

Chapter 205

"Mom, I don't want you to die...uuu.

"President Fu! I don't want her life. Her cheap life is not worth the money. I want her ten million! Ten million must be! Let her go out and sell her own meat if she sells her own meat. When will she sell enough? , And return it to me with interest! If the money sold in this life is not enough to repay me the interest, let her sell it for the rest of my life!" Fatty Song on the hospital bed saw Suzi crying, and Lilly was crying too. Fatty Song became more and more rampant. Up.

At exactly this time, Fatty Song's attending doctor came, and when he saw so many people in the ward making noise, the doctor frowned.

At this time, Arron said to Suzi: "The ten million things discussed here not only affect the patient's rest, but also affect the doctor's work. Where is your home, go to your home to talk about it!"

Christopher behind him suddenly let out a sullen laugh, before he laughed out, he covered his mouth again. Christopher thought to himself, when will my father still use this kind of routine?

Christopher hid his smile and looked at Arron.

Arron looked at Suzi seriously.

And Fatty Song suddenly went so fast: "Mr. Fu, Mr. Fu, you can't let them go. I haven't asked their wife to confess guilt to me, or to my son!"

Arron looked at Fatty Song with a cold expression, "I'll take care of you to recover from illness and lose money!"

Fatty Song + Fatty Song's daughter-in-law looked at Arron in confusion.

The couple suddenly had an ominous premonition, as if Arron was negotiating with Suzi, not because he was sick in bed with Fatty Song.

It seems that Suzi knew Arron before?

Did they have grievances before?

Only then did Fatty Song take a closer look and distinguish the faces of Lilly and Arron. This was unbearable. From this look, Fatty Song suddenly became dumb with fright. Fatty Song no longer hurts in his back and butt. He immediately rolled down from the bed, nudged his son to his side, and raised his hand to cover his mouth. However, he looked at Arron in horror.

Arron ordered Christopher to: "Assistant Yan, go back to her home with Miss Shen to discuss compensation matters!"

After speaking, he left the ward.

Christopher looked helplessly at Suzi and Lilly: "Madam, little princess, go home first... Things always have to be settled."

After speaking, Christopher hugged Lilly and went out.

"Mom..." the only one cried.

Suzi and Sanford immediately followed.

In the ward, only a family of three were left. Fatty Song's wife hadn't reacted yet, so she asked her man angrily: "Fatty, we will have ten million soon! You new friend treats you so much. It's not bad. How come you are so scared to become a grandson yourself if you come forward to help you ruin the money!"

The fat man lifted his slap and slapped his wife's face fiercely: "You stupid old lady! We may be dead!"

Daughter-in-law: "...what's the situation?"

"Tell you to always bully Lilly and her mother! Now we can't eat and walk around, and you, little bunny! You have caused a big disaster this time!" Fatty Song slapped twice and slapped them separately. Wife and son faces.

Both his wife and son were beaten and dare not say anything.

After a while, the wife asked, "Fatty, what's the matter?"

Fatty Song said, "Lilly, and Mr. Fu are carved out of the same mold."

"Shen is the only daughter of President Fu?" Fatty Song's wife suddenly slumped on the ground.

Chapter 206

Fatty Song said in horror: "I said that when Arron came to Quxian, we didn't look for those high-ranking officials, but I found a little section chief. I really thought he was the evil force that feared my brother. .

Arron has learned that our son and Shen Zai are studying in a kindergarten. "

Fatty Song's wife said in a puzzled way: "Since this is the case, does he help us to bully his daughter?"

Fatty Song: "You know what a fart!"

Wife: "..."

"Let's go home quickly to pack up the softness, now there is still time to escape. Hurry up!" Fatty Song immediately led his son and walked out.

Song Xingchen cried and made noises: "I don't! Lilly hasn't kneel down yet, I want to defeat Lilly and convince her!"

"I will beat you down first, you are an unbelievable thing, and you caused me trouble!" Fatty Song beat his son madly.

Song Xingchen was beaten and howled.

"Don't howl! Let's call Arron again, let's run away!" Fatty Song yelled at his wife and son angrily.

The family of three left the hospital as if they had fled.

At the other end, Arron also took Suzi and Sanford to the outside of Suzi's courtyard.

This is a house resembling a private house located at the junction of the city and the suburbs, but the house is constructed relatively chic. This is because Suzi is an architect and she is more expert in contracting, so she built her own house. Yes, just be creative.

The house is surrounded by low fences with fragrant flowers and plants.

There are also some vegetable plots.

The nearest place to the door is a terrace with sunshine.

Standing outside the door, Arron looked at the scene in the courtyard, and asked Suzi plainly: "You are very comfortable and leisurely."

His voice was flat, without a trace of anger. But Suzi was terrified to hear it.

Suzi maintained the apparent stability and looked at Arron without saying a word.

Now that he has been found, she knows that no matter how she can escape, she can't escape, and all she can do is maintain her final dignity.

The man also looked at Suzi.

For six years, her appearance has not changed at all.

Moreover, she seems to be a bit more beautiful than six years ago. She was just released from prison six years ago, she was pregnant with a child, she was very downhearted, and she didn't wear any good clothes, let alone skin care products and cosmetics.

Today, her clothes are decent, with a touch of makeup, and she has a more mature woman's charm than she did six years ago.

Her expression was more calm than it was six years ago.

It is still the kind of solitary calmness.

Suzi said calmly: "If you want to kill, you have to pluck whatever you want, but Sanford is very innocent, please don't kill innocent people indiscriminately!"

Arron sneered: "Is this the attitude that dead pigs are not afraid of boiling water?"

Suzi: "..."

At this moment, a few cars suddenly stopped behind them.

Suzi and Arron both turned back.

A number of well-dressed people came down one after another in the car.

"Oh, Siye Fu, why didn't you tell Xiao Zhu and me when you came here? I will prepare a banquet for you in advance to catch the wind. You are here, but I don't know Xiao Zhu. It's a sin... .." A man with a face full of fear tremblingly followed Arron carefully.

"Yes, Fourth Master Fu. If we had known that you were coming to our Quxian County, I would definitely be waiting for you at the highway junction early... Fourth Master, I will be the host for Sally at noon today. I will give it to Yuelai

Hotel. If you take the wind, please show your face." Another man named Qin nodded and wiped the sweat on his forehead as a compliment.

Behind him, the car stopped more and more.
