## Chapter 2601

Claire's words caused Charlie's heart to feel warm.

Over the years, Claire has given him too much tolerance. Even when he was accused by thousands of people a few years ago, Claire never complained about him, let alone the idea of divorcing him.

Now, Claire said this from the bottom of her heart, which moved Charlie even more.

However, he knew very well that Claire did not know his identity, his current wealth, and the ocean transportation project he planned.

He estimated that Claire should feel that he wanted to be in a small-scale studio when he started his own business, and he didn't know that what he wanted to do was a large project with a unit of tens of billions.

Charlie didn't want her to worry too much, so he smiled and said, "Okay, just listening to my wife. I don't want to start a business anymore. Concentrate on doing the work at home!"

Claire breathed a sigh of relief, and said with a smile: "Okay, anyway, my current career has improved a lot, and I will be responsible for raising the family in the future."

Charlie said earnestly: "But don't be too tired, wife. The Emgrand Group project is too big. If you are too busy, you should do less and subcontract it to other companies."

"That won't work." Claire said seriously: "Vice-Chair Doris gave me such a big project because of her trust in me. How can I fail others? I must do my best for this project. "

After speaking, she checked the time and said: "I have to go out quickly. If you lazy pig still doesn't want to get up, just sleep for a while."

Charlie sat up, stretched his waist, and said, "I won't sleep anymore."

Claire nodded and said, "Then you go wash first, I'm going to change my clothes."

Charlie hurriedly said, "Don't forget to leave after eating."

Claire waved her hand: "I won't eat at home anymore. I was wasting time. I will order a meal and send it directly to the company. The meal will arrive when I arrive."

Charlie sighed helplessly: "Let's do it, pay more attention to yourself, don't get tired."

Claire smiled and said, "Don't worry, I know."

Charlie remembered the matter of adding ingredients to the millet porridge for Meiqing yesterday. Suddenly he had an idea and blurted out: "By the way, my wife, the doctor Shi has a prescription to relieve fatigue, or I will go back and give it to you. How many sets can you eat?"

Claire's expression was a little worried, and she said diligently, "Is it traditional medicine? I am most afraid of taking traditional medicine. It is really bitter, can I not have it..."

Charlie hurriedly said, "Don't worry, it's not a decoction, it's a honey pill made into small particles, just sweets."

Claire breathed a sigh of relief and said with a smile: "That's good... as long as it is not boiled into a decoction."

Charlie nodded: "Then I will go to the clinic of the genius doctor Shi, in a moment, and I will give you a little to come back. Then you will not be so tired after eating a little every day."

"Okay." Claire smiled sweetly: "Thank you husband, I'm leaving now!"

Claire drove away from home in a hurry, Charlie took out his mobile phone after a brief wash and called Doris.

Regardless of whether Doris is allowed to do the ocean shipping business, he needs Doris to give him some advice.

After all, she is a professional management talent, and she is more experienced than Charlie in this regard.

After the call got through, Doris's voice came: "Master, why are you calling me so early?"

Charlie asked her, "Doris, are you still in Hong Kong?"

"Yes." Doris said: "The matter here in Hong Kong is coming to an end, and it is almost over. If you need me in a hurry, Master, I can fly back at noon as soon as possible."

## Chapter 2602

Charlie said, "It's not necessary. I'm calling you because I want to ask you something."

Doris hurriedly said, "Master, you are too polite. If you have any questions, just say, I will try my best to answer you."

Charlie said: "I am interested in trying the ocean shipping industry. It just so happens that the Ito family in Japan can provide a lot of resources and help, and I have more funds in my own hands, so I want to find opportunities to do this business."

"But the problem now is that I can't find a suitable person to take charge of this project. I want to ask if you have any good ideas, or if you can bring this business up temporarily;"

"If you can, I will never be stingy with salary, and I will definitely give you a satisfactory account."

After listening, Doris said seriously, "Master, if you need, I can do anything for you..."

Speaking of this, Doris hesitated for a moment and then said: "But for a large project like ocean transportation, if you do it casually, the start-up capital will cost tens of billions. It really matters..."

"Although I did a good job at Emgrand Group, I am mainly responsible for commercial real estate development projects. One is that I don't understand the ocean shipping industry, and the other is that I don't understand international trade rules."

"Especially I don't understand the import and export trade regulations and tax-related policies of other overseas countries. If you ask me to deal with this project, it may take a

long time for me to understand all these conditions clearly, and then build the team. In this case, the preliminary preparation work may take several years...”

When Charlie heard this, he already understood what Doris meant, so he asked her, “Then you suggest that I find a professional counterpart?”

“Yes.” Doris explained: “Ocean shipping industry needs to connect with mainstream trading countries in the world.”

“The closest ones are Japan and South Korea, followed by oil-producing countries in the Middle East and Australia, and then Europe and North America;”

“This is just what I’m talking about. Although other second-tier countries have a small single demand, the total amount is still very huge;”

“If you want to do this business, you must first have a good understanding of the policies of these countries, and you must have a certain amount of local resources to quickly connect with the local government and ports.”

“So, it must be done by very professional people.”

Charlie asked her, “Do you have any talents you can recommend?”

“This...” Doris thought for a while and said, “To be honest, I really have a very ideal candidate, but I don’t know if he wants it or not.”

Charlie hurriedly said, “Who is it? If it’s really suitable, I can talk to him.”

Doris said earnestly: “The professor I was studying in the United States, he resigned some time ago and came to Aurous Hill and teaches at Aurous Hill University of Finance and Economics.”

Charlie was startled and blurted out, “Is the person you talking about called Pollard Watt?!”

Doris exclaimed, “Master, do you know Professor Watt?!”

Charlie smiled and said, "I just met him last night, but I haven't had much contact with him."

Doris hurriedly said, "That's great! Professor Watt is really amazing!"

"He is a high-achieving student in economics and management. Before he went to teach at MIT, he first worked in Silicon Valley and then went to Wall Street. The companies he worked for were all Fortune 500 companies, and the positions were very high."

"He has an impeccable work experience for 20 years. Later, because of a little change in his family, he resigned from Wall Street and went to teach at the Massachusetts Institute of Technology."

While talking, Doris continued: "Master, based on what I know about Professor, there should be no second manager with such a high level in China!"

"Moreover, he has worked in multinational corporations overseas for many years, flying around several continents all the year-round, knowing the policies of the world's major trading countries well, and there are many local resources everywhere;"

"If he can be persuaded to join, then your business will be able to start in the fastest time and maintain rapid growth!"

## Chapter 2603

Charlie really didn't expect that Pollard Watt, who he just met yesterday, is still a great man in the field of economic management.

While he felt that there was nowhere to be found by breaking through the iron shoes, and it was all effortless to get it, he not only sweated for his old girlfriend.

He naturally knew, um, the feelings of father-in-law Jacob towards Aunt Meiqing? It came from the heart.

But in the final analysis, the old man has a cowardly character, and he is always suppressed by Elaine's aura. While thinking about renewing the relationship with Meiqing, he has no courage to divorce Elaine. If this continues, he and Meiqing simply cannot have any future together.

But Pollard Watt is different.

This man is not only highly educated and capable, but his appearance and temperament, and even living habits are also far superior to Jacob's, and he does not have the shackles and fetters of Elaine. If he really launches a fierce offensive for Meiqing, then Jacob's winning rate will definitely be greatly reduced.

Thinking of this, Charlie couldn't help but shook his head. Jacob's future was always in his own hands. If he still didn't dare to take a step forward, then he passed happiness and couldn't blame others.

Now, his top priority is to find a way to have a good chat with Pollard and see if he can be used as his own.

Therefore, he immediately sent a WeChat message to Doris and said, “Doris, you can make an appointment with Professor Watt for me, and say that I really want to see him and see when it is convenient for him.”

Doris quickly replied: “Master, do you want me to tell Professor Watt your true identity? Or tell him your current public identity?”

Charlie thought about it for a moment, and said, “Just tell him directly, just say that your boss wants to see him.”

Doris replied: “OK, young master, I see.”

Charlie waited for about ten minutes, and Doris replied: “Master, Professor Watt said that the time period from 9:30 to 10:00 is OK. If you want to see him, you can go directly to his office.”

“Okay!” Charlie said with a smile: “Then I will be there on time at 9:30!”

.....

Just as Charlie was about to go to Aurous Hill University of Finance and Economics, Dan and his great-grandson Mike had already driven to the gate of Aurous Hill University of Finance and Economics.

The taxi driver said, “Two, this is Aurous Hill University of Finance and Economics, but taxis are not allowed to enter here. If you have something to do, you can walk in first, and I will wait here.”

“Okay.” Dan smiled slightly and said, “Mike, let’s go in and move around.”

Mike nodded, got out of the car to help the old man open the door, and then helped the old man out of the car.

Afterwards, Mike said to the driver, “Master, leave a phone call. I will contact you later if I have anything to do.”

The driver hurriedly said: “Boss, don’t have to be so troublesome. I’ll be waiting for you here. Anyway, you must enter through this door or exit through this door.”

When Mike thought it was the case, he nodded and stepped into the gate of Aurous Hill University of Finance and Economics with Grandpa.

As soon as he entered the door with his forefoot, he heard the sound of the engine speeding up behind him and even heard the tire slipping due to the rapid start of the vehicle.

He turned his head subconsciously and saw that the taxi that he had spent 2,000 yuan from his wallet has disappeared.

## Chapter 2604

Mike was extremely angry, and blurted out, "Hey! You b@stard, stop!"

Dan smiled, patted him on the shoulder, and said earnestly: "It's a good sign to avoid disasters. Don't be so angry."

Mike said angrily, "Grandpa, this guy is too bad! I gave him two thousand, and he only dropped us here and ran. It's just such a stretch of road. A normal taxi definitely costs less than fifty dollars. Money, if you let him run away like this, we don't know how many people will be pitted in the future! No, I have to call the police!"

Dan nodded and said, "That guy is really too much, but you don't need to be familiar with him. Remember, the most precious thing in a person's life is time. The more successful a person is, the more time is worth. And the more people who fail, the less time it matters."

As he said, Dan asked him again: "Then if you call the police now, then we have to wait here for the police officer to come over or take the initiative to go to the police station, and then we have to explain the ins and outs of the whole thing and remember that person's characteristics and the license plate number. After the police officers catch him, they will find us to identify and make a record. This time, we will have to wait at least half a day at least."

"Don't say anything else. In the United States, if anyone asks me to see Feng Shui or divination, he will pay me fifty thousand dollars an hour, but the two of us will spend two thousand in this kind of people's time. Isn't it boring to ask yourself?"

Mike couldn't help saying: "Grandpa, I want to call the police to arrest him, not for two thousand, but just to teach this man a lesson, let him know that this society must be

honest and following the rule of law! To a certain extent, prevent him from continuing to do evil.”

Dan waved his hand and said seriously: “Mike, since you are interested in the mystery of Feng Shui and hope to study this field in-depth, then you have to keep it in mind.”

Mike hurriedly asked, “Grandpa, what do I need to keep in mind?”

Dan said solemnly: “You must remember, don’t be nosy, remember one sentence: Every family cleans up the snow, and don’t care about others’ frost!”

Mike was dumbfounded and said, “Grandpa, isn’t this a satire?”

“Ironic?” Dan smiled and said, “This is the true wisdom of the ancestors!”

“Sweeping the snow in front of your door is justified and understandable. No one can accuse you of sweeping the snow in front of your house.”

“But if you really manage other people, then I ask you, who do you want to manage?”

“If you kindly helped your neighbor next door, then the next-door neighbor will ask you, why don’t you care about him?”

“If you let him down for a while, then these neighbors will also feel that you shouldn’t exclude him.”

“If this is the case, wouldn’t it be snow, you have to clean up the entire community and all the snow in front of everyone’s house?”

Mike was speechless.

Dan continued: “People like us who master the Feng Shui fortune, let alone overflowing with compassion!”

After speaking, Dan said again: “Like my grandfather, he was the best at seeing photos. If he walks on the streets of the capital, among the people coming and going, he can see at a glance who will suffer a bloody disaster in the near future. , Even the family break downs;”

“Sometimes, some people can save the life as long as he pulls the other person and clicks.”

“However, he can’t be sympathetic to control one by one. There are billions of people in the world. As long as you start to control, you will instinctively feel as if you are responsible for everyone. Then how can you manage it?”

“It’s like we go out to show others Feng Shui, and on the way to the employer’s house, we might see dozens or hundreds of murderous houses. If we go and talk about them one by one, will it make sense? Will you be a sane person?”

“So in our business, we must remember that as long as we go out of our own door, we only care about the life and death of the employer, and no one else should take it to heart. This is the “Tao” in the mystery of Feng Shui. When will you really understand? With this, when will it be considered that you have truly entered the door!”

# The Charismatic Charlie Wade Chapter 2605

## Chapter 2605

Mike is young and vigorous and has a strong sense of justice in his bones, so when Dan Mai said this, he was instinctively unacceptable.

But when he settled down to think, he felt that Grandpa's words really made sense.

The biggest difference between feng shui masters and ordinary people is that they can predict a person's future good or bad through face, feng shui, and divination.

For ordinary people, this is definitely a kind of ability that can be called against the sky.

And the more people who master this skill, the more they must resolutely put an end to the heart of the Virgin because once they open sympathy for others, they will drag themselves into the quagmire.

He finally wanted to understand why in domestic and foreign film and television dramas, those professional killers had to collect money to do things for others.

Even if he really sympathizes with the other party and is really willing to risk his life to avenge the other party, he still has to symbolically charge the other party a dollar and a penny.

This is their professional ethics, unshakable professional ethics.

As for the root cause, this is what Grandpa said. They only see the employer and only serve the employer. The life and death of other people have nothing to do with them.

This dollar, or a penny, is the key to distinguish ordinary people from employers.

Without this dollar, or a penny, there are too many poor people in the world, and there are too many poor people who have been driven to ruin. Who can help?

After thinking about this level, he said to Dan with a pious face: “Grandpa, I understand what you said, and I will remember your teachings in the future!”

Dan nodded, and said very seriously: “If you can understand this truth, it would be better.”

As he said, he couldn't help sighing: “The Mai family has been among the top five feng shui families for thousands of years. However, since my father decided to move his family to the United States, your grandfather and your father were born in the United States one after another. Western culture is corroded so badly that the two of them don't have any in-depth research on Feng Shui mystery, and they don't have the potential to become a master. If you don't realize the Tao before I die, then our Mai family will definitely start to disappear from The Feng Shui Five Masters line...’

Mike quickly said, “Don't worry, grandpa, I will definitely go all out to keep the reputation of the Mai family!”

Dan nodded slightly, sighed softly, and said, “Hey, nothing more, let's not talk about it yet. Let's take a good turn in this school first? Let's see if there are any special gains.”

Aurous Hill University of Finance and Economics is a relatively small university. The total number of teachers and students in the school is just over 10,000, which is indeed much worse than a comprehensive university with a start-up of 30,000 or 40,000.

However, although there are few people, the floor space is really not small.

Moreover, although Aurous Hill University of Finance and Economics is inferior to Aurous Hill University in comprehensive rankings, its economic management discipline has always been ranked among the best in the country, and it is considered to be the most outstanding professional discipline.

Therefore, many wealthy talents will send their children here so that they can learn economic management and better take over the family business in the future.

In fact, before Wu Qi's accident, his elder brother Roger Wu and Regnar Wu still liked him more.

Although Roger is the eldest son, he belongs to the kind who is relatively ordinary in all aspects, and there is nothing outstanding.

Originally, Regnar had high hopes for him and sent him to study in the United States, but who would have thought that after Roger arrived in the United States, he would mix with the rich second-generation, driving sports cars, parties, drinking and picking up girls every day, all day drunk.

Later, Regnar realized that not every child can become a talent when sent abroad to study.

In fact, a large part of these children is completely ruined without parental control after going abroad.

Only a very small number of self-disciplined children can maintain themselves and be promoted in the alluring environment overseas.

Therefore, in order to prevent Wu Qi from making detours, he did not let him go the old path of Roger, but let him get admission in the college entrance examination through his own efforts and enter the Aurous Hill Institute of Finance and Economics.
