

# The Protector Novel Levi Garrison Chapter 2225 – 2226

## Chapter 2225

It's so funny!

This is the biggest joke Huoyun Cthulhu has ever heard in his life!

Someone is telling Levi to work hard!

Even Wen Lei and his sister Regina agreed, looking at Levi with hope.

Although Levi is no longer a top powerhouse in this era, they believe that Levi's hard work, if the goddess of luck comes and get some opportunities, it might not be impossible to become a top powerhouse again.

Although hope is slim.

But there are still some.

Once they get the opportunity, they believe that Levi can grasp it better than anyone else.

After all, Levi has a good foundation.

Everyone smiled and looked at him expectantly.

This made Levi dumbfounded.

Everything they have for themselves stayed three years ago.

In the past three years, you have made progress, and I have also made progress.

How do you think I am stagnant?

I won't do anything for three years?

If I don't do anything, how can I get out of the dark prison?

The Evil God Huo Yun was angered, and he shouted: "You don't know what power is! You don't know what power is!"

"People who go up the mountain laugh at the god who goes down the mountain? No! This is the god above the nine heavens! Not the god of the mountain!"

The image of the evil god Huoyun tells the difference between Levi and them.

All of them are people going up the mountain, but Levi is a god above the nine heavens!

As soon as Huoyun Cthulhu said this, everyone present looked at him.

The look was like looking at an ignorant idiot.

"We admit that the boss was the top powerhouse in the world three years ago! The power of one person is fighting against the entire laboratory of the gods!

But you can't worship blindly! You have changed so much in the past three years! The strength of the boss is the most medium! You have been imprisoned for too long, hurry up and get a good understanding of this new era! "

"Do you think you are also a top-notch player? Should we try?"

Hearing Huoyun Cthulhu's words were uncomfortable, everyone relentlessly hit back.

Huoyun Cthulhu's retreat was not effective when he was locked up, so he made little progress, no different from three years ago.

They are not opponents at all against Qilin Wesley.

“you.....”

Huoyun Cthulhu was speechless for a while.

do not know what to say.

The blame is on himself, he has been decadent in the past three years, and his strength has not increased.

Otherwise, can you be bullied by these little boys?

Levi shook his head helplessly.

This group of brothers abandoned their own practice.

But they don't blame them. If there is something “better”, more efficient, and faster, they will basically choose.

What's more, the temperament of these brothers just refused to admit defeat!

Always thinking of becoming stronger, becoming themselves, or even surpassing themselves, they will protect Velador.

They can definitely choose when they encounter this kind of quick exercise method and cultivation method.

And they can endure more hardships than anyone else.

Therefore, in order to make progress so quickly, they are basically the strongest of the gods.

Levi doesn't blame them.

Everyone has the right to choose.

Especially his brothers, he doesn't ask too much.

But now he hoped that those apprentices and the secret team that he had trained by himself.

They shouldn't abandon it, right?

They all grew up relying on this basic exercise and the method of not breaking or standing.

At the beginning, Levi heard that this was the oldest exercise method, but he thought it was the method that was not broken or established, and that it was the oldest exercise method.

Later he found out that he was wrong.

Not breaking or standing is just a practice method, and the oldest practice method is actually the basic practice method that has been neglected.

The foundation is always being laid, so it is easy to be overlooked.

But in fact, the most basic of this door is the oldest and most powerful...

Soon, Xiao Feng and the others also came.

Levi's eyes lit up.

Hopeful for my apprentice...

## Chapter 2226

Xiao Feng and other hundreds of apprentices came together, as well as the secret team established by Levi himself, and so on.

They don't need to hide now, they have all become strong on one side.

After Levi was gone, they also continued to gather together with Xiao Feng and others as the leaders.

Make your own contribution to Velador.

“Master!!!”

“Owner!!!”

...

Xiao Feng and the others were extremely excited when they saw Levi.

No less than Wesley and them just now.

As soon as they received the news of Levi’s return, they came from all directions.

“Yeah! Not bad! Not bad! Everyone has become a strong one!”

Levi praised with satisfaction.

Xiao Feng and the others, like Wesley, have become top powerhouses.

Xiao Feng’s strength is similar to those of Wesley Qilin.

The boss dragon battle of the secret team is also very close.

...

This team would be placed three years ago, he is simply too exaggerated.

Why should Levi hide and tuck him and direct them to push directly.

Who is not convinced!

Even the Lab of the Gods can be swept away...

They have changed a lot.

Seeing that his apprentices and his subordinates who had been trained with one hand became strong, Levi was not happy at all.

Because his hopes were dashed.

None of his apprentices continued to use the basic exercises.

They were all abandoned.

The power in each body is chaotic and there are many elements.

Obviously, in the past few years, I have practiced a lot of things, taken a lot of medicine, and even modified it with modern technology and genetic technology.

In short, all kinds of methods are used.

These key methods have allowed them to advance by leaps and bounds.

Therefore, it is regarded as a holy thing by everyone!

After all, the real effect has been seen!

Which one would you choose to grow tenfold in three years or one thousand times and ten thousand times?

For sure the latter!

Everyone really made a profit!

Levi glanced at the past, and they were all “powerful”, but none of his apprentices insisted on using his basic exercises.

He shook his head helplessly.

But don't blame them!

He himself used to be too, even though he did not abandon the basic exercises, he has been practicing.

But still didn't take it seriously, always pinning his hopes on taboos, and treating his hole cards as taboos.

In this way, the subconscious will regard the taboo technique as a life-saving trump card.

As a result, it ignores the most basic exercises, resulting in not much improvement in strength, or even stagnation.

The key master also told him not to use the taboo technique as a last resort, because there will be unexpected troubles.

It wasn't until later that Levi understood that this was actually a difficulty set by the master deliberately for him.

The taboo technique is powerful, which made Levi omnipotent three years ago.

But it also became a big mountain on his way forward.

Let him rely on taboo techniques.

...

Everything is a test for him!

Fortunately, Levi was trapped in a dark cage behind him.

I understand these truths.

These are good for you, but they are also your biggest obstacles.

Therefore, Levi abandoned all messy taboo techniques.

Specializing in the most basic things...

Only today!

It's also a process of growth!

But Levi is different from them-they are now practicing quick methods.

Everything is for quick success.

Improve the most powerful force in a short time.

There is no process of accumulation and precipitation.

It will be disadvantageous for them in the future.

“Master, you...”

Xiao Feng carefully observed Levi.

He hesitated and stopped.

Originally, he heard from the outside that Levi was only considered middle in this era, but he didn't believe it.

He felt that in the past three years, Levi might also get opportunities to develop.

But no.

Levi's strength stayed three years ago, even worse.

“This.....”

“what happened?”

Levi saw the strangeness and couldn't help asking.

“Master...that your strength still stays in the past?”

Xiao Feng couldn't help asking.

### Chapter 2227

As soon as this was said, the faces of the others present changed.

All of them stared at Xiao Feng angrily.

All blaming him for talking nonsense.

Why did you say what was in your heart?

That's right.

Everyone thinks so!

Levi's strength still stayed in the past.

But just think about it.

Why did Xiao Feng say what was in his heart?

After all, that is also the master!

There is no rule that apprentices cannot be better than master...It is not always said that blue is better than blue, but master also wants face.

Mentioning it again and again is equivalent to humiliating Levi.

Qilin and they are also very anxious.

They told Levi about this just now.

Could it be that Xiao Feng and the others have to do it again?

Even Xiao Feng realized that he was speaking too bluntly.

After possessing strong strength for the past three years, Xiao Feng no longer hides himself, does everything more directly, and acts in a clean and neat style.

He was straightforward, and accidentally said what was in his heart.

For a while, everyone present looked at Levi nervously.

After all, Levi is also their old master father!

Upon hearing this, Levi smiled: "Does it feel much stronger than the master?"

"No...Master, I absolutely didn't mean that, you will always be the strongest in Xiao Feng's mind!"

Xiao Feng immediately said.

"Yes! Master (Master) you are the strongest in our minds! There is no one!"

Everyone shouted.

Of course, this is definitely against your will.

The main thing is to pay attention to etiquette and respect the teacher.

In the eyes of Xiao Feng, these people must be better than Levi.

“Master, rest assured, now we are all proud of you! We can even take over your original mission!”

Xiao Feng said excitedly.

“To tell you the truth! I stood at the top three years ago, and three years later I will still be at the top!”

Levi said calmly.

Hearing this sentence, everyone looked strange.

But everyone didn't speak, but the same thought flashed in their minds-Levi's mouth was hard, and he was holding on! I don't want to be ashamed in front of my apprentices.

The ancestors in the dark also shook their heads helplessly: “I don't think he is hard-talking, but he is not trying to save face! I feel that what he said is true! He really thinks so!”

“It is estimated that he hasn't realized the power and cruelty of this era! Haven't figured out his own strengths yet, his true strength!”

...

Seeing everyone not talking.

Levi smiled helplessly, turned and left.

Everyone is just about to catch up.

Qilin immediately stopped: “Let the boss be alone!”

“You were too much just now! Just think of some words in your own mind! In fact, everything you say is like a knife!”

“Do you think the boss doesn’t understand his current strength? Do you think the boss is inferior to you?”

“He just finds it difficult to accept this fact for a while! After all, it is difficult for anyone to encounter such a thing!”

“What’s more, he was once the top powerhouse! Isn’t it uncomfortable to be eliminated by the times now? You keep talking!”

...

Tylera roared angrily.

“This is my fault! But in the future we can help Master! First protect him and his family! Then provide Master with some opportunities and opportunities to see if you can improve your strength?”

Xiao Feng made suggestions.

“Good, not bad!”

“Xiao Feng’s suggestion is fine! No matter what, he is our most respected person! Everyone must find a way!”

“But remember, no one will talk nonsense in the future!”

“Look at the bosses who are forced to use this method to protect their face!”

...

Everyone used Levi’s sentence “It’s still the pinnacle now” to save face.

## Chapter 2228

Little does it know that this is true!

Huoyun Cthulhu had already described it.

God above the nine heavens!

Levi suddenly thought of a question-Aubrey.

Just pay attention to my apprentices and brothers.

Now go and see Aubrey, whether she has been using the most basic exercises.

When he found Aubrey, Levi was surprised and happy.

Because she is practicing martial arts.

And what he practiced is the most basic exercise he taught.

Levi glanced.

It can be seen that although Aubrey has several ancestral religions.

It can almost be said to be the most orthodox practice of Da Family, which is different from Xiao Feng and the others.

But Aubrey is still practicing with his basic exercises, and has been working diligently to lay the foundation.

“dad.....”

Upon seeing Levi, Junjun stopped practicing martial arts and ran over excitedly.

“Junjun has been practicing the exercises his father taught?”

Levi asked excitedly.

After being disappointed for a long time, I finally found comfort in my daughter.

Aubrey nodded fiercely: “Yes, Aubrey has been practicing! Aubrey believes that Dad will not lie to me, it is the best for me!”

“What’s more, the foundation of this exercise is the best. There is no one! The foundation of Aubrey must be continued! Moreover, Junjun has discovered some of the wonders of this technique after practicing...”

Junjun began to explain to Levi the mystery of basic exercises, which was also Aubrey’s new discovery.

Levi felt more frightened as she listened.

Aubrey’s talent is too terrible, right?

Aubrey realized it unexpectedly.

This daughter is better than him!

“However, several masters told me to give up this exercise! They said that Aubrey’s foundation is good enough! I don’t need to continue practicing! And the level of this exercise is relatively low! They have more orthodox and stronger methods. Exercise! This exercise is unnecessary, and practicing it again is a waste of time!”

Aubrey curled his lips and said.

Levi asked: “So you practice secretly?”

Junjun nodded: “Yes! Junjun has been practicing secretly, but in fact Aubrey understands that several masters discovered that I was secretly practicing this technique. It’s just that although this technique was useless in a short time, But there is no harm or side effects, so let Aubrey practice secretly, everyone opened one eye and closed another!”

...

The ancestors in the dark nodded in relief.

That's right.

They had long discovered that Aubrey was practicing secretly.

It's just that there is no harm, so they let Aubrey go to practice.

After all, everyone loves this child too much.

...

But at this time, Levi stared at Junjundao with a serious face: "Junjun, from now on you have to give up all the exercises taught to you by several masters! Concentrate on practicing this basic exercise!"

"Maybe it won't be effective in a short time! But if you have to abandon everything and practice specifically, you will know my intentions."

"This....."

Aubrey hesitated and was embarrassed.

Although she believed in Levi, she gave up all the master's.

Is this a bit bad?

If you let the masters know, you will definitely be unhappy.

That's right.

When the ancestors in the dark heard Levi's suggestion, they were furious.

"Aubrey believes in Dad, but some masters have practiced for so long. If they rashly abandon them, Master and others will be unhappy! Dad, Junjun, practice everything!"

Aubrey said.

Levi smiled helplessly: “Junjun! I understand the friendship between you and the masters! But now you need to abandon everything and practice the basic exercises that dad gave you!”

“Well, Dad won’t force you! You think about it and give me an answer tomorrow! You can agree or disagree!”

Seeing Aubrey embarrassed, Levi did not force her.

“Okay, Dad, I will think about it!”

Aubrey nodded.

...

Levi had just left from here, and several ancestors greeted him.

“Levi, what are you talking nonsense??”

## The Protector Novel Levi Garrison Chapter 2229 – 2230

### Chapter 2229

“You actually let Aubrey abandon everything we teach?”

Several ancestors approached Ye Jun aggressively.

“Give up what we taught and practice the most basic thing you taught her?”

“Levi, are you sick?”

The female ancestor roared.

Levi nodded: “Yes, Junjun has realized it now! You must abandon the exercises you taught! The best way for her is to study what I teach!”

“Let’s put it this way, she can be very strong when you practice what you teach! But she can practice me wholeheartedly! She can be the strongest!”

“Pump!”

The ancestors laughed immediately.

Everyone looked at Levi like a fool.

Can you become the strongest by practicing what he teaches?

Isn’t it funny?

It was so laughable.

Several ancestors knew and studied the most basic exercises Aubrey practiced.

It is very good to lay the foundation.

Even the best.

Aubrey had just been sent, and when they checked Aubrey, they also praised Levi for handing over Aubrey’s foundation so well.

Did not take any detours, did not waste Aubrey’s talent.

But that is just a basic and easy-to-use exercise method.

The road behind Aubrey is still long, and a corresponding higher-level exercise technique is needed later.

Laying the foundation is just the beginning.

It is the most useless thing for a genius like Aubrey.

“I heard that this kid has been locked up for three years, is he locked up stupid?”

“Do you think it was three years ago? Think you are a strong one?”

“Who gave you the courage to make Aubrey give up our practice?”

...

Several ancestors were very dissatisfied with Levi's behavior.

“Levi is telling you the truth! In this era you are nothing! Your strength in this era is very weak! It can only be regarded as medium! Your apprentice brothers are better than you! This is a fact, you have to accept it!”

“The magical exercises you consider as magical can only be used for the basics, and it is not worth mentioning in this era! To put it bluntly, it is just like the roadside stalls! There are as many as you want!”

“Yeah, isn't it a basic exercise technique? Three years ago, how much was required, not to mention now?”

“I have heard that many technology companies directly transform your body, so that you instantly have the best foundation and the best physique!”

...

“Levi doesn't talk about this era, just three years ago you thought you were a top powerhouse! But in our eyes you are very weak! Your technique is not worth mentioning!”

“Look at the new era, you have become a weak chicken! But we are still at the top! Just like this, you want Aubrey to give up our practice?”

“You are not helping her! You are harming her!”

“I don’t want to hear this again!”

...

Several old ancestors are indeed angry.

Angry at Levi.

At this time, the evil god Huoyun appeared, and he said to several ancestors: “I admit that you are very strong! But you are not Mr. Ye’s opponent!”

“Yes, here’s another lunatic! The two lunatics have been shut down for silly! They don’t have a clear understanding of their own strength!”

“There is no need for us to help him recognize themselves, there will be other people coming to help them recognize themselves!”

Several ancestors refer to the strong who gathered immediately.

There are many enemies of Levi, who will definitely let Levi understand how weak he is.

No need for them to take action.

“Don’t let us see you persecuting Aubrey again...”

After several ancestors finished their warnings, they disappeared from here.

Levi thought for a while.

He will not force Aubrey on this matter and let her choose freely.

He won’t blame it for what he chooses.

He never mentioned this to Aubrey again...

“Look, the warning is still effective! It is estimated that Levi is scared, so he won’t mention it to Aubrey...”

Several ancestors only regarded him as scared.

## Chapter 2230

This is actually a father’s love for his daughter.

No matter what his daughter chooses, he will support it.

“Dad, don’t force Aubrey for now, Junjun will consider it carefully!”

Aubrey said.

“No, I will support you whatever you choose!”

Levi touched Aubrey’s head.

The ancestors in the dark were happy when they saw it.

“Junjun, this child is really good. He clearly has a choice in his heart. For fear of hurting his father’s face, he deliberately said to consider it.”

“Well, this child wants a bowl of water to be smooth! I don’t want Levi to be sad! The child is a good boy, so he has such a father!”

...

Several ancestors sighed.

In their opinion, Junjun will definitely rely on their practice.

After all, what they teach ignores the development of the times.

No matter how the times change, they are the strongest.

...

Next, Levi saw old friends.

Three years have passed.

Things are wrong.

These people have all changed and become strong.

In addition to these people, there are many, many people.

They are all people who came to fight against Sarah and see Levi...

All over Velador and even the whole world, the voice of punishing Sarah is getting louder and louder.

The tragic killings caused by Sarah in the past three years have been revealed one by one.

Video, picture, text...

A complete description of Sarah's killings.

Some people also made a list of deaths.

The number of people is shocking.

...

The situation is getting worse.

Sarah aroused public anger.

Become a public enemy of the world.

Everyone can't wait to kill and then hurry up, can't wait to dye plums and peel off the skin cramps and drink up her blood.

The anger is hardest to quell!

The situation got worse, and countless people petitioned Li Zi to die.

Sarah is immortal, and the anger is hard to calm...

Seeing the development of the situation, Levi looked solemn and frowned.

He understood that all of this was deliberately instigated by the dark God behind the scenes that caused the current state of affairs.

Although Li Zi killed everyone, everything he did was instigated by the dark god behind him.

But Sarah killed someone after all!

She did kill the humans, and she couldn't get away.

Must give an explanation!

"Have you seen? This is how your master plans everything behind the scenes and incites the masses to kill you!"

Levi said to Sarah.

Sarah shook his head: "Impossible! Besides! I did all this for you! How could I kill so many people if it weren't for your revenge? Are you talking coldly at this time? You even made up Master's. lie!"

"Hey!"

Levi sighed.

Overnight.

There are hundreds of thousands of strong people gathered in Case York, and the number is still increasing.

It is estimated that hundreds of thousands of people will come in the end.

Everyone formed an alliance of exterminating demons.

To hold a demon extermination conference in Case York.

We want to dye plums and kill them!

...

Levi has been with Qilin and the others.

“Boss, it may be difficult for us to keep you and sister-in-law at that time! But we should be able to open a passage! Let you and sister-in-law escape! At that time you will stay away from Velador and find a place where there is no one to avoid the limelight!”

“Yes, boss, we all desperately protect you from leaving! You believe in our strength!”

...

Everyone expressed their opinions.

Huo Yun Cthulhu looked at everyone with disdain.

This one needs your protection?

Levi interrupted: “By the way, Kunlun Industry is developing well now! But how did I hear that Kunlun Industry has changed owners? It belongs to the young master of Tiance?”

“this.....”

As soon as this problem came out, everyone’s expressions changed.

Commoner Killing God said: “Sir, let me explain this matter... It is actually the best for Tiance to become a Kunlun Industry! The effect of his leadership of Kunlun Industry is obvious to all! Kunlun Industry has become a top power, and each of us has become a top powerhouse. !”

Everyone nodded.

I’m still very convinced by Tiance Marshal!
