

Chapter 413

The old lady's vision is really good.

Arron involuntarily grasped Suzi's delicate wrists tightly.

This scene was seen by Qin Shuang who was sitting across from him.

At this time, the first man said again: "Since you are the daughter-in-law of the Fu family, you have to know some of the Fu family's relationships. Both the Fu family and the Shu family are inherited from Nancheng for two to three hundred years.

In the early years, the Fu family and the Shu family were both in business.

In the following decades, the Shu family has been in politics and literature.

However, the relationship between the Shu family and the Fu family has never been broken. Let Arron you come back today. On the one hand, we want to see the only great-granddaughter. Haven't you heard of it? "

Mr. Shu is sick?

No wonder Suzi met Darius once in the company since the day he applied for the job. Later, he never saw Darius go to the company. It turned out that Elder Shu was sick.

"I heard." Arron said.

"Qin'er, since I heard about it, why not take a look at your Grandpa Shu?" Fu Hengsheng asked.

Arron: "..."

Elder Shu has been living in a high-level ward in Kyoto for more than half a month. Arron has always known that he also asked Kraig to send him some expensive medicines, but Arron never went there in person.

If you don't go, there are naturally reasons why you don't go.

Because of the old man's illness, to put it bluntly, it was the last time he was the only one who was so angry. Old man Shu made Arron marry Lanita. If he is in good health, Arron can do whatever he wants, but now, the old man is seriously ill. If he went to visit the old man, the old man asked him to marry Lanita in the hospital bed.

What did he say

Rejected?

Old man Na Shu is estimated to be killed on the spot.

Although Arron was fierce, but he didn't want to recite the scapegoat.

This is the reason why Arron never went.

"Speak!" Fu Hengsheng said.

"I don't want to go!" Arron's three short words, there are fewer words than Suzi's.

"You..." Fu Hengsheng pointed to Arron: "Your Shu family's grandfather once saved your mother's life!"

Arron immediately got up and said with a cold face: "If Elder Shu comes back to Nancheng from Kyoto, I will naturally go to see him. He is still in critical condition and is not out of danger. If I go to see him, tell him that Suzi is my wife.

Do you want him to die now!

Do you hope that he died of illness, or was mad at me by Arron?

Do you want your grandson to take the blame? "

Fu Hengsheng was dumbfounded.

The grandson is right.

After a while, he said, "Well...there are not many people in the family today, just your aunt and uncle. Let's stay for dinner. Your aunt specially ordered the cook. Today, what you cook is your favorite food. ."

"Okay, okay, I'm willing to eat here." Before Arron could answer, Shen Only answered first.

The yard of the old house is big, she likes to play here, and she has heard that she has made a lot of delicious food, and even the greedy little girl does not want to leave.

As long as the girl is happy, Arron definitely agrees.

"Okay." Arron said.

It's time to have a meal while talking. The whole family moved to a luxurious restaurant comparable to the palace, but Suzi found that there were only nine chairs and nine sets of tableware on the table.

That means, there is no place for her to eat?

Chapter 414

Suzi is right to think about it.

Only the old lady recognized her and gave her the treasure handed down, but the old lady was almost confused, and the Fu family definitely couldn't let the treasure of the family handed down to her.

Don't say it was passed on to her, even the place to eat in the main hall was not prepared for her.

Suzi said to Arron: "I ate a lot in the morning, I am not hungry, and my stomach is a little uncomfortable. I want to lie down in the car for a while."

She still remembered that she lied to Arron just now that she was on an official holiday, and it happened at this time that she lied about her stomach discomfort.

Arron smiled wickedly, and said in her ears: "Stomach hurts? Would you like me to rub it for you? Men are all fire, and it won't hurt if you get warm."

Suzi: "...". Her face suddenly became red.

When he didn't know how to pick him up, the man had already entered the restaurant with her wrist, and Suzi sneered in his heart.

After all, there is no way to escape the embarrassing situation.

She looked at Qin Shuang's eyes with her expressionless and lifeless look. It was really relieved.

Before eating, Qin Shuang cried and burst into tears in his aunt's place: "Auntie, don't stay in this house. There is no place for you in this house. Come back with me and I will support you.

I can't see you who have been pampering you for a lifetime here are stunned.

Grandma is always confused, she can't even tell who is who, so she took the heirloom and gave it to Suzi.

But Suzi won't answer it!

What is her identity, doesn't she know? She was obviously the one whom the Fourth Young Master reluctantly married in order to give his daughter a complete family!

Aunt, that Suzi is a robber!

She came to threaten your aunt's position. Aunt, we are a bit stubborn. We won't stay in this house. We can live out of the Fu family. I will support you for my niece! "

Qin Yu who said something was moved and angry.

"This D*mn Suzi!" Qin Yu suddenly slapped the table: "When I am old, when I have no son! Just like this blatantly ran to my Fu's family to kick the nose, isn't it just giving birth to a daughter for Fu's family!

I want her to know how great my mistress Fu is! "

After that, Qin Shuang was secretly happy.

Because of Suzi, Qin Shuang almost broke his wrist by Arron, and there is still half a month of money. Because the little Shen is the only one, Qin Shuang has made a lot of ugliness in the entire Fu family's old house, and he and Mr. Shu's granddaughter Lin Lanita took the grudge.

These hatreds, Qin Shuang remembered in his heart.

She must avenge this grudge.

Since I want revenge, I have to rely on my aunt.

Qin Shuang and Qin Wenyu are taking advantage of each other. Qin Wenyu has no sons to rely on in the Fu family. For the rest of her life, if she wants to stay in the Fu family safely and enjoy the glory and wealth, she must give her

non-prosperous son Arron. , Find a reliable wife who can be controlled by her Qin Wenyu.

That person is naturally the safest niece of his own maiden.

Therefore, even if Qin Shuang and Lanita were so ugly torn, Qin Wenyu did not drive Qin Shuang away, and still treated Qin Shuang as a niece.

Qin Shuang knew this too well.

Therefore, at this time, Qin Shuang slammed the fire in front of Qin Wenyu in order to avenge him, adding fuel and jealousy, and the anger of Qin Wenyu, who was originally very jealous of Suzi's marriage, was immediately provoked by Qin Shuang.
