#### **Chapter 2317**

Jiang Ning's memory is very good. He can never forget the eyes and ears. But at the moment, it's a little strange. He can't remember what it is. I heard who said this number.

Thirty-three?

Very familiar feeling!

“Huh...”

At this moment, not when he was reminiscing, Andrew didn't have the time to think so much.

I am afraid that something has happened to the greedy wolf. The scream just now makes people feel numb.

He now wants to walk up the highest level as soon as possible to see what's going on on it, and then leave safely and continue to look for the whereabouts of the longevity pond.

It's not easy to get here. If you can't find the longevity pond, wouldn't you come here for nothing?

Andrew took a deep breath, adjusted his state, and stepped up again!

Om!

The ears trembled, as if something was pressing down suddenly.

What a terrible gravity!

Much more powerful than the previous one, it seems that I have to press myself down on my knees!

Andrew raised his head, his bones and joints made a clicking sound.

"Huh, do you want me to kneel?"

The more so, the more unyielding he is!

Andrew can feel this terrible oppression, but for him, it is still within a tolerable range.

These thirty-three steps, it can be said that the first step is a world, and the different degrees of gravity can't be withstood by ordinary people.

Even if the willpower can support it, the flesh and blood vessels must be crushed!

And Andrew is different. His body is far beyond ordinary people. Since he has comprehended Ji Dao boxing, every time he punches, there is a breath of energy, and this breath strengthens his? Land? Body, it has been for many years.

Especially in the past three years, he even felt that those vigor, gradually mixed with some white, looked very mysterious.

“You want me to kneel, I don’t want to kneel!”

In this world, only his master who can make Andrew kneel down, besides, even his biological father Jiang Daoran , It’s impossible.

Andrew has reached the third steps one after another, feeling that the oppressive power has become more and more terrifying!

But he still did not give in!

Even, his face still has some enjoyment.

He has always been such a person. The more difficult things are, the more fulfilling you will sit up, and the more exciting and joyful you are!

Wandering between life and death, Andrew most often does this kind of thing. When he was still on the battlefield, Andrew didn’t know how many times he had experienced it. It was so indifferent that people couldn’t believe it.

He raised his head and glanced, and he was nearly half way away from the highest floor!

And if that terrible gravity is doubled again, I wonder if my body can hold it?

Even, it may not be doubled, it may be more than ten times!

Andrew adjusted his exhalation with deep eyes. He stood there and did not take the next step immediately, but constantly adjusted his breathing to slow down the flow of his blood.

He is adapting to the current pressure.

Whether it is the body or his will, it is all adapting!

After a while, Andrew raised his head again, and he adapted!

If someone is here, I'm afraid I can't help but exclaim, calling Andrew a freak. In such a short time, his body will adapt?

Andrew walked a few steps back and forth, determined that the pressure had not had much impact on him, and did not hesitate to move on to the next step again.

He is borrowing these steps to sharpen himself!

Freak!

This is more than a freak?

I'm still crazy!

No matter who it is, when it comes to this kind of situation, I am afraid that you have to be cautious and vigilant at all times. When encountering such a weird step, you want to stay away, lest you lose your life.

Andrew is good, instead of avoiding it, he uses this to sharpen himself.

It is not an exaggeration to say that he is a lunatic.

But Andrew knows that this kind of place is too rare.

## **Chapter 2318**

After the stimulation of the first dozen steps, he can feel that his body is undergoing subtle changes.

Under the rapid blood flow, even at the beginning, there were traces of rupture in the blood vessels, but the qi, the traces of white light hidden in the blood, were repaired in a flash.

These have surpassed Jiang Ning's cognition, and now he would not believe it if he hadn't encountered so many weird things.

Andrew took a deep breath and adapted to the first level again, and it took less time than last time!

It's so abnormal!

He continued to move towards the next step.

At the same time.

The whole body of Greed Wolf was wrapped in black air currents, and the traces of black, as if they had come alive, got in from his limbs and a hundred skeletons and wandered inside him.

Greedy wolf twitches all over, and the tremendous pain makes his face hideous!

As tough as him, but because of the pain, his face has become hideous!

It seems that the body is dismantled by people, broken into small parts, and then re-spliced together again, so the cycle continues.

The greedy wolf opened his mouth, unable to make a sound, his mouth and nose were enveloped by black air, especially the double pupils, constantly changing and contracting, looking terrifying.

“I've been waiting for you... a long time.”

It was the same sentence, which kept ringing in the ears of Greed Wolf, and said it countless times.

I only have a little awareness of Greed Wolf, I just want to know who the person who said this sentence is.

Those black beads, no matter how they roll, more and more black air permeates from the black beads and continuously penetrates into the body of the greedy wolf, and the volume of the black beads becomes smaller and smaller.

Time, one minute and one second passed.

The black is gradually becoming less, the black bead at the center of the black bead is completely black!

Almost all the surrounding light is absorbed, and it is frightening to look at it!

Greedy Wolf slowly opened his eyes, his hands and feet seemed to be his own. He couldn't feel it. He wanted to control his hands and feet and let himself move, but it seemed that he couldn't feel anything.

If he hadn't been able to see, he could still see his hands and feet, in his body, he doubted whether he was made into a human being.

"I've been waiting for you... a long time."

The voice rang again, but it was much lighter than before, as if it had gradually faded away, and there was no energy!

"Who are you?"

The greedy wolf gritted his teeth and finally made a sound.

He has never seen such a weird thing. At this moment, what has changed in his body is still unknown to him, but he can feel that there is a terrifying vitality that is taking root in his body. germination! < /br>”I’ll wait for you...”

The voice gradually disappeared.

The light of the black beads also gradually disappeared and became dim.

When the last trace of black air penetrated into the body of the greedy wolf, the last remaining black thing, like a stone, suddenly cracked a gap, then fell to the ground and shattered into powder.

When the wind blew, it disappeared completely.

Plop!

The greedy wolf fell down and fell to the ground, unable to move with his eyes open.

He looked at the sky above his head, looked at the misty, the mist that had dissipated, and his consciousness gradually became blurred. He could not hear anything. There seemed to be a person in his mind, starting to think about it. Say what.

The eyelids are very heavy...

The body is very heavy...? Ran Lu Wuling Ai Shi Ai Shi?...

Greed Wolf slowly closed his eyes, and at the moment he fell into a coma, The voice in his head suddenly became louder.

Like thunder, roaring in my mind, reverberating constantly, deafening!

But he was in a coma and could only listen, and he didn't even have a chance to ask.

"I have been waiting for you for a long time!

Your body, I want it!

I am not dead, I am an immortal demon, I am born again!

I give you Immortal..."
