

The Charismatic Charlie Wade Chapter 2726

Chapter 2726

Hamid said without hesitation: "Okay! Just follow these methods!"

After finishing speaking, he hurriedly asked again: "Brother, what suggestions and instructions do you have?"

Charlie said: "Besides, you still It is necessary to purchase a large amount of food and medicine immediately and store it in a dry and safe environment. For the first time, you must store a total of more than three years of rations!"

Hamid exclaimed: "Three years?! So many?! An adult person eats, at least two hundred kilograms of grain a year, for two thousand people, it would be 400 tons, and three years would be 1,200 tons!"

Charlie asked, "Then I ask you, how much is 1,200 tons of grain?"

Hamid thought for a while, and said: "The current market price is about three hundred dollars per ton of wheat, and 1,200 tons. Including the transportation cost, which is 400,000 dollars. The money is not much, but the point is this. How to store more food? And the food will not taste good after a long time."

Charlie said helplessly: "Now it is for you to engage in strategic reserves, not for you to eat fresh food every day!"

"Think about it, you first keep your three-year rations in your hands, and then purchase supplements according to the actual consumption of the year.

In this way, you will always have an extra three-year ration in your hand!

“And as long as the food is stored properly, it won’t go bad after three years. The climate in the Middle East is relatively dry and it’s easier to store, so you can use it every other year. A new batch of grain replaces the oldest batch.”

Using this method, you can guarantee that the food stored in your hand will not last more than three years.”

Once the opponent can’t beat you down, prepare to encircle you, or trap you to death, even if you can’t get any food in, you can still. After three years

Charlie concluded: “The principle of weapons, ammunition, and medicine is the same. You must make more arrangements and plan for cycle rotation. You must have strategic reserves in your hands, and you must always prevent the people fighting with you for a long time.

Hamid suddenly realized, and exclaimed: “Brother, I understand! This trick is amazing!

Charlie said helplessly: “What’s so wonderful, this truth, in China, everyone who has studied in elementary school basically knows that you have come to China to study at a loss, why didn’t you learn history of China?,

Hamid is embarrassed. He was ashamed and said: “Hey, I mainly wanted to go to China to get a gold plate. By the way, I could practice Chinese well, but other aspects were really overlooked.”

After speaking, he immediately said: “My brother, I understand what you mean. Yes, the main thing is to do everything possible to use those 100 million US dollars to strengthen defenses. Not only must the fortifications be strengthened, but the defense materials must also be adequately prepared. Don’t worry, I will arrange for people to purchase food, ammunition, and medicine, and also purchase some infrastructure equipment and building materials.

Charlie snorted and said, “In this case, the problem of defense and materials can basically be solved, but there is another problem that needs you to start acting immediately!

Chapter 2727

Hearing that Charlie said that he still has a problem that needs to be dealt with immediately, Hamid hurriedly asked: Brother, what problem are you talking about?

Charlie said: "The last time I came to your place, I found out that your base now all depends on diesel units Power generation.

"Yes. "Hamid said: "Diesel generator sets are fairly convenient to use, but the cost is a bit high.

Charlie said: "This is not a bit high, but rather very high. The cost is at least several times that of coal power!

Hamid said hurriedly: "I have been implementing the strategy of saving electricity here. Basically, I don't use electricity or use less electricity during the day. Electricity, ordinary soldiers only use electricity for lighting at night, so the overall electricity consumption is not high, and the cost is acceptable.

Charlie retorted: "You just didn't think about it for a long time. If you have a dozen or even dozens of fortifications in the future, then each fortification needs to be provided a corresponding power system to ensure the lighting, ventilation in the fortifications. Communication, even cooking, if this is the case, your diesel power generation will not be available at all, and the cost of fuel consumption will be very high when running at full power.

When Hamid heard this, he exclaimed: "Oh, !! I even forgot this! But I don't have any good solutions now. The government army can't provide electricity to me, and I have no ability to build a thermal power plant, so I can only use diesel generators to generate electricity. Question Charlie said: "Although your area does not have the possibility of developing thermal power, you can try to develop a fixed photovoltaic power generation.

The Middle East itself has sufficient sunlight, and although the construction cost of photovoltaic power generation is relatively high, the subsequent use cost is relatively low. Low maintenance cost. You only need to invest two or three million dollars at a time to build several independent power systems that are powered by solar power and stored by batteries. This way, you can completely get rid of fuel power generation and generate electricity every day. The electricity is enough for your two thousand soldiers to use normally."

'Photovoltaic power generation solar panels can be placed directly on the roof, or on the hillside near the internal reverse slope fortifications, which can also prevent enemy damage. Then put your diesel generator set in a safe cellar and only maintain it at ordinary times. Restart in an emergency to provide an emergency power supply. In this case, you are equivalent to having two power supply systems.

Speaking of this, Charlie said earnestly: "Anything, as long as it has something to do with war, you must make an emergency plan. This set is no longer good, and you should change to another set immediately. Only in this way can the chance of survival be improved. In my heart, most of your subordinates do not have any literacy level, and you have not studied the military systematically, so your team itself has a lot of shortcomings from the theoretical basis. If you don't force yourself to think more and study more, it is difficult to survive the continuous war.

Hamid also realized the importance of Charlie's words and immediately said: "My brother reminded me! I must strengthen my understanding of this aspect in the future and strive to hurry up. Improve myself!

After finishing speaking, I was busy again: "I will start to work on photovoltaic power generation as soon as possible. 100 million US dollars is a huge sum of money. Many problems can be solved easily. In the future, I will try my best to upgrade all aspects. The transformation must live up to the expectations brother!

Charlie is happy to see Hamid's attitude, but also a little relieved that he can now do not expect Hamid Monkey worship phase, able to survive had been regarded as the beginning of a success.

Then Charlie remembered something, and then asked him: "By the way, the people under your hand have never read any books. If you really want them to operate infrastructure equipment to build fortifications, can these people do it?

Hamid didn't even think about it. Said: "It's definitely not possible to rely on the group of people under my hands. When I mention this, they get angry. I asked them to dig a cellar. They dig a cellar, and they can dig a damn eight. I expect them to build permanent fortifications. Absolutely impossible. While

speaking, he smiled and said:'

But

I happened to know a friend who was in the construction industry in Iraq. He has many construction workers under his hand. In Iraq, he has long been used to the days of the war. As long as the reward is enough, they won't even go to the moon to dig a hole. I will contact him in a while and ask him to send someone over as soon as possible!

Charlie said: "It's good to have this relationship. In fact, the kind of permanent fortifications I'm talking about doesn't require too much cost, nor does it need too high technical content, you can find a way to find an old Chinese movie "Shangganling" to learn and understand this, for your current situation, this movie is definitely the best teaching material! Because you are also facing a highland war, and there is little difference in weapons and equipment. As long as you can make good use of the high ground, make good use of the tunnels, and the strategic advantages of the reverse slope to build fortifications, even if the enemy's artillery is extremely powerful, it will be difficult for them to defeat you!

Hamid did not hesitate and said: "Okay! I will find a way to download it over the satellite network and watch it thoroughly brother.

Chapter 2728

Charlie exhorted: "You must take this movie seriously with respect to understanding and learning!

Hamid blurted out, "Don't worry, my brother! I must study with humility!

Charlie said, "That's right, When the construction workers you are looking for arrive and start construction, you must choose some clever and alert civil soldiers from your team to help and learn, so that while you can speed up the progress of the project, you can also help Your subordinates learn construction experience, maybe after a period of time, you will be able to pull out an engineering company under your hand!

"Okay!"

Hamid said immediately: "I must find a way to form an engineering company!

Charlie again said: "This matter must be dealt with as soon as possible, otherwise they may not wait for the fortifications to be completed, and your entire army will be dealt with in one fell swoop. "

Hamid busy:" I will start to do it today, the fortifications before that, let me keep a low-key.

"Okay.

Charlie said with satisfaction: "

US \$400,000 for grain, US\$1 million for canned food with a shelf life of more than two years, and US\$1 million for medicines and consumables, and US\$3 million for photovoltaic power generation. , 20 million U.S. dollars to hoard guns and ammunition, and another 40 million U.S. dollars to build permanent fortifications. The remaining money can be used as a reserve and used flexibly. Basically, you can increase your overall strength by more than one level. Get it right!"

After Hamid thanked Charlie so much for his kindness, he hung up the phone and immediately began to study the specific plan of infrastructure construction, and at the same time coordinated various resources to prepare for the start. At this moment, Issac and Ruoli next to Charlie. They looked at him with shock.

Ruoli couldn't understand why Charlie suddenly instructed others how to fight a war on the phone. After all, this was a peaceful age. War was too far away from ordinary people, and she didn't know Charlie went to Syria.

As for Issac, he was shocked and speechless.

He was puzzled and couldn't help but wonder: "I really don't understand why the young master should help that Hamid? Does the young master want to develop in the Middle East in the future?!"

Chapter 2729

Charlie himself knows that a truly high-return investment is no different from gambling.

The risk is high, but once the bet is won, the profit is even greater.

Now that he makes a moderate investment in Hamid, it is almost equivalent to his mother's investment in those just-starting Internet companies in Silicon Valley.

Investing in them at this time only needs to pay a small price, and once they succeed in the future, they will be able to reap huge returns.

Although Hamid's armed forces are not a company, he is also a project with great development potential. If it succeeds, there will be inexhaustible benefits. Therefore, it is for him to invest more energy and give him more advice and support. Invest in the future.

Moreover, this investment is nothing more than a blood-saving pill and some strategic experience, and the 100 million US dollars of real money, which is all sponsored by the Su family.

Once Hamid is engaged, he will have a return period of at least several decades in the future.

So Charlie didn't explain to the two of them anymore, but said to Ruoli: "Ruoli, your current identity is still too sensitive to allow you to leave freely for the time being, and you are still wronged to stay here during this period of time.

Ruoli said without hesitation: "I will obey all the arrangements of the master!"

While speaking, Ruoli still had a sad look in her eyes.

Charlie saw the sadness in her eyes, and remembered that she had been here for a long time. If nothing else, she must have missed her mother very much.

Moreover, her mother gave birth to her in October when she was pregnant by herself, and then dragged her up. Now that she is unclear about her life or death, her mother must be very worried.

After thinking about it, Charlie opened his mouth and said: Ruoli, you have cut off contact with the outside world for so long, your mother must be very worried about you, right?

Ruoli looked very gloomy when she heard this, and nodded gently: "I miss her She must still be looking for me everywhere. If she doesn't find my body, she can't believe that I'm really dead.'

Charlie nodded and said, "Let's do it, you give me your mother's contact information, and I will let someone bring your mother to Aurous Hill. Then you can meet your mother.

Ruoli was immediately surprised. Asked:'My dear Master ! Do you really want me to meet my mother?!

Charlie nodded and said, "Of course, you will meet again, but you still have to make sure that the news of your life is not leaked to other people. At most, only your mother will be allowed. People know, so you can't let you take the initiative to contact your mother."

Otherwise, if your mother knows that you are alive, emotional, suddenly uncontrollable, and then tell other people, once the news leaks out, it will be very troublesome if it reaches the Japanese."

"With their perseverance to catch you, they will definitely apply for extradition to Japan for trial."

Of course, Ruoli understands Charlie's caution, so she hurriedly said, "Then, what do you think?

Charlie said. "I asked Mr. Issac to invite your mother over in the name of the Wade family, but I won't tell her about you. When she comes, I will take her to meet you directly. What do you think?

Ruoli said with red eyes: "My dear master, as long as I can see my mother, if she leaves, I will be satisfied! If it is really inconvenient, even just make a phone call."

Charlie smiled and said: "It is better to let your mother come to Aurous Hill without knowing you are alive. That way it will be more controllable. If she has enough time, she can stay here with you for a while. We can claim that she is here to talk to me about cooperation. After all, I heard that when you had an accident, Su family completely turned his face with He family. At this time she can come to me to talk about cooperation, and it will not arouse other people's suspicion.

Ruoli nodded and said excitedly: "Thank you, benefactor! Then everything has been arranged through hard work!"

Chapter 2730

Charlie looked at Issac and said, "Mr. Issac, you will remember Ruoli's mother's contact information in a moment, and first communicate with her in the name of the Wade family to see if she is willing to come over, if she is not interested in cooperating with me. Interested, tell her that the young master of the Wade family wanted to talk to her about dealing with the Su family together."

Issac hurriedly said: "OK young master, I will implement this later."

Charlie turned to look at Ruoli and said, "Ruoli, give Mr. Issac your contact information, and then go back to the room to rest."

"OK, Master!"

Northeast Desert City at this moment.

This small town is one of the coldest places in China.

Even though it is the end of the first month, the minimum temperature in Mocheng still reaches minus 17 -18 degrees, almost the same as the freezer compartment of the refrigerator.

During the coldest time of the winter, the temperature here can reach about minus fifty degrees.

The He family, one of the four major martial arts families in China, took root in this county-level city with a population of less than 100,000.

The ancestors of the He family were not native Mocheng people.

They originated from the Jiaodong Peninsula. During the Ming and Qing Dynasties, they were well-known martial arts families on the Jiaodong Peninsula. Their ancestors have always lived by playing darts and running martial arts schools.

However, at that time, the He family mainly practiced outside martial arts, so they were far from the level of the martial arts family.

Until the end of the Qing Dynasty, when the Jiaodong peninsula was turbulent, when the He elder and his family broke through the Guandong, by chance, they obtained a fragment scroll of the inner family boxing method.

The reason why it is said to be a fragmented scroll is mainly that nearly half of its content has long been lost. There are many defects in both the boxing method and the corresponding mental method.

But even so, after the He family moved to the northeast, they relied on this incomplete inner family boxing technique to rank among the martial arts family.

Moreover, the inner family boxing method that the He family got is very incomplete, so when the family is training hard, the internal force is often disturbed and the meridians are reversed. Once this happens, it can be severely injured for several months. The martial arts was completely abolished, and many younger generations even died as a result.

Therefore, the He family gradually came up with a response plan, which is to practice this internal martial art in extremely cold places as much as possible. The extremely cold weather helps to better control the internal force, thereby reducing the probability of accidents.

Because of this, the He family moved to the coldest desert city in China a few decades ago, and then took root here.

Ruoli spent her childhood and entire teenage years here, and her mother, Roma, had been living here since she broke her arm to save Zynn and rarely left Mocheng.

However, in the recent period, Roma has been running outside for almost half of the time.

At first, when Ruoli was arrested in Japan, she heard Zynn say that he would save Ruoli, and went to Japan to see Ruoli in person, so that she could rest assured to wait for her to return home.

Unexpectedly, the news that Ruoli was missing and that Old Su betrayed Ruoli soon came out.

Since then, Roma spent most of her time in Japan looking for Ruoli's whereabouts.

Although she knew it was a needle in a haystack, she still tried her best to search for a long time in Tokyo and surrounding areas, and then spent huge sums of money to hire search and rescue ships to search in the Japanese waters, and even search in coastal areas in China, but she never found any relevant clues.

She had just returned from the southeast coast the day before yesterday. This time she ran through several key port cities, and still hadn't heard any news of anyone sneaking ashore.

She knew very well that the longer time was delayed, the less likely it was that Ruoli would survive.

So, she discussed with her father Luther He and planned to raise some more funds, and then search the coastal areas of the Jiaodong Peninsula to see if she could find Ruoli's whereabouts.
