

Chapter 247

Suzi did not know how to answer.

Do you owe milk powder?

Owe!

But will he give it?

He won't admit the uniqueness, he will only regard the uniqueness as his shame, right?

Suzi forcibly swallowed his soreness, and smiled and said to Lilly: "Lilly, tell mom where you are now? Do you eat at noon? Are you accustomed to eating? Are you afraid, do you miss your mother?"

Lilly thought for a while and said, "Mom, actually the bad guys are okay for me. He gave me delicious stewed eggs and pumpkin balls at noon. They are all my favorites. I miss you a little bit. Mom, mom, are you coming over to find me? I'm upstairs from the ra5cal, where is this place?"

Lilly turned around and looked at the big brother who had just been put on plasticine by her: "Brother, where is this?"

The little handsome guy immediately replied: "Back to the little princess, this is the planning department."

"I'm in the planning department, mom."

Planning Department!

Suzi got up and was about to go out, but was hugged by Arron from behind: "Do you want everyone in my company to have no intention of working!"

Suzi: "I just want to see the only one, can't it?"

Arron looked at her angrily: "You sit here and wait, I'll call!"

After he finished speaking, he got up and walked out, and walked in front of Kraig, he said again: "You still don't get out of here!"

Kraig: "I'm here to help you look at your younger siblings. I'm afraid she will be scared alone."

Arron said nothing, so he went out.

In the office, only Suzi and Kraig were left. Kraig is a modest gentleman, and his sitting posture is also very powerful. When he talks to Suzi, he is very friendly: "Sister, I heard Arron say that you are engaged in architectural design?"

Suzi bowed his head: "Yeah."

"Do you plan to engage in this kind of work in the future?" Kraig asked.

Planning?

What plans can she have?

She has been controlled by Arron to death, does she have a future?

Thinking of architectural design, that is her favorite and also the last wish of Aunt Shanna, who has passed away, but now, Suzi has no future. The only thing she thinks about now is that her daughter is the only one to live well.

Suzi thinks these people are really funny.

While playing with her in the palm of her hand, she called her so politely, either his wife, or his wife, younger brother and sister.

It's ironic!

Suzi calmly lowered his eyes, unbearable for Kraig.

"You are special, but this is also normal. A woman who can be seen by Arron must have something special about her."

Suzi remained silent.

The two stayed together in such an awkward manner for five minutes, the office door opened, and Lilly bounced back: "Mom!"

"The only one, the only one." Suzi rushed to the only one and hugged the one back to Ali, as if she hadn't seen her daughter in a whole year. She held her body tightly, tears in her eyes: "You It's fine."

Arron looked at all this blankly: "She is my hostage, and I will keep her safe! Your worries are purely redundant!"

"Puff..." Kraig laughed again. After he finished laughing, he got up to leave. Before leaving, he said, "Tomorrow's box is very big, so take your younger brothers and sisters with you."

Arron nodded: "Okay."

Kraig left, holding Lilly and Suzi looking up at Arron: "Should I be your guest?"

Chapter 248

Arron's face suddenly changed: "What did you say!"

Suzi's heart was cold and icy. She met Lanita as soon as she left the house. She could understand what Lanita said. Lanita was still his fiancée, and she was just a tool for him. It's just a tool for making money for him and paying off his

debts. The man who was sitting on the sofa just now was very handsome, not a mortal.

Since he is sitting in Arron's office and talking to her again, there is no doubt that he should be his client.

The guests he asked her to accompany.

This should be the beginning. As for when it will end, it should be her stinking day, right?

Thinking of his own destiny, Suzi couldn't help feeling pity.

He put his arm around Shen's only hand and bannet it for a few minutes.

"I just obey your orders. I'm willing to do whatever you want me to do. I only have one request. Please let her be the only one who is your child. If you don't want to raise her, look at her. , You can send her to the orphanage, as long as she can live." Suzi said with tears in his arms while holding Lilly.

Arron: "..."

An anger emanated from his chest, and smoke rose above his head. If it weren't for his daughter by his side, Arron would have strangled the woman.

At this time, Christopher knocked on the door: "Four Lord."

"Come in!" Arron suppressed his anger and said.

After Christopher came in, he immediately said, "Oh, a family of three family members, that...Four Lord, I...or else go out and wait..."

"Come in!" Arron gave another command.

Christopher promptly crept in, and cautiously shouted: "Husband, madam, you are also here, why didn't you rest at home?"

Suzi bit his lip and said nothing.

"That lady... the little princess said that she wanted to eat beef short ribs at noon. This is not the case. I just set her a child position in the Michelin restaurant. Come...Come on to pick up the little princess to eat steak. Don't be too late, the steak won't taste good." Suzi: "..."

She looked up and asked Arron with a sneer with an incredible expression: "How can Mr. Fu let me thank you for treating the hostages with such high standards? Is this encouraging me and making me work hard?"

Arron + Christopher: "..."

Arron looked at Christopher blankly: "Take the only one to eat steak."

"Yes, Fourth Master." Christopher looked at Lilly again: "Little princess, let's go."

Lilly looked at her mother with a small expression of expectation on her face. After all, I grew up living in a small county like Quxian with a stuffy nose, but I haven't seen any high-end restaurants.

Not to mention going to a Michelin restaurant for steak.

However, if her mother disagrees, Shen Zizhi just wants to go again, she won't go.

Suzi saw her daughter's expression, her heart was very sour, she said warmly, "Go baby, mother heard that the steaks in the Michelin restaurant are delicious. Mom has never eaten it before, so you can eat more for your mother. Okay. Good?"

She coaxed the child as much as possible.

No one knows what will happen tomorrow.

If the child can eat a meal that has never been eaten before, it will not be in vain to come to the world.

Shen Wei immediately danced happily: "Thank you Mom! Mom, then I will go with Uncle Yan."

"Go." Suzi nodded gently.

Yan Guangbao left Lilly. Only Suzi and Arron were left in the office. Suzi looked at Arron calmly: "Mr. Fu, let's talk, whoever you want me to accompany, I will go now."

She just said it, but she didn't notice that Arron's face had turned black. With a big wave of his hand, he shut the office door with a bang. The sound was too loud, and the loud Suzi shuddered in shock.

Lifting his head, he saw Arron's fierce face.

"You...what are you going to do." Suzi sat on the ground with shock and backed away.
