

# Chapter 237

As long as she doesn't kill her, as long as she can live.

Thinking of this, Suzi said calmly: "Okay, then we will go now."

"Drive!" Lanita ordered.

After the car drove, about an hour later, the car stopped outside the door of a high-end gold cave. Suzi followed Lanita in, and as soon as he opened the door of the box, he heard laughter and laughter inside the door.

"Lisa, your high-heeled shoes seem to be consigned from abroad. This is the only one in the world, right?"

"No, I customized it, and the price is 383,838."

"Haha 38, it's your favorite lucky number, Lisa."

"Hmm, yes. But your pendulum group is also good, it seems to be a global limited edition. It's a lot of money, right?"

"Not much, one hundred thousand yuan, your shoes will buy two of my clothes."

"In other words, let's not tout each other here. Our clothes are not as good as an emerald bracelet from Shu's granddaughter Lanita. I heard that her bracelet cost tens of millions. It was given by her grandfather."

"And her fashion, I heard that all of them were shipped by air from abroad, and it was the stylist her fiancé Arron specially found for her abroad."

"Now I want to say that the first lady in Nancheng is Lanita, and Lanita's life is good..."

"Stop talking, Miss Lin is here."

"Oh, Miss Lin, welcome, we have been waiting for you for a long time, come in quickly."

"Yo, Miss, this one following you... isn't this the prisoner from six years ago?"

Lanita smiled sorrowfully: "Well, Suzi was originally the adopted daughter of our Lin family. Later, she didn't study well when she was in college. She was caught in. Then she offended my fiance again as soon as she came out. The fiance caught her. In essence, she is still a prisoner now, a prisoner exclusively for me and my fiance."

"Miss, that's you. If you change to anyone, who dares to bring someone out of Fourth Master Fu for fun."

"Ms. Lin is the fiance of Fourth Master Fu, okay."

"Miss Lin, how to play today, it's up to you!"

A group of ladies in the box all looked at Lanita's expressions and complimented Lanita.

Lanita's face became even more smug: "How do you guys say how to play?"

"I heard that six years ago, this woman harmed a lot of handsome guys in the upper class. It seems that Joan had been badly harmed by her. Back then Chu Shao had a good way to play with her, but she didn't implement it.

How about we find some tramps for her? "

"Wow, that's a good idea!"

Money is easy to do. As long as a few famous ladies who are counted in Yuncheng are willing to pay, the insane tramp on the street can be found in less than half an hour.

"Suzi, take it off by yourself!" Lanita ordered.

Suzi: "..."

"You can't take it off!" Lanita grabbed Suzi's hair and was about to press Suzi's scalp to make her kneel when the door of the box was suddenly kicked open.

"Do you want to die!" the incoming person roared.

## Chapter 238

The ladies in the box were all startled. They looked at the door one after another. The first thing that reacted was Lanita. Her laughter was a kind of provocative contempt: "Oh, who am I talking about? It turned out to be Ling. Less?"

At this time, Joan had already arrived in front of Lanita and Suzi, his brows furrowed, and his tone was sharp: "Let her go!"

"Mr Ling." Lanita did not continue to press down on Suzi's scalp, she only sneered at Joan: "Although you used to treat Suzi as your plaything, now, she is my fiance who caught her back. Prisoner, she is now my fiancé and me's plaything, not yours anymore.

However, since you are the cousin of my fiance, you can participate if you want to play.

I heard that you wanted to play Suzi.

And your gameplay is more exciting, but you are scared by this woman with a needle of chicken blood.

Ahahaha!

It's so funny!

Okay, little cousin, come on, participate in it, do you want to talk to this gentleman beggar for a longer time? "

"Okay, okay, this method is more exciting. I agree!"

"Young Master Ling! Come on!"

"We support you, Young Master Ling!"

"Young Master Ling, you didn't succeed when you wanted to play with this woman six years ago, now I wish you success!"

A group of ladies followed yelling.

Joan is no longer as prestigious as it was in the past. Six years ago, Joan stomped and stomped in Yuncheng and was able to make an earthquake. The reason was nothing but other, because he had a cousin Arron who called the wind and the rain. In just six years, the people of Yuncheng discovered that Arron had followed the orders of his father Fu Hengsheng not to act on his cousin Joan, but Arron had not taken advantage of the Chu family's inheritance.

Moreover, the embezzlement is well-known and well documented.

Every time, it was the Chu family's business that was about to go bankrupt, owing a debt to the bank and desperately desperate, Joan's mother, Arron's little aunt, cried and begged Arron to pay for the shares of the Chu family.

Just like that step by step, in six years, the Chu family's family business only left the Chu family's real estate.

The real estate industry is still supported by a 30% stake in the Fu Group.

Otherwise, it would be finished.

Originally, the Chu Group, which had assets of more than tens of billions, now has less than 1 billion left, and all the others have been put under the name of the Fu Group. Now, who is still looking at Joan?

What's more, Joan has always been an unproactive young man.

So at this moment, under the leadership of Lanita, the celebrities in this box took Joan to take a shower.

Suzi, who was suppressed by Lanita just now, looked calm and lonely, just like Joan saw Suzi for the first time.

But it's different.

Six years ago, when Joan met Suzi for the first time, although Suzi was lonely and cold, she also appeared pitiful and helpless. Today, Suzi is still lonely and cold, but the pitiful and helpless share is gone.

In Suzi's eyes, there is more indifferent calm.

It was like, no matter how bottomless the abyss before her, no matter how unbearable things she could accept.

As long as it can survive.

Her heart became stronger than it was six years ago.
