

# Chapter 249

The man sneered: "Aren't you in a hurry to accompany a man? Are you in such a hurry?"

Suzi stammered: "Wh...what?" Her scared teeth rattled. But the man did not stop persecuting her because of her fear.

He approached her step by step.

Suzi stepped back step by step until he pushed to the sofa, and there was nowhere to go. The man rushed over in a vigorous step, and when he stooped, he took her into his arms: "Woman! You just want to accompany the man so impatiently." Ah!"

Suzi's scared tears came out: "Didn't you let me accompany you?"

You are taking my daughter hostage!

You said take her away and take her away. Tell me, what else can I do?

It is you who asked me to accompany men and then make money from them and pay you back, and now you are the one who is questioning me.

Are we orphans and widows who do not have any ability to fight back, do not deserve to live?

If you don't deserve to live, you won't live.

You killed us! "

Suzi looked at Arron with tears in his eyes.

At this moment, apart from fear in her eyes, all that was left was stubbornness.

Arron held the back of her neck with one hand, and her cool lips covered her cheeks. Her cheeks were too cold from the shock, but her tears were hot and hot. The man sucked the hot tears in his mouth. .

Suzi was stunned.

The man grabbed her in his arms: "You really are a woman who doesn't know good or bad! How many people and women in this world are sleeping by me, Arron, can still be so awkward?

Just you! So stupid!

So stupid!

If my daughter stayed with you all her life, she would have to learn how stupid you are! "

Suzi really didn't understand what he meant.

The tone of listening to him seemed to be adjusting to her.

If six years ago, when she was taking care of Shanna, when he and her had a good relationship with each other for a few days, if he talked like this, Suzi would feel that he was petting her.

Now, Suzi doesn't dream.

Those pursuits were fatal every time, and every time they made Suzi extremely desperate. During this period, Sanford had paralyzed his lower limbs in order to protect their mother and daughter.

All sorts of experiences are vivid, so how can Suzi believe that Arron has affection for her.

Have they ever been in love?

Seems like never before!

The only time between them, that night, she used her body to rescue Arron, but he avenged his revenge.

So now Suzi does not think that Arron is affectionate to her.

She only felt that this was another way he tortured her.

A means that can both disturb her heart and put her in a place where no one can recover.

Suzi kept scolding himself in his heart: "Suzi, don't be so cheap!" to keep himself awake, but there is still confusion in his mind.

A cool breeze blew, and Suzi's brain was sober for a moment. She immediately panicked and asked: "You...what are you going to do?"

The man smiled meaningfully: "Teach you."

## Chapter 250

Suzi: "..."

She naturally understood what he meant by 'teach her'.

She pushed Arron with both hands, trying to get away.

She can't let him know that he has chased and killed her everywhere. Deep down in her heart, she still longs for him to appear, longing for his embrace. A spineless woman like her really deserves to be insulted like this. ?

"No!" She pushed him vigorously.

"Don't?" The man sneered: "Just now, you asked to rush to accompany the man, why don't you want it now, and you want to catch it again?"

Suzi's cheeks flushed as Arron said.

She was so wronged, she said incoherently, "I'm catching up! Isn't it because you asked me to pay back your ten million as soon as possible? I owe you ten million, and my daughter is in your hands. What do you say about me? Do? Oh oh oh..."

Is he trying to force her to death!

"What to do, you know very well in your heart!" the man gritted his teeth.

Suzi swallowed tears: "But we are in the office now, father-in-law, don't you care about it at all?"

He can ignore it, but she is not shameless.

As soon as Suzi looked back, she could see that there was an open glass opposite her, and outside the glass was the staff office in Datongjian.

Through that piece of glass, you can see the whole picture of the large office outside.

Outside Arron's office, there were a long walk of fifty or sixty people, all of whom were Arron's secretarial group, assistant group, and daily administrative group. The state of those people at work, Arron can see everything at a glance while sitting in his office.

Looking at the big glass and the busy people working outside the glass, Suzi's scared screams can't come out. She can only pitifully plead with Arron: "Arron, even if you don't care about my face, you always Take into account your own image of the president, right? What image will you leave on your staff in the office like this?"

I beg you. "

"You still care about me?" Arron asked lightly.

Suzi: "..."

Arron smiled wickedly: "I am the highest authority here. Who dares to look at my office more? Even if I put you on the glass now, try to see if anyone dares to look at you more?"

He said that, but he didn't continue to scare her, but put her on the sofa.

Time flies so fast, both of them forgot the time unknowingly, and a knock on the door awakened the two of them, and Suzi immediately shrank into Arron's arms in shock.

Keep saying: "What to do, what to do? What to do?"

The man still had a calm and steady expression, sneered at the woman in his arms, and then he covered her lips with his hand: "Look at you for a bit of gall."

Then he asked outside the office in a deep voice: "What's the matter!"

"President, you need to sign a contract." A little secretary asked outside the door.

"Wait a moment." Arron said calmly.

"Good president." The little secretary waited patiently outside the office, but she also found it strange that when knocking on the door in the past, the president would let her in immediately.

After all, when it comes to work, the CEO has never been sloppy at work.

Why did she ask her to wait outside this time?

The president is so abnormal.

After a few seconds, the little secretary heard the president's calm and magnetic voice saying: "Come in."
