

The Charismatic Charlie Wade Chapter 811 – 815

Chapter 811

Elaine observed at the numbers on the cash machine screen, shocked.

At this moment, she felt that the whole world had collapsed.

She was shocked and she didn't understand why Charlie had a deposit of more than 20 billion!

“How is this possible? Twenty billion! I am crazy or Charlie is crazy! Where did he get so much money?”

Elaine's hands are shaking, 20 billion! Not two hundred, not two million!

She had never dreamed of so much money in her life!

Where did Charlie get so much money? Could it be that he fooled Bill Gates?

At this moment, Elaine's first thought was to call Charlie and ask what was going on.

But the next moment, she suddenly realized that it was impossible!

Isn't it exposed when you call?

Before Charlie knew it, she had to get as much of his money as possible and get it into his card!

Thinking of this, she immediately clicked on the transfer function and entered her bank account number. Then, when she entered the transfer amount, she hesitated slightly.

After a while, she looked excited, and entered 21,900,000,000 in the amount column!

A total of 21.9 billion, Elaine plans to credit all of it to his account.

She didn't bother to worry about how Charlie got the money.

But the money was seen by her, it was all her own!

Fighting with the Lady Willson and Jacob for a lifetime, isn't it just for a little money to provide for the elderly?

After the previous two million was gone, she fully understood how painful it was to lose money.

So, now, seeing the money, she has only a strong possessive desire in her heart.

With all this money, what can she worry about in life?

The life that she had never dreamed of before seems to have begun to wave to her.

So, she immediately pressed the confirmation button with emotion.

21.9 billion!

It's all mine!

I, Elaine, have a chance to become a billionaire!

At this moment of ecstasy in her heart, a prompt popped up on the screen: "Automated teller machine transfers. The maximum transfer amount in a single day is 1 million, and the maximum cash withdrawal amount in a single day is 100,000. If you need a higher amount of financial Service, please go to the counter with your card!"

"Oh sh!t!"

Elaine scolded: "The single-day limit is only 1 million, which is enough to do an egg? You can transfer 365 million away without falling a day! Wouldn't it be better to transfer 21.9 billion away by this method? Won't it take decades!"

Thinking of this, Elaine immediately chose to withdraw the card, and then went into the bank with the card!

No, today, no matter what, all the money must be transferred away! So as not to have many dreams at night!

Chapter 812

Elaine's style of work is tornadoes, wherever she goes, no penny must be left!

Afterwards, Elaine walked towards the bank lobby with excitement.

As soon as she walked in, an enthusiastic young woman said to her: "Hello, what kind of business is going on? I'll help you get an account."

Elaine shook the black gold card in her hand and couldn't wait to say: "I want to make a transfer!"

When the young woman saw the black gold card in her hand, she was shocked!

All Citibank staff have undergone professional training before taking up their posts. In the training class, there is a section dedicated to explaining the black gold card!

This black gold card is the highest standard of Citibank. It is limited to one hundred issued in the world, and only five in China!

Everyone holding a black gold card is a super VIP guest of Citibank, no matter it is any executive of Citibank, he will serve him respectfully when he sees it!

She never expected that the legendary Black Gold Card would appear in the second-tier city of Aurous Hill!

So she hurriedly stepped forward, bowed very respectfully ninety degrees, and blurted out: "Dear distinguished guest, please follow me to the VIP reception room! I will ask our president to come over and handle the business for you personally!"

When Elaine heard that she was a distinguished guest, she immediately felt the strong pleasure of pretending to be successful from her scalp to her toes, so she immediately urged and laughed: "Hurry up and take me over! Neglect me, be careful I let Your president fire you!"

The other party panicked and said hurriedly: "Please don't be angry, please follow me!"

The young woman invited Elaine to the VIP room, and immediately asked the service staff in the VIP room to pour water for Elaine, and then ran to the president's office quickly, and hurriedly pushed the door in without knocking on the door, and said, "President , President! Here is a VIP client!"

The bank president frowned, very dissatisfied with the staff's act of pushing the door without knocking, and shouted coldly: "What does the fuss look like? If people see it, they think how rough our bank staff are!"

The young woman said breathlessly: "President, the VIPs with black gold cards is here to handle business!"

The president suddenly sat up from the chair, his eyes widened, his breathing was short, and he blurted out and asked, "What? Say it again!"

The young woman said, "The Black Gold VIP guest is here! She is in the VIP room! Come and take a look!"

"My God!" The governor felt a whirlwind feeling: "The VIP of the Black Gold Card? Are you sure it is the Black Gold Card? Only five of the gadgets have been issued nationwide, and I have never seen the real thing!"

"I'm sure!" the young woman said confidently: "We talked about the black gold card during our training. I will definitely not read it wrong!"

The manager hurriedly straightened his collar and quickly got up and ran out.

Black gold card VIP, that is the VIP of VIPs, the super VIP of VIP, who has this card, who is not a super rich person worth hundreds of billions?

It is said that the five cards issued nationwide are all given to top families, one each for the three top families of Eastcliff and the two top families of Zhonghai, and there is no more!

Don't know which family member came with the black gold card today? Wade family, Su family, or Zhonghai Xue family? Or the other two families? !

The president rushed to the VIP room, opened the door respectfully, and saw Elaine sitting on the sofa.

At this time, Elaine had the illusion of the Empress, arrogantly tilting her legs.

At the thought of immediately becoming a super rich with 21.9 billion in cash, Elaine was so excited that she almost became incontinent.

The president could not see the depth of Elaine, but he also recognized the black gold card in her hand, so he hurriedly stepped forward, bowed and said, "Hello, honorable black gold card guest, I am the president of the bank. Li Dongtao, you just call me Dongtao."

Elaine gave an arrogant hum, and said contemptuously: "Oh, Dongtao, you just came here, I want to transfer money, but you sh!t ATMs say I can only transfer one million a day, it's not the f*ck What about bullshit? I have more than 20 billion in Kali, and can only transfer 1 million a day. Can I transfer it till death?"

Dongtao hurriedly apologized and said, "Dear distinguished guest, I'm really sorry. This ATM is for ordinary people to put it bluntly. Think about it, it's just a boxy machine with limited capacity. If you put it to death, you can't put a lot of money. How can it match your status as a VIP of the Black Gold Card?"

As he said, he hurriedly complimented: "A super VIP like you, to any Citibank, as long as you show the black gold card, it is the top VIP treatment. The president personally entertains you, how can we stand your noble body? Operate in front of the ATM!"

Chapter 813

Hearing what Dongtao said, Elaine felt a lot of comfort immediately.

It turns out that ATMs are for ordinary people!

Hahaha, ordinary people, aren't they just poor people?

This Dongtao is right. Like herself, a super rich who is about to have tens of billions of assets, how can her distinguished body stand in front of an ATM to operate that sh!t?

Thinking of this, Elaine stretched happily and said to Dongtao: "Yes, Dongtao, you have a future!"

"Where you award, you passed the award!" President Dongtao respectfully said: "If you want to handle the transfer business, I can do it for you personally."

After speaking, he immediately sat opposite Elaine and turned on the computer dedicated to the VIP room.

After the computer was turned on, he asked Elaine: "Madam, which account and how much are you going to transfer to?"

Elaine took out a bank card of her own, handed it to him together with the black gold card, and opened her mouth: "From this premium card, transfer me 21.9 billion to this white ICBC card. in!"

Dongtao was so frightened that he almost urinated.

"Madam...Are you sure you want to transfer 21.9 billion?!"

Elaine nodded, and said impatiently: "Yes, what the h*ll, I have to do it quickly, have you heard it? Otherwise, I will smash your bank!"

Dongtao swallowed, and subconsciously took the premium card, put the chip up and inserted it into the card reader, and then said to Elaine: "Please enter your password."

Elaine raised her hand and entered Charlie's lunar birthday on the password keyboard.

The password is correct.

Later, Dongtao also saw the account balance, which was indeed more than 21.9 billion.

He was shocked in his heart.

Unexpectedly, a middle-aged woman who took out a black gold card would have more than 20 billion in it. What a woman!

However, he is just the president of a small branch in Aurous Hill, and his authority is not enough to check the identity of the owner of the black gold card, so he doesn't know whose name the card is issued for.

But the black gold card is like this.

Most people cannot find out the true identity of the owner of the black gold card. As long as someone withdraws money from the black gold card, there is no need to ask how much to withdraw, because the privacy of the black gold card owner must be fully respected.

Moreover, the black gold card is never afraid of stealing it.

Because in this world, no matter how courageous a thief is, he will retract his hand in shock when he sees the black gold card.

Once someone steals the black gold card and steals the money in the card, with the strength of the black gold card owner, this person is absolutely lifeless to spend the money.

This is the same as if the credit card amount of a rich person is extremely high, but without a password.

For those who are rich, there is no need to set a password on a credit card. Whoever dares to steal it, the bank and the police are the first to let him go.

The black gold card of Charlie was sent to him by Stephen, and the password was set at the beginning. Because this card was rarely used, Charlie never changed the password.

When Stephen gave this card to Charlie, the password of the card was Charlie's birthday in the lunar calendar, and Elaine guessed it by mistake.

Now, Elaine wants to take away all the money in this card.

Because Dongtao did not have the authority to check the identity of the card owner, he could not determine who Elaine was. Moreover, out of respect for the owner of the black gold card, he could only do business.

Thinking of this, he complimented: "Are you sure you want to transfer 21.9 billion to this ICBC card, right?"

Elaine said impatiently: "I'm sure, what are your ink marks? Hurry up!"

Dongtao was taken aback and nodded hurriedly and said, "Okay, I'll help you handle it!"

Afterwards, he immediately entered Elaine's account on the computer.

After confirming that it was correct, he clicked Confirm, and then said to Elaine: "Please enter your password again to confirm."

Elaine can't wait to enter the password.

Chapter 814

Dongtao said immediately: "I am reminding that the money has been transferred out."

Elaine hurriedly turned on the phone, opened her mobile bank, went in and took a look, and asked in surprise, "Why haven't it arrived?"

Dongtao hurriedly said: "Don't worry, this is 21.9 billion after all. The banking system has to repeatedly confirm such a large amount and report it to the central bank for the record, so it will take a while to get the account."

Elaine was a little impatient, and asked: "Are you f*cking bullshitting with me? Have to wait? How long will it take?!"

Dongtao said: "This is uncertain. If it is fast, it will take tens of minutes, if it is slow, it will be up to one working day."

Elaine said angrily: "Why is it going to take so long! Let it be faster, or I will let you Citibank fire you!"

Dongtao said helplessly: "This is not something I can control, it's the central bank's decision. Even if you go to the court to sue me, I can't help it..."

Elaine saw that Dongtao was indeed unable to affect this speed, and said angrily: "I knew it was so slow. I would transfer a million first, and then transfer the rest. I am really mad at myself now!"

Dongtao hurriedly said, "You can wait here for a while and have a look."

She was already scratching her heart at this time.

21.9 billion!

She felt uncomfortable when the account arrived one second late.

But she has no other way, she can only wait.

So she said coldly: "I'm waiting here, go and pour me a cup of coffee! Want the best one!"

Dongtao hurriedly said: "I'll go and pour it for you!"

.....

At this moment.

After Charlie came out of the kitchen, Jacob waved at him, smiled and said, "Good son-in-law, come sit down and have a cup of tea."

"Okay." There was no one at home, and Charlie didn't be polite with Jacob, so he sat directly in front of him.

Jacob hurriedly poured him a cup of tea, and said with a smile: "Oh, thanks to your blessing, I have the opportunity to sit in this big villa and drink tea. Come and taste it."

Charlie nodded, smiled and said, "Thank you Dad."

After speaking, he picked up the teacup and took a bite, shaking his head secretly.

Jacob really didn't have much money, and he lived relatively cheaply. The tea was worth up to three hundred a kilogram, and he still enjoyed drinking it.

Jacob smiled and said at this time: "This tea is a good thing. I secretly bought it from the granddaughter of a tea farmer on WeChat. It was 5,000 a kilogram. I was not willing to buy more, so I bought two taels. I usually don't want to drink it. "

Charlie asked in surprise: "The tea farmer's granddaughter? It's not the grandfather who is sick and has no money to see a doctor, and sells his top-quality tea cheaply?"

"Oh, how do you know?" Jacob smiled and said: "Good tea is also to be picked up, and the opportunity is rare. If you drink it well, I will get you some when I look back."

Charlie sighed helplessly, and said, "Dad, you have cheated people. Those are all routines, not true."

"How is it possible?" Jacob said with a serious face, "I'm so good with little girls! There are still many videos and photos in the circle of friends."

Charlie smiled and said, "It's all fabricated fake materials. Maybe it's a big guy who is talking with you."

When speaking, Charlie also secretly thought in his heart that Jacob had indeed had a hard time, he had never seen any good things.

The tea that he drank with his father when he was young was not sold by two pounds, but by grams, and no tea was cheaper than gold.

However, this kind of good thing, father-in-law must have never tasted it. It seems that he has a chance to make some good tea for him, so that he will also have a long experience.

At this moment, his mobile phone suddenly received a text message.

“Dear Mr. Charlie, your black gold card account was successfully transferred out of RMB 21,900,000,000.00 at 15:02 today.”

Charlie frowned when he saw this text message.

Chapter 815

Charlie, who had always been calm, couldn't help being dumbfounded when he saw this short breath!

In his Citibank Black Gold Card, there are a total of a little over 21.9 billion in deposits.

Among them, when Stephen first sent the card, there were 10 billion in it;

Then he pitted Kobayashi Pharmaceutical twice. The first time he pitted Kobayashi's president Masao Kobayashi for 10 billion. After his death, Masao Kobayashi pitted his second son for a billion;

A few days ago, Mr. Song gave him another one-billion-dollar card. He had nowhere to deal with it, so he put the money into this card.

The total revenue is 22 billion.

But I didn't spend a lot of money, so in total he still has 21.9 billion plus tens of millions of change.

Now they were transferred away at 21.9 billion. Who did it? !

The first thing he thought of was the Wade Family.

Could it be that he was reluctant to return to Wade's house for so long, and that Wade's family took back the money in his card?

Then the big family won't take away his own money, right?

Wade family is unlikely, then it might be stolen!

However, the black gold card is said to have very powerful chip encryption and the possibility of forgery is extremely low, so it is possible that the card has been stolen!

Thinking of this, he immediately put down his teacup and walked to the second floor.

Jacob hurriedly asked, "Charlie, where are you going? Great tea, go after drinking?"

Charlie waved his hand: "Dad, I have something urgent to deal with. I will get you some real good tea to taste."

After speaking, the person ran up the stairs.

Jacob sighed and sighed: "Hey, this kid, you don't know how to drink such good tea. What kind of real good tea can you make for me? Don't let people fool you and burn you up."

Charlie rushed back to the room at this time, the first thing was to look for his black gold card in his coat.

Some coats, sure enough!

d*mn it.

This is a bit of a pull.

The security of Tomson Villa is so good, who can steal his card?

Besides, if they steal the card, they don't know the password! The password is his birthday, even if they try, it must be someone who knows him before they have the chance to try it out...

At this time, a familiar face suddenly popped out of his mind.

Elaine!

It's definitely her!

When Charlie thought of this, his expression immediately went cold.

“Okay, you usually make a bad habit, just forget it, and steal the money?”

The point is, she is so bold! 21.9 billion, she is not scared after seeing it? Her heart is so dark!

Thinking of this, he immediately took out his cell phone and called Stephen.

On the other side of the phone, Stephen’s old and steady voice came: “Mr. Wade what’s your order?”

Charlie said coldly: “My black gold card is stolen, and the money inside is also taken away.”

Stephen hurriedly asked, “Mr. Wade how many are there in total?”

Charlie said: “21.9 billion!”

“So many?!” Stephen was surprised. It didn’t take long for the 10 billion to be given to Charlie, how could it become 21.9 billion so quickly? The speed of making money is impressive, Mr. Wade is too awesome, right?

However, he was not overly surprised, but hurriedly and professionally judged: “So much money is transferred out, the central bank will definitely check it first. That is to say, the money is now out of your card to the central bank’s settlement center. After the approval, the money will be released to the other party. The amount is so large that it will probably take at least an hour. Mr. Wade how long has your money been out?”

Charlie said: “A few minutes, not too long.”
