

Chapter 353

He conquered the entire family, conquered this city, and became the king of this land.

However, he is a daughter slave.

People are so wonderful, Suzi can't bear to disturb the father and daughter, because the only one has never been so happy. It was not until nearly half past nine, and the only one who was really tired from playing, did Suzi take her to wash up and put on her. Pikachu's cute pajamas, sleeping on his little princess bed, Lilly still muttered: "Mom, I want Dad... the bad guys to tell me stories."

Suzi: "...". Before she refused, Arron came over behind him.

The stories told by men are not the same as those told by Suzi.

When Suzi told stories to Lilly, he was blindly gentle.

The stories that Arron told her daughters were rigid, tender, difficult, suffering, and fighting. He was vivid and vivid, and Shen only listened very deeply. It was not until he got better that he slowly sang a lullaby. , Slowly coax the only one to sleep.

Seeing Arron's effort to coax the child so much, Suzi fell silent.

She simply went to the bathroom to wash herself.

After all, people who have jobs now have to go to bed early and get up early every day, and make sure that you get enough sleep before you can get into work better.

When he came to the bathroom, Suzi was taken aback again.

The bathroom used to be empty, but now it's only a day away, and it is filled with cosmetics, skin care products, facial masks, and it is the world's top brand without any additives and synthetic fragrances.

Suzi has heard of these skin care products.

They are all kinds of low-luxury products that do not carry goods on live broadcast, do not rely on sales, but only rely on quality to maintain the brand by a niche. Ji Yunting once also rewarded her with a three-piece skin care product set when she was in Quxian County.

It was just a simple three-piece suit, but it cost almost tens of thousands of dollars.

At that time, Ji Yunting rewarded Suzi for saving the batch of projects. Suzi thought it was a slightly better brand. She originally wanted to get some cheap facial oil in the best shopping mall in Quxian County.

It turned out that the three-piece set of basic skin care products was worth tens of thousands of dollars. That time, Suzi was not willing to use that set of skin care products, but exchanged it for more than 10,000 yuan. Now, Suzi is looking at the washstand, there are more than three sets of dazzling arrays?

Thirty pieces are available.

And they are all more advanced than the basic ones.

There are also seven-piece and eight-piece makeup sets that are more advanced.

How much does it cost?

She froze for a while and started to wash. After washing, she used the whole set of skin care procedures. The good things are different. The so-called price is what you pay for.

After using these skin care products, Suzi only felt that his face was moisturized and not greasy, and the feeling of comfort overflowed from his heart. Looking at myself in the mirror, my skin looks much more beautiful.

However, she saw Arron in the mirror.

Suzi's face turned red, and she turned around and said in a weak voice, "Thank you."

"Thank me for what?" The man said.

"Clothes, and... these skin care products." Suzi hesitated slightly. In fact, she wanted to ask at this moment, where is Sanford?

She is very worried about Sanford.

That is her brother.

But she didn't say it after all. She wanted to stop asking about the whereabouts of her brother, she brushed Arron's inverse scales again.

She still couldn't guess his heart.

Looking at him with such a red face, I don't know what to say.

The man didn't say anything, only one of them picked her up and went into the bedroom.

Chapter 354

Next day

The weather is fine, and the sun shines in through the gaps in the curtains early.

Suzi woke up from his dream, the man next to him was no longer there, he was always a punctual man.

However, she was so tired that she would be lazy in the early morning the next day.

This night was particularly exhausting.

The result of the harmony with each other is that when she walks, her legs are a little unfavorable, fluttering and swaying, especially when she first walks those two steps, she even has to hold on to the wall.

Coming out of the bathroom, Arron saw something wrong with her, and asked her, "What's wrong with you?"

Suzi's face was slightly red.

Suddenly he pursed his mouth and said, "What's the matter? It's not because of you! I don't know what good things I have done!"

Man: "..."

Suzi has been annoyed, and he has also discovered that there is something wrong with him. How can this be alienated from him, separated from him, and hated against him? This is clearly a kind of sweetness that wants to refuse and welcome, like a conversation between a newly married couple.

Her face turned red.

He simply ignored him, but swayed to the restaurant while holding on to the wall.

There was nothing to say to each other during the meal.

Until Suzi went to the cloakroom to change clothes, Arron and Lilly and his daughter stood outside at the same time.

"Mom, you want to dress more beautifully." Shen Only said in an adult-like tone.

Suzi looked at her daughter: "Why?"

"If you dress beautifully, I will have face in kindergarten."

Suzi thought that when she picked up her daughter last night, because she was wearing too ordinary clothes, she made her classmate's mother laugh at herself like that, and made the only one lose face.

Suzi thought for a while, then wandered back and forth in the cloakroom. There were too many clothes, and she was a little dazzled. Later, she still found an off-white polka dot shirt.

The stand-up collar style, where the ribbon on the front can be tied into a bow, is slightly slim, and there are a little wrinkles on the chest. This shows the playfulness of the dots, and at the same time, it does not lose the charm of a woman.

On the outside of the shirt, Suzi matched a black slim suit.

After matching the upper body, Suzi chose a dark pencil trousers for the lower body. Wearing this pencil trousers on Suzi's body, it immediately showed that Suzi's long legs have a sense of anti-sky length.

Wear a pair of fish-mouth high heels under your feet.

God!

The five-year-old daughter, Lilly, was stunned.

Standing at the door, Arron and his daughter had the same blank expressions.

Arron always knew that Suzi was beautiful, that kind of indifferent, indifferent, and indecent beauty, but he didn't expect that after wearing this outfit, she was not only beautiful and calm, but she also had a little more playfulness.

But without losing the competence of professional women.

This is simply an urban bone spirit.

The eyes are so beautiful.

Moreover, Arron suddenly felt that if he brought such a Suzi by his side, people might think that he was abducting a minor girl.

One thing Arron didn't understand was why Suzi hadn't been for six years, but her face didn't grow old at all? Still as pure as an eighteen-year-old girl?

Those eyes were like a little deer who didn't know the world.

Arron thought that Suzi had just gone to work yesterday, and Lenny praised Suzi so much as soon as he saw Suzi.

Yesterday, Suzi was so conservative.

"Changed!" Arron said nonchalantly.

"Huh?"

"That body looked good yesterday!" Arron said again.
