

# Chapter 399

When she arrived in the cloakroom, it was difficult for her to decide what clothes to wear.

Arron bought a lot of styles for her, almost all of them were high-end or even luxury brands, but even if she wore such a grandfather to go to Fu's old house, what status was she?

Shen's only mother?

However, after thinking about it, Arron asked her to wear the long key point. Even if it is for the only one, she must dress herself beautifully. Going to the Fu's old house is different from working in the company. She gives her daughter a long face.

Suzi chose her favorite outfit.

The pure white turtleneck sweater without any decoration, the lower body is a long orange leather skirt, the style is very simple, but after the two are combined, there is a very pure and eye-catching sense of collision.

It makes Suzi appear clean, concise, capable and elegant.

Let Suzi have a fiery charm of mature women.

With a pair of high-heeled boots, the hair is tied into a tall ball, making Suzi more tall and slender, especially the pure white turtleneck sweater, which makes Suzi's original slender neck look very similar. Like a swan who doesn't know the world and doesn't fall into the world.

This outfit is really simple.

This outfit is also really beautiful, beautiful.

Maybe it's very ordinary to wear on other women, because there is no decoration.

But in Suzi, Suzi, the elegance, the indifferent coolness, and the charm of a mature woman are all revealed by Suzi.

Arron was taken aback when Suzi walked out.

There was such a strong possessiveness in his eyes that he had never had before. At this moment, the extremely private thoughts in his heart occupied all of his thoughts.

In the past, every time in the old house of the Fu family called to ask him to go back, there was always a crowd of friends, even if it was not full of friends, at least his cousin Joan was there. The thought of Joan or more men seeing Suzi like Meicheng, and then looking astonished, Arron's heart could burst out a volcanic flame! He wished he could smash those men into pieces now!

"What's the matter?" Suzi lowered his head slightly and asked quietly.

"Replace it!"

Suzi: "Isn't it grand enough?" She knew that she was wearing a little plain, but she really didn't like clothes that were too ostentatious. Especially in the old house of the Fu family, the mixture of dragons and snakes gave her the memory of being insulted.

She even didn't want to show off her clothes so ostentatiously.

But seeing Arron's wanting to eat people's eyes, and thinking that he was so good to the only one, Suzi gritted his teeth and went back to the cloakroom to change again.

This dress has more decorations than the one just now. It is both ostentatious and noble. When Suzi wore it out, she seemed to be a noble lady who was very noble and extremely cold, watching everything.

She bit her lip.

I really don't like this outfit, it's not a matter of clothes.

It's because her identity doesn't match her clothes. She had a sour thought just now. Maybe this kind of clothes can only be Lanita or Walton, a woman with a arrogant, very hard backstage. Did you dare to wear it out?

And she, will Arron be her backstage?

"Replace it!" Sure enough, Arron said without hesitation.

Suzi: "I said I won't go, you have to let me..."

She didn't finish her sentence, but she saw Arron step forward and one stooped to pick her up. She immediately pushed him out reflexively and hit him with a fist: "You...what are you doing? ! You... the only thing you will see, you..."

But no matter how she pushed her back, she was no match for his strong arms. After all, he hugged her into the cloakroom, then lifted his feet to shut them, and then put her down and pressed her against the wall.

"You...what are you going to do?" Suzi's frightened words were uncomfortable, and when he was as unreasonable as a ferocious wolf, the man had already lifted his wrist to unbutton her clothes.

Suzi: "..."

## Chapter 400

Suzi swallowed his throat. He really didn't understand. It was obvious that the two of them had been the one last night. Why is he so impatient now? This is the morning, and Li's wife is feeding her only meal outside. If he really wants her in this cloakroom, then she can just jump off the building and die, okay!

She cried and endured the humiliation and begged him: "Arron, I beg you, I am the one who gave birth to your daughter, even if you don't consider me, don't you always love your daughter?"

You let the only one hear it, what does she think in her heart when she sees it?

Do you at least think about yourself?

The windows and curtains are open, so people outside can see..."

The motion of the man's hand suddenly stopped.

His tone is extremely magnetic and hoarse: "I don't worry about whether the curtains are closed or not. There are no obstructions around this building. Even if I don't ask you by the window, no one will see it.

Besides, even if someone sees it, who would dare to look at it a second time? I dug his eyes lightly! "

Suzi: "..."

"But you are right, my daughter is more important." When the man mentioned his daughter, his tone was much gentler.

The look in his eyes when he looked at her was also much gentler.

He almost didn't control himself just now, he wanted to put her into his own bones.

This woman!

It really came to kill him!

Raising his wrist, he was unbuttoning her again. She was so scared that she hugged his strong wrist with her hands: "Don't..."

"I don't want you here anymore, don't worry." The man said.

After speaking, continue to unbutton.

She didn't know what he was going to do, she was even desperate, she meditated in her heart, don't alarm the only one, don't alarm the only one.

The man retreated her clothes little by little. However, next he came to the rows of clothes, pants, skirts, and clothes racks, and later brought a high-necked sweater.

"Raise your arms," he said in a low voice.

Suzi raised his arm mechanically, and he gently put on her sweater.

Although this sweater is a high-neck and fully-wrapped style, it is a fit style, which highlights Suzi's bumpy upper body even more bumpy. The man glanced at it, frowned, turned around and took a thin windbreaker from the hanger that was very plump and the color was very unmatched and put on her.

This windbreaker was originally a single product. There is a belt at the waist. When worn alone, the belt will look very thin when the belt is tied around the waist. The overall style is the kind of puffy effect, and the effect will be rusty and beautiful when worn alone.

However, wearing this way now makes Suzi look weird.

But even with such a dress, Suzi still had a pair of long, slender, shiny legs. Arron's eyes fell on her body, especially the upper half, and he saw the mark of mizal bruise at a glance.

The brows were frowned again, and then he turned around and took for her a very casual and soft straight slacks.

"Wear this." The man said.

Suzi took the pants in his hands, and he couldn't laugh or cry.

She didn't think about making herself more prettiest and more ostentatious, but she didn't want to become a comedian by herself!

She wants to wear this dress on her body, and outsiders will think of her as a poor and rich, a nouveau riche rural woman who came to the city from a foreign country to find her husband as a contractor on the construction site.

Very funny and all ugly!

"I don't wear it!" She refused without hesitation.
