#### **Chapter 2307**

He walked forward in anger.

It is a mistake to talk to someone like Jiang Ning. The more you talk, the more angry you become!

Greedy wolf originally thought? Love to cover zero, Ai Shan loves to pick zero?, Andrew is only talented and strong, and now I know that this face is also a great weapon, no wonder the group of people who awoke before Can be moved by him.

The greedy wolf walked ahead, but Andrew still followed behind.

He looked around and looked at the chaotic rocks. He felt a strange feeling. It seemed that these rocks, like the black mist, were alive.

But how is this possible?

“Don’t be careless, there is weird everywhere here.”

Jiang Ningdao.

“I know.”

Greedy Wolf snorted.

He doesn't like to listen to nonsense, would he be unclear about this matter?

In fact, he is definitely more cautious than Jiang Ning, because he himself is a cautious person, let alone cooperating with Jiang Ning, he has to guard against Jiang Ning, not being vigilant is an extremely dangerous thing.

Two people walked into the rocky mountain one after another. Greedy Lang just turned and walked behind a huge rock. When Andrew looked at it again, he was gone!

“Where are you?”

Andrew shouted.

“I'm right in front of you.”

There was a voice coming, but it was very quiet, as if being isolated by something.

“Where?”

Andrew asked again, this time, there was no response at all.

He looked at the front carefully, it was empty, no one had passed by at all, the greedy wolf was not in front, and behind, it was also empty!

Andrew didn't think much about it. He jumped up a bit and stood on the huge rock. Looking down again, he still couldn't see where the greedy wolf was.

What the hell is this bastard doing?

They entered this whole piece of rock, and they couldn't see anything. Andrew wanted to jump onto the rock and cross it, but found that the rock at his feet was too slippery, and if he was not careful, he would fall straight down. !

He tried hard to stand firm, but still had no choice but to roll over and fall down.

I look up, it's a rock, turn around, it's a rock, look back, it's a rock.

It's like entering a maze made of rocks!

"I'm afraid, I'm in trouble again."

Andrew reacted quickly, knowing that it might not be a greedy wolf, but these mountains and rocks are themselves a puzzle!

He immediately searched and analyzed whether the pattern could be deciphered. He took a closer look. Every rock has a different pattern. Some have reflections, and some have completely different shapes from different angles.

Magic and weird.

“It’s really a maze.”

Andrew walked two laps and returned to the original position, as if a ghost hit a wall and couldn’t go out anymore.

He wanted to make a mark on the rocks to mark the route he had traveled, but he took out his dagger and stroked it a few times without leaving a white mark. These rocks are too hard!

Andrew had no choice but to continue walking, and kept remembering the route he had taken, even remembering the feeling of his body and every step he took.

He can’t tell the direction through the environment, and judge where to go, he can only judge by the feeling of his body.

He fumbled, tried many times, and finally walked back where he was.

Andrew was not in a hurry, but became calmer and calmer, and even seemed to be a little bit self-satisfied.

“So it’s like this...”

There was a smile on his face!

At the same time.

Greedy Wolf looked around blankly, looking at the surrounding environment, Andrew had long been out of sight.

Except for the last question Andrew asked himself, he never heard Jiang Ning's voice again. < /br>At first, similarly, he thought it was Andrew who was playing a ghost, but after a while he realized that he had fallen into a maze. The maze built by rocks is really not easy!

“Isolate the voice, confuse the sight, huh, think this will stump me?”

Greedy wolf's eyes shrank, and there was a sudden change. Looking at the rocks, it seemed to be completely different.

## **Chapter 2308**

His eyes emit a terrifying light. If you look directly at it, you may be shocked!

Those eyes are too terrifying!

It turned out to be... the heavy pupil? Ran Fu Yiyi covered the ground?!

The movement of the two pupils makes people scared to watch.

Greedy Wolf's eyes swept across, as if he could break through all falsehoods, and any blindness would have no effect on him.

He walked straight forward, stopped at the fork, carefully distinguished, and then made a choice.

Gradually, he felt that his vision became wider and wider, and he was about to step out of this maze of mountains and rocks!

"Huh, Jiang Ning, that kid, I'm afraid I'll be trapped here," greedy wolf said, "I'll go out first, and then find a way to find him."

If you don't need Jiang Ning, He really didn't want to worry about it, so he trapped Andrew to death in this mountain and stone formation.

After turning a few more turns, Greed Wolf saw the forest in the distance, and he walked out.

The route he just took is the only correct one. He has already remembered it in his heart. Even if he walks again, he can still walk out. Now he is going to find Jiang Ning.

This is a favor, Greed Wolf said to himself that he must make Andrew come back.

Greedy Wolf was about to turn around and go back when he saw Andrew stepping out with his hands behind his back.

It looks like you are walking around the garden, while walking and looking around, nodding from time to time, gurgling something in your mouth.

“Are you out?”

Greedy Wolf looked surprised, a little unbelievable.

Andrew glanced at him: “Is it difficult to get out?” Greedy Wolf was startled: “This is a rock formation, accidentally trapped in it, you can’t get out in this life, how could you be broken? ?

Then how did you break it?”

Andrew asked rhetorically.

Greedy wolf looked at Andrew steadily and snorted: ‘I have my own way. ‘

“The same, I also have my way.”

Greedy wolf doesn’t want to talk anymore.

He really underestimated Jiang Ning. What a powerful method. Just when he met the black mist, Andrew was almost swallowed by the black mist, but he escaped from the dead. Now, once again, he cracked the rock formation alone.

He doesn't think that Andrew has the same talent as himself, he can break through falsehood and see through all the essence!

"Don't look at me with this kind of eyes. If I don't come out, is it possible that you will come to save me?"

Andrew joked.

"Dreaming!"

Greedy wolf sneered, "You are dead, no one will grab the longevity pool with me, I will save you? Haha!"

I tell you, I have already come here. Now, without you, I can find the longevity pond. Even if you die, it has nothing to do with me!" Andrew did not speak, but suddenly his face changed.

Without waiting for him to speak, Greedy Wolf's expression also changed. He suddenly turned his head to look around, then lowered his head to look at the ground that was gradually trembling under his feet.

"Not good!"

The chaos in the distance all moved, shaking like crazy, as if they had come alive!

"Hurry up!"

The wolf roared.

But as soon as he took a step, he stopped, and immediately back to back with Jiang Ning, looking at the mountains and rocks that crazily swept from all directions.

“It seems that I can’t leave.”

Jiang Ning’s face was solemn. He didn’t expect that these rocks were actually alive, just like those black mists, full of spirituality. What is this? what happened?

On the way to the longevity pool, it is either death or life. The person who should be born is dead, what should be a dead thing, and it is full of spirituality. What is going on?

“Come!” Andrew held his breath, got serious, and watched a rock slamming forward, he immediately dodged sideways, without having to fist to block it!

Boom!

The stone that came from the lasing shot fiercely into a fir, instantly punching a hole in the trunk, and the big tree fell down!

Boom!

Boom!

Boom!

A few more, attacked one after another, completely sealing Jiang Ning's route!
