

Chapter 86

"Before I entered the house, I contacted another loan company and I'd mortgaged this contract!"

Steven added eagerly, "I got another twenty million!"

What Steven said made everyone instantly silent!

When everyone came to their senses, Yasmine slammed the table in excitement!

"Steven, you're simply a genius! According to your idea, after this..."

With a proud look on his face, Steven continued, "That's right. Next, I will contact other funds, loan companies, and the other companies that are willing to invest in us. We will sign the contract with them before we mortgage it off to another company! Everything will be linked to each other. There'll be no flaw in the plan!"

"At the end of the day, the Bai family will get popular in Qena City again without spending even a cent! Since everyone knows that our family is in the limelight, the cost of our subsequent loans and interests will be gradually reduced too! We're killing two birds with one stone!"

Everyone present was shocked and rendered speechless by Steven's boldness and his way of

thinking!

His plan was like a chain that connected one dot to another!

Wasn't this the same as using a credit card?

It was like taking non-existent money out from the bank to make a purchase in advance.

In a short period of time, Steven would collect enough modals to pay off all the operational costs!

All of a sudden, the Bai family was on cloud nine.

It was supposed to be a huge, unprecedented problem that could not be solved.

At first, no one was able to do anything about it.

They didn't expect that Steven could come out with such an astonishing solution in just an hour!

Not only could he get sufficient money, but he could also make the Bai family be known across Qena City!

Unlike his usual way of solving problems, Steven after all was not that useless!

However, Felicity frowned and cautioned, "If that's the case, this is going to be concerned about the safety of our company's capital chain. Can we really trust Baxter?"

"He signed the contract. What choice do we have except for trusting him? Why would he break the contract? Even if he did, he'll have to pay a huge

amount of compensation!" Steven rebuked confidently.

After hearing that, Felicity finally came to her senses. Indeed, the contract had been signed. It was something that could not be undone.

Yasmine looked at Felicity coldly and mocked, "Hmph, you are obviously envious of Steven's talent. What you said are just sour grapes. Everyone, listen to me. This is why I put Steven in such an important position! Only he can lead our family whenever we are in such a dire situation!"

Hearing this, Steven felt even more proud of himself.

He glanced at Felicity scornfully. "Hmph, keep the Emperor's Flower and the car for yourself. Without you, the Bai family can make a glorious comeback too!"

"Steven, go and settle this matter immediately. The contract will be signed in three days. I want to get enough money in two days!" Yasmine's lips curled up into a coy smirk.

Now that she was more confident, she had a more daring idea in her mind.

She wanted to take advantage of this situation!

She wanted to use what they had at this moment to achieve another peak of their family.

The Bai family was going to shock the whole city!

Steven immediately went and contacted the other companies.

The Bais surrounded him and had become very respectful of him.

Even a fool could tell what Steven would gain if he could do what he promised a while ago.

Yasmine would immediately declare Steven as the next successor and the head of the Bai family!

As the head of the family, Steven would have much more power and authority than what he had at this moment.

Seeing this, Felicity couldn't help but feel disappointed.

She was supposed to be the most qualified person to lead the family.

It was a pity...

She suddenly pinched herself hard when she thought of this!

No, it was not a pity!

As long as she could be with William, there was nothing to be regretful about!

Yes!

That was how she should take it!

Xena suddenly hugged Felicity gently, giving her an apologetic look.

"Felicity, can we talk?" Xena knew that she and

William had been having a cold war recently. Xena knew that she was the one who caused this. Xena decided to take all the responsibilities on her own shoulders.

She told Felicity that she had made an appointment with the owner of the Genuine Care Medical Center that night but she got stood up. Then she had some wine because she was in a bad mood.

She ended up getting drunk and couldn't go back home by herself, therefore she called William to send her back.

After hearing this, Felicity's face lit up a little. She held Xena's arm gently and said, "Hey, it's too late to say that now. That guy doesn't dare to tell me such a little thing. I'm really pissed off by him."

Xena knew why William didn't want to explain further about it, hence she let out a long sigh and kept quiet. She could only help this much. William had to tell the other things to Felicity himself.

Two days had passed.

Another piece of good news came from the Bai family.

Under Steven's lead, ten companies had already participated in the capital chain. The Bai family had received a total of 200 million yuan!

Hearing this good news, all the members of the

Bai family were elated.

It was as if they could finally see the light at the end of the tunnel. They could finally discern their future being slowly unveiled in front of them.

At the same time, the Bai family had also stirred up a heated discussion in Qena City.

With so much money in hand, Yasmine's confidence skyrocketed right away!

There was more better news, which made Yasmine get rid of the last bit of her worry!

Previously, Steven had joined forces with more than a dozen pharmaceutical companies in Qena City against the Genuine Care Medical Center.

However, since the Bai family spread the news that they were going to take over the dealership, more than a dozen companies had quit the alliance out of anger.

Yasmine was worried about it previously. If more than all these companies went against the Bai family together, then the Bais would definitely be in big trouble!

She didn't expect that Steven would be able to solve this problem too!

Steven was indeed a gifted businessman!

He managed to convince these pharmaceutical companies to rejoin their alliance with the Bai family.

Instead, the Bai family agreed to offer part of the dealership as a secondary project to them at a reasonable price and terms.

They signed another contract with them, highlighting how much offers these companies could get in these so-called secondary dealerships and their respective ratios in terms of profit. Once again, Steven managed to reunite them.

Steven had completely eliminated Yasmine's worries.

She complimented Steven in front of the whole family again, praising him for handling the matter professionally!

Steven was also very excited that he felt he was floating on the air. He didn't expect that things would go so smoothly.

He didn't even need to spend any money to convince the companies.

With all these trump cards, the Bais could either attack the opponents or retreat to defend themselves if necessary. The Bai family had secured the upper hand at this very moment. They had all the resources they required.

In Qena City, it seemed that only the Bai family had enough strength and confidence to sign the contract with the Genuine Care Medical Center at this moment.

The other companies and families were no match for the Bai family.

This made the Bai family have the final say in every single matter. They released a statement on the day before they signed the contract with the Genuine Care Medical Center to request them to change the terms in the contract!

They demanded to reduce the price of goods by 10 percent!

When Melissa heard this, rage pounded in her like a drumbeat!

"The Bai family is so shameless! William, what do you think about this? If you don't give me an acceptable explanation today, I will definitely kill you!" Melissa's words were as sharp as a knife that could slit William's neck at any point in time.

Not only did the Bai family decide to go back on their word right before the contract was being signed, but they also made such a ridiculous demand. It was impossible for anyone to agree to such an unreasonable request!

Besides, it was the Bai family who needed their help!

But, at this moment, they were trying to pull a trick on the Genuine Care Medical Center instead!

They were sinister, vicious, and extremely impudent!

William peeled an orange and threw the skin into Melissa's cup.

He mumbled with a smile, "Just agree to their terms."
