## Chapter 2611

When Pollard said this, he couldn't help but sigh: "Sometimes the adult world is like this. Everyone has a very good relationship, but because the distance is too far and each has its own life, it may be difficult to meet for three to five years. "

Immediately, he said with a serious face: "Although my love and I rarely met with your mother later, our relationship is still very deep. When your mother was alive, my love and I regarded her as a close friend. , It's a pity that such a good person as she died young..."

Hearing this, Charlie couldn't help feeling sad deep in his heart.

The people around their parents spoke highly of them, but unfortunately, they knew little about the deeds of the two of them.

In fact, Charlie was just a kid who had just entered the second grade of elementary school until his parents died.

Children of that age have a very simple and superficial perspective on problems and the world. He only knows that his parents loved him very much, but he does not know what kind of person their parents are.

Sometimes, Charlie envied Sara's father Philip.

Because he has known his father for much longer than himself.

He also knew more about his father than himself.

Now, he admires Pollard very much.

Because he felt that Pollard knew his mother better than himself.

Seeing Charlie's look lonely, Pollard couldn't help but stepped forward and patted him on the shoulder and comforted: "It has been so long, so don't be sad about it anymore. Your mother's life in the first two decades is really too much. Brilliant, our classmates at the time said that there must be a lack of such a good person around God, so she was sent to heaven early."

Charlie nodded lightly.

Regarding parents, apart from sadness, he still has regrets in his heart. The most regrettable thing is that he, as their children, lacks enough understanding of their lives.

Pollard smiled at this time and said, "Let's talk about you. How did you become the chairman of the Emgrand Group now? Didn't you return to Wade's house?"

Charlie smiled bitterly and said, "To be honest, I have lived in Aurous Hill for nearly 20 years, and worked as a son-in-law in the Willson family for four years. The Wade family only found me last year."

"As for the Emgrand Group, it was also a gift they gave me. In addition to the Emgrand Group, they also gave me 10 billion in cash as compensation, but these don't seem to make much sense to me. The Emgrand Group's money, I haven't moved anything yet. As for the 10 billion, I only paid the medical bills to the savior at first and bought a car and a chain of necklaces for my wife. Then I didn't spend the money."

Speaking of this, Charlie sighed and continued: "But it doesn't make sense to say this. Although I don't want to take the Wade Family's money, I have to admit that if the Wade Family doesn't give me these, I might still be a wasteful son-in-law accused by thousands of people and cast aside by thousands..."

Pollard sighed and said, "You have suffered so much for so many years. In fact, I would say something to the point. If your parents are still alive, you must be the richest person in the world, and even though I don't know your father, but I have also heard of some of your father's deeds. Back then, the Wade family relied on your parents to do everything right away to get the situation as it is today!"

“I can say very responsibly that at least 50% of the current assets of the Wade family are attributed to your parents, and what the Wade family gave you is not as good as one-tenth of the Wade family’s assets. After all, They give you less!”

Charlie smiled bitterly and shook his head: “It doesn’t matter anymore. I actually want to create a world on my own. After all, I still don’t know whether the death of my parents back then has anything to do with the Wade family. So I even hope to accumulate enough strength so that I can surpass the Wade family and even the Su family in all aspects. In this way, once the murderer of my parents is found in the future, I will be confident enough to make them pay the price.”

### **Chapter 2612**

Pollard suddenly realized that he blurted out, “That’s why you want to do ocean transportation?”

“Yes.” Charlie nodded and said, “I don’t know how much you know about the Su family. Back then, the Su family and my father didn’t deal with it very well. The Su family even set up an anti-Wade alliance and united many other families. Come to fight my father together, so the Su family is also an enemy in my eyes. Now that family’s ocean transportation business is completely stranded. I think it is a good opportunity for me to take advantage of it. So I moved this idea.”

After speaking, Charlie said again: “I originally wanted Doris to take over this business, but he told me that doing this business requires a very thorough understanding of international trade and the laws and regulations and tax policies of major trading countries in the world. Understand, she feels she is not competent, so she recommended you to me...”

“It just so happened that we just met last night, so I came to visit today and wanted to ask you to come out and help. I didn’t expect you to be my mother’s former classmate.”

Pollard was silent for a moment, and said, “Charlie, now you choose ocean transportation as your entry point. This judgment is very correct.”

“In the future, the proportion of global trade will definitely become larger and larger. More and more large-scale manufacturing companies have begun to engage in global supply chains. Take the automobile industry as an example. A car is used in Brazil and Australia. Steel made from iron ore, rubber originally produced in Southeast Asia, high-precision electronic devices and control modules from Virtue and Japan, and then combined with China’s other upstream and downstream industrial chains and labor.”

“Among them, most of the transportation of raw materials, spare parts, and complete vehicles rely on shipping.”

“Not to mention the automobile industry. Even clothing is now a global supply chain. You can buy a coat for two to three hundred. You may use cotton from the United States, fabrics from China, The zippers made in Japan will then use labor from Vietnam, Bangladesh, and Romania. Finally, they will be shipped from these producing countries to the country and sold to you.”

“With more and more global supply chains like this, the ocean shipping market will get better and better. The Su’s license has just been revoked, which is the key to speeding up the reshuffle of the domestic ocean shipping industry.”

Charlie nodded and asked, “Professor Watt, I don’t know if you are willing to do me this favor? Feel free to mention the treatment!”

Pollard suddenly felt melancholy, sighed, and said: “Charlie, let me tell you heart-wrenching words, if I don’t give up my job, then I might now be the CEO of a Fortune 500 company, or even Like Tim Cook, Apple’s CEO, who made more than 100 million U.S. dollars a year easily, the reason why I gave up my high income and chose to teach in college was that I swore before my lover’s grave that I would only teach in the second half of my life. No longer in business, no longer running for money...”

Charlie asked in surprise, “Professor Watt, your lover has passed away?”

“Hmm...” Pollard sighed, “Hey, back then, the so-called entrepreneurial ambition was too strong. All the classmates around us became executives and even partners of large groups, and many others had successfully started their businesses. , Becoming billionaire rich man, I was not willing to be behind others, so I work very hard, staying at home for less than a month all year round...”

“At that time, I was flying around the world in first-class every day, and I didn’t have time to care about the lives of my wife and children.”

“Once, when I was on a business trip in Japan to discuss a project, my wife called and told me that she always had headaches recently, but I didn’t have time to take care of it. I just let her take some ibuprofen or go to the hospital to see a doctor.....”

“But who would have thought that after half a year, she would leave me because of a malignant brain tumor...”

Having said that, Pollard’s eyes were red, and he reproached himself: “From the day she was diagnosed, I realized the fatal mistakes I had made in the past so many years.”

“Money is important, but money is by no means a panacea. Money can’t replace love, family affection, or health.”

“No matter how much I earn, I can’t change my lover’s life, nor can I change my daughter’s true forgiveness to me...”

“So at that moment, I swear to her that from now on, Pollard will only teach and educate people, and will never become a slave to money!”

## Chapter 2613

When Pollard said these words, Charlie knew in his heart that he had no possibility to persuade him to cooperate with him.

Moreover, he also understands a truth, called “A gentleman is not too difficult for others.”

He didn't make any further efforts, and said very seriously: “Professor Watt, I understand what you mean, I'm sorry, I was too rash.”

Pollard hurriedly waved his hand and said, “I don't blame you, it's my own heart knot. Since I have promised my deceased wife, I must abide by my promise and not be ambiguous on this issue, so don't blame me for this. “

Charlie hurriedly said, “Why? Professor Watt, I understand your decision 100%.”

Pollard smiled happily, then remembered something, and said to Charlie: “Charlie, in fact, if you want to guarantee an absolute advantage in front of the Wade family and the Su family, there is no need to be so troublesome to engage in ocean transportation by yourself.”

Charlie asked curiously, “Professor Watt, what do you mean?”

Pollard said seriously: “I think you can go to the United States to find your grandfather. With him as your backing, you don't have to worry about the Su family or the Wade family, because even if the Su family and the Wade family are tied together, it's not your grandfather's opponent.”

Charlie was dumbfounded and asked, “Professor Watt, my grandpa... really has such a strong ability?”

Pollard said earnestly: “Strong? More than just being strong! There are three hugely rich families in the world, each of which is rich and powerful, one is the Rothschild family in Europe, the other is the Saudi royal family in the Middle East, and the other is the Chinese American. settle down!”

He said, “Do you know how much wealth your mother has created for An?”

Charlie shook his head and sighed with shame: “You tell me, Professor Watt, I don’t know much about Grandpa’s family. One is that I was too young back then. Although my mother took me to Grandpa’s house several times, I’m The public family doesn’t know much about it. Another thing is, in my impression, the relationship between my mother and my grandpa doesn’t seem to be very good.”

“Yes.” Pollard nodded, and said, “Back when your mother and your dad came together and wanted to go back to China with him and marry into the Wade family. Your grandpa was very dissatisfied because your grandpa couldn’t look down on it. The An family felt that the Wade family was not worthy of being his in-laws.”

As he said, Pollard said seriously: “Actually, your grandfather is not wrong. The Wade family was really the same back then. Although it was very good in China, it is really impossible to get on the stage when looking at the world.”

Charlie asked curiously, “Then what business does my grandfather’s family do?”

Pollard said with emotion: “Your grandfather’s home, you can do almost everything, you can think of the industry, the settlement should have a certain degree of involvement, but the settlement is extremely low-key, they have thousands of companies around the world, but these On the surface, the company has nothing to do with An, and the An family rarely show up on their own. This is the same as the Rothschild family.”

“The current industry of the Rothschild family is not too much to outsiders, but the key is that the Rothschild family has more than one bank and holds many shares in disguise in many banks.”

“Owning a bank is tantamount to controlling finance, and almost all companies now need to finance and go public through banks.”

“Therefore, a large family like this will naturally invest in many start-ups and listed companies through a large number of venture capital funds and stock funds. Almost all

of the world's top 500 companies in Europe and the United States have Rothschilds. The shares of the German family are just that their shareholding structure is designed so secretly and ingeniously that outsiders can't see it at all."

Having said this, Pollard said with admiration: "The operating route of An is similar to that of the Rothschild family. So, how much money your grandfather has, maybe he doesn't know how much money he owns, and I have no way of knowing. ."

"However, I know that the size of the venture capital fund that your mother established in Silicon Valley back then exceeded 10 billion U.S. dollars thirty years ago."

"Other funds want to raise so much money. I don't know how many wealthy individuals or even retail investors are required to raise funds. However, all the funds that your mother used back then came from An!"

"Moreover, over the years of development of Silicon Valley, I believe most people have heard of it. A large number of Fortune 500 was born here, and a large number of top IT rich were born here.

# The Charismatic Charlie Wade Chapter 2614

## Chapter 2614

“Google, Apple, Yahoo, Cisco, Oracle, Tesla, and other top high-tech companies have all stepped out of Silicon Valley.”

“To this day, their market value has increased tens of thousands of times, and the incremental space is extremely huge!”

“Any stockholder, if he bought Apple’s stock 20 years ago, his current income would be more than 300 or nearly 400 times.”

“But did you know that your mother invested in Apple with the venture capital fund she set up before you were born!”

“At the time, Steve Jobs treated her as a guest, and when Apple’s market value was only a few billion dollars, she used hundreds of millions of dollars in exchange for 10% of Apple’s shares!”

“Now, Apple’s market value is more than two trillion US dollars, equivalent to more than 15 trillion yuan!”

“The 10% of your mother’s investment back then, after a round of dilution and reduction, there should now be about 6%!”

“How much is it converted into RMB? It’s almost 900 billion!”

“But your mother not only invested in Jobs’ Apple, but she also invested in another company at Stanford, Larry Page.”

“Larry Page is the founder of Google. Google search, Google Maps, Android phone system, and the well-known smart Go robot Alpha Dog some time ago are all products of this company.”

“Now the market value of this company is more than one trillion U.S. dollars, and your mother’s venture capital fund holds more than 10% of the company’s shares!”

“So, the income your mother received from investing in these two companies alone has exceeded the sum of all the assets of the Wade family. If all the investment income of your mother’s venture capital fund in that year is included, the Su family and Wade I’m afraid they are not opponents, let alone the assets of the entire An.”

Charlie was already stunned when he heard this!

Many people know or have heard of the miracle of Silicon Valley back then, and Charlie is no exception.

Numerous high-tech companies were born here, and there are not enough companies with a market value of more than tens of billions of dollars. There are also several companies with a market value of more than 100 billion.

Back then, anyone who could take money to invest in Silicon Valley, close his eyes and invest casually, could also invest in a lot of companies with unlimited potential.

The power of investment is that the upside is beyond imagination.

That year, Sun Zhengyi of Japan invested US\$20 million in Alibaba, making a full US\$50 billion;

The South African Press Group in South Africa invested more than 30 million U.S. dollars in Tencent Group, making a full \$130 billion!

This is where the charm of investment lies. By seizing a potential stock, you can achieve a net profit of several thousand times.

These are classic investment cases familiar to the Chinese people.

But Charlie really did not expect that his gentle, virtuous, and knowledgeable mother would have such a brilliant investment history!

# The Charismatic Charlie Wade Chapter 2615

## Chapter 2615

At this time, Pollard sighed and said with emotion: “Your mother’s successful cases back then will not be able to be said at all. If you have the opportunity to go to Silicon Valley, you can find the boss of a top global group and tell him your mother’s name is Margaret An, they will treat you as a guest and entertain you with the highest standard of etiquette...”

Charlie couldn’t help sighing, “If I hadn’t met you, I wouldn’t know these things about my mother...”

Pollard looked at him, smiled slightly, and said, “Your mother’s vision and long-term planning are beyond our reach.”

“Back then, we didn’t even understand your mother’s investment operations. Many of the companies she invested in did not seem to us to have any development prospects.”

“Just like Apple. When your mother invested in it, we all felt that this company had no future. At that time, there was no iPhone or even an iPod. Apple was already in a huge business dilemma.”

“At that time, your mom had returned to China with your dad and gave birth to you, and Jobs had just returned to take charge of Apple. Everyone thought that Apple was impossible to stand up, but your mom knew that Jobs was going to raise funds, and it was not far away. Came here, only talked to Jobs for an afternoon and decided to invest money in him.”

“This kind of forward-looking, more than 99.9% of ordinary people, when placed in the market, are absolute masters and absolute strategists!”

Speaking of this, Pollard smiled slightly and continued: “Even the Rothschild family, which has been in power for two hundred years, is in awe of your mother. You don’t know how much the Rothschild family hoped to marry the An family back then. ...”

Charlie nodded slightly, and he finally understood why his father, Changying, was able to fight the Rothschild family back and forth.

In fact, the strength of the Wade family is really not enough in front of the Rothschild family.

As Pollard said, the family property created by the Wade family’s hard work over the years may not be as good as the income that Rothschild can get by investing in a few companies.

In this case, the father can withstand the pressure of the Rothschild family, and the help and aura of the mother and even the mother’s family must be indispensable.

At this time, Pollard looked at Charlie and said seriously, “So, I sincerely recommend that you go to the United States to meet your grandfather. If your grandfather is willing to help you, neither the Su family nor the Wade family is worth mentioning.”

Charlie nodded, but still said very firmly, “Thank you, Professor Watt, but I still don’t plan to see Grandpa. I have never met him a few times, and after so many years, he is right. I may not have any family ties, and, as you said, he had always been worried about my mother’s marriage to my father, and maybe he didn’t treat me very much.”

Speaking of this, Charlie laughed at himself and said: “Although I have been just a poor pauper for many years, now I still hope to be able to go on step by step by my own ability, whether it is the Su family, It’s the Wade family or some other top family. If any of them needs to take responsibility for the death of my parents, then I hope I can rely on my own ability to defeat them all by myself!”

Pollard sighed when he heard what Charlie said, and said, “Charlie, I understand your thoughts and your determination, but with the cards in your hand, you want to do this, and It’s a long way!”

With that said, he added: "Ocean shipping is an asset-heavy project. The start-up capital maybe tens of billions of dollars. I advise you to be more cautious."
