

05:45

Chapter 1091

Quin looked at Fade who was explaining in a panic. She blinked, an odd expression flashing across her face. She then flashed a gentle smile at him and said, "Why should I blame you? Lily has indeed worked hard. I'll blame you if you didn't thank her!"

"Okay, get up quickly! Later, let's go see Lily together." Quin added, "Also, I have slept for so long. There must be a lot of things to do in the company. I have to go quickly."

Hearing this, Fade secretly grunted, "My wife really is a workaholic!"

Immediately, Fade entered the bathroom and began to wash up.

Quin stared at his back. The smile on her face stiffened as she whispered to herself, "Lily likes you, I can tell. Moreover, to some extent, perhaps, Lily is a more suitable wife for you."

"Alas..." With a sigh, Quin threw these messy thoughts out of her head and stopped thinking about it. She got up from the bed and started washing up as well.

After they finished getting ready, they walked out of the room.

They had not left the room for quite some time. After they came out, the two of them couldn't help but take a deep breath, feeling the fresh yet long-lost outdoor air.

Not long after, Lily had returned from the company.

05:45

The three of them had a meal in the restaurant of the hotel. They chatted about recent events and also talked about company affairs.

Quin and Lily had a heated conversation, and their relationship seemed to have gotten closer than before.

This situation made Fade breathe a sigh of relief, and he suppressed a man's most instinctive, evil thoughts deep in his heart.

After that, Quin and Lily went to the company.

After all, ever since Titan's defeat, along with Fenrir and Martin's death, the name Master Chen had become increasingly popular in Jade City. The progress of Fei Enterprises Holdings Inc and Sincere Medicine Center had improved by leaps and bounds.

The company's business had naturally increased. Although Lily was able to handle it, she was still in a mess doing it alone. Therefore, Quin naturally had to take care of the company's business.

His wife and Lily were both busy, and Fade was not idle either. He rushed over to Sincere Medicine Center to have a meeting with Otto Pai from Otto Clinic and the Chief Executive's secretary.

After all, some time ago, because of the fact that the formula of Life Elixir Wine had been sold to the Li family, the Li's Hospital had developed very rapidly. This had affected the business of the pharmacies including the Sincere Medicine Center. The reform plan of the Jade City pharmaceutical industry which was proposed by the Chief Executive had also been affected.

Now, the Li's Hospital could no longer operate anymore. Fade and the others naturally had to re-plan and implement the reform plan of the Jade City pharmaceutical industry.

Without the Li family, their biggest competitor, the road ahead was much better. Fade only needed to take back the formula of Life Elixir Wine and place it on the pharmaceutical market again. Then, the company could return to the previous popular state

05:45 

without any problems.

After finishing the business with Sincere Medicine Center, Fade drove towards the branch of Fei Enterprises Holdings Inc.

After all, his wife, a workaholic, had gone to work on the first day ever since she got up from the hospital bed. She had not even come out of the office after office hours.

Fade felt that he must go over and supervise her to ensure that she took her break.

In the car, Fade received a call. When he saw the number, it was Momo Soo who had called. Fade immediately answered the phone, "Momo, why are you calling now?"

"Fade, it's winter break in school. I am home in South Bay City," she said.

"It's already winter break. Time flies!" Fade was a little surprised, as he didn't expect to have stayed in Jade City for several months.

"By the way, Fade, you said a few days ago that the medicinal herbs had been found. How is my cousin's illness?" Momo asked with concern.

Fade heard the words and reassured with a smile, "Don't worry, I have cured Quin's illness. Now, she is perfectly fine."

"That's great!" Momo was so excited that she immediately said, "Fade, how long will you and Quin stay in Jade City?"

Fade thought for a while, and said, "It's not certain now, but it will take a while! After all, there are still a lot of things to deal with here, especially the company's business."

Momo said, "I see! Fade, then I will go to Jade City to visit Quin and to travel around as well. After all, I haven't visited any places

05:45 

after studying here for so long."

"You little girl, I think you obviously want to come to Jade City to play. Yet you still say you want to visit your cousin!" Fade joked with a smile.

The girl quickly defended herself, "Fade, of course I'm not! I mainly want to visit Quin this time. Playing comes second."

"You're just here to visit your cousin, not your cousin-in-law?" Fade joked, "In this case, your cousin-in-law will be sad!"

Momo retorted, "I'll visit you too! That should be enough."

"That's more like it." Fade smiled, "Just come over. I'm not bragging, but your cousin-in-law is now the most famous person in Jade City. Then, I will take you around Jade City and let you have fun."

The girl was very excited when she heard this, "Fade, this is what you said. I will remember it. By then, you will have to accompany me."

"Okay, I'll accompany you, don't worry!" Fade smiled. After a short chit-chat with Momo, he then hung up the phone.

After the phone call with Momo, Fade's cell phone rang again not long after.

Looking at the number, it was from Dragonville. Fade immediately answered the phone and said, "Elder Sun, how is Shinnie?"

On the other end of the phone, Francesca Sun said gratefully, "Mr. Chen, after taking the medicine you've sent, Shinnie's condition has completely recovered, and now she is as fit as a fiddle."

"That's great. Let Shinnie have a good rest. After this, I will go back to Dragonville and check up on her," said Fade.

"Well, thank you, Mr. Chen!" Francesca was very respectful and grateful, and immediately called for Shinnie. A gentle voice came

05:45 

from the other end, "Brother Chen, thank you."

"Shinnie, I'm your brother so you don't need to be so polite with me. Have a good rest," Fade smiled.

"Okay!" Shinnie responded softly, and then ended the call.

Fade put away the phone and thought of what had happened a few days ago.

At that time, after he got the Fire Blame Plant, he quickly formulated the antidote, and then immediately sent a copy to the Sun family in Dragonville.

After all, Shinnie had been attacked by a man in black and was hit by the cold toxin of the Snow Lotus Seed. She had been in a coma and had not yet recovered.

The Snow Lotus and Ice Lotus belonged to the same family, and the symptoms they caused were very similar, except the Ice Lotus was rarer. Thus, the symptoms of the cold it caused were more severe.

If the antidote formulated by Fade could cure the cold toxin of the Ice Lotus Seed, naturally, it could also cure the cold toxin of Snow Lotus Seed.

05:45

Chapter 1092

After the phone call, Fade immediately entered the company building.

He went all the way up to the CEO's office on the top floor. Fade peeped inside, and as expected, Quin was busy with work at the desk.

"Alas, what a workaholic." Fade sighed, pushed the door and said, "Dear, it's time to get off work. It's time for you to rest."

Upon hearing that, Quin looked up and saw that Fade had arrived. She was slightly surprised as she said, "Wait a minute, there is one more thing. I'll leave as soon as I'm done."

"No, you must get off work right away!" Fade shook his head firmly. He clearly knew that the one thing his wife mentioned might mean working overtime for an hour or two.

Therefore, he walked over and collected the papers on Quin's desk.

Quin glared at Fade, but knew that he was doing this for her own good. She then got up and said, "Fine, I will clean up and get off work!"

"Yeah, that's it!" Fade nodded and smiled.

Just as Quin was packing things up, a notification dinged from the computer.

Quin reached out instinctively and wanted to check the update.

05:45 

Upon seeing this, Fade stopped her and said, "Dear, you said you're getting off work. Deal with the update tomorrow!"

Quin smiled helplessly and was just about to agree.

However, at this moment, she glanced at the computer and felt shocked. She said, "Wait a minute."

"What's wrong? Dear, don't tell me this is urgent work again." Fade sighed.

Quin said, "No, it's not a job message. It's a personal email."

"Personal e-mail, then that's another reason to ignore it. Read it tomorrow." Fade shook his head.

Quin looked at Fade and said, "The person who sent the email is Sasha."

"What, Sasha!" Fade was taken aback, and he looked at Quin in confusion. "Why did she email you? Could it be that this lady is still stubborn and wants to take revenge?"

Thinking of this, Fade's gaze turned cold, and his expression fell. "I have shown her mercy by just disfiguring her face. If she still doesn't repent, I don't mind sending her to see her grandfather and father."

"Don't be so hasty. Take a look at the contents of the email, and you'll understand right away," Quin suggested. She then clicked on the email.

After reading the e-mail quickly, Quin let out a cry of surprise and said, "If this is the case, it would be great."

"What's so great?" Fade asked in confusion.

Quin pulled him over and pointed at the computer. "Read it for yourself!"

05:45 

Fade looked at the computer and quickly browsed the content of the email.

Immediately, he understood. It was an email from Sasha requesting help. She had requested a meeting with Fade. If she succeeded, she would be willing to transfer the shares of the Li family under her name to Fei Enterprises Holdings Inc for free.

"She wants to see me and transfer the shares for free! Sasha Li, what are you planning?" Fade wondered aloud.

On the other hand, Quin was thrilled as she fantasized about the bright future. "Sasha is an immediate heiress of the Li family, and she was trained to be a successor before. She must own a lot of shares in her family. With hundreds of billions worth of property in the Li family, even if she only has 10% of the shares, it is definitely a huge sum of money."

"Moreover, money is only one aspect. What's more important is that the name of the Li family has already been entrenched in Jade City for so many years and they own a lot of commercial foundations locally and abroad. If our company can utilize these resources, then development will be much easier."

.....

Fade felt Quin's excitement and couldn't help but smile. He knew that what she cared about was not the Li family's money, nor the company's growth, but the sense of accomplishment and satisfaction of slowly expanding a small company step by step.

Moreover, looking from a different point of view, the existence of the Li family could also help him get some resources for martial arts practice and medical treatments more conveniently.

The rare medicinal herb, the Fire Blame Plant, was a good example. With the power of the Li family, things might be more convenient in the future.

Thinking of this, Fade nodded and smiled at Quin. "Since there are so many benefits, then accept her request and find a time to

05:45 

meet her. I have a lot of time on my hands anyway."

"When are you free then? I will reply to her now!" Quin looked at Fade and inquired.

Fade thought for a while, and then gave a time on the next day. Quin quickly replied to the email. Soon, Sasha replied as well. The time and place had been set for the next evening.

After dealing with this matter, Fade went home together with Quin.

At 6:30 in the evening of the next day, Fade went out and arrived at the Scarlet Bar as agreed with Sasha.

Although it was not too late, for a bustling city like Jade City, the bar was already full of liveliness, with people coming and going. The bar was crowded with a merry atmosphere.

Fade walked into the bar. As he listened to the loud music blasting in his ears, and the smell of alcohol wafting in the air, he frowned.

He scanned around in the lobby, but did not find Sasha. Thus, he came to the bar and asked, "Excuse me, do you have a guest named Sasha Li? She asked me to meet her here. By the way, my name is Fade Chen."

The staff went away to check on it and shook his head. "Sir, I'm sorry, there is no guest with the name Sasha Li. The name Fade Chen is also not in our records."

"How could this happen? Could it be that Sasha made a mistake?" Fade was puzzled.

They had both agreed on meeting at seven o'clock. Looking at the time, it was still ten minutes earlier than the agreed time, so Fade ordered a glass of wine, randomly found a spot and waited, "I'll wait a second. Maybe she is late."

05:45

Soon, it was almost seven o'clock, but Sasha was still not there.

Fade frowned, then took out the phone and sent an email to Sasha asking about her condition, but she did not respond.

"Is she late? Or is Sasha fooling me?" It was already a quarter past seven, and there was still no sign of Sasha in the bar. Fade couldn't help but frown.

After finishing the drink in the glass, Fade was about to check out and leave.

At that moment, there was a loud noise in the bar.

Fade looked over involuntarily, and saw two drunk men in the congested crowd surrounding a waitress in bar uniform. They were yelling and kicking.

"D*mn, I touched you because I thought you were pretty. You're just a waitress, what are you doing!"

"Do you know who I am? Have fun with me once and I will protect you in the future."

"This figure, these curves, and the firmness of your skin... They're all splendid. It's just that you've kept your face covered. What do you actually look like?"

.....

05:45

Chapter 1093

Seeing this, it was already obvious what had happened. Two drunk customers were trying to harass a bar waitress.

Such things were extremely common in bars. Moreover, those two customers were obviously people with some statuses. Neither the surrounding customers nor the bar staff dared to come up and interrupt them.

Some people even cheered from the side.

"Awesome Gail! This time, he got another tender chick!"

"Barrack, give us a show now to broaden our horizons."

"This chick is so hot. Gail and Barrack are so lucky."

.....

The roaring and shouting at the scene immediately excited the two men.

Barrack, who was burly, kicked the waitress who fell on the ground and shouted, "Did you hear me? Take your shirt off for me. I want to have a live performance here today."

Gail, who was smaller in size, stared at the waitress as his eyes shone. He leaned down to the waitress and reached out his hand, tearing off her clothes.

05:45 

The waitress hugged her head and curled up on the ground. Despite being kicked and beaten by the two, she only made a muffled noise in her mouth as she was completely powerless to resist.

With a sound of a rip, Gail tore away the waitress's clothes. A pair of slender, fair and smooth legs was revealed.

In an instant, the atmosphere was heightened.

"D*mn, her legs are beautiful!"

"I wouldn't get sick of her even for one year if she was to wear black stockings."

"Gail, Barrack, after you've finished playing, let me have a taste. What about that?"

.....

The fair skin and the sound of cheering around them made the two men grow even more exhilarated. They leaned down and began to rip apart the waitress's clothes vigorously.

At this moment, the waitress was still covering her head and remaining silent. Only when she couldn't bear the pain did she let out a muffled sound.

Seeing such a scene, Fade's gaze turned cold. He strode over and shouted, "You guys, stop right now."

When the two men heard the shout, they looked over to Fade. They then proceeded to wave him off and yelled at him.

"Kid, don't be nosy."

"If you want to act like a hero to save the beauty, why don't you look at yourself first? Scram."

05:45 

.....

Fade stepped forward with a cold expression. When the two saw this, they couldn't hold back their fury. They reached out and pushed Fade.

"What, are you trying to dig your own grave? You're really forcing me to punch you!"

"Want to fight? I've never been afraid of anyone in my life!"

The two men threatened Fade and were about to launch an attack.

However, before the two got close to Fade, they felt an invisible force rushing towards them. The force bounced them away. They staggered and took a few steps back, then finally fell to the ground.

Fade immediately leaned down and helped the waitress on the floor up. "Are you okay?"

She got up from the ground and used the torn clothes on her body to cover her exposed body. She then nervously fixed the veil covering her face.

"Are you injured? Do you need my help?" Fade asked.

The waitress lowered her head, completely afraid to look at him. She murmured, "T-thank you. It's okay."

Fade felt a little surprised after he heard her voice. He paused and thought of something, then proceeded to look at the waitress in shock. "Are you Sasha Li?"

The waitress immediately looked up in surprise when she heard his words. "M-Mr. Chen, have you already arrived? I, I just..."

Before Sasha could finish speaking, Gail and Barrack who just got up from the ground rushed over aggressively.

05:45 

"Man, you dare to touch us! Are you tired of living?"

"You're playing with fire. I'll let you know what my fist tastes like."

.....

Fade furrowed his brows and his expression sank. He was about to retaliate.

However, at this moment, Sasha suddenly took a step and faced the two men. She warned, "Don't come to a step closer."

Gail and Barrack paused as they looked at Sasha, then burst out laughing.

"Why? Are you protecting your boy toy?"

"D*mn, this little b*tch is daring enough to disobey us, and yet you're still flirting with this little boy toy. I am going to screw you right in front of his face."

The two men stepped forward menacingly, and were about to attack.

At this moment, Sasha suddenly tore off the veil covering her face and looked straight at the two of them.

Upon seeing this, Gail and Barrack were shocked. When they got a clear look at Sasha's face, their expressions immediately changed.

They were both taken aback. After a brief pause, they swallowed and turned around to leave.

"D*mn, that face is hideous! I'm going to throw up."

"What the hell, is she a monster? What even is that? It's disgusting."

05:45 

At the same time, the onlookers were filled with shock as they cried out in surprise. Some even vomited as they couldn't hold it in.

"What's the matter with her face? It looks rotten!"

"D*mn it, that's so disgusting. I can't take it anymore. I'm going to throw up."

"Initially I thought about having fun with her but now I can't take it anymore."

"That face is a waste of her figure and legs. What a pity."

"Brother, you have really weird tastes. No matter how good her body and legs are, this face is unacceptable!"

.....

The comments were accompanied by occasional vomiting. Not long after, the crowd of onlookers scattered and fled.

At this moment, Sasha put the veil on her face again, and quietly said to Fade, "Mr. Chen, I'm sorry to have kept you waiting."

Looking at Sasha who was so calm at the moment, Fade felt a little surprised. He said, "It's okay. Let's find a place and talk."

"Well, Mr. Chen, please wait a moment." Sasha immediately walked to the bar and said something to the staff member who looked at her in disgust. She then took a number plate and said to Fade, "I am off work. I have reserved a private room here now as a customer."

"Please don't mind the shabby conditions, Mr. Chen."

Fade shook his head lightly, and reassured her, "I don't mind."

05:45 

Immediately, the two went to the private room.

When the onlookers saw this, their faces were full of surprise and curiosity, staring at the two of them. A discussion started.

"D*mn, he's really something else. Even with that face, he can still go on."

"What a true man. I admire him."

"Brother, don't vomit later!"

"However, if she covers her face, it's not impossible!"

"That's right. It doesn't matter what face she has. It's all the same when you turn off the lights. What's the concern?"

.....

Ignoring other people's words, the two entered the private room.

"Mr. Chen, please have a seat!" Sasha respectfully invited him to sit down. After pouring wine skillfully, she bowed and handed it over.

The movements were skilled and respectful. Obviously, she had practiced a lot in the bar.

Fade took the wine glass, held it in his hand, and shook it slightly. However, he didn't drink it. He looked at Sasha and calmly said, "Let's talk about what you wanted to tell me."

Chapter 1094

Sasha went down on her knees in front of Fade and said, "Mr. Chen, you must have read about what I want to talk about in the email. I want to ask you for your help and I am willing to transfer all my shares in the Li family for free."

Fade looked at Sasha. He did not respond immediately, but instead observed her for a while. He said, "Looking at your current situation, how do I believe that you still own shares in the Li family?"

Hearing this, Sasha couldn't help but pause, her gaze dimming as she lowered her head.

After a few seconds of silence, she said, "Mr. Chen, my current situation is indeed troublesome. That's why I want to ask you for your help."

"Then talk about your current situation. Why are you like this? No matter how ruined your Li family is, your family should be able to afford to provide you with food and clothing, right?" Fade asked a little curiously.

When Fade asked this, Sasha's face showed a hint of sadness. She slowly began to speak, "Since the day of the battle in Eastset Mountain, I..."

Fade listened quietly, and quickly figured out how Sasha had fallen to this point.

In the battle at Eastset Mountain, Fenrir and Martin had been killed, and Sasha was disfigured. Sasha's dependence on the Li family collapsed instantly, and there was nothing and no one to rely on anymore.

05:45 

She had also been degraded from the dignified eldest lady of the Li family, as the sinner of the Li family.

After being driven out of the house by the Li family, the other members of the family also wanted to put the blame for everything that happened to Sasha. They claimed that she had provoked Fade, that it was her idea, and she was responsible for the fall of the Li family.

Of course, these Li family members seemed to have forgotten that when Martin proposed the idea, most of them had agreed.

Regardless of whether Sasha's crime was serious or light, in short, she was expelled from the Li family.

In the beginning, Sasha thought that it would be easy for her to find a refuge to ensure that she did not have to worry about food and clothing. She had been in Jade City for so many years. She had so many close friends as well and almost all of them were rich.

However, she had obviously underestimated humanity. Now that the Li family had fallen, and they had offended Master Chen, her friends who were usually close to her couldn't wait to avoid her at all costs.

As for the men who once surrounded and went after her, all of them had naturally disappeared as well. They lost all interest when Sasha's appearance had been ruined.

So, in the situation that Sasha herself hadn't expected at all, she led a vagrant life on the streets. She was penniless and almost couldn't feed herself.

Finally, relying on a little relationship with an old servant of the Li family, she secured a job as a waitress in the Scarlet Bar.

The dim bar lights and frequent night shifts were suitable for Sasha with this look then.

05:46 

However, her appearance still frightened some customers from time to time. Other colleagues in the bar also avoided her and deliberately made things difficult for her.

Sasha's life in the Scarlet Bar was also difficult. In the end, during a break between work, she found an opportunity to send an email to Quin, explaining her intentions.

As for the appointment with Fade that day, she had originally left work at seven o'clock. Unfortunately towards the end of work, she bumped into Gail and Barrack in the last private room. They were messing with her until then, so she didn't show up. Right after that, the scene that Fade saw happened.

After Fade listened, his face was expressionless. He had no sympathy for Sasha's tragic encounters during this period.

That was because there were way more miserable people than her. Besides, she was merely getting what she deserved. She once enjoyed the glory and wealth that ordinary people could not enjoy.

After thinking for a while, Fade looked at Sasha and said, "According to your statement, you have now been kicked out of the Li family. How will you give me the shares of the Li family that you have mentioned?"

Sasha explained, "This is also where I want to ask Mr. Chen for help. I want to ask you to help me get back my shares in the Li family, and then I will transfer all of my shares to you, Mr. Chen."

"You want me to do that!" Fade narrowed his eyes slightly as he looked at her sharply.

Upon seeing this, Sasha quickly explained, "Mr. Chen, my current situation is not optimistic and I can't even go back to the Li family's house, but from the legal aspects, I own the most shares in the Li family."

"You do?" Fade was a little surprised.

05:46 

Sasha continued, "Mr. Chen, I absolutely will not lie to you. When my grandfather was still alive, he loved me very much and he trained me to be the first successor. In his will at the time, he left me 20% of the shares in the Li family."

"In addition, my father still had 31% of the shares in his hands. He has passed away now, and I am his only daughter. Then, with the shares that my grandfather left me, combined with my father's shares... In short, the total shares that I should inherit is 51%."

"With this amount of shares, you will become the largest shareholder of the Li family. The ownership of the Li family will also be under your name."

Hearing this, Fade was taken aback. According to his previous thoughts, if Sasha owned only 20% of the shares in the Li family, it was already a large amount. After all, the assets of the Li family amounted to hundreds of billions. 20% of the total was indeed a big sum of money.

However, he hadn't expected that the combined shares under her name could be as high as 51%. She could actually take control of the Li family. This had far exceeded Fade's expectations. He couldn't help but feel a little tempted.

However, Fade did not immediately express his intentions. He remained silent for a few moments before saying, "Then, what is the biggest problem you are facing now while getting back the shares?"

Hearing this, Sasha couldn't help being delighted. When Fade asked specific questions, he had already shown that he was inclined to agree.

In an instant, Sasha smiled and quickly explained, "The greatest competitors I am facing right now are my second uncle, Hanson and my cousin, Billy, and their family."

"After my grandfather and father died, I was expelled. They became the heirs of the Li family, and their combined shares reach

05:46

more than 30%. Compared with other shareholders, they are the largest shareholders."

"Furthermore, my second uncle is not very interested in the family business, nor is he interested in business operations. Therefore, he plans to take back my shares and sell them to foreign consortia. He is going to let them manage the operations, while he just sits back and collects the dividends."

"The Li family is entrepreneurship that my grandfather started from scratch and built up so hard for so many years. I don't want it to fall into the hands of outsiders."

Hearing this, Fade's eyelids trembled slightly, and a gleam of light flashed in his eyes.

05:46

Chapter 1095

Selling the Li family to foreigners was something Fade never wanted. Not to mention that Sasha had promised him 51% of her shares.

The lessons learned from Maritime Ocean Pharma had reminded Fade that foreigners should not be allowed to control important local industries. It was fine during normal times. Once something happened, the key decision laid in the hands of others. The locals could only be at the foreigners' mercy.

Thinking of this, Fade looked at Sasha, nodded lightly, and said, "I will promise you regarding this matter."

"Really?" Sasha was taken aback, and then rejoiced. "Mr. Chen, thank you so much."

Excited, she immediately raised her head and looked at Fade with surprise on her face.

However, she immediately thought of something, and instantly lowered her head. She covered her cheeks, not daring to face Fade.

After thanking him, Sasha was about to take Fade away.

However, at this moment, Fade suddenly thought of something and shouted, "Wait a minute!"

Sasha was stunned when she heard his words. She stopped walking immediately and bowed her head at Fade respectfully, "Mr. Chen, do you have any more orders?"

05:46 

Fade said, "Raise your head."

Sasha was shocked and paused for a while, but she still raised her head and looked at Fade. However, her eyes were obviously avoiding Fade. She dared not look at him.

Looking at Sasha's cheeks, Fade appeared indifferent. He took out a bottle of ointment and handed it to Sasha, saying, "Take this medicine back and apply it several times. Soon, you will be able to recover your looks."

"Ah..." Sasha paused in shock. Then, she couldn't help but be overjoyed. With a surprised expression on her face, she looked at Fade, "Can my face really be restored? I..."

Fade said lightly, "If I have the ability to make your face like this, naturally I have the ability to recover it."

"If you don't believe me, you can try it now."

"I-I believe you." Sasha was nervous and excited, but still cautiously opened the ointment bottle. She dug out a blob of ointment, and applied it on her face.

When the green ointment was applied to the face, it felt cool and very comfortable, which made Sasha feel a lot better. The festering tingling sensation on her face had disappeared.

Sasha touched her cheeks, feeling that her face seemed to be much smoother.

Afterwards, Sasha rushed into the bathroom, washed the ointment off her face, and looked up at herself in the mirror.

In an instant, Sasha was shocked as she caressed her cheeks in disbelief. Tear drops rolled down silently, "Is this my face?"

At this moment, the previous disgusting appearance on Sasha's cheeks completely disappeared, and her original appearance

05:46 

had roughly been restored. Despite this, the texture of her skin was still very poor. There were even some signs of ulceration. However, since Sasha's original appearance was excellent, although she had only recovered to only about 50 or 60%, she already looked good.

The excited Sasha came out of the bathroom and looked at Fade. She was a little incoherent because of her excitement, "Mr. Chen, I-I don't even know how to..."

Fade looked at Sasha quietly and said, "After taking control of the Li family, I need an agent, and my agent can't be unrepresentable. Understand?"

Sasha couldn't help feeling delighted when she heard this. She was even more excited than getting her appearance recovered. Obviously, Fade meant that she was going to be a representative.

Although the word "agent" did not sound nice which seemed as if she was just working for others, for Sasha now, being able to work as an agent was already a fortunate thing.

Not to mention becoming Fade's agent, in the name of Master Chen now in Jade City; wherever Sasha would go in the future as Master Chen's agent, she would be respected.

Thinking of this, Sasha was so exhilarated that she almost jumped up, and her entire face was full of excitement.

Upon seeing this, Fade said indifferently, "It is not easy to be my agent. If things are not handled well, I will get a replacement, understand?"

"I understand. I'll work hard to take care of everything for you, Mr. Chen," Sasha said excitedly and respectfully.

05:46 

Fade nodded, then got up and said, "Okay, then the matter is settled. I should leave."

Sasha sent Fade out, all the way to the exit of Scarlet Bar.

When Fade walked out of the private room, the eyes of the guests in the bar focused on him again. They began to point and comment about him.

"D*mn, this man is really something else. It took him so long to come out."

"He has such a peculiar liking. I can't take that kind of stuff. Dude, I admire you so much."

"Hey, what about the woman? Why didn't you bring her out?"

"Buddy, come and take a photo together. This is the first time I have seen such a warrior like you. I must remember this."

.....

Amidst the noisy blabbers of the crowd, Fade ignored their words and walked forward.

At this time, Sasha followed Fade and walked out of the private room.

All the guests looked at Sasha with mockery.

For a while, they were all dumbstruck. Each of them looked at Sasha with their faces full of disbelief and mouths opened wide.

This was because the monster-like woman just now had completely changed her appearance, and she had turned into a beautiful woman with a decent face.

Coupled with Sasha's existing good figure, she looked outstanding at once.

05:46 

In an instant, a sensation broke out in the bar.

"D*mn, what happened? How did she suddenly become so beautiful?"

"What the hell just happened? Is she still the monster just now?"

"What happened inside? Was that woman pretending? She deliberately tested us with that hideous look."

"What a pity. Why didn't I go for her just now? Her figure and her looks are top notch!"

"That's right. I regret it as well, man!"

.....

Sasha held her chin up, with a shining and confident glimmer in her eyes. She went directly to the bar manager, threw off her badge, and declared, "I quit."

Immediately, under the manager's surprised and stunned gaze, Sasha followed behind Fade and strode away.

After dealing with Sasha's affairs, Fade went back and discussed the matter with both Quin and Lily.

When the two women learned that Sasha actually owned 51% of the shares in the Li family, they were even more excited. They didn't bother about resting anymore and quickly got busy again. They improvised and perfected previous plans, as well as re-adjusted them.

Facing the two ladies who were like business maniacs, Fade could only sigh. Seeing them happily immersed in business, he could only do his best in terms of logistics. He prepared medicines by himself to ensure the health and wellness of the two ladies.

Chapter 1096

Three days later, at 9:30 in the morning, a number of luxury cars drove downstairs to the headquarters of the Li family's company. Men and women dressed in formal clothes got out of the luxury cars and walked into the company headquarters with serious expressions.

These were all shareholders of the Li family, and most of them were relatives of the Li family.

After Fade had killed Fenrir and Martin, the performance of the Li family during this period had greatly deteriorated and the assets had shrunk a lot. However, for the Li family who had a big business, the remaining assets were still an exorbitant figure.

For ordinary people, that was still a far-fetched existence.

People arrived one after another. When it was almost ten o'clock, a black, Lincoln limousine appeared at the company's entrance. It was eye-catching

The car stopped, and the security guard respectfully opened the door for the person in the back seat.

Immediately, a middle-aged man in a suit and leather shoes got out of the car.

Some people recognized him immediately. This person was Hanson Li, Master Li's second son.

At this moment, Hanson, in high spirits with a smile on his face, seemed very complacent.

After all, after the deaths of Fenrir and Martin, he had now become the acting head of the Li family. His status had risen a lot, so

05:46 

it was normal to be proud.

After getting off the car, Hanson did not go in immediately, but stood at the side of the car door, waiting for another person in the car to get out.

Under everyone's attention, a blond foreigner got out of the car.

The foreigner was in his mid-forties and he was tall. With his head held up slightly, he was smiling, giving people a feeling of self-confidence and even a little arrogance.

Hanson really looked respectful in front of this foreigner. He greeted him with a smile, and said with a smile, "Mr. Smith, come along with me!"

Upon seeing this, some of the shareholders and relatives of the Li family who were on the side could not help but discuss in a low voice.

"Is that foreigner someone from the Smith Group?"

"Yes, I heard that he is the manager in charge of the Asian region. His status in the Micovia headquarters is quite remarkable."

"It seems that this time the Smith Group is very concerned about the acquisition of the Li family!"

"Our Li family has a market value of hundreds of billions. Even for the Smith Group, it is definitely a big deal."

.....

"Alas, it's a pity to see the property of our Li family being sold to foreigners like this. That's the hard work of a lifetime of our Old Master!"

05:46 

"Yes, but the major shareholder Hanson wants to sell it. What can we say?"

"There's no choice. We are just minor shareholders. It's good enough to get a share of the pie. We don't have any rights to speak."

"Forget it, after today, the Li family will have collapsed. After receiving the money, I'll run some small businesses to make ends meet."

.....

At ten o'clock in the morning, people were sitting in the conference room of Li family headquarters.

Hanson, who was sitting at the main seat, scanned through the shareholders around the huge conference table and said, "It's time. Let's start the meeting."

"I think everyone knows the topic of this meeting when I gathered all shareholders here today. I won't beat around the bush, so I will just talk about the main points."

After a pause, Hanson pointed to the foreigner sitting next to him, and introduced, "This is Mr. Smith from the Smith Group in Micovia. The Smith Group is one of the five largest consortia in Micovia. It has a history of nearly a hundred years, a strong foundation, and a large scale. It's a real big consortium."

"I don't think the current state of our Li family needs any further explanation. I believe all of you know that the situation is not satisfactory. I want to transfer the shares of the Li family to the Smith Group, and allow the Smith Group to acquire our Li family."

"Regarding this point, what do you guys think?" Hanson looked at the crowd. He was the first to express his opinion, "I personally agree to the acquisition."

05:46 

With Hanson taking the lead, many people close to Hanson, including his son Billy, immediately raised their hands, "We also agree to that."

There were many people who raised their hands, but there were still many people who didn't.

Upon seeing this, Hanson frowned slightly and asked, "Do you have different opinions?"

Someone asked, "I want to ask you, what is the price of the Smith Group's acquisition of our shares in the Li family?"

Hanson replied, "According to the market price, the purchase price is 10.23 dollars per share."

"The price is too low at 10.23 dollars per share. The stock price of our Li family last week was still at 12 dollars per share!" The one who threw the question expressed his dissatisfaction.

Many people nodded at this moment, obviously not satisfied with the price.

Hanson immediately explained, "You said that the price was 12 dollars a week ago. It is true, but you also know what happened this week. Stock prices will fall. The price set by the Smith Group is not considered low anymore. If the price goes down again, our losses will be even greater."

Hearing this, some people were still dissatisfied. "Your hypothesis is that the price keeps falling. Then that will be the case. But in the past two days, our Li family's stock price has stabilized and is showing a trend of recovery. I believe that as long as we stabilize the internal situation and develop well, our Li family's stock price will surely rise again. After all, our family's performance and data in different fields are all good."

When Hanson heard this, he said with disdain, "You said mine is just a hypothesis. But what you said is a hypothesis as well, is it not? It is easy to say to stabilize the situation and allow the stock price to increase. However, if it continues to drop, what will you

05:46 

do? Can you make up for the money lost for our family?"

The minor shareholders who were questioned by Hanson immediately fell speechless.

Hanson didn't bother to continue asking questions one by one anymore. He slapped the table directly, and said loudly, "I know some people have different ideas in their hearts. I don't want to persuade you one by one."

"Now, as the first shareholder of the Li family, I will exercise the privileges of the first shareholder and directly decide to agree to the acquisition by the Smith Group."

"Those who don't want to sell their own shares can keep it without selling it. But for the cash out of your shares and annual dividends, I'll have to think about it."

As soon as everyone heard that, many people at the scene suddenly changed their countenances.

Many believed that if they continued to keep their shares, the stock price of the Li family would rise again. However, Hanson had directly restricted the cash out of their share and year-end dividends. This was equivalent to cutting off their idea of making money.

After all, for these small shareholders, no matter how high the stock price had risen, it would be equivalent to nothing if it could not be converted into cash. In contrast, if they were to sell it there and then, they could still make a fortune. Perhaps it would be the best choice.

As a result, some small shareholders who had not raised their hands at the moment shook their heads. They could only sigh and raise their hands, "We also agree to sell the shares."

05:46

Chapter 1097

In an instant, all the shareholders in the room raised their hands.

Upon seeing this, the corner of Hanson's mouth curved into a smile. He nodded and said, "Since everyone agrees, let's start the execution."

Immediately, the secretary distributed the relevant documents to the shareholders, and Hanson was wreathed in smiles as he chatted with Tommy Smith. He was just waiting for the minority shareholders to sign the contract before he could sign the contract with the latter.

Right after all the minority shareholders had signed the contract, Hanson was about to sign the contract with Tommy.

Suddenly, there was a loud noise outside.

Hanson frowned at this. He turned and instructed the secretary standing beside him, "Go and check what's going on."

"Yes!" The secretary nodded and promptly walked out the meeting room.

However, there was a loud bang before he could reach the door. Then, the door of the meeting room was kicked open with great force, shocking all the occupants.

"Which brat dared to create trouble here? Catch him..." Hanson was furious. He got up and glared at the door.

Nonetheless, his voice faltered when he saw the figure who had barged into the meeting room. He couldn't help but tremble

05:46 

while his face showed a touch of horror, and his voice suddenly softened. "M-Mr. Chen? Why are you here? We..."

The person was none other than Fade.

Everyone in the Li family looked at Fade at that moment. Their expressions were particularly complicated.

"Are you all here? You must be having a meeting!" Fade glanced at the people in the room and uttered lightly.

Hanson resisted the fear in his heart and replied, "Mr. Chen, our family is holding a shareholders meeting. I wonder why you are here?"

Fade dragged over a chair and sat down at the table, saying, "I see, a shareholders meeting. It just so happens that I am here to attend the meeting too."

"Um... Mr. Chen, you don't seem to be a shareholder of the Li family... So..." Hanson spoke with a sullen face.

Fade glared at Hanson upon hearing this and cut him off, "Who said I am not a shareholder of the Li family?"

"What..." Hanson looked utterly confused.

Fade then clapped his hands and ordered, "Come in!"

Everyone was taken aback at once and all their gazes turned to the entrance of the meeting room.

In the next second, they saw the figure of a slender woman walking in from the door.

When they saw the woman's face clearly, they couldn't help feeling surprised; astonishment was written over their faces.

"Sasha? Aren't you Sasha Li? Why are you back?"

05:46 

"Your face... What the hell is going on?"

"Wasn't Sasha's face disfigured? I can't believe she has recovered now. Her face is radiant and she seems to look better than before."

.....

Everyone in the Li family was startled and they all chattered in unison. Under their gazes, Sasha entered with an extremely confident look on her face. She said loudly, "Everyone, I have transferred all my shares of the Li family to Mr. Chen. Therefore, Mr. Chen is one of the Li family's shareholders; moreover, he is the largest shareholder."

Hearing this, everyone at the scene gasped.

Hanson was particularly shocked. His face sank instantly and he said, "Sasha, don't joke around. I don't recall your owning shares of the Li family."

Billy, Hanson's son, immediately added, "Sasha, you have been expelled from the Li family for your sins. What right do you have to come back and ask for the shares?"

.....

Sasha snorted coldly and answered, "Expelled from the family? Who is qualified to drive me out of the Li family? Besides, even if I was expelled, the shares of the Li family under my name still belong to me."

After saying this, Sasha clapped her hands, and a lawyer in a suit and leather shoes walked in. He showed the documents to everyone while explaining, "This is the proof of the Li family's shares that Miss Li owns. Among them, 20% of the shares are from Master Li's will while the other 31% are inherited from her father, Martin Li. Thus, the total 51% of shares belong to Miss Li."

05:46 

"What? 51%! That's so much!"

"51%... Doesn't this mean that the Li family belongs to Sasha?"

"How can this be?"

.....

During everyone's discussion, Hanson's expression had become very ugly and gloomy. He did not read the documents produced by the lawyer at all. Instead, he said, "Sasha, don't kid around. If you have any difficulties recently, I can give you some financial support. However, it's meaningless to produce these fake documents."

This was an understatement. He wanted to straightaway regard Sasha's documents as false.

Sasha didn't give in. She refuted, "Uncle Hanson, I have to remind you that all the shares under my name have been transferred to Mr. Chen. You are now insulting Mr. Chen!"

Hearing this, Hanson's face subconsciously became stiff.

Fade gently drummed his fingers on the desk as he spoke, "Only relevant experts can appraise the authenticity of the documents. No one can qualitatively verify it with just a few words."

He continued, "If you want to file a lawsuit, show some evidence. We can do it slowly and steadily." As for the authenticity of the documents, Fade and Quin had already sent someone to verify them, hence they didn't worry about it.

Speaking of this, the expressions of Hanson and the others couldn't help but sink.

Hanson understood that if he started a lawsuit, he would inevitably be on the losing side.

05:46 

Therefore, Hanson's face twitched and he was ready to say something.

However, at this moment, Fade's face fell. He slammed his palm on the table and uttered sternly, "If someone doesn't want to lodge a lawsuit and wants to use some direct methods, I would prefer it even more. After all, simple is always my style."

After speaking, Fade lifted his palm and sat down.

In front of him, a clear five-fingered palm print appeared on the surface of the solid wood desk.

At this sight, everyone, especially Hanson, looked ghastly. Fade's incredible strength had already been proven from the moment he took Titan's life.

If Fade came to blows, even if there were a total of a hundred Hansons, he would still not be Fade's opponent.

For a moment, Hanson had no choice but to look at Tommy and signaled with his eyes for help.

Tommy understood and nodded slightly. He then looked at Fade, stood up, and said, "Sir, Smith Group has signed a contract of intent with the Li family. Your behavior has disrupted the contract of our company. This is illegal behavior. If you don't stop your deeds immediately, Smith Group will not let it go easily."

"Smith Group..." Fade snorted coldly as he peered at the foreigner. He snapped coldly, "Don't talk to me about any contract of intent. Even if it is a signed contract, I will make myself clear again. You Micovians can't take a single share of the Li family."

Chapter 1098

When Tommy heard that, he became angry and glared at Fade, saying, "Sir, we live in a society under the rule of law. All things are bound by rules. Besides, Smith Group has the world's top legal team. If you want to continue messing around, we don't mind staying with you to the end."

After finishing his words, Tommy shot daggers at Fade with a threatening look.

Hearing this, even Sasha was slightly worried.

Indeed, Smith Group was one of the several major consortia in Micovia. In the eyes of the world, the company was the top existence. The lawyers they could recruit were naturally the cream of the crop in the world.

If they ended up dragged into the whirlpool of legal lawsuits with Smith Group, even if Sasha could win in the end, it was likely that the Li family would inevitably suffer great losses.

After all, these lawyers in Micovia, especially the lawyers of the wealthy, were well-known for their ability to exploit loopholes.

Thinking of this, Sasha couldn't help but glance at Fade with worry.

Catching her unsettled behavior, a smug look appeared on Tommy's face. At this time, Hanson had also whispered something to Tommy.

Tommy's gaze wavered slightly. Looking at Fade, he continued saying, "Moreover, even if we solve the issue by force and without

05:46

law, Smith Group will not be afraid. I believe that as long as we have money, we can hire the best martial artists."

"By then, I am afraid you will have to think twice, Mr. Chen."

When Fade heard the provocative statements, he raised his head and gazed at Tommy. He asked indifferently, "What do you mean? Are you threatening me?"

The corner of Tommy's mouth raised slightly and he replied, "I didn't threaten anyone. I was just telling the truth. If you don't believe me, you can try and see for yourself."

Although Tommy claimed that it was not a threat, it was already very obvious that his words and attitude were threatening both Fade and Sasha.

Fade narrowed his eyes and snorted coldly. His tone was extremely callous as he said, "It hasn't been long since Titan lost his life, yet someone has already forgotten my strength!"

After that, Fade stood up with a swoosh and instantly leaped towards Tommy.

Hanson and Tommy were shocked at the same time and they exclaimed, "What are you doing..."

However, before they could finish their words, Fade's right hand had already strangled Tommy's throat and he lifted him from the ground with ease.

Tommy struggled to break free, but his sturdy body served no purpose in Fade's hands at this moment.

Just like that, Fade lifted him and walked to the window.

Afterwards, he reached out with his left hand and slammed the tempered glass on the window. He then brought Tommy out of

05:46 

the window with one hand, holding him in the air.

The conference room was located on the top floor of the office building. It was on the 24th floor, nearly 100 meters high.

The whistling wind blew past Tommy's ears, and when he lowered his head, there was nothing below his feet.

Witnessing such a scene, even the Li family members were trembling with fright, let alone Tommy himself. They had almost gone limp at the shocking event.

"N-No! F*ck..." The panicked Tommy started to yell nonsense at this frightening moment.

Fade uttered coldly, "I wanted to sit down and have a peaceful talk with you all, but you refused to cooperate. If that's the case, let's do something simple."

Meanwhile, Hanson was petrified out of his wits when he heard this. He was completely speechless.

He once again felt the terrifying pressure under Eastset Mountain. At this time, he seemed to recall that the man in front of him was the very terrifying existence who had killed Titan, Fenrir, and Martin.

Even if Fade killed them there and then, it was just a matter of doing something by the way.

Thinking of this, Hanson didn't dare to have any extra thoughts. He hurriedly said, "Mr. Chen, I-I admit that Sasha's shares are valid. I agree that she controls 51% of the shares of the Li family. I won't sell my shares anymore."

Immediately, Hanson muttered something to Tommy.

Tommy panicked as he was still held in the air. He stuttered, "W-We won't buy it. We won't buy it anymore!"

Hearing this, Fade nodded slightly before bringing Tommy back in. He released his right hand and threw the latter on the ground.

05:47 

The sturdy Tommy suddenly looked like a pool of fat, completely limp on the ground. He was pale, trembling all over, and his gaze was a little lost.

Ignoring Tommy, Fade returned to his seat and said, "Since you have admitted Sasha's shares, she is now the head of the Li family. Does anyone have any objections?"

No one dared to object.

Fade nodded and added, "Then, the meeting is dismissed."

The shareholders hurriedly got up, wishing to escape from that place. After all, no one wanted to be swayed by Fade at an altitude of tens of meters like how Tommy had been.

Hanson's face looked very awful. He sent someone to help Tommy, and then wanted to leave.

However, at this moment, Fade seemed to have suddenly thought of something and said, "Hold on."

Hanson trembled with fear, He stopped in his tracks, looked at Fade, and squeezed out a smile that was uglier than a crying face. "Mr. Chen, do you have any more orders?"

"Your family still holds about 30% of the shares, right?" Fade asked.

"Um..." Hanson's heart skipped a beat and he had a bad feeling. However, he had to nod his head and admit, "Y-Yes."

"In that case, I want to buy the shares of the Li family you own. This shouldn't be a problem," Fade stated as he looked straight at Hanson.

Hanson was taken aback. Even if there were tens of millions of unwillingness in his heart, he could only nod and agree, "Sure,

05:47

sure!"

Fade hummed, "Good. Come here and sign the contract." Just then, the lawyer handed over a contract.

Hanson accepted the contract with an ugly expression. When he looked at it, he couldn't help but exclaim, "10.23 dollars per share? This rate is too low!"

Fade's expression sank. "Too low? When you bought other shareholders' shares previously, you didn't say that."

"That was because Tommy and I..." At this point, Hanson suddenly realized something and quickly closed his mouth. His expression became uneasy.

As soon as these words came out, many minority shareholders who had not left couldn't help but look at Hanson. Their eyes became cold and were brimming with anger.

They were all business people and were very sensitive to business matters. Needless to say, they could already guess the implied meaning in Hanson's words just now.

Hanson had bought their shares at a price of 10.23 dollars per share, but the price they were subsequently sold to Smith Group should be way more than that. Hanson must have wanted to make a fortune from the price difference.

19:11 

Chapter 1099

Thinking of this, some angry shareholders almost couldn't help rushing over to beat Hanson up violently. Others were also constantly cursing at him.

"What a b*stard! He even takes advantage of his relatives!"

"Hanson, I have never realized that you are so shameless."

"D*mn, the way you described everything makes it sound reasonable. Turns out you just want to take our money."

"I was blind before to have supported this kind of guy as the head of the family."

.....

Faced with the waves of curses, Hanson's expression became even uglier. He did not dare to lift his head.

Fade ignored these and said lightly, "Why haven't you signed yet? Do you want me to do it for you?"

Hanson was taken aback and didn't dare to say anything more. He quickly picked up the fountain pen and signed his name on the contract.

After the lawyer had confirmed that there was no problem with the signature, Fade waved his hand and said to Hanson, "Get out!"

19:11 

Hanson immediately fled like he was pardoned.

The rest of the shareholders also left one after another.

In a while, Fade and Sasha were left alone in the huge conference room.

Sasha placed the contract in front of Fade and said respectfully, "Mr. Chen, you have 30% of Hanson's shares. In your hands, you now have 81% of the shares in the Li family. You're absolutely the largest shareholder."

Fade didn't bother to look at these contracts. After all, money was nothing to him.

He turned to look at Sasha and said, "I can't manage the affairs of the Li family personally. Therefore, I need an agent."

"I choose you to be my agent. Do you know what you have to do?" Fade asked.

Sasha was very respectful and she nodded in response. "I understand that my responsibility as an agent is to manage the Li family's affairs for you, Mr. Chen. I'll always be loyal to you and never betray you. I'll do whatever you tell me to."

Fade nodded in satisfaction and uttered, "That's basically it."

"You shall handle the upcoming matters." After instructing her, Fade turned around and left.

.....

The next day, there was a huge sensation in the entire business community in Jade City.

The Li family, which had been precarious and even rumored to be sold during this period, had suddenly changed its head.

Sasha, who had not been heard of, had suddenly returned to the Li family. She not only regained her appearance but also

19:11 

regained control of the Li family, quickly stabilizing their family business.

Moreover, many people were very surprised that after Sasha regained control of the Li family, she had quickly reached a collaborative relationship with both Fei Enterprises Holdings Inc and Sincere Medicine Center.

People knew that these two groups had had a hostile relationship before. Now that they had suddenly cooperated, this naturally aroused the curiosity of many people, and of course, a lot of speculations as well.

For a time, the business community in Jade City was volatile and various rumors continued.

However, one thing was certain. The Li family, which was originally precarious, had stabilized again and the momentum of their development was relatively good.

.....

Just when there was very little news about the Li family in Jade City's commercial sector, in a luxurious villa, Hanson and Tommy sat in a room and watched the news regarding Sasha regaining control over the Li family. They were angry and slammed the TV remote control to the ground.

"D*mn it! That position should have belonged to me. Now, I am..." Hanson scolded in a fury.

Tommy's expression was even more sombre and gloomy. He said, "I have never suffered such humiliation and intimidation. I must exact revenge on those who dare to go against me."

Hearing this, Hanson's expression shifted, but then he thought of something and reminded the other, "Mr. Smith, I know you are very upset but I still have to remind you that Fade is a martial arts expert. He's someone very powerful. I am afraid it is not easy to make a move on him."

19:11 

Tommy couldn't help feeling stunned and hesitated for a while. He was extremely infuriated and he roared cruelly, "Then, can we just let this matter be? He humiliated me! How can I just let go of this insult?"

Hanson was speechless for a while, not knowing what to say. After all, he himself wanted to retaliate against Fade, but he had no ability to fight the latter.

At this moment, Billy entered the room. With a touch of excitement on his face, he declared, "Dad, Mr. Smith, I have good news!"

"What is it?" The two asked Billy in unison, looking at him.

"There is hope for our revenge!" Billy exclaimed.

"What?" Hanson was taken aback and then stood up. He stared at Billy and asked, "What do you mean? Are you planning to do something against Fade? You must not do anything stupid, Billy. You are no match for him. You..."

Billy held on to his anxious father and reassured, "Dad, you're treating me as a fool! Of course, I know my own strength. I am definitely not Fade's opponent, but that doesn't mean we can't get our revenge."

"What do you mean?" Hanson gradually thought of something.

Billy blinked before saying slowly, "We have to ask others to do it for us."

"Why, do you want to hire an assassin?" Hanson's heart clenched, but then he shook his head and said, "Fade's strength is now unbeatable in the whole of Jade City. There is no assassin capable enough to kill him."

Billy narrowed his eyes and responded, "No one in Jade City can kill him, but that doesn't mean that outsiders can't."

"Did you hire assassins from other places?" Hanson pressed on.

19:11 

Billy shook his head and replied, "No, I didn't. Hear me out, the thing is..."

"Recently, many martial artists have swarmed into Jade City, including many world-renowned warriors. There should be people whom Mr. Smith is familiar with, such as Phyton from Micovia."

Hearing this, Tommy was a little unsettled. He questioned cautiously, "Phyton? Has he come to Jade City? What is he doing here? What happened?"

Hanson looked puzzled and he asked in confusion, "Is this Phyton very powerful?"

Tommy answered, "Hanson, Phyton is the top bandit in our country. In the past two decades, he has robbed and murdered no less than twenty people. The police have been tracking him for more than twenty years, but he hasn't been caught yet. Now, Phyton has been listed as the eighth most wanted criminal by the FBI. He's a real fiend."

Hanson couldn't help taking a deep breath and complimented, "He's amazing!"

"But, how do you receive news about this kind of person? How do you contact him? What should you do if an accident occurs?" A series of questions surged in Hanson's heart as he was concerned about Billy.

Billy comforted him, "Dad, don't worry. Phyton came to Jade City this time because things are a bit special. His momentum..."

.....

The Li family re-flourished, while Fade's company and pharmacy progressed more and more smoothly. Even Quin's illness was completely cured.

During this period of time, Fade was in a good mood.

19:11 

Chapter 1100

Fade was humming a little tune, leaning on a chair, ready to take a break.

Suddenly, a call came in, and Fade saw that the ID belonged to the Chief Executive. He was slightly surprised and immediately answered the phone call. "Chief Executive. Why are you calling me now? Is it about the medical reform?"

On the other end of the phone, the Chief Executive's tone was a little serious as he said, "Fade, it is not a matter of medical reform but something else. The situation is a bit urgent. Do you have time to come over?"

Hearing that the matter was urgent, Fade nodded without hesitation and said, "I'll come over immediately."

"Well, sorry for troubling you. I'll wait for you at the Government House." Then, the Chief Executive hung up the phone.

Fade hurried to the Government House. When he came to the meeting room, he noticed that besides the Chief Executive, Titas from the Jade City Police Department and Leonardo from the Stealth Team were also present in the meeting room.

"Mr. Chen, you are here! Have a seat," greeted the Chief Executive.

Fade sat down, looked at the Chief Executive, and questioned, "What's so urgent that it requires my presence?"

The Chief Executive turned on the projector, and some surveillance recordings were displayed on it. Fade watched them and found that it was basically surveillance videos from various traffic checkpoints such as terminals and airports.

At first glance, there was nothing special. However, after watching for a while, he noticed that some people who were in the

19:11 

recordings were highlighted.

"These people are..." Fade began to ask.

The Chief Executive glanced at Titas, who immediately spoke up, "According to monitoring and investigation of the police force, in the last half month, we found that 32 outlaws and international criminals have entered the city."

"Outlaws and international criminals?" Fade frowned.

Titas continued, "The 32 people are just those we managed to monitor. Outside of the monitoring, I'm afraid there are even more people we can't detect."

"Moreover, all of them are not ordinary people. They are all criminals wanted by the international police."

"Among them, there is Jackson from Earlington, who was involved in ten bank robberies, Phyton, who's on the FBI Wanted List in Micovia, and Tobias Kong, the terrorist killer from Southeast Asia who killed more than 100 people..."

Fade looked at the list of names. Although he was not familiar with them, from the introduction on the big screen, he could tell that these criminals were all evildoers who deserved to suffer in Hell.

After Titas had finished introducing them, Leonardo stood up with a serious expression. "In addition to these criminals, according to the tracking of our Stealth Team, many martial artists have also entered Jade City."

"Among them, there are more than 20 martial artists from Dragonville. Apart from that, there are also more than ten martial artists from overseas."

Fade couldn't help asking, "What is the reason behind so many wicked men and warriors entering Jade City at this time?"

19:11 

Everyone in the room fell silent for a while, and the Chief Executive looked at Fade and answered, "Because of Titan Studio."

Upon hearing this, Fade's heart skipped a beat and he seemed to have thought of something.

The Chief Executive immediately explained, "Since you killed Titan, Titan Studio had been disbanded. Our entire martial arts world in Jade City also fell apart and became a mess."

"Fade, you also know that Titan Studio's power previously accounted for almost 70% of the power in Jade City's martial arts world. From a legal perspective, their organization sometimes crosses the line and belongs to the gray area."

"On the other hand, Titan Studio ruled over the city's martial arts world, and Titan was honored as the Martial Soul of Jade City. To a certain extent, it also resisted the invasion of Jade City's martial arts world by other martial arts forces. From this perspective, Titan Studio can be regarded as maintaining the city's stability. After all, if so many warriors suddenly stir up a mess, Jade City will face great trouble."

"And now, with Titan's death, Titan Studio is disbanded. The martial arts world in Jade City has dispersed, and the martial arts force from the outside world naturally wants to take advantage of this and seek benefits in Jade City. Besides, Titan Studio is such a big sect. For them, it's a big advantage and everyone wants to seize the opportunity."

Hearing this, Fade understood that the reason behind these criminals and martial artists entering Jade City at this time was to fight for the empty territory of the city's martial arts world since Titan Studio had been disbanded.

To some extent, Fade was the culprit who had caused this incident.

Thinking of this, Fade's expression turned dull and he asked aloud, "Chief Executive, how should this matter be resolved?"

The Chief Executive replied, "From my point of view as a government official, all these people who break the law should be driven

19:11 

away or even arrested."

Immediately, the Chief Executive sighed and lamented, "But this is just an ideal plan. With our current strength in Jade City, it is impossible to drive so many people away or arrest them."

"Moreover, even if they are driven away now, if the structure of Jade City's martial arts world itself remains unchanged, other martial arts forces will still invade again."

"So, from a more realistic point of view, the best way to resist the invasion of external martial forces is to re-elect a Martial Soul in Jade City, like the previous Titan. The new Martial Soul will unite Jade City's martial arts world again."

When Fade listened to his analysis, he nodded and agreed, "Indeed, this is a more realistic approach."

Fade then looked up and immediately found that the Chief Executive and Titas were looking at him expectantly. "Mr. Chen, you..."

Fade's heart trembled and he waved his hand quickly, saying, "If you want to propose for me to become the Martial Soul of Jade City, I'm really sorry but I can't bear this heavy responsibility."

Upon hearing this, the Chief Executive and Titas spoke quickly.

"Fade, you defeated Titan. You are powerful, and now you have a lot of prestige in the martial arts world in Jade City. You are the best choice to replace Titan and become the new Martial Soul!"

"Yes, Mr. Chen, you are definitely a one and only candidate. Others can't afford to take this position at all!"

Fade said helplessly, "Chief Executive, Sergeant Xu, I understand what you both mean."

"But I am not from Jade City. This time, I stayed in Jade City only because of my wife and the company. I will leave when things

19:11 

are settled. Therefore, the position as the Martial Soul is probably not suitable for me."

The Chief Executive and Titas couldn't help but look disappointed.

"Mr. Chen, if you can't take up the position, I am afraid it will be difficult to convince the public!"

"In this case, it is indeed a bit troublesome."

.....

The people in the room frowned.

Fade's brain was also working quickly at this moment.

Suddenly, his eyes lit up and said, "Oh, actually, there is a suitable candidate."
