

Billionaire God of War Novel Chapter 2355 – 2356

Chapter 2355

At that moment, it seemed that Andrew had completely seen him through.

He didn't know what Andrew was thinking, but what he was thinking, Andrew seemed to have seen it in his own eyes.

how can that be?

Guan Yi calmed his mind slightly, wondering why he suddenly felt this way, it was so strange.

“I'm here to see you, there is indeed something.”

He didn't want to circumscribe.

It seems that dealing with people like Andrew does not need to be ambiguous, and it doesn't make much sense anyway. First post @@@

“You? The ground, the ground, the ground, the ground, the ground? You know, what exactly is the

crypt ?” “You know a little bit.”

Andrew said.

There is no acknowledgment, and no denial.

During the negotiation process, it is often the best way not to answer questions directly.

Guan Yi was a little annoyed, but still patient.

He knew that he had made the first step wrong and fell into a passivity. Now he wants to reverse it, but it is even more difficult.

“The crypt, like the Tiangong, belongs to another dimension space. If the Tiangong is considered a second-dimensional space, then the crypt is the third.”

“The crypt is not willing to fall behind the Tiangong.”

“So, the Tiangong will be destroyed. Now?”

Andrew asked.

“This is just one of the reasons.”

Guan Ning asked Jiang Ning. Xin said that you are not curious. Next, you must ask, what are the other reasons, right?

But Andrew just nodded, did not ask another word, just quietly looked at Guan Yi, and waited for him to continue talking.

Seeing that Guan Yi didn't mean to continue speaking, Andrew was still not in a hurry. It seemed that if Guan Yi didn't speak for two minutes, it was time to see off the guests.

"The devil is looking for something, it may be in the heavenly palace."

Guan Yi still couldn't hold back.

"What are you looking for?"

Andrew asked.

He always has that kind of expression, that is, I just ask casually, you can answer or not, but if you don't answer, I will see you off.

Andrew is not in a hurry, and there is no pressure, but the concerns are different.

He betrayed the greedy wolf, and there was only one result, either greedy wolf died or he died.

If you want to die from the greedy wolf, you can only join forces with Andrew and use Jiang Ning's hand to kill the greedy wolf, otherwise he will undoubtedly die!

"I don't know."

Guan Yi shook his head, even if he knew, he didn't want to say.

Chatting with Andrew can really be pissed off by him.

Live to death!

He wanted to be patient and let Andrew be more proactive, but Andrew always had that expression and didn't care.

"I came to you, just to tell you that the Devil King is back and will definitely continue to look for this thing. Once he finds it, Tiangong will have no chance of recovery."

Guan Yi said, "We can cooperate."

Just cooperate. Now, Andrew is the knife in his hand, his tool, which can be used to deal with greedy wolves.

"Why should I cooperate with you?"

Andrew shook his head, "What heaven, I don't care, whether it can recover, it has nothing to do with me."

“You are not afraid of him coming to you?”

“What is he looking for? Way?”

Andrew said indifferently, “It’s good if everyone doesn’t break the river. He knows what the provoking will end in.”

After speaking, he waved his hand.

“I thought you had something new to tell me. That’s all. I’m really not interested.”

“Sorry, I still have things to be busy, please.”

Jiang Ning’s tone was very calm, without any reason. Guan Yi deliberately releases a little information, and any mood swings are not fooled at all.

He didn’t know what, because he wanted to say this, just to arouse his interest so that he could get into the hook slowly.

Andrew was bored with this kind of tricks a few years ago and was boring.

Guan Yi was stunned.

He looked up at Jiang Ning: “The Devil King is not that kind of person, he will kill all the people blocking his way!”

“Anyone who threatens him, he will not let it go!”

“You, are you really afraid?”

Andrew smiled: “Then the most dangerous, shouldn’t it be you?”

“I’m not interested in arguing. , He knows, and you... do you really think that he doesn’t know you want to betray him? Want to borrow my hand, and you will take advantage of the fisherman’s profit, it will only make me think, the people in the crypt, are they not there yet? Kaihua.”

“Your method is too low-level, and elementary school students are not as good as it.”

“You...”

Guan Yi’s face was red, and she didn’t expect to be so humiliated by Jiang Ning.

He opened his mouth, but didn’t know what to say. He was indeed for this purpose, and it was really seen through by Jiang Ning.

“Okay, I understand what you mean.”

He didn’t say anything, got up and said goodbye, “Excuse me.”

Guan Yi walked to the door, turned his head and looked at Jiang Ning.

“You will come to me.”

After speaking, he left.

Andrew glanced at Guan Yi's back and didn't say anything.

The sudden appearance of Guan Yi just proved that the catacombs always existed, but for so many years, no trace was revealed, until the greedy wolf appeared and returned to the catacombs.

Just as I got the inheritance of the Dragon Chair, what Greed Wolf got, I'm afraid it was the inheritance of that crypt demon king.

The current Greedy Wolf is not only powerful, but also has a background as big as the crypt!

If he really gets into trouble, it is really not a good thing.

But the appearance of Guan Yi also exposed one point, that is, the catacombs, people's hearts are not uniform!

“The trick to kill with a knife is too low-level.”

Andrew said, “Moreover, it's very boring.”

Guan Yi didn't disclose too much information, just wanted to use those illusory intelligence to deceive Jiang Ning, but Andrew would not be fooled.

Not seeing rabbits or scattering eagles is the minimum mental ability.

"Would you like to send someone to follow him?"

Mason walked in, "This guy's origin is a bit mysterious, I'm afraid that the person who came is not good."

He felt that kind of, uneasy.

"No need."

Andrew shook his head.

Guan Yi said, he will go to him, but he must be wrong.

"This guy, I will come to see me again."

He squinted his eyes. "This kid doesn't understand greedy

wolves at all." The kind of greedy wolf is sinister, cunning, and very greedy. , But he is very cautious, smart, and uncertain about things that I will never do lightly.

Now everyone doesn't know each other's details, greedy wolves won't do it easily.

What he should do the most is to tidy up the catacombs. Looking at the intentions of the catacombs, Andrew knows that the catacombs must be chaotic, and it takes time for greedy wolves to thoroughly clean the catacombs, and this time is also precious to Andrew. .

"I want to retreat for three days, no one can disturb me!"

Andrew said immediately.

Mason was startled, could he feel the urgency in Jiang Ning's eyes, did something happen?

Andrew just talked with Guan Yi for a few minutes, and Guan Yi certainly couldn't reveal any useful information, but Andrew still grasped some details.

He didn't even know the meaning, and he appeared by himself. This was a signal, and the true and false information he said was meaningless to Jiang Ning.

The biggest significance is to let Andrew know that there is still time to prepare, but time is running out.

"Yes."

Mason nodded, "Don't worry, I'll make arrangements!"

After speaking, he ran out immediately.

Andrew took a deep breath and sat cross-legged, looking at the longevity pool water in the bottle.

“Hope, it’s here.”

He doesn’t care what Greedy Wolf is looking for, those people in the crypt, and what he wants to do. Now the most important thing is to have the ability to protect himself. He wants to let Greedy Wolf understand that well water does not offend river water. To be the best, there must be enough power!

The current Andrew is strong enough, but facing the greedy wolf and the entire crypt, it is still far from enough!

Tiangong...

Is there any power to borrow?
