

Chapter 313

The only thing here is to come to Auntie, this will be your home in the future. Auntie takes you around in this manor. "

Qin Shuang felt that he was really smart, sensible and understanding.

She helped Arron solve some embarrassments so easily, she was much better than Lanita who hadn't arrived today.

With that said, Qin Shuang went to hold Shen's only hand.

Lilly is really disgusting. How could this woman who stalked her be worse than the little boys in the kindergarten who have been cheating on her! Lilly shrank his little hand behind him, and immediately hid behind the badass father.

Now, Qin Shuang's face became more and more ugly.

Some of the guests could not help but snickered with their mouths.

This is really ugly. Fourth Master Fu clearly already has a fiancée, but he is late today. If he waits a while for Father Shu to bring his baby granddaughter, whom he has just recognized for six years, to see how this woman ends up.

Qin Shuang was very annoyed by the laughter of the guests present!

Isn't she just an illegitimate girl!

And it was the child born of that prisoner-like woman! If this child hadn't been loved by the old lady, maybe even Arron wouldn't want her!

Qin Shuang had a reluctant smile on his face: "Okay, the aunt will not lead you, but an aunt will come in a while, and that aunt will definitely sit next to your father, and you will be driven away by that aunt. , Don't cry."

The aunt Qin Shuang said was coming soon was Lanita.

At this moment, she just wanted to use Lanita as a shield. But her trick was really practical. When she heard her say this, Lilly suddenly came out from behind Arron and handed Qin Shuang his little hand: "Well, Auntie, you take me to play."

Qin Shuang: "... " She was overjoyed!

Qin Wenyu next to him also said in surprise: "Qin Shuang, take the only one around, but don't take too long. After a long time, your grandfather should miss her again."

Qin Shuang nodded and said, "Hey, aunt who knows."

After speaking, she led Lilly to go out and sold one step away. She didn't forget to look at Arron: "Four cousins don't worry, I will take the kids well."

Just give her a chance, she must win the favor of this child. If the child likes her, Arron will naturally consider letting her be the stepmother of the child first, and when she is really married to Arron in the future and has her own legitimate child, it is not too late to punish the child!

Qin Shuang led Lilly out of the hall and into the courtyard.

Seeing the trees and flowers in the yard, the swimming pool, which is almost bigger than a park, Shen Zhizhan was crazy, she was running around and playing, her calves were fast and neat, but Qin Shuang was tired behind her, wearing a pair of high heels. Almost crippled my feet this time.

"Little princess, little princess, don't run so fast." Qin Shuang was breathless.

Lilly looked back at Qin Shuang with a smile: "Auntie, do you like my father very much?"

Qin Shuang: "... "

"Auntie, come here." Lilly blinked at Qin Shuang.

Qin Shuang limped and came to Lilly immediately: "What's the matter with the little princess?"

"I can help you get my father." Lilly said.

Chapter 314

When Qin Shuang heard the five-year-old girl say this, she forgot that her feet hurt with joy. She screamed happily: "Little princess, what...what did you say? You say it again."

The little girl said seriously: "Anyway, my dad is looking for a woman to marry home as his wife. You are so kind to me, gentle, and beautiful. Why don't you let my dad take you home? You can always be nice to me.

Right? "

"That's right! Little princess, listen to me telling you, what kind of woman does your father marry home? This is very important and important to you. Think about it, your father will marry a woman home. , You also want to live with that woman, what if that woman wants to beat you?" Qin Shuang felt that a great opportunity had really come to him.

To win over this little girl's heart is equivalent to stepping half of the foot into the door of the Fu family.

Lilly looked at Qin Shuang innocently: "So Auntie, I want to help you get my dad."

"Okay, okay, little princess, you say, what you ask me to do and what I do, I will listen to you. From now on, I will treat you as my own." Qin Shuang said this in his mouth, but in his heart Thinking about it, as long as he gave birth to a

child with Arron, he would immediately throw the death row prisoner's daughter into eighteen hells.

She wouldn't want to be such a daughter of a thief!

Before entering the Fu family's house, she was asked to run behind her and broke her leg. Qin Shuang wanted to strangle her to death.

On the surface, she was still smiling and looking at Shen Only, wanting to hear what a good way this five-year-old girl could marry Arron?

It's basically to make yourself treat her better, hold her, and pet her?

Qin Shuang had made such preparations.

"Auntie, can you help me find a large drawing paper?" Lilly asked.

Drawing paper?

What does the illegitimate girl want this for?

"There are a lot of drawing papers in Fu's old house. If you want, Auntie can get it for you right away." Qin Shuang said.

"I still want colored pens." Shen Only said again. Crayons?

This is not very easy to find. The Fu family has drawing paper because the old lady's father Fu Hengsheng draws two strokes when he is leisurely, and his uncle Fu Zhengxiong often draws flowers, insects, and fish.

But crayons, there are no children in the Fu family, who uses crayons?

Even if no one uses it, Qin Shuang has a way. She immediately recruited a Fu family maid and took out five hundred yuan bills and said: "Go, go and buy the best brush for the little princess. I want more colors."

Lilly immediately said: "If you want more green colored pens, you need to buy more boxes of green!"

She just wants green.

The servant nodded quickly and said, "Yes, Miss Qin, yes, little princess."

"Wait a minute, I also need small scissors and a stapler." Lilly said again.

Maid: "Good little princess, I will buy you what you want." After speaking, the maid ran away.

At the foot of the Fu's old house, there is a large shopping supermarket. The maid can buy it back soon after riding a battery car.

But, what does this ba5tard girl want these things for?

Qin Shuang looked at Lilly in confusion: "Little princess, what are you going to do, can you tell auntie?"

Lilly said sweetly to Qin Shuang: "Auntie, my grandfather likes me very much. If I tell my grandfather that you are very good to me, my grandfather will definitely make the decision for you and let you marry my dad. Of.

What I have to do now is that I will personally make an environmentally friendly handicraft for my grandfather and give it to my grandfather. Then I will say that you took me to make it together, okay? "

Hearing such words, Qin Shuang was so surprised that this little man was so thoughtful. She knelt down and looked at Lilly: "Little princess, tell Auntie, why do you think of so many?"

Lilly said sweetly: "I know I am the child my father picked up, so I hope you will marry me and hurt me."

"Does your father love you?" Qin Shuang asked.

Lilly shook his head: "It doesn't hurt."
