

Chapter 81

William's heart skipped a beat. He immediately played dumb and replied, "Xena's perfume? What are you talking about?"

Felicity did not back down. She grabbed and sniffed his clothes again before her whole expression changed instantly.

"This is obviously the perfume Xena likes. I've been with her for so many years. How could I not recognize it? I can even tell it a mile away!" Her face instantly turned cold.

William couldn't help but panic.

Xena was really good at making trouble.

Very well, here came his doomsday.

When Felicity saw the change in William's expression, disappointment and sorrow consumed her heart right away.

She remembered the phone call Xena made in the evening.

Xena was speaking very seductively. Her every word on the phone could make a person's face blush right away.

Xena asked him if he was going to ditch her...

She also mentioned that he already booked a room...

Xena was not on the phone with the owner of the Genuine Care Medical Center. She was talking with William!

She was flirting with William in front of Felicity despite knowing the fact that William was Felicity's husband!

Moreover, William actually agreed to it and went on the date with Xena without Felicity's knowledge...

Thinking of this, Felicity's eyes turned moist.

William panicked right away.

He treated Xena well because he regarded her as his sister. They never saw each other romantically; they did not have any feelings for each other.

More importantly, he agreed to go out with Xena this evening because...

William stretched out his hand, wanting to wipe away Felicity's tears, but she slapped his hand away.

He took a deep breath and looked at her, saying, "Felicity, don't you understand my feelings for you? There are so many other women out there but I still choose you over them. Well, I admit that I did go out to have a drink with Xena this evening, but I can't tell you the reason yet."

Felicity looked at William coldly. She, of course, knew his feelings for her.

But she still felt uneasy. It was as if there was a huge rock that was stuck in her heart.

"Felicity, trust me. I'll explain everything to you in a few days' time! It's for your own good," William whispered, his voice a little hoarse.

Felicity stared at him and saw the worried look on his face. Suddenly, the rock in her heart was lifted off.

After experiencing so many ups and downs, Felicity believed that William and Xena were blameless. They would do anything that betrayed her.

However...

"You're sleeping on the floor. For one month!" Felicity kicked him off the bed without any mercy. William's heart ached. The bitterness in him almost drowned him.

It was supposed to be a beautiful night. He should be sleeping together in the bed with Felicity. But it was completely ruined by his sister-in-law.

He ended up having to spend one month sleeping on the floor!

The next day, William woke up and noticed that Felicity was still giving him a cold shoulder. She hadn't decided to let it pass. He knew she wouldn't let him off the hook so soon.

He deliberately kept his distance from her so she

would have some space to calm down.

Later during the day, he stayed at the Genuine Care Medical Center. In the evening, he went for a meal with Melissa and Lydia out of the blue.

However, after the meal, he received a phone call from Felicity.

He immediately perked up and answered, "Felicity."

"Come to Hoversky Restaurant right away. We'll have a family dinner this evening," she said with a frosty tone.

But for William, her voice was brimming with warmth and tenderness.

Felicity did not forget about him.

After she hung up the phone, she felt so wretched and miserable.

Obviously, she didn't want to talk to William, but she just couldn't do it. He was always on her mind.

Ah, this felt so bad!

William strode towards Hoversky Restaurant right away as he was having his dinner right beside it.

As soon as he arrived in the private dining room of the restaurant, everyone in the Bai family was staring at him.

"Oh, who invited the security guard of the Genuine Care Medical Center?" Steven glanced at him and

teased. "I must say that you're quite good at finding out this type of information. Why do you come? Are you here to get a free meal? You're indeed a useless good-for-nothing."

William immediately got the hint in Steven's words. The Bai family didn't invite him nor welcome him here at all.

Felicity had invited him by herself.

Felicity looked on as Steven continued mocking William. William did not show any signs to rebuke Steven. After hesitating for a while, she pulled William to her side and announced, "I am the one who invites him. After all, he is also a part of our family."

Steven continued sarcastically, "Hmph! He's also an employee of the Genuine Care Medical Center. I don't even know if he's going to bite our hands one day in the future!"

Felicity ignored Steven and pulled William to his seat.

Yasmine shot William a cold stare and said, "It's our family gathering today but it's also a celebration party. I set up this gathering for Xena. Without her, we can't sign this exclusive contract with the Genuine Care Medical Center."

At this time, Xena was peeping at William and Felicity sheepishly. She could sense the awkwardness between them. There was

something wrong with this loving couple.

She knew that it must be related to her doing.

She immediately said to Yasmine, "Grandma, the owner of the Genuine Care Medical Center has mentioned that Felicity's involvement contributes 50% to this matter. We should accredit her for her help to get this contract."

Yasmine thought for a moment and nodded. "Since Felicity has a mysterious supporter behind her, I assume that the Genuine Care Medical Center is doing this for him. Well, it's not surprising."

Xena wanted to explain further, but she eventually held back her tongue.

She knew what the truth was.

It was her brother-in-law who made all these possible. He was virtually giving alms to the Bai family!

"We do not only celebrate this evening, but we will also come out with some strategies about our future operations and how we are going to deal with the Genuine Care Medical Center. I have a suggestion here." Yasmine paused for a while and continued, "I recommend handing this project entirely over to Steven."

Upon hearing this, Xena immediately rose from her seat.

Her expression also changed instantly!

"Grandma! Obviously, we are able to come to where we are today because of Felicity and me. You should make a choice between one of us to deal with the medical center! Why do you choose Steven?" Xena raised her voice.

However, Yasmine's cold look made Xena button her lips right away before she took her seat again indignantly.

"Of course I have my own considerations when I've decided to pass it to Steven. Let me ask you, among the three of you, who has the most connections and friends?" Yasmine asked coldly.

No one dared to answer.

Felicity, however, plucked up her courage and retorted, "Since Xena is the one who gets the contract, she has proven her ability to take up this responsibility. We could always build our connections later, couldn't we?"

"Hmph! Build the connections later? Well, since you have brought this up, then enlighten me on your ways of building these connections! Can you go to clubhouses to drink with men at night? If you promise that you can entertain those men, I will give this project to you immediately!" Yasmine replied, her eyes sparkling with coldness.

Felicity's face froze. Yasmine was being so unreasonable.

Yasmine continued to reprimand Felicity, "Felicity,

think about it! If you didn't marry this good-for-nothing, no one in Qena City would look down on you! Given your lovely appearance, every man in this city would love to chase after you. To put it simply, it's your own fault!"

Felicity was so angry that her face turned red. She was about to retort before William grabbed her hand and stopped her.

He whispered, "It's alright. Let them assign this task to Steven."
