

Chapter 211

Suzi was startled.

At this moment, she finally understood that Arron was going to take the only one away after all, and she had to follow him back to Nancheng.

"Do you want to torture me slowly?" Suzi asked.

The man looked at her meaningfully: "What do you think!"

Suzi took a step back.

Then he sneered sadly: "Why do you and I torture me, it's all right. After all, there are not many men in Yuncheng like you who dare to provoke you, but I messed up your wedding. Maybe it's more than that?"

It is a great shame to you that a woman like me who came out of prison and had an unclear relationship with many men is pregnant with your child.

How could you let me off easily? "

The man sneered: "You are very smart! Daughter give it to me!"

Suzi: "What?"

"From now on, your daughter is my hostage, so give her a hug!" Arron looked at Suzi blankly, and looked at Lilly with a gentle expression.

Just hugged, the little guy was quite heavy.

Energetic.

He stepped on a pair of advanced custom-made leather shoes worth 200,000 yuan.

And his eyes.

Until now, Arron hadn't been able to see how dark his eye circles were in order to make this little thing call him a half-blind bear.

I'm also my own daughter!

If anyone dared to beat him like this, and call him such a disrespectful address, he would have cut that person a long time ago.

Suzi: "Children will be afraid."

As soon as the voice fell, he heard Lilly say: "Mom, give me to this stinky villain, I'm not afraid."

Suzi + Arron: "..."

Without waiting for Suzi to let go, Arron had snatched Shen Only from her hand, and then said to her, "Let's go!"

"Shall I go back with you now?" Suzi asked.

Arron turned around and looked at her sarcastically: "Could it be that I let you walk around here for a few days so that you can find a way to escape?"

Suzi: "I want to sell my house."

"You don't need to worry about this!" Arron said.

Suzi: "..."

Watching Arron holding Lilly and leaving her house, she didn't even miss the little home where she had lived for four or five years, so she got in Arron's car and returned to Nancheng.

The one who drove was Christopher.

Christopher was very polite to Suzi, and even called her: "Mrs..."

Suzi sneered in his heart.

How ironic is this title?

But at the moment she was sitting in the car, Suzi felt relieved. She knew that she would never have the chance to escape again. In the past two days, she was exhausted physically and mentally, while worrying about where Ji Yunting would be taken by Arron?

Worried about where Sanford went?

But she found that no matter how worried she was, there was nothing she could do. In that case, it's better to sleep well in the car.

Glancing at the man next to him, the man is dressed in a well-made suit, but he is holding a child. This style is also quite strange. However, Arron's expression was very calm, even a touch of gentleness.

And the only one is already asleep in his arms.

Suzi also closed his eyes.

It is strange that she actually fell asleep in the car, sleeping very deep and peacefully, and she didn't even have a dream. When she was sleeping, Suzi felt that someone was touching her. She opened her eyes suddenly in shock, but saw that Arron was covering her with his expensive suit.

Chapter 212

"What are you doing!" Suzi sat up in surprise.

Arron's voice was extremely cold: "It's your business if you are sick! But before you pay off the money you owe me, you'd better make yourself healthy!"

Suzi: "..."

I turned my face and saw that the only one who was asleep just now was awake, and the child was sitting between him and her. If this was seen by someone who didn't know the situation, I would really think that they were a family of three.

The only one glaring at her eyes, as if thinking about something in her heart.

After Arron finished speaking, he took another look at Suzi and Shen Only, then he leaned back and closed his eyes.

He should be resting for a while.

Suzi breathed a sigh of relief.

When he was about to hug the only one in his arms, Suzi was surprised to see that the little Nizi Lilly had climbed onto Arron's lap, but Arron did not open his eyes.

He allowed the only one to climb on his lap.

When Lilly saw that Arron hadn't opened her eyes, she immediately smiled triumphantly. Then, she suddenly clenched her small fist and hammered it against Arron's other eye.

Whoops!

Christopher, the driver driving in front, saw this scene in the rearview mirror, and one couldn't hold back: "Puff..." He laughed.

Suzi: "... " A chill rose from the soles of the feet.

Arron suddenly sat upright, raised his arms, put his arm around Lilly to prevent the child from falling down, and then covered his eyes with the other.

Lilly said triumphantly: "Smelly badass! You didn't expect it, I can't beat you, but I will attack you! Humph! You are now blind with both eyes, see how you bully my mother in the future! "

"That..." Christopher kindly reminded: "Little princess, that's the case. Dark circles under the eyes don't mean blindness. You just made your father's eyes dark circles, but he can still see them."

"Drive your car!" Arron ordered.

"Yes, Master!" Christopher immediately turned around and drove. Here, Suzi has also been in a panic to protect Lilly in his arms, stammering: "I...I, I will lose you money, I will lose as much as you lose, how will you lose? It's okay."

Arron waited for a pair of panda eyes and said blankly: "Yes." Then, he continued to sleep with his eyes closed.

Suzi + Shen Only: "..."

After a moment of stunned, Suzi coaxed the only one softly: "The only one, listen to your mother, don't beat him again, you can't beat him, understand, baby, you have to listen to your mother."

Lilly nodded: "I know my mother, I must listen to you, and I won't fight this bad guy anymore."

Suzi nodded.

Along the way, the three of them didn't speak any more, until they arrived at the nearest airport, issued a boarding pass, boarded the plane, took off, and then landed.

In just half a day, Suzi returned to her sad place, Nancheng.

She lived here for eight years and spent another two years in prison. As soon as she was released from prison, she was taken back by Arron and served his

mother for two months. Then, she was invisibly involved in the high society of Yuncheng.

Thinking of all the past, Suzi sighed in every way.

Now when she comes back, she is still living in the dust.

Moreover, there are more children.

After getting off the plane, the driver who came to pick up Arron picked up Arron, Suzi, the only one, Christopher, and drove all the way to the most authoritative hospital in Yuncheng.

"Why did you bring us to the hospital?" Suzi asked.

Arron was silent.

Christopher explained in a low voice: "Returning to my wife, the old man has a sudden illness."

Suzi bit her lip, she didn't want to see Fu Hengsheng.

However, after getting out of the car, Arron led Lilly to walk in. Suzi had no choice but to go in with him.

What Suzi didn't expect was that the first person she saw when she entered the hospital turned out to be Lanita.
