

# The Protector Novel Levi Garrison Chapter 1751 – 1752

## Chapter 1751

Exclamations rang out.

A few men and women in suits and leather shoes rushed up and stopped in front of Levi.

“From now on, Wood Zhengjie is ours! No one can move!”

The leading woman stared at Levi sharply.

Levi was stunned.

These ordinary people still stop him?

“Who are you?”

Xiao Feng’s expression changed, and he explained, “Lord, they belong to the Shenlong Science and Technology Alliance! The laboratory specializes in Morendam’s most advanced technological weapons! They are the strongest in Morendam! This time they have also surfaced. !”

“This is the Shenlong Science and Technology Alliance, and Miss Wen Lei, the youngest female scientist in Morendam!”

“She and the team just developed a super weapon! It’s extremely scary!”

Xiao Feng approached Levi’s ear and whispered: “Don’t look like an ordinary person! She’s a sweet potato! It’s amazing!”

Upon hearing this, Levi was taken aback.

Since the appearance of Wood Zhengjie's killing weapon, no one in the world dares to despise these ordinary people.

Levi is too.

These ordinary people will explode with great energy in unexpected ways.

There may even be such a situation.

For example, dominating the alliance of hundreds of thousands of warriors, the latter may be an ordinary person.

In a word, one resourcefulness can kill hundreds of thousands of warriors...

In Wen Lei's view, most warriors are reckless.

So she doesn't have a lot of affection for Levi.

"Now let me know, Wood Zhengjie, we have taken it away. From today, he will belong to the Shenlong Science and Technology Alliance!"

Wen Lei said in a high voice.

Xiao Feng said nothing.

Apparently someone said hello.

Wood Zhengjie lying on the ground looked at Levi, and he grinned.

The provocation is obvious.

As if provoking Levi, he said, "Even if you bring me to Morendam, you can't kill me!"

"If there is no objection, we will take them away, and the procedures have been completed."

Wen Lei said.

The people behind her are about to take Wood Zhengjie away.

“Give me a reason!”

Just as Wen Lei and the others were about to take Wood Zhengjie away, Levi’s voice sounded.

Everyone looked at Levi.

“I brought the man from Warhawk Nation! His life is mine! I should have killed him long ago, but I want him to commit crimes in Morendam!”

Levi asked.

Wen Lei was taken aback and looked straight at Levi: “You are indeed Morendam’s hero. I admire you for this!”

“But please also consider from the overall situation!”

“How to think about it?”

Levi asked.

“Wood Zhengjie’s sins are horrendous, and death sins are not fake! But he is a genius in a million! It would be a shame to kill directly! If his talent can be used for us to serve Morendam, I think it is. It’s better than just killing him!”

“Besides, I believe Wood Zhengjie also has a heart to repent. He recognizes his mistakes and will serve Morendam with all his heart!”

As soon as Wen Lei finished speaking, Wood Zhengjie’s voice immediately sounded: “Yes, yes! I am deeply aware of my mistakes. I now ask for a chance to regret. I want to work for Morendam. I am willing to put everything I have. Share with you...”

In the eyes of others, Wood Zhengjie admitted his mistakes positively and was very sincere.

Just ask for an opportunity to make up.

But Levi knew how fake this kid was.

He just wants to survive!

“All you have other questions?”

Wen Lei asked.

Levi shook his head: “I’m fine, I just will kill him!”

## Chapter 1752

Levi’s tone was calm.

Everyone at the scene knew that he would kill Wood Zhengjie.

Wood Zhengjie understood even more.

“Save me! Save me!”

“I already knew I was wrong, and I will do everything to make up for it!”

Wood Zhengjie quickly hid behind Wen Lei and them.

Wen Lei opened her arms and stood in front of Levi.

“If you want to kill him, kill me first and step over my body!”

With that, Wen Lei closed her eyes, her body trembling.

“Calm down, you, Wood Zhengjie’s value is too great! It’s a shame to kill!”

“Well, wait for him to play his due value before letting you deal with it!”

“Don’t do it...”

...

The people around were anxious, for fear that Levi would actually do it.

This is the value of Wood Zhengjie!

Even if he is sinful.

But in this case, many people still don’t want him to die.

I want him to shine and play his value!

Seeing that Levi slapped Wen Lei with a slap.

All people have a cardiac arrest and are about to suffocate.

In the end, Levi slapped and did not fall.

Wen Lei opened her eyes in fear and looked at Levi blankly.

Levi said coldly: “Are you sure you want to take him away?”

“I am sure!”

“You count on him to serve Morendam and count on his talent? This man is sinister and cunning. If you don’t kill him, it will always be a dangerous existence!”

“Once he plans, it will be endless disasters! Do you understand?”

Levi reminded.

The throats of Xiao Feng and others squirmed.

Wood Zhengjie is a genius.

How terrible is the person who can study the weapon of killing God!

It's a walking explosive!

“As long as he joins the Shenlong Science and Technology Alliance, we will be responsible for everything that goes wrong! Besides, I have seen his repentance! He will definitely repent, like something dangerous, it will never exist!”

The others promised immediately.

Wen Lei wanted to say something, but abruptly held back.

She also seemed to agree with Levi's statement.

“Well, people take it away! Don't let me see again, I will kill you!”

“You people don't find me if something goes wrong!”

Levi approached.

He doesn't care.

Wood Zhengjie killed him if he wanted to.

He can bring back the Eagle Nation.

If this group of people doesn't listen to dissuasion, let them go.

It has nothing to do with him.

Wood Zhengjie smiled and handed Levi an arrogant look.

Means just wait and see...

Finally, the Dragon Technology Alliance took Wood Zhengjie away.

However, Wen Lei was not very relieved. She suggested that Wood Zhengjie should be strictly watched in the future, and everything about him should be restricted.

So as not to make Wood Zhengjie act secretly and create danger.

“Miss Wen, you definitely have to worry too much! Mr. Wood will definitely repent! I can see it!”

“Furthermore, we saved him and gave him good terms! How could he harm us?”

...

Others immediately objected.

Wen Lei didn't say anything anymore.

It's just that the corner of Wood Zhengjie's mouth in the car made a crazy arc.

“Lord, where are you going next?”

Xiao Feng asked.

“Of course it depends on Junjun and Sarah them!”

Levi smiled.

“Mother and the others are still in Wushuang City! Fu Qiufeng is just the fifth heaven, and he still wants to guide Junjun! He is really whimsical!”

Xiao Feng said casually.

Now Levi even kills the Seventh Heavenly Powerhouse if he wants to kill him, and Fu Qiufeng is a F\*rt.

Levi immediately went to find Sarah.

But at this time something happened that Levi didn't expect...

## The Protector Novel Levi Garrison Chapter 1753 – 1754

### Chapter 1753

That is, the Baolong clan wants to eliminate the crooked ways that joined the Domination Alliance before.

They would have cleared it long ago.

It was just that Levi went to War Eagle to lead people, so it was postponed.

Now they are going to take these people one by one.

Including those who surrendered to Levi before and relieved the danger of the capital are among them.

But Levi didn't know.

He is now on his way to Wushuang City.

Come this way.

The most obvious feeling is that the strong have increased.

Although they were hiding better, Levi could feel their powerful aura, which was different from ordinary people.

In Levi's eyes, it seemed to shine like a scorching sun, which was easy to distinguish.

Soon, Levi came to Wushuang City.

Wushuang City is still naively cultivating Junjun and Sarah as the future.

Little did they know that Levi, the Sixth Heavenly Powerhouse with hands and eyes open to the sky, was already tired of killing them.

Even Levi, the Seventh Heavenly Powerhouse, was able to kill consecutively.

After Levi arrived, Wushuang City did not stop him and let him enter.

"The city lord said, you haven't seen Junjun for a long time. Let you stay two more days this time!"

Levi shook his head: "No, I'm here to take them away this time!"

"Huh? What do you mean?"

The Wushuang City guard's complexion changed, and he looked at Levi suspiciously.

"Tell Fu Qiufeng that I'm here to take people back today! Fu Qiufeng and the others are too small, so I have to take Junjun back! You can only teach Junjun the basics after all!"

Levi said this.

The faces of the people on the opposite side changed wildly.

Several people hurried to report the news.

Soon after, the entire Wushuang City people surrounded Levi in three and three layers.

Fu Qiufeng even brought other people here.

Sarah, Jun Jun and the others were still very excited to see Levi.

After all, they all knew that Levi had gone to fight, but there was no news.

However, Fu Qiufeng stopped a few people.

“Wait! I have something to tell him!”

Fu Qiufeng looked at Levi and asked, “What? Are you going to take them away?”

“That’s right! Wushuang City is a small sect after all, your strength is too weak, you are not qualified to train Junjun!”

Levi said this.

The whole Wushuang City was angry.

There were angry voices everywhere, and everyone with blushing and thick necks wanted to teach Levi a lesson.

Fu Qiufeng and several elders were also angry.

Wushuang City is a small school?

It’s ridiculous!

Are they weak?

Fu Qiufeng’s five heavenly powerhouse is definitely the overlord of one party!

Levi ignored the anger of everyone, he said lightly: “Of course I am not an ungrateful person! No matter how much you have paid for Junjun! Let’s do this, I, Levi, owe you a favor!”

If you encounter any difficulties and problems in the future, you can come to me for a shot! “

If you let others know about Levi’s promise, you will definitely be crazy.

One of his promises is simply too big.

Did he kill tens of thousands of powerhouses in the fifth heaven?

One of his promises is unimaginable.

But in the eyes of everyone in Wushuang City, his promise was worthless.

“Go away, what good is it for us to find you if we are in trouble?”

“You are sick!”

...

Levi’s simple words completely angered everyone in Wushuang City.

“Now I will take away the people! Since then, I have nothing to do with you Wushuang City! But my promise has always been effective!”

After speaking, Fu Qiufeng was completely angry.

“Let me see how you are going to take people away today?”

## Chapter 1754

“Yes! Don’t want to take people away! Wushuang City hasn’t got your turn to speak yet!”

Everyone in Wushuang City has a tough attitude.

They are strong like clouds, how can they be afraid of a Levi coming.

Levi smiled.

Like these in Wushuang City, Levi didn't know how many killed during this period.

too weak.

It's no different from ordinary people who don't have the power to bind chickens.

It's the same as killing a chicken.

“Junjun, Dad will take you home!”

Levi stepped forward and hugged Junjun, pulling Sarah and Regina to leave.

“You get out of the way, I think he dares to take a step out of Wushuang City?”

Fu Qiufeng was angry.

When everyone heard the words, they let their way out of their own accord.

Levi didn't care, leading the three of them to move on.

“If the three of you dare to step out of the gate of Wushuang City, you will never come back!”

Fu Qiu shouted with anger.

He believed that Sarah did not want to leave.

After all, this is a great opportunity.

He believed that no one would refuse.

However, Levi didn't give them a chance to stop, and left with a few people.

Seeing a few people leave Wushuang City, Fu Qiufeng was dumbfounded.

Really gone?

“What about the city lord now?”

Others asked.

“Yes, if this monarch leaves Wushuang City, our future will be completely gone!”

“If you let other forces take it away, it would be unimaginable!”

...

Fu Qiufeng’s expression was uncomfortable after eating the flies, he immediately ordered: “Chasing, chase me quickly! Be sure to catch people back!”

Now he was cruel, even everyone, he wanted to get Junjun back.

When the Lords of Wushuang City were about to go out to catch Junjun, they suddenly thundered.

Several figures descended from the sky and stood on the city wall. It was Xiao Feng and the others.

Feeling the powerful aura of Xiao Feng and others, everyone in Wushuang City was taken aback.

Fu Qiufeng exclaimed: “Are you Xiao Feng?”

The name of the person, the shadow of the tree, Xiao Feng is famous in the Battle Domination Alliance, who doesn’t know?

“You are really brave! Which daughter dare you to catch?”

Xiao Feng said coldly.

“Why? Still say?”

Fu Qiufeng realized that something was wrong.

“I ask you, who dominated the league some time ago defeated?”

“Although it was the Baolong clan that made the move in the end, the main record is still that amazing soldier!”

Fu Qiufeng answered honestly.

“Recently, a Lord from Morendam went to War Eagle Nation to bring Wood Zhengjie back, and knew about the execution of the Seventh Heavenly Powerhouse, right?”

“I know! It’s unimaginable to even cut the Seventh Heavenly Powerhouse!”

Fu Qiufeng sucked his breath.

Xiao Feng said with a proud look: “Then I tell you, these two things were done by one person at all, and the person who was just in front of you, that is, my Lord Levi!”

The language is not surprising and endless.

As soon as Xiao Feng said this, the whole Wushuang City was deadly silent.

Everyone was dumbfounded.

The man who turned the tide and turned the tide is actually Jun Jun’s father.

That ordinary person?

It turns out that he has been so arrogant, has always looked down on Wushuang City, and has always mocked them for being weak!

In front of the strong who slaughtered the Seventh Heaven in a row, they were just as weak as ants.

He was right, Jun Jun sent them here to lay the foundation.

“Puff!”

Fu Qiufeng fell directly to his knees.

The others are sweating...

Scared to death!

They even wanted to kill him...

How could such an idea come up?

Sarah, who had left Wushuang City, began to worry: “You said Wushuang City won’t chase it, right?”

## The Protector Novel Levi Garrison Chapter 1755 – 17456

### Chapter 1755

Levi was about to speak, but saw a lot of people running behind.

Headed by it was Fu Qiufeng.

He brought a large number of people and followed Levi to them.

Levi frowned.

I began to bury the injustice that Xiao Feng did not do well, even this little thing could not be handled well.

Sarah and the others were frightened when they saw a large group of people coming.

“what!!!”

When they were about to scream, they didn't want to move Fu Qiufeng but they screamed.

Looking at Levi, everyone seemed to see a ghost.

Fu Qiufeng led everyone to change directions immediately and ran to the nearby mountains and forests.

It turned out that Fu Qiufeng and the others weren't here to chase Levi.

Instead, go to the cemetery of the old city lord to check.

To prove who saved the emperor in the hands of the Black God Sect in the first place...

“They are so weird, aren't they here to chase us?”

Sarah and several people expressed deep doubts about Fu Qiufeng's behavior.

After Fu Qiufeng and the others came to the tomb of the old city lord, they immediately asked them to open the tomb.

After seeing the mummy in the coffin, everyone understood.

There is no old town owner at all!

The Old City Lord is long dead.

It was Levi who rescued Junjun back, and he was also the one who destroyed the Black God Sect.

He said it at the beginning, but no one believed it.

Everyone attributed all this to the shot of the Old City Lord.

“By the way, did Lord Garrison say to help us once?”

Fu Qiufeng asked.

“exactly!”

“We must cherish this opportunity!”

“It turned out to be his daughter, otherwise, where would such a high talent be?”

...

Levi took the three of them back to Jiangbei's home.

The grandparents were naturally happy to see Junjun.

After hearing that Junjun left Wushuang City, Dale and the others were dissatisfied.

“Forget it, forget it, it's better to see Junjun every day than to go to any Wushuang City!”

Edith and Ollie hugged Junjun tightly.

For these ordinary people, family reunion is the most important thing.

In particular, some time ago, the national disaster was at the forefront. Everyone was used to seeing partings and understood the importance of family affection.

Especially Logan and Mann's family ran away many people.

The three old people miss Jun Jun very much.

So even if Levi brought Junjun back, they didn't say anything.

“What? The uncle and the uncle have all gone to War Eagle Nation?”

Sarah was taken aback when he knew this.

Levi smiled helplessly.

He also saw them in the Eagle Nation with his own eyes.

“By the way, the news just came that the Eagle Nation expelled many people who had passed from Morendam...”

“Let this group of people run outside, it's all right now, it deserves it!”

Dale cursed.

Apparently news of these people's deportation has spread all over the world.

“Huh? Is it so miserable?”

Sarah asked.

“Yes, it comes down to Morendam's mysterious Lord, who entered the war Eagle Nation alone and brought Wood Zhengjie back! It completely angered the war Eagle Nation! Only then did such an act of revenge!”

Dale explained.

“And I heard that the mysterious Lord was sent by the Baolong clan! The Baolong clan is really strong enough. With them, Morendam must be stable!”

...

Just then.

There was a sound of footsteps outside.

It turned out that it was the old lady of the Logan family and Doug who came.

As soon as they entered the door, they came directly at Levi.

“What happened to grandparents?”

Sarah asked.

“Not those unfilial sons! They were expelled from the war eagle country, deprived of their identity and property, and now they are abandoned into the wilderness!”

“Aren’t we here to find King’s Landing to pick them up and restore their identities?”

## Chapter 1756

Several people stated their purpose.

Everyone was astonished.

It turned out that they wanted Levi to pick up those people back and restore them to Morendam nationality and identity by the way.

No matter how several old men scolded them.

No matter how they betrayed their ancestors.

But once something happens, how can they rest assured that their daughter is suffering outside.

But they want to save it now and it is difficult to save it.

First, in the current special period, you can’t leave Morendam.

Secondly, Alfred, Mike and the others have no identity at all, and they cannot enter Morendam.

Now even the warrior is no exception.

Because of the emergence of the Baolong clan and the victory of the war to dominate the alliance.

Now the warriors can't be unscrupulous.

I have to listen to Colin's orders...

Even if they want to take it back, based on these two points, there is nothing they can do.

I just heard Levi coming back.

They hurriedly came to Levi.

According to Levi's identity, picking up people and restoring his identity is his one-word matter.

It's too simple.

"They are indeed betraying Morendam, betraying their ancestors! But when we are parents and grandparents, can we watch them die away from home?"

"We decided to take them all back. We will be scolded if we are scolded. It's okay."

"King's Landing, we came to you specially, just to let you pick up people!"

"That's right, take the people back with one word of yours, and then restore them to Morendam nationality!"

...

The old lady and them were so polite to Levi for the first time in the past two years.

“Are they leaving Morendam nationality?”

Levi asked.

“Well, these unfilial sons thought that Morendam was going to perish, and they all ran away one by one, they were not obedient!”

Melina cried.

Levi smiled: “Then they are all adults, right?”

“Yes what’s the matter?”

Doug answered subconsciously.

“Since you are an adult, you have to be responsible for your actions! I believe that betraying Morendam is definitely not their impulse!”

“After leaving Morendam, whether it is good or bad, they will bear it all by themselves!”

Levi said seriously.

“Ok?”

“You... what do you mean?”

Only then did a few people react.

“I mean it’s very simple! I won’t go! Since they have left Morendam, they will never come back!”

“I will also give orders-no one who left Morendam at the time will come back! No accommodation is allowed!”

Levi’s attitude was firm, and everyone present was taken aback.

“you dare?”

The old lady roared.

“Why don’t I dare?”

Levi sneered.

“Since they have left, they are no longer Morendam people, and there is no need to come back!”

...

“What are you talking about? Anyway, we are also a family! You can’t Wen Tao and they usually have friction with you, so you should retaliate at this time!”

Melina said immediately.

“Yes, family, are you watching them die outside?”

“What kind of king are you now, don’t you just deny the six relatives and want to kill them righteously?”

...

Everyone babbled.

Even Ollie and Edith also persuaded: “In fact, King’s Landing doesn’t have much to do. Have you arranged it? Just one sentence! See what the old man has done!”

What the old lady thought of, asked Sarah to persuade her.

Sarah stood beside Levi: "I listen to Levi!"

"Well, I don't care about this! What they love!"
