

Chapter 179

Suzi is one of them.

How brave she is, people who haven't seen it can't imagine.

In my heart, Suzi has been my white moonlight all his life. I must take Suzi away from the sea of suffering. "

How brave she is, people who haven't seen it can't imagine.

At this moment, Darius saw Suzi's bravery.

He thought, anyway, Arron hasn't gotten married yet, even if he's single if he's not married, it's not too much to have so many suitors and confessors.

Darius only wanted to fulfill Suzi's wish, but he also wanted to give up Suzi's heart.

The car quickly arrived at the wedding scene.

This is a secluded mountain villa. The villa is not too big, but also a little deserted. This is mainly because Arron doesn't want the wedding to be too extravagant.

One was because his mother had just passed away and he didn't want to beat the gongs and drums. In both cases, Arron did not like Lanita. He married Lanita purely to repay his favor, and Lanita was pregnant with his child.

So this wedding, Arron was able to simplify it.

Even so, the Fu family's wedding is still very extravagant in the eyes of ordinary people, and the scene is still strong and celebrated.

The long red carpet was spread out from the villa and stretched all the way to the road. The long one seemed to have no end in sight. The two sides of the red carpet were full of flowers. Although it is midwinter now, the flowers are all brightly blooming. .

There was an endless stream of guests coming to celebrate. Outside the villa was full of vehicles of various colors, and there were sporadic spectators on both sides of the red carpet.

Far away, Suzi couldn't wait to get out of the car. But Darius was dragged by: "Suzi, if you want to confess to Arron once, you will listen to me. There are Fu family bodyguards all around here, hundreds or even hundreds, and the least have dozens. If you go down now, the bodyguards here can invite you away. You will never see Arron."

Suzi looked at Darius anxiously: "Then what should I do?" "Arron hasn't come yet. You wait, when Arron and Lanita both get out of the car, you stop them." Darius said gravely.

He didn't know whether he was right or wrong for this idea for Suzi, and Darius even thought about the consequences.

While Suzi was not paying attention, he quietly sent a text message on his cell phone.

Here Suzi nodded and said: "Okay, I will listen to you, I will sit in the car and wait."

Darius nodded.

The two people sat in the car and waited for about half an hour, and then slowly drove over with a convoy of brand-new flowers. At the front was a pure black Aston Martin.

The car stopped at the end of the red carpet.

The first thing that came out of the inside was Arron in a suit and leather shoes, with a bow tie and the word Sina pinned on the suit. Arron stood by the door of the car, opened the door, and made a gesture of inviting the bride in the car.

He didn't carry the bride out like other grooms.

On the contrary, Arron's expression has always been slightly indifferent. Fortunately, everyone is used to it. Everyone knows that Arron is unsmiling, and usually has a murderous look.

Lanita, the bride inside, didn't meet anymore.

The more Arron was like this, the more she liked it. She finally got this man and finally entered the marriage hall with him.

From now on, she is the rightful Mrs. Fu.

Lanita walked out of the car in an extremely beautiful wedding dress, held by Arron, and slowly stepped onto the red carpet.

"Wait a minute!" A voice sounded like thunder.

Arron and Lanita looked to the left at the same time. Suzi stumbled to Arron, raised his eyes and said, "Arron, you can't marry Lanita. The person you want to marry is me and me!"

Chapter 180

Arron: "..."

Behind him, Christopher not far away: "..."

Including Lanita, who was holding Arron's arm, was stunned. She thought of Suzi coming back to the scene, but when she really saw Suzi, Lanita was still scared. After all, Arron still feels good about Suzi.

And Suzi did not cry, she was calm.

Suzi was calmly discussing this with Arron.

Arron looked at Suzi calmly and calmly, but his tone was cold and chilling: "What did you say? You say it again?"

Suzi grabbed Arron: "Arron, I know why you marry Lanita, do you not love her? You just because she saved your life with her body, she was pregnant with your child, so you Just married her.

But Arron, that girl is not her.

That's me.

The woman who saved your life and was pregnant with your child is me.

Don't you keep asking, whose child is my belly? I tell you now, the child in my stomach belongs to you and belongs to you. The girl that night was me. "

"fcuk you shit!" In a car not far behind, Moira walked over with Jarod's arm. She couldn't care about her decency, so she scolded Suzi: "Suzi, our family really After raising you a white-eyed wolf, you were able to destroy the relationship between Lanita and the Fourth Young Master again and again.

It was just before

Today is the wedding of the Fourth Young Master and our family Lanita.

At the wedding, you come to make trouble!

Master Fourth, this woman is too D*mn! "

"Four young master." With tears in Lanita's eyes, she looked at Arron pitifully: "Suzi, she is really lingering... She didn't just swear at Fu's house yesterday, she wanted Leaving Yuncheng forever, she will never disturb the life here, mother? She...how...how could she be so bold, even your wedding, she would make trouble? Your child?"

The Fourth Young Master...uuu.

If Suzi was pregnant with your child, why didn't she tell you for so long?

She is too sinister to wait until we get married.

Oooooo..."

Lanita cried very sadly.

Arron said nothing.

In any case, Arron never expected that Suzi would make trouble at the wedding, and at this moment he would tell him that the child she was carrying in her stomach belonged to him.

This made Arron deeply feel that Suzi is really not easy.

Suzi can refresh his knowledge of her time and time again. She was absolutely absolutely determined as she said in the Fu Family Hall yesterday, saying that she thinks the entire upper circle of Yuncheng is dirty, and it is by no means uncommon to have anything to do with any wealthy nobleman in Yuncheng. .

And he won't have anything to do with Arron.

To show her determination and disdain, she even dropped her mobile phone.

Decisively, Arron's face was embarrassed at the time, but Suzi left arrogantly in front of so many wealthy families.

Arron thought that Suzi would never come back in this life.

However, after only one night, did she come back again?

Suzi has done such a rebellious behavior more than once, right?

Arron's eyes were full of murderous aura.
