

Chapter 295

Arron quickly slapped Lilly again, it didn't feel hot anymore, and then carefully sent it to Lilly's mouth, Lilly was more happy than ever.

"I want to drink juice." Lilly shouted.

Suzi immediately picked up a glass of freshly squeezed orange juice not far away and gave Shen Only a sip.

"Corn branding!" Lilly looked at Arron sweetly.

Arron quickly branded a small piece of corn into Shen's mouth.

Even when he was exiled and had no rights before, Arron had never served others like this. Today, it was the first time he was so obedient and so obedient to serve a five-year-old girl.

Arron was fascinated by seeing Shen only eating with relish.

Suzi also frowned and looked at Lilly, pretending to be angrily and smiled and said, "The only one! There is no such thing! Although we were in a small county before, my mother didn't eat or drink anymore. How can you eat now? It's like a little country dumpling.

How ugly to eat. "

"My dad doesn't think I'm ugly, right, dad." Lilly looked at Arron triumphantly while eating corn branding.

She was still angry with Arron along the way, but at this moment, as soon as the little thing started to eat corn, she forgot everything, and she even forgot to call him a badass.

Suzi next to Arron also gave Arron a squint: "You don't care about her! A little girl, how ugly to eat, as if she hadn't eaten anything in her eight lifetimes."

"My daughter! Eat whatever you want!" Arron said domineeringly and dozingly at Lilly. After finishing speaking, he handed Lilly a piece of corn.

Lilly nodded as he ate, "Yes!"

His daughter?

Suzi suddenly recovered, and Mu looked at Arron with a dazed expression. At the same time, Arron also looked at Suzi.

"Yes... I'm sorry." Suzi completely forgot that this was at Arron's home.

Arron is not Sanford either.

When in Quxian before, Sanford would treat Lilly so spoiltly, protecting the only one every time. Suzi often blamed Sanford: "You are an uncle, you will spoil your child."

She saw the happiness of Shen only eating just now, and she was also immersed in the peaceful and warm life that she used to live in Quxian.

Lilly was also reminded, she suddenly pouted and looked at Arron embarrassingly: "Humph!"

Arron: "..."

The atmosphere of the family of three in which the three people were immersed just now was instantly broken.

However, Lilly was also full.

She dangled her feet from the chair, made a defiant face at Arron, and then ran to the toy room.

Arron and Suzi were left on the table, and the atmosphere fell into freezing point again.

"That..." Suzi held the bowl, did not move the chopsticks, but looked at Arron and asked, "I have something to talk to you."

Arron looked at Suzi blankly: "What's the matter?"

Suzi bit his lip, and then said: "I misunderstood you. I thought you would be disadvantageous to the only one. In fact, you admit the one, right? Because you admit the one, you tolerate me?"

Arron sneered: "You are getting smarter and smarter, let's talk about the topic!"

Suzi: "I want to go out to find a job tomorrow."

"No!" Arron refused without hesitation.

Chapter 296

Suzi also thought that Arron was unlikely to agree to her, and she laughed at herself: "I'm just talking."

Architectural design is her biggest hobby in her life, and it is also the capital on which she depends for survival. Naturally, she is not just talking about it.

However, if he disagreed, she said it was useless.

The man didn't even look at her, but got up and went to the toy room, and Suzi was standing outside the toy room again.

Lilly is playing in the building block house.

"Do you know the password for entering?" Lilly asked Arron.

Arron said solemnly: "I don't know, can you tell me?"

Lilly has a feeling of being valued: "The password is three, five, one, two, seven, eight."

Arron said it again.

Lilly said triumphantly: "The answer is correct, come in!"

The man drilled in carefully.

Suzi looked outside in a daze.

Is this still the Arron who is always in charge of everything and kills people without blinking?

At this moment, the man was half-bowed and drilled into the narrow building block, but his height and legs were only half way in, and the building block collapsed.

"Daddy badass!" Lilly, who crawled out of the collapsed building block, pinched Arron's nose and dangled back and forth.

"Bad dad! Bad dad! Dad destroyed my wooden house for me."

"I'm sorry." Arron sitting on the ground slowly coaxed Lilly: "Daddy will build it for you again, okay? The building block house that Dad built for you is more gorgeous and beautiful than the one you built yourself."

With that said, Arron really did it himself.

"Little thing! Get me a red brick!"

"Here!" Shen Only handed it over immediately.

"Give dad another pink one."

"Here, Dad!"

"Well, bring another window, now it's time to install the window."

"Dad, it's wrong! You have to build up that side of the wall first, so that it won't fall easily!" Lilly reminded Arron in an angry tone.

"Oh oh oh, yes yes yes, Dad is not as smart as Lilly. Don't give me the window. Give me another wall first." Arron smiled and looked at Lilly.

Shen only smiled: "Gluck...hehehe, it's really fun."

She lay in front of Arron and tilted her head to watch Arron build a house for her. Ten minutes later, a new building block house was rebuilt, and it was really more beautiful than yesterday's building block house.

Lilly screamed and climbed into the building block house, and Arron carefully helped Lilly to hold the building blocks.

Standing outside, Suzi couldn't help but sigh.

It is the father and daughter whose blood is thicker than water.

No one would have thought that the frightening man in the daytime, when facing his daughter at this moment, looked like a daughter slave who had no power to attack.

Although Arron said that she was going to accompany the designated man, and then earning a fee to pay him back, he did not. From Suzi's point of view, maybe it's because of his daughter, right?

Because of the only existence of his daughter Shen, Arron not only stopped chasing her, but also provided her with a place to live?
