took me a while to find out that no woman in our Pack was willing to let me. However, I found an Omega cleaning our room one day and she was on her knees gather some of Joseph’s toys.

Father made sure our Omegas wore dresses, because he told us it looked good for visitors. I found out at the age of twelve that he wanted them to wear dresses so he could do to them what he wanted easier and that day I was grateful that my Brother never changed that rule.

I had been real quiet as I took my cock out of my pants while I kept my eyes on the Omega and by the time she realized I was there it was to late for her to react. I had ripped her panties and grabbed her hips as my cock was pushed against her backdoor.

Her pleas and screams only turned me on even more and I had forced myself on her. I told her if she ever told anyone I would kill her and if she valued her life she would come to me whenever I told her to. I still enjoy taking her as she still screams every time I take her, but nowadays she screams in pleasure.

Penelope had told Harver I was going to compete and he had just sent me a text one day “Jane can’t wait to see you again.” The only thing I ask of him was to get me something I couldn’t get without anyone starting to ask questions and he told me Jane would be more than happy to get it for me.

My Mate doesn’t know about my little Omega and as long as she can keep me happy I don’t need anyone else to satisfy my needs. She know what I want to do to her and even though she is not sure about it my little Omega knows I will not let that stop me.

We all get out of the SUVs and I wonder if we will see any members of White Crescent Pack before tomorrow. My Brother in law greets me with a hug and I feel him slipping something in to my pocket, I don’t have to look at it to know what it is.

Harver greets Penelope as Jane greets me, before I introduce both of them to my Brother and his men. “Will you all join us for dinner tonight?” Jane asks and Theseus accepts the invitation on behave of all of us.
