

# The Protector Novel Levi Garrison Chapter 1943 – 1944

## Chapter 1943

The gambling king wiped his cold sweat and could only tell everything.

The half fairy and half ghost have superb abilities, almost ghosts and gods.

He is different from Kyushu Xuanzun's spells, his spells are used in Feng Shui.

Specially show people feng shui, change the luck of these things.

In this realm, he is like a half immortal!

Back then, the king of gambling was just a nameless man who went south, starting from scratch, step by step.

Among them, there is not little to rely on half immortals and half ghosts. Changing fortunes is common.

Especially in casinos, these are particularly important.

But it is said that the king of gambling has built a huge financial empire, which is inseparable from the half immortal and half ghost.

It's not just him, the other dignitaries of Golden Harbor Island rely on half-fairies and half-ghosts.

Because of their success, they pushed the half fairy and half ghost to the position of god!

That is, everything that Levi saw in the materials about the magic Lord.

The gambling king and the big powers regard the half immortal and half ghost as the guests.

I thought that under the close cooperation between the two parties, the business could take a step forward.

Where did I know something happened later...

Everyone who has been treated by half-immortals and half-ghosts has been punished to varying degrees!

The big powers are either physically disabled, family members are in trouble, or their careers collapsed...

Gradually, problems arose.

The most serious is the gambling king family!

Because they get the most from half-immortals and half ghosts, the more severe the punishment they receive.

The wives and concubines of the king of gambling, and even the lovers who were related to each other, died suddenly.

The most frightening thing is that in the grandchildren of the gambling king, not one is a boy, all are girls.

This is why the gambling king loves He Qingxue the most.

In general families of this level, boys are definitely more loved.

But men are not at all!

This is the trend of weaning off children and grandchildren!

Together with the problem of the gambler's own legs, until now he can only walk on crutches.

From then on, all women who have a relationship with the gambling king will die...

The gambling king is a seed of infatuation.

Although there are many women, he loves each one deeply.

But they are all in trouble!

The gambler is distraught!

It wasn't until then that he realized that if half a fairy and half a ghost were asked to take action, while gaining benefits, he would also be punished.

In a word-there is no good thing in the sky.

If so, you have to change things.

The gambling king understood that all his achievements were originally obtained by his wife and family without male descendants.

To put it in exaggeration, the gambling king is cursed.

The same is true for other powerful and powerful people on Golden Harbor Island.

Wherever the half-immortal and half-ghost benefited, the most important thing must be lost accordingly.

The more benefits you get, the more serious and important you lose.

After the backlash appeared, the half fairy and half ghost fell directly into the altar.

Angrily, the gambling king locked him up forever, letting him live in the ground secretly until he died of old age.

Subsequently, the gambling king and the dignitaries of Golden Harbor Island blocked the news...

In fact, the gambling king is also very afraid, he really wants to kill half a fairy and half a ghost with a single knife.

Kill him terribly, and you will be punished.

Can only be closed!

Hearing this, Levi understood everything.

Levi was not very shocked by these strange things.

In the people of Morendam, there are many such strange people and strange things.

The most important thing is to understand a truth-there is no unprovoked achievement in the world, everything still depends on your efforts.

If you take a shortcut, you will pay the price.

With that said, everyone has arrived at the place where the half-immortal and half-ghost are imprisoned.

“You came?”

The far half fairy and half ghost already laughed.

“Are you waiting for me?”

“Yes!”

The half fairy and half ghost smiled strangely: “I still know why you are looking for me?”

Levi and everyone were shocked.

The half fairy and half ghost said modestly: “It’s nothing more than a little folk trick, I can’t get on the stage!”

Levi calmed down his emotions: “Then you can cure her?”

## Chapter 1944

“You can give it a try!”

A smile appeared on Levi’s face.

possible.

But then the half-immortal and half-ghost voice sounded: “But you also pay the price, are you willing?”

“you...”

Hearing this, the gambling king was furious.

Half ghost and half immortal obviously knew all of this.

As long as he makes a move, it must be accompanied by punishment.

But he didn’t say anything before.

Play with the rich and powerful of Golden Harbor Island.

If it was said that he had to pay such a price at that time, the gambling king would never find him.

Now it's calm.

Tell me directly that there is a price!

Levi looked calmly: "No problem! As long as people are okay, any price can be accepted!"

Levi is not like being regarded as an enemy by Sarah all his life!

He can accept any price!

"it is good!"

After finishing speaking, a terrible vigor suddenly erupted from Half Immortal and Half Ghost, and the chain that was locked on his body was broken every inch.

The gambling king looked dumbfounded.

This can't shut him down?

"you you you..."

The gambler was shocked and speechless.

He and his subordinates realized that it turned out that the half fairy and half ghost could not be kept here.

He is not only a Feng Shui Lord, but also a Lord.

"You were arrested by me on purpose? Why are you willing to be kept underground for so many years?"

The Gambler asked tentatively.

They really couldn't figure out why the half immortal and half ghost didn't resist and let them stay here for so many years.

What is it for?

Is he stupid?

Do not!

There must be a reason!

Half fairy and half ghost did not answer his question.

Instead, he left here with Levi.

Before leaving, Levi said to the gambling king: "I will send him back after I let him help. You decide whether it is closed or not!"

The gamblers looked bitter.

If they want to shut down, they have to be able to shut down.

Now it seems that the strength of the half-immortal and half-ghost is terrifying.

A veritable Lord of magic on Golden Harbor Island!

What are they going to do?

Levi was very pleasantly surprised.

The more magical and strange the half fairy and half ghost, the greater the probability of curing plum dye.

As for the price, he never thought about it.

Just come on!

"Mr. Garrison, let me leave first, and then we meet!"

Afterwards, the half fairy and half ghost left temporarily, not knowing where they went.

Levi waited for him and went to Tiance Mansion to find Sarah.

...

The other side.

Richard has already been in a video call with the East Island forces.

“There is news from my people that Levi has appeared on Golden Pot Island! There are no seven evil gods around him, and there are no people from Tiance Mansion on Golden Pot Island! This is a good opportunity for us to kill him!”

Richard said.

“Really? That’s a great opportunity! Mr. Richard, this is our best opportunity! Both of us must send enough cards! He must be killed!”

“Don’t worry, I understand! It’s hard to miss this opportunity!”

“Then let’s act right away! Levi will be leaving later!”

...

Levi has been waiting for half fairy and half ghost.

It’s just that this weird guy doesn’t know why he went.

I haven’t come back after a few hours.

The seemingly calm Golden Harbor Island is actually murderous.

On the eve of the last battle with the Common Killer God, Richard and the East Island forces sent their hole cards for the purpose of consumption.

But this time is different, because he wants to kill Levi directly.

So what they sent is the trump card.

The strong man who can directly threaten Levi's life!

Richard is a cautious man, never revealing his cards until the critical moment.

But in order to kill Levi, he sent it out.

Levi, who was waiting, suddenly his right eyelid jumped nonstop.

"How do you feel like something is going to happen!"

Levi's face changed.

He realized that something was wrong.

The atmosphere is weird and people are very uncomfortable.

### Chapter 1945

"Could something happen to him, right?"

What Levi thought for the first time was that half fairy and half ghost might have something wrong.

He didn't expect it to be himself at all.

The flustered feeling hit him, making him restless.

“Huh? What are you doing here?”

Levi saw He Qingxue come.

Can't help being surprised.

“I...”

He Qingxue lowered her head, not knowing what to say.

“Ok?”

Levi became more puzzled.

Is this woman sick?

“thank you!”

He Qingxue raised her head and thanked Levi.

“Thank me?”

Levi pointed at himself with a look of surprise.

“If it weren't for you, I would have married Jimson! Hey, I used to treat this marriage as a deal! I agreed to marry him, just want to enter the laboratory of the gods!”

He Qingxue tells the truth.

Levi touched his nose: “Laboratory of the Gods? So attractive?”

Although the Western Heavenly King has already found the Gods' Laboratory, the information is scarce.

Levi wanted to learn more from other people.

“Yes! The Lab of the Gods claims to control the most mysterious things in this world! They are on the top of this world! As long as they join, they will definitely be the top existence!”

“They have the most advanced technology, the most complete cultivation system, the most abundant resources, and they even have all kinds of ancient bloodline creatures in the world, and they can clone and replicate them for humans...”

He Qingxue opened the chatterbox and kept talking when he talked about the Lab of the Gods.

It just so happens that the major companies of Golden Harbor Island and War Eagle Nation are closely related, and they know a little bit about the Lab of the Gods than other places.

Levi was shocked.

The Lab of the Gods is indeed powerful.

It can be seen from a Richard alone.

He is definitely not high in the laboratory of the gods, just a middle-lower rank.

At best, it represents the dirty work outside the laboratories of the gods.

Such a small person is so difficult to deal with.

It's hard to imagine how powerful the Lab of the Gods is...

When dealing with the Eagle Nation, all the Lords encountered are basically produced by the Lab of the Gods.

The fighters they built with modern technology and genetic technology are even comparable to Eastern fighters.

This in itself is incredible!

Even Levi felt that the covenant of the gods that restricted the supreme powers back then came from the laboratory of the gods.

They are like gods aloft, dominating everything.

But no matter how powerful or mysterious he is, Levi is not afraid.

Even overturn them!

Offending and provoking Morendam, he couldn't let it go.

He and the Lab of the Gods will have to meet each other sooner or later. Before that, just understand more.

Levi asked: "Is there anything specific about the Lab of the Gods?"

"The more specific point is that the Lab of the Gods actually has observation bases in every corner of the world, such as on Golden Harbor Island, and it is said that there are also in Morendam!"

He Qingxue replied.

Levi nodded: "Terror, their scope is all over the world!"

This incident chills your back.

You didn't even figure out who the enemy was.

But the enemy's knife is already on his neck, and what's more terrifying is that you still can't see the knife.

"By the way, my grandpa said that the Lab of the Gods is also searching for various relics and various rare resources and substances all over the world!"

"Some time ago, they found something in various places in Morendam. Taking advantage of the trouble, they sent someone to get it!"

“It is said that the things taken away are a qualitative leap for them!”

...

Hearing this, Levi’s face changed drastically.

Isn’t this what I have been investigating?

The Western Heavenly King checked the news for a long time, but he didn’t expect He Qingxue to know directly.

It seems that the family of gambling kings who have been in contact with Heishui Company for a long time are well informed.

“What did they find taking away in Morendam?”

Levi asked curiously.

## Chapter 1946

“Seems...”

As soon as He Qingxue’s words came to her lips, a sudden change occurred.

“boom!!!”

A beam of light came out of thin air.

Levi immediately pulled He Qingxue away.

“Rumble...”

Immediately after the shaking of the mountains, a huge deep pit was blown out.

“No, someone!”

Levi quickly took He Qingxue to the side.

He Qingxue's face was pale.

Although she was also a martial artist, she knew at the moment that if there was no Levi, she would definitely die.

“Sorry, you are implicated. I'm afraid these people are coming to me.”

He Qingxue apologized.

I saw Levi's ear wings instigate, and said in a deep voice: “No, they came at me! You are not qualified!”

Levi already felt that there were many strong people around him.

Everyone is enough to destroy the Golden Pot Island and surpass the Kyushu Xuanzun.

How could a powerhouse of this level come to trouble He Qingxue.

He Qingxue: “...”.

She looked embarrassed.

“Buzzing...”

There was a low roar in the sky, and a gust of wind formed around.

“OK?”

Levi was taken aback.

This is a big trick!

In all directions, including the sky, there are wind walls formed to isolate this place from the outside world.

The invisible wind shield enveloped them.

Everything that happens here will not be known to the outside world.

And no one will interfere here!

Someone wants to kill himself!

Levi suddenly understood!

Richard!

The Lab of the Gods!

These two titles immediately came to him in his mind.

He let go of Jimson and others from the Blackwater Company. They must have told Richard.

He had repeatedly undermined the plans of Richard and the East Island forces.

The other party can't let him live!

“Hey?”

Levi glanced at He Qingxue, this girl was going to be his burden.

“Levi's time for your death has arrived!”

Shouted.

Several figures appeared.

The first is a tall white man with a blank expression on his face, like a murderous god from hell, giving the whole person a beast-like atmosphere.

He was nicknamed the undead soldier.

Next to me was a foreign woman with a fiery figure wearing a black leather coat. Her eyes were very strange and her body exuded a terrible breath.

She is a witch sent by the Lab of the Gods, similar to Morendam's magic Lord, possessing supernatural powers.

"Kacha, Kacha..."

Following the appearance was a tall man. While he was walking, a technological armor appeared on his body, completely enveloping him!

This is a super armor produced by the Lab of the Gods, two levels higher than that worn by Richard!

This is a mecha fighter, nicknamed the god of war.

"Da da da..."

Along with the sound of footsteps, another figure appeared.

His body was wrapped in a black battle suit, and he was also wearing a terrible devil mask. He couldn't distinguish between men and women. He carried two long swords on his back, exuding a terrifying breath.

Death Swordsman!

These four are powerful and terrifying, and they threaten Levi when they appear.

This is much stronger than Commoner Killing God.

And Levi felt that there was another person staring at him in secret!

Ready to give yourself a fatal blow at any time.

These five people alone are absolutely terrifying!

It seems that this time Richard is really paying for it.

But this is only the beginning!

“Jie Jie Jie...”

There was a strange laughter.

On the bridge not far away, stood a dwarf who was only about 1.3 meters tall.

He has an ugly face and a weird smile.

However, he was carrying a katana behind his back, and there were several katanas of different lengths hanging from his waist.

Levi narrowed his eyes: “Samurai Dongdao?”

“Boom boom boom...”

The earth trembled suddenly.

Not far away, a hill-like figure appeared, carrying a huge sword!

“There is such a tall man in Dongdao?”

Levi sneered.

Dozens of Toshima warriors appeared around.

# The Protector Novel Levi Garrison Chapter 1947 – 1948

## Chapter 1947

All powerful horrors!

All are close to the level of Common Killing God!

The tall and short samurai even possessed the level of the common killer god.

Together with these Lords in the Lab of the Gods, it is enough to form a death-killing game!

What's more, Levi felt that there were still people on the East Island forces staring at him in secret.

The strength of the face is so strong, there are top assassins secretly!

Horrible!

In fact, Levi noticed the two people staring at him secretly, one was the ghost warrior of Dongdao.

Who is extremely powerful!

The other one is the Dark Arrow from the Lab of the Gods!

Rumor has it that he can penetrate everything with one arrow.

No matter how strong the existence is, if he is shot with an arrow, he will undoubtedly die.

Both of these are assassinated kings!

In other words, this time killing Levi, these things on the surface are all pretense.

The real killer move is on these two people.

They are the key to killing Levi!

...

Richard has been in a video conference with the leader of the East Island forces.

“Our people are in place! This time we really have the trump cards! We can’t kill him this time, we really can’t do anything!”

“Yes, the Oni Samurai are all sent out!”

The East Island forces helplessly spread their hands.

Richard also sighed and said: “This time I sent out here, but I can also transfer with the highest authority! If I can’t kill anymore, I have nothing to do!”

This is their last hope to kill Levi!

At this moment, his hands came down to find Richard.

Attached to Richard’s ear and said a few words.

Richard’s face changed from serious to ecstasy.

“Hahaha... that’s great!”

Because Richard’s men completely restored Wood Zhengjie’s experiment.

The point of direct experimentation can be done immediately.

Because Wood Zhengjie discovered the super-energy particle alone, they also found it.

There are even alternatives!

In other words, they have more super-energy particles than Wood Zhengjie, can conduct more experiments, and can transform more pure energy bodies.

Richard heard the news with excitement.

“Hurry up! Choose two people to experiment, I want to see the results! The fastest time!”

Richard was already impatient.

“Understood! We have selected a hundred candidates for participating in the experiment! Experiments can be carried out at any time!”

Just as his subordinates were about to leave, Richard seemed to think of something and called his subordinates in front of him.

“Go, catch these people... come back and experiment with them!”

Richard whispered names one by one.

After listening, the men couldn't help but give a thumbs up: “Mr. Richard, you are vicious! This trick is absolutely amazing!”

The leaders of the East Island forces who were in the video, upon seeing this, asked curiously: “Is there anything good about Mr. Richard?”

Richard smiled: “In a word, even if you can't kill Levi this time! I can kill him next time!”

Richard was confident that as long as he created a pure energy body similar to Wood Zhengjie, Levi would undoubtedly die.

Besides, he wants mass production!

Not just one!

Many!

Can Levi live?

impossible!

“Really? That’s great! Say yes, when we are in trouble, we have to support us!”

...

Levi would never think of it.

This killing round is not over yet, and the next killing round has also been arranged.

This is how terrible Richard is!

Not to mention the laboratory of the gods behind him!

He Qingxue pulled the corner of Levi’s clothes and looked at the slowly attacking enemies around him in horror.

The horrible breath of these people made her tremble, it was the fear from the depths of her heart.

Levi suddenly smiled thinking of something.

He was wondering if it was a half-fairy half-ghost, the old guy expected to be in danger and avoided in advance.

“How about Levi coming to your top ranking list? We still kill you!”

The enemy is coming fiercely, and Levi is like a lamb waiting to be slaughtered.

## Chapter 1948

The powerhouses sent by the Gods Lab stared at Levi.

There is a deep hatred between them!

It is even said that Levi is the enemy of the entire War Eagle Nation!

Levi once brought them shame alone!

Everyone in War Eagle country can't wait to cut Levi a thousand swords!

So when they saw Levi, it was a natural hatred!

“Ok?”

Levi made a discovery.

Among them, the death swordsman was holding a broken knife in his hand!

It was the broken knife that Levi inserted on the frontier of the War Eagle Nation at the beginning!

Levi's meaning is very simple, I will come and go freely on your land, and leave a mark that belongs to me!

At the beginning, Richard refused to be pulled out, saying that this was a shame to remind them all the time!

Today, they brought the broken knife back to Levi!

It also represents them to wash away the shame!

“Return the shame to you, give us life!”

The Death Swordsman made a hoarse voice and shot the broken knife at Levi.

“boom!”

The broken knife tore the air and pulled out a long wave of air.

The speed of the lasing actually broke the sound barrier, breaking the speed of sound.

Even if a Lord of the rankings forcefully grabs this broken knife, his arm will be shattered!

The speed and power of this sword is too terrifying!

He Qingxue was stunned by her own eyes, this cut was too fast.

This hand alone will ruin the world.

Sure enough, the death swordsman was terrifying.

But Levi suddenly stretched out his hand, and easily grabbed the broken knife that came from the direct shot in his hand, if there was nothing left.

The terrifying speed and power of Broken Blade was instantly resolved.

Levi's hand was also shocked to the opposite side!

They came out of the laboratory of the gods, and they disdain Levi!

I feel that killing a Levi, why do so many of them join hands.

Two is enough!

After Levi showed this hand, everyone no longer despised Levi.

It's no wonder that Richard will give a thousand warnings to punish Levi at all costs.

“Then don’t force it, let’s go together!”

Levi sneered holding the broken knife.

In the past, he was able to kill from the Eagle Nation with this broken knife.

Today, you can also kill from Golden Harbor Island!

Who dares to fight where the knife is going?

The real-time footage was sent back to Richard and the East Island forces.

“Very well, Levi still has a burden beside him! God helps me too!”

“Our goal is to kill Levi at all costs! So any means can be used!”

“Have you seen the woman next to Levi? You kill her with all your strength! Levi is bound to protect! By then he will lose sight of one another, and it is easy to reveal flaws!”

“We still have three assassination Lords secretly! Once he has a flaw, he will definitely die!”

...

Richard was still instructing how to do it.

And there are three people hiding in secret.

So far Levi has only found two people...

There is still one person hiding!!!

“kill!!!”

In the field, the undead warrior has already been out.

The person he killed was not Levi.

But He Qingxue on the side!

“Kill kill kill!”

The undead soldier soared in size and instantly turned into a beast.

“Rumble...”

His punch after punch came out.

The earth trembles and shatters!

His terrible power is still breaking the speed of sound!

It's terrible!

Levi pulls He Qingxue behind!

“boom!”

He went head-to-head with the undead soldier.

The two fists slammed together, the earth shook terribly, and numerous cracks appeared.

The sea water not far away was evaporating, and the bridge in the distance shook violently and was about to collapse.

The power of the two men was like thunder coming to the world, making a dull thunderous movement.

If it weren't for the isolation here, I am afraid that the entire Golden Harbor Island will suffer!

“boom!”

Levi blasted out a punch and knocked out the undead warrior.

But after landing, the undead warrior stood up as if nothing was wrong, not only was he unharmed, he was also enjoying himself.

It turned out that his pain nerves were all removed.

He can't feel the pain.

This is the first person, it's so scary...
