

The Protector Novel Levi Garrison Chapter 1733 – 1734

Chapter 1733

Starting today, he will become the king of a country.

Command all living beings.

An ordinary person can do this step, it can be said to be against the sky.

The light in Wood Zhengjie's eyes was clear, and his ambition was undoubtedly revealed.

He did what ordinary people can't imagine.

At this time, some people think he is a nerd?

Some people still think he's worthless?

He stepped all his peers under his feet with one foot...

Wood Zhengjie's loyal followers, Mike, Cross Wentao, and their eyes are full of eagerness.

From now on, they will be the first batch of heroes.

Everyone will have a very high status and luxurious future.

"We have too many choices! In the future, we will also be people of identity!"

"Go back to Morendam? Go back to Morendam! What is good about Morendam?"

...

Nick and others have already seen a bright future and shouted with excitement one by one.

At the beginning of the ceremony, Richard also calmed his emotions: "Hold the ceremony first! Other things wait for the ceremony!"

...

In the eyes of everyone, the ceremony began.

The number of representatives of the War Eagle Nation will sign an agreement with Wood Zhengjie to hand over the vassal state of the War Eagle Nation to Wood Zhengjie.

Make him a unique king.

This ceremony has attracted worldwide attention.

Countless people are watching.

Especially in Morendam, countless people gritted their teeth, they can only be angry, but they can only watch.

But soon, the heat of this ceremony was overshadowed by another thing.

That's what happened when Jefferson was captured by Morendam's mysterious Lord.

I don't know who came out of this news.

Once it came out, the whole world exploded.

Everyone paid attention to this matter.

Morendam is crazy?

Dare to arrest people in the Eagle Nation?

Morendam Colin and other major institutions were also wronged.

I don't know who it is at all!

They couldn't stop it, they could only watch it.

Who is going to make trouble in the Heavenly Palace in the Eagle Nation?

In particular, I heard that countless people in Warhawk Nation went crazy looking for people.

Everyone is more concerned.

Soon, a message came.

“The man has been found!!!”

The eyes of the world are focused on the Lake City of the Eagle Nation!

The ceremony is continuing.

A subordinate hurriedly ran to Richard.

“Mr. Richard is not good! Mr. Jefferson and the whereabouts of that man have been found!”

Richard almost jumped up in shock.

“Man found? Where is it?”

Richard asked.

“He is nearby! Our people have searched every area of Lake City, but ignored this area. He is here!”

“what?”

Richard’s face changed abruptly.

A terrible idea was born in his mind.

Isn’t he here for him?

Richard stood up immediately and interrupted the ceremony.

Thousands of people in the field focused their eyes on him.

“Mr. Richard, what are you going to do?”

Wood Zhengjie not only asked.

“There may be danger coming soon, let’s speed up the ceremony! I’m afraid something will happen!”

Richard reminded.

Wood Zhengjie looked displeased: “What do you mean, Mr. Richard? My ascension ceremony should be accelerated? Why? Danger? There is still danger in the Eagle Nation? I don’t believe it!!! I just want to...”

“boom!”

“Crack!”

In the next second, a figure descended from the sky and landed on the aircraft carrier.

Like a cannonball falling.

Exploding the ground and shaking the mountain.

What is even more frightening is that dense spider-web-like cracks appeared on the aircraft carrier's deck, rapidly spreading around.

The huge movement directly blocked the progress of the ceremony.

Wood Zhengjie's words are held in his throat...

The entire aircraft carrier is in a mess...

Chapter 1734

The deck of the aircraft carrier shattered, and the 100,000-ton aircraft carrier was shaking vigorously.

Everyone was stunned.

There were screams.

No matter how messy there is...

Everyone was shocked.

Especially Richard and Wood Zhengjie.

After a while, the eyes of the people who had been slowing down focused on the figure.

No, there was a person lying under his feet, covered in blood.

That is Jefferson!!!

Seeing Jefferson, Richard was crazy.

"Jefferson!!!"

He roared.

Everyone who knew this was crazy.

Everyone's teeth trembled.

"It's him! It's him! He actually came here!"

Everyone was dumbfounded.

Levi's whereabouts have just been found, nearby.

Unexpectedly, it was for the ceremony.

...

In the crowd, there was a loud voice, and everyone quickly told each other about Jefferson's capture.

"What? Someone came to catch Jefferson in Morendam? How is this possible?"

Not only others do not believe it.

Wood Zhengjie didn't believe it either.

Is Morendam crazy?

Dare to do this?

Before, Wood Zhengjie knew that Da Xia would never mix up, so he did so with great fanfare.

I didn't expect someone to come.

Come to the ceremony, obviously it is for him.

The eyes of thousands of people in the field all fell on Levi's body.

Jefferson at his feet had fainted long ago.

"I advise you to release my brother as soon as possible, I might spare your life! Otherwise, I promise you won't be able to leave the Eagle alive!"

Richard threatened.

Levi glanced at him, but did not stop.

Levi's gaze was fixed on Wood Zhengjie.

"Wood Zhengjie is yours, can you escape?"

Levi spoke.

"boom!"

Wood Zhengjie only felt a tremor in his body and his scalp numb.

Unprecedented fear came to my heart.

"Wood Zhengjie, you betrayed the motherland and killed countless compatriots with weapons. Are you convicted?"

"You still want to stand on your own mountain, is it possible? Obediently come back to Morendam Fuzhu with me!"

"Those who betray Morendam, kill without mercy!"

...

Levi's two words sounded like thunder in everyone's ears.

Wood Zhengjie was so scared that he almost staggered to the ground.

The other people who had been Morendam were trembling when they heard this.

As if this is their end.

Levi dragged Jefferson and walked towards Wood Zhengjie step by step under the gaze of thousands of eyes.

The people on both sides shivered with fright.

Especially Mike, Alfred, and Nick.

When Levi saw them, he couldn't help being taken aback.

Are these people here?

Also become a traitor?

Originally, because of the face of Sarah, you can open one eye to these people,

But now all of them have betrayed Morendam.

A bunch of waste!

“Ok?”

Mike and all of them only felt chills in their hearts.

Why did this person's eyes glance over them specially?

Are they special?

At this moment, they have a strong hunch that everything about them will be lost.

Soon they have nowhere to stay...

Levi swept across them, and at the same time came to Wood Zhengjie.

“Be obediently, you can get a little bit less pain!”

Levi said coldly.

At this time, Wood Zhengjie had calmed down his emotions.

He looked at Levi with a sneer and said: “Please make it clear that this is the War Eagle Nation, not Morendam! It is not your turn to be a Morendam man to behave!”

“What’s the matter with the Eagle Nation? I come as I want, and leave as I want!”

The Protector Novel Levi Garrison Chapter 1735 – 1736

Chapter 1735

now.

The eyes of the whole world are on the aircraft carrier Eagle.

In other words, Levi’s every move was under surveillance.

What he does next will be broadcast live.

Hundreds of millions of people in Morendam are watching Levi’s whereabouts.

“Domineering!!!”

Hearing Levi’s words, Morendam all cheered.

Even Colin clenched his fists tightly and shouted out loud.

They don't know who this person is.

Can't find it either.

But the only certainty is that he is from Morendam!

He is doing the right thing!

Since he couldn't stop it, he was upset.

It is best to bring Wood Zhengjie and Jefferson back to Morendam!

Stone Morendam Guowei!

Let them know that Morendam is not afraid of anyone.

I'm just afraid of trouble!

"Hold on, you must leave Warhawk Nation alive! You must bring people back!"

Everyone clenched their fists and looked forward to it.

Everyone in Morendam hopes that Levi can live and bring the two back!

Other people around the world have different ideas.

Most people are looking forward to Levi's miserable end!

The Eagle Nation is super powerful!

Levi's making such a big move in War Eagle Nation is equivalent to a provocation.

According to the style of the War Eagle Nation, Levi will never end well.

On the Eagle, Levi and Wood Zhengjie were close at hand.

Wood Zhengjie panicked and shouted: “Kill him, kill him for me!”

The guard beside him slammed Levi frantically.

But there was an invisible wall of air in front of Levi, blasting them all out.

“boom!”

“puff!”

“puff!”

...

Recently Wood Zhengjie was splashed with hot blood.

He was dumbfounded.

“Let’s go!”

Levi grabbed his collar and kicked him in the leg.

He only heard a click, his leg broke, and he immediately lay on the ground, like a dog.

Levi tied Wood Zhengjie and Jefferson together with a rope, dragging them with his left hand, and holding the Beiming sword in his right hand.

Leaving the aircraft carrier step by step.

His cold eyes swept over the people who used to be Morendam, one by one, they fell to the ground in fright, or pissed off in fright.

“Oh! Me! Ah!”

“Crazy! It’s none of my business!”

...

Nick and the others were even more embarrassed. Seeing Levi’s eyes, they were so scared that they crawled, not to mention embarrassed.

Levi walked like this step by step.

Although there are Lords around, no one dares to step forward, they can only go around Levi.

“Stop! Do you want to take people away like this? Let them go quickly, and I will keep your whole body!”

Richard’s voice sounded.

Richard’s face was colder than ever.

He is going to explode.

This is a provocation to everyone, but also a provocation to him.

When did he suffer such humiliation?

Being so humiliated on his own territory.

My brother is dragging like a dog.

How does this make him bear?

More than that.

The circles that know about this are about to explode.

This is hitting them in the face!

Provocation on their territory!

All were blown up!

When did anyone dare to provoke them?

They have always provoke others!

In a word, the war eagle must not be insulted!

“Kill him! Kill him for me!”

“Who would dare to run wild on our turf, it’s going against the sky!”

“If this person is not removed, our face will be lost!”

...

All circles gave orders to kill Levi.

Chapter 1736

Even the Tianshield Bureau, which learned the news, immediately issued the order.

“This person must be removed! It must also be removed by cruel means! Tell the world that this is the end of the provocative warhawk!”

It turned out that the War Eagle Nation not only wanted to get rid of Levi, but also warned the world and declared their status.

Therefore, the pressure and crises Levi faced in the War Eagle Nation were greater than imagined.

It is absolutely unprecedented!

Morendam also knows this.

They also know that no matter who it is, it is impossible to survive from the Eagle Nation alone.

No matter how powerful you are, you can't stop the nationwide power of the war eagle!

It's not even just a nation of Warhawks. For a long time, Warhawks have had close ties with many other countries, even alliances.

To exaggerate a bit.

Levi wants to fight the power of half the world alone!

Leaving alive is the Conferred God of the Century.

Even death is a legend!

But everyone hopes that Levi can live...

...

On the aircraft carrier, tens of thousands of Lords quickly gathered, and they surrounded Levi.

“I'll give you another chance and let the people go immediately!”

Richard is still threatening.

Levi Beiming's sword pointed forward and said coldly: “Those who stand in my way, kill!!!”

“Take it!!!”

“Remember not to hurt my brother and Mr. Wood!”

Richard gave an order.

All major Lords killed Levi.

“dead!”

Levi was holding the Beiming war knife, as if waving the death sickle.

He stepped out step by step, brandishing the North Ming sword in his hand.

In the blink of an eye, there were already thousands of knives flickering, murderous.

“Puff!”

“Puff!”

“Puff!”

...

Shoots of blood soared.

One body fell down.

Levi never stopped, dragging the two “dogs” forward.

A corpse fell behind him and on both sides.

He kills everybody, it’s against the sky.

No one has ever been close to his one-meter range.

With a swing of the North Ming sword, hundreds of people must fall.

Levi was still advancing, and he was about to get off the aircraft carrier.

However, there were fewer and fewer people on Richard's side, and they kept falling down.

Levi's momentum is too strong.

With a war knife, it is invincible.

Richard saw Levi's forces and knew why Jefferson was still captured under the heavy siege.

"Go on, give me all on!"

"We must take him down!"

"Request for support! The Eagle aircraft carrier requests support! How many forces are all sent, hurry up! We can't stop him!"

Upon seeing this, Richard immediately asked for support.

At the same time he sent out all his guards.

They each wore modern mechas, each killing Levi like robots.

"Puff!"

Levi slashed an oncoming mecha warrior, and even the mecha leader chopped it in half.

"Puff!"

With another knife, another mecha warrior was chopped in half.

Richard was dumbfounded.

Although his guards are wearing first-generation armor, they are all invincible.

Can be split in half with a single knife?

What is his strength?

This couldn't help but make him think of a person-Levi.

On the battlefield of the Western Territory, he was so unstoppable.

Morendam is really scary.

The Lord is like a cloud.

Richard was stunned.

All the tens of thousands of Lords on the aircraft carrier fell, and all his guards died.

Levi couldn't stop Levi's offensive at all.

"You can't stop me!"

Levi dragged the two off the aircraft carrier.

"Impossible! Now is the beginning!"

The Protector Novel Levi Garrison Chapter 1737- 1738

Chapter 1737

Richard's complexion was savage, and his veins were violent.

His body was shaking sharply, and he was going crazy.

Levi is touching his bottom line!

Must die!

Although Levi took people off the aircraft carrier, the crisis really came.

All weapon systems of the major frigates of the Eagle were activated, all aimed at Levi.

Had it not been for Wood Zhengjie and Jefferson, the bombing would have been frantic long ago.

Not only that, there were hundreds of warplanes hovering in the air, and a helicopter, heavy weapons, and a sniper gun were all aimed at Levi at low altitude.

They are all waiting for the opportunity.

On the ground, tanks are densely stacked.

There are still many tanks, this is their first appearance.

Represents the most advanced technology.

No one knows what kind of weapons these tanks will fire.

It may be a quantum weapon, it may be a laser weapon, or it may be a chemical weapon...

These are the trump cards of the Eagle Nation.

It has always been a secret.

But in order to stop Levi, they all took it out.

This is about the dignity of the war eagle!

Levi must die!

A large number of warriors emerged from the gaps in the tank array.

They have warriors from the East Island, ancient warriors from the West...

There is also a super fighter also all appeared.

These superpowers are equivalent to the strange people and strangers that Morendam often said.

It is that they have special abilities.

For example, you can control water and fire, you can control the wind and so on.

There are generally two types of super players.

The first is congenital awakening.

Born with their own talents, this kind of superpower is extremely powerful.

The second one is remodeled the day after tomorrow.

They use serum or genetic technology to change your physique, making you powerful, lightning-fast, and even directly bringing some talents to control the elements.

The most common is to use serum or biotechnology to transform the body to obtain a strong physique.

It is also commonly used to implant animal genes in the human body.

For example, the gene of a cheetah allows you to gain the speed and pursuit of a cheetah.

Implant the genes of a grizzly bear to give you the power of a grizzly bear.

...

Therefore, the strength of many superpowers abroad is no less than that of the Eastern Warriors.

Especially those with strong awakening talents are even more outrageous.

In fact, there are legends of these super-powers in popular life, but they disappeared later.

That's because once such freaks appear, the relevant agencies will take them away immediately and block the news.

Now these super-powers who are living in the legend are flooding at this moment.

Mecha fighters also gathered from all directions.

There are still many forces, all of them came after receiving the major forces of the Sky Shield and the Warhawk Nation.

There are also killer organizations that specialize in hunting the supreme-level powerhouses.

It's not just Lake City.

In all other regions of the Eagle Nation, there are madly influx of experts.

Their purpose is only one-to stop Levi at all costs.

Soon, there were no gaps in this area.

Either machines or people, all stations are full.

The sky also obscured the sky, and it was dark here for a while.

Levi was not given any space or route to leave.

“No way! No way!”

“Release, release, release!”

...

The shouts gathered together, and the sky thunder rolled.

The Eagle Nation is really crazy!

Take advantage of this matter to give the world a warning.

“No one can leave Warhawk Nation alive!”

The corner of Levi’s mouth raised: “Oh, isn’t it? Then I will be the first!”

Chapter 1738

Richard also put on his exclusive mech, which is one of the top armors in their laboratory.

It was much more advanced than the mecha that was split in half by Levi before.

After all, the cost of this mecha is too expensive.

The armor that Richard wears is more than 300 million.

“You don’t take the War Eagle Nation too seriously. The War Eagle Nation almost has the most advanced technology and the most powerful force in the world!”

“You are provoking the entire Warhawk Nation! Don’t say you are a nameless pawn, even if the god in the Morendam myth comes, don’t even want to go out!”

“on!!!”

...

The earth-shaking battle began.

Warriors, mech fighters, super-powers, modern fighters, modern weapons, killers, mercenaries...

All the brains are killing Levi.

This is not the same as the war dominates the alliance.

The Domination Alliance is a mob. Although the strong are like clouds, they can’t exert their power at all.

However, the enemies Levi is currently facing are properly configured and complement each other.

In this formation, even an ordinary person can deal Levi the hardest blow.

The war begins.

The Lords started to kill Levi from all directions.

The first thing they had to do was to distract Levi’s attention.

Make him unable to care about each other.

In this way, they can rescue people.

“Rumble...”

A helicopter hovered in mid-air. On the helicopter, infrared rays crisscrossed and aimed at Levi.

“Too annoying!”

Levi suddenly flashed his eyes.

“boom!”

The North Ming sword in his hand was thrown out.

“Return to Dragon Slash!”

Levi burst into laughter.

The North Ming Sabre was shot out like a cannonball, with a long wave of air behind it, shooting into the air.

Swirling like a dragon!

So this combat technique is called Huilong Zhan.

“Shit!”

The Beiming Sabre was surrounded by sword energy, making a sizzling sound, as if it was about to burn.

Swipe it out!

A helicopter was abruptly split in half!

Falling to the ground in heavy smoke, making a rumbling sound.

“Shit!”

With another cut, another helicopter split and fell.

“Shit!”

The third plane split.

“Shit!”

Fourth frame!

...

The North Ming sword turned like a dragon, and one helicopter after another was split in half.

...

The fiftieth frame.

...

One hundred.

Helicopters kept falling to the ground, and this area became a sea of flames.

On the ground, although the major Lords have levels, orderly and coordinated attacks against Levi.

But Levi could take it anyway.

They couldn't save people at all, instead they died and injured a lot.

...

The war has been going on.

Levi is simply too strong for one person.

No matter how terrifying the fighting power, Levi can take it, and he is stronger.

In a short period of time, he dragged the two of them out of a distance of thousands of meters.

shame!

Great shame!

Now the whole world is paying attention.

Levi is also swift and fierce, the more shameful it is to War Eagle!

In particular, the people of the Warhawks went crazy one by one.

They felt a great degree of shame!

The fighting lasted an hour later.

This area was filled with tens of thousands of corpses.

The damage to the helicopter is also extremely serious.

“Come on, this is it?”

Levi opened the way with the Beiming war knife in his hand.

The opponent was scared.

Quite a few people started to back down.

“Come on! Give it to me!”

Richard shouted.

“Warhawk must not be insulted!”

“I’ll kill him!”

A shout came.

The world rumbling.

“Senior-level Seventh Heavenly Powerhouse...”
