

Chapter 297

This is really the only one that played a big role.

Suzi couldn't help but smile.

But that's okay, at least there is a father like Arron, who can live without worry for the rest of her life and no longer suffer from bullying. Even if she Suzi died at this moment.

As long as the only one can survive, it will be the greatest comfort for Suzi.

Thinking of these things, Suzi didn't know when Arron came out of the toy room. While answering the phone, he walked into his living room, entered the door, and then closed the door.

Leave Suzi outside.

At this time, Lilly also came out of the toy room. He saw her mother looking at her outside. Lilly immediately waved to her mother mysteriously: "Mom, you squat down."

Suzi squatted down, and Shen Only asked in Suzi's ear: "Mom, would you blame the only one?"

Suzi shook his head: "Mom doesn't blame you, why would my mother blame you? The only thing that if one more person hurts, my mother will be the happiest. Hearing your mother said baby, Arron is your father, your biological father. You see how long you two are. So similar."

Lilly said quietly, "Mom, I can't beat the badass dad. I pretend to be close to the badass dad. I'm not real."

Suzi looked at Shen Only in surprise.

Shen Only's small eyes rolled towards Suzi, and her immature voice said: "Mom, I will protect you."

Suzi: "..."

A feeling of emotion rose from the bottom of my heart.

She held the only one in her arms and said affectionately: "You are mother's best baby, thank you baby."

After speaking, he looked up and saw Arron coming out of his living room again. The man looked calmly at Suzi and Shen Only.

Lilly pouted and looked at Arron: "Did the old man call you again? Does he still want me to dig his nostrils? He is my defeated man!"

The only thing Shen said was Fu Hengsheng.

In just one day, Fu Hengsheng's condition has improved a lot. It was indeed a call from Fu Hengsheng. The old man ate a lot of dinner and was in good spirits. He had just eaten, and he didn't want to sleep much. Arron made a call.

"Qin'er, grandpa knows that you hate that woman, you don't need a woman, and the child must stay in Fu's house!" The old man ordered Arron on the phone with a nonchalant tone.

Arron did not speak on this end of the phone.

At the other end, Old Fu continued: "Although it is a female doll, it is also the only descendant of our Fu family. Our Fu family's children can't let him live out. You send your child to the Fu family's old house.

Even if you marry Lanita in the future, the child will still be the granddaughter of the Fu family, and the Fu family will not let her be treated unfairly. "

Hearing this, Arron said briefly: "I see." He hung up the phone and walked out.

Arron understands the thoughts of grandfather and father.

Now the Fu family is thin, and finally have a granddaughter, everyone thinks it is a baby. In particular, Shen Zhongyi's naughty and fearless little appearance is even more attractive.

Arron looked at Lilly, and Lilly's small wry eyes met him.

Arron looked at Suzi again. Suzi's eyes were cold and guarded. Seeing her like this, Arron couldn't get angry.

They are all sleeping together, and the two people are so deeply entangled, is it useful to be on guard like this again!

"Get up early tomorrow and take the one to kindergarten with me." Arron said abruptly.

"Oh..." Suzi was a little puzzled, but didn't ask why, she just said: "After giving the only one, how can I get back?"

"After giving the only one, go to the Civil Affairs Bureau to remarry with me." Arron said.

Chapter 298

Suzi thought he had heard it wrong: "You...what did you say?"

"Go to remarry!"

Suzi: "..."

After a pause for a few seconds, she said indifferently: "You and I are enemies. You almost made me desperate. You sent my brother abroad to exile. You said I owed you 10 million. You want to remarry now?"

Arron, I don't understand these games in your upper class at all, and I don't have so much thought to participate. Can you please do what you want to do to me? "

Suzi's tone did not contain a trace of anger, just like a whisper.

However, the meaning expressed in her words is extremely determined.

After finishing talking, she didn't look at Arron, but shouted at the door of the toy room: "Only, take a wash, it's time to sleep."

Love it!

In this family, neither she nor her daughter Lilly have any rights.

Just half an hour ago, the two of them cared about their daughter at the same time, the appearance of feeding her daughter, and the appearance of him sitting in the toy room just now to build the building block room for her daughter. They all looked like a very warm family of three.

In fact, it is just an illusion.

The only obedient person followed Suzi to wash up, and then Suzi took Lilly to the children's room to coax her to sleep.

Arron's living room door was closed.

Is he already asleep?

Suzi didn't want to guess Arron's mind, and couldn't guess it either. She simply went back to sleep on her side.

This night, she slept extremely unsteadily and had many dreams.

I also dreamed of the absurd appearance of being taken by Arron to obtain a marriage certificate as soon as she got out of prison. How could she do such

an absurd thing a second time. If Arron takes her to remarry, what about Lanita?

Isn't she the enemy that Lanita will eradicate again?

In her life, Suzi went to jail before she finished college. Three months after she came out of jail, she was hunted and killed. Her life has been strayed and displaced, and she doesn't want to be eradicated next.

Remarry?

She won't go for anything!

However, such a firm decision only passed one night.

The next morning, at only half past six, Suzi was awakened by Arron's knock on the door.

After thinking about it all night, she just fell asleep, how about she just fell asleep!

Rubbing his eyes and putting his head against a chicken nest, Suzi came out in his nightgown to open the door to Arron.

Just looking at Arron with sleepy eyes, his voice is the characteristic lazy morning wake: "I won't remarry you! Marrying you once in this life has already made me unlucky enough. I will never do it a second time. , No matter what your reason is!"

The man was furious suddenly!

He grabbed Suzi's wrist: "Woman! Listen to me! This time the reason is for your daughter, and also for my daughter! She is my kind, and it is absolutely impossible for her to live in an unsound family. Medium! If you don't want your daughter to have no mother in this life, you will obediently remarry with me!"

Suzi asked in horror: "What did you say? She...what does it mean to have no mother?"

Arron sneered: "You are not stupid, you are smarter than anyone else, you still ask me?"

"No!" Suzi trembling voice: "No, it can't be like this, Arron, it can't! The only thing I was born in October of pregnancy, I raised her for five years, during this period you have not even fulfilled any obligations, you Do you want to take her away now?"

But you didn't want us back then, now are you fighting with me again?

You are so unreasonable! "

Arron sneered: "Tell me? Are you pregnant and stupid? Since the child is of mine and the offspring of the Fu family, do you think it is possible for you to take it back? Not only can you not take it back, I will let it Don't even think of seeing the only one in your whole life!"

"No..." Suzi said desperately.
