

# Chapter 347

Suzi didn't speak any more, but picked up the materials Linda threw to her and carefully sorted them out.

No one finds her fault, she is naturally willing to work here.

The first day I came to this company to work, it was so mixed. Suzi originally thought that Linda would make things difficult for her, so that she would have to sort out these materials during overtime work at night. However, what Suzi did not expect was that it was half past five. After work, Linda said to her: "There is no habit of working overtime in the company. Those data can be sorted out tomorrow. Don't make yourself a yellow-faced woman. Then you won't even be a junior. Get off work! "

Although Linda's words were ugly, Suzi didn't care about it anymore.

Like other employees in the company, she walked out of the design department with a bag. When she came to the front desk, she saw Galia waiting for her.

"Suzi." Galia exclaimed excitedly.

"It's off work." Suzi smiled.

"How's your work done?" Galia asked.

"Very good." Suzi returned.

The two punched the card, entered the elevator together, got off the elevator, and came out. Then Galia whispered to her: "Tell you, the people on our floor today are talking about Rayna, you know, Rayna ran away Went out and didn't come to work all afternoon.

She has always been arrogant in the company, and today is the first time she has been so flat.

I tell you, happy to happy, if she still works here in the future, you have to guard her. "

Suzi nodded: "Well, thank you."

"Hey, do you really know Walton's cousin...Joan?" Galia started gossiping again.

"What did your cousin say?" With such a gossip, Galia couldn't help asking her cousin in advance.

"How do you know that I asked my cousin, you can guess everything." Galia smiled: "However, my cousin didn't say anything, I just said, let me take care of you in the company. If someone bullies you, let me tell him.

Are you my cousin's girlfriend? "

Suzi: "..."

When they didn't know how to answer, Suzi and Galia parked a car in front of them. Galia immediately shouted in surprise, "Ah, my brother. I really mean Cao Cao, Cao Cao is here."

At this time, Christopher poked his head out of the car: "Galia, take the bus back by yourself!"

Suzi also slightly pursed his lips to say goodbye to Galia, "See you tomorrow, Galia." After he finished speaking, he opened the door and got into the car.

Galia: "..."

Watching Suzi get in his cousin's car and leave, Galia muttered to herself behind her, "It's really my brother's girlfriend, then I should take care of you more in the future."

Here, Christopher's car has already drove out very happily.

The man next to Suzi was closing his eyes to rest his mind. Suzi wanted to ask him nothing. After a few minutes, she asked Christopher, "Assistant Yan, the only one? The kindergarten children usually leave the kindergarten at half past four."

"Pick you up first, now I will pick up the only one." The man next to him said abruptly.

Suzi was startled and looked at the man in a blink of an eye, the man looked casual.

Suzi bit his lip and didn't speak any more.

"How was your work on the first day?" Arron asked casually.

"Very good." For her, having a job and being able to support herself is the best.

"There was nothing happening?" Arron asked again.

Suzi did not answer.

The man next to her has hands and eyes open to the sky, regardless of her first day at work in the company, but Arron must be clear about what happened that day.

After a few seconds, she said softly: "Don't you know everything?"

"I want you to tell me by yourself, what's wrong with Lenny?" the man said tepidly.

# Chapter 348

Suzi said lightly, "I have nothing to say."

Arron: "..."

Even Christopher, who was driving in front, couldn't help but look back at Suzi.

Madam is so cool.

In this city, the wife was the first to speak to the Fourth Master like this, and besides the wife, there was no second one.

After a while, Arron raised his eyebrows: "I don't work in your company, how would I know? You still have to tell me."

It's rare to have such a good patience to look at the twisted little woman in front of her against her.

However, she does have a good idea.

She was already jammed in the cafeteria, and she was able to eat her own food without any change.

It really deserves to be Shen's only mother.

At this moment, Arron also suddenly understood that Lilly's cunning, quick-witted and wicked little character not only inherited his dad's temperament, but also inherited the temperament of her mother-in-law.

Suzi glanced at Christopher, and said in a very light tone: "Didn't you already have Assistant Yan's cousin looking at me in the company? You know what happened in the company, so why bother to ask me again? What?"

"Mrs. Wrong!" Unexpectedly, as soon as Suzi's words fell, Christopher who drove in front of him immediately said aggrieved: "I just asked my cousin to take care of his wife, and my cousin also asked me some gossip questions. For example, whose girlfriend is the wife, she didn't tell me about her."

Christopher was really wronged.

Regarding Lenny, Lenny himself told him that uncle Kraig who was in Kyoto, and then Kraig told Arron. What's the matter with him as an assistant.

Suzi immediately said, "I'm sorry..." "It's okay, ma'am!"

Suzi looked at Arron again: "I don't know that Lenny. He insists on inviting me to dinner, just like Joan approached me before. What can I do? All I can do is ignore him."

Arron's expression eased a lot.

"If you don't let me do this job, I won't go tomorrow." Suzi's tone was a little sad.

"I have no right to restrict your freedom of work." The man snarled.

"What?" Suzi asked in an unbelievable tone.

Arron said angrily: "I said the clothes you wear today are too ugly!"

This was originally what Lenny told his younger uncle Kraig, and Lenny said to Kraig like this: "Uncle, the girl has only the same shortcomings. Her clothes are a bit old-fashioned, but the more This old-fashioned, purer."

Then, Kraig told Arron the original words.

In fact, when Arron went out in the morning, he found that Suzi's clothes were a little dirty. Originally, he wanted to remind Suzi to change her dress, but

when he thought that Suzi was wearing it and went to work at the company, Arron was stopping.

He thought, she naturally wears the soil as she goes to work in the company.

However, Arron didn't expect that her clothes would be like this, and she could choke to death when she spoke, and she could still attract the opposite s3x.

Suzi was a bit confused by Arron's head and feet. The second monk was confused. She swallowed her throat and opened her mouth for a long time before asking: "What are you...what are you trying to say?"

Arron said again: "Go pick the only one."

Suzi: "..."

Really defeated by him.

In front of him, she has always had no right to speak. Anyway, he didn't let her go to work tomorrow. The two of them didn't talk anymore. When the car drove to Shen's only kindergarten, there were still some children in the kindergarten. Mom and Dad have not come to pick them up yet.
