

The Protector Novel Levi Garrison Chapter 2249 – 2250

Chapter 2249

As expected by Levi, the Dark God was about to come to him.

He doesn't need to look for it, just wait for them to look for it.

In this way he can see the dark god and kill the dark god!

Advanced hunters often appear as prey!

The Dark God thought Levi was a prey, but he was actually a hunter.

God never thought of this dark.

...

Don't look at everyone now, but everyone is paying attention to Levi's situation.

Knowing that Levi would be fine for the time being, everyone sighed that Kunlun Industry's pharmacy was powerful.

Such a serious injury actually stopped.

Kunlun Industry's pharmaceuticals have once again become a hot topic all over the world.

Even Kunlun Industry did not expect their medicines to be so terrible.

Although the medicines Tylera brought are the best in Kunlun, they have countless experimental and clinical data.

It's not so scary.

But they didn't think much about it, they were still good at being a potion.

In the past two days, everyone knows that Levi is guarding people by their side.

It was not easy to start, so the revenge did not come.

But soon a group of uninvited guests arrived.

Eighteen dark angels and hundreds of other strong men from the Bible organization came together.

Seeing them, Sarah asked excitedly: "Does Master have any new orders?"

"No! We are here this time, not looking for you! We are looking for him!"

Underworld God and their eyes fell on Levi's body one after another.

"Levi, come with us! You should guess the reason yourself!"

Underworld God smiled.

"The evil god Huoyun doesn't seem to be here, do you want to?"

Others looked around, but didn't see Huoyun Cthulhu.

"Forget it, just take Ye Jun back! The others don't matter!"

Underworld gods.

Levi nodded: "Well, I know."

"Let's take him away, are you okay?"

The evil god looked at Sarah again.

“No! Master is so good to me and won’t embarrass my husband! King’s Landing, you can rest assured to follow! With me, Master will not hurt you!”

Sarah still trusts the Dark God.

Levi smiled: “Okay, I’ll go with them!”

“That’s right! He who knows the current affairs is a good man! Don’t do some indifferent resistance! In our eyes, you are weak and weak now!”

Underworld god laughed.

In his opinion.

Levi was stunned, knowing that he didn’t have the strength to deal with it, so he might as well compromise.

“Yeah, let’s not say that you were seriously injured! Even if you have nothing, it is of no use! Any of us, you are not an opponent! So you chose a smart way!

“Ha ha.....”

Everyone laughed.

Levi is like a lamb to be slaughtered.

Let them bully and take away.

Underworld God sighed that things were wrong.

Three years ago, they were equivalent to asking Levi.

Had it not been for that time plum was in the hands of the dark god, he would not have gone anyway.

And with his fierce temper, he started fighting long ago.

I will never get used to them.

But now, Levi had to compromise with reality.

Knowing that it's useless to resist, so if you don't resist it at all, just let them take it away.

Three years is not long, but it is enough to turn an invincible dragon into a docile kitten.

All of them are laughing.

Just as they were about to leave, a rebuke came.

“Let people go! Otherwise you can't live without here!”

Accompanied by the sound, the Evil Sword God and them appeared one by one.

Wesley's division of labor is that the Evil Sword God is guarding Levi's surroundings. After all, there are a lot of private revenge.

“It's you...”

Underworld God saw a few deceased people, he smiled.

“Get out of here, I'm fine!”

At this time, Levi said.

He finally attracted the bait of the dark god, how could he let it go?

Chapter 2250

In case the Sword Evil God was destroyed by them.

It's hard to find God of Darkness anymore.

But in the hearts of the Evil Sword God, they looked at Levi a little distressed.

First, Levi compromised, the unruly king fell and bowed his head to reality.

Secondly, Levi was afraid of their injuries and asked them to leave.

Levi is now protecting them.

“No! We have to protect you! No one is allowed to take you away!”

But the Sword Evil God did not let them go.

“Yes! Resolutely can’t let it!”

The evil spirits were like a rainbow, staring at the eighteen dark angels.

The more Levi was like this, the less they couldn’t let them take it away.

The rattling atmosphere is on the verge.

Levi was called helpless.

It’s so hard to be kidnapped quietly?

“Angel of death? Stop them!”

Underworld God gave an order.

Soon, black figures appeared in the sky, with black metal wings on their backs, majestic and mighty.

Hundreds of angels of death appeared, and together they killed the evil sword god.

The Angel of Death is a dead man of the Bible Organization.

This time I brought a hundred angels of death.

For a time, the Sword Evil God and the others were really entangled.

The Eighteenth Dark Angels took Levi and sneaked away from behind.

When the Evil Sword God and the others smashed a bloody path and chased up, there was still Levi's figure.

Eighteen dark angels ran all the way with Levi, and quickly left from Velador.

Shortly after.

They brought Levi to the sea of Western Continent.

An uninhabited island sits on the endless sea.

The home of the biblical organization is here.

Of course this is just one of them!

The sly old fox, the dark god, would not set up his nest in one place.

And in recent years, Sarah has used Sarah to fight in the South and North, and has laid down many territories.

Of course, the god of darkness is on this small island now.

Soon Levi was taken to the base.

There are several locations in a huge place.

A figure stood on top!

“coming?”

A voice came.

“Dark God, I wait to fulfill my mission! Bring Levi back!”

Underworld God and others shouted together.

“Very good, you all have merit! I will reward you!”

The dark god turned around slowly.

Wearing a half-god and half-devil mask, the momentum is powerful, covering the world.

This was the first time Levi saw the true face of the Dark God.

It turns out that this guy is also wearing a mask.

It seems that he dared not show his true colors.

That's right.

In the biblical organization, including the eighteenth dark angels and other high-level people, have never seen the true face of the dark god.

Including the great disciples of the Dark God, they have never seen the true face of the Dark God.

But Sarah has only seen it once.

It is also the key reason why she believes in the God of Darkness...

After Levi looked around and observed, a smile appeared on the corner of his mouth.

Before coming, he was still worried whether this dark god would be too terrifying.

After all, the dark god once said that it can open the dark cage.

After Levi looked carefully, he found that the Dark God was much stronger than Ye Wudao, Tiance was less commanding, and the four great generals of Tiance Mansion were much stronger.

Completely above these people.

But it is far from enough to open the dark cage!

If the God of Darkness wants to open it, it might be necessary to use other tools or artifacts in their mouths.

Furthermore, the dark prison has its own mechanism outside.

But in terms of strength, Levi was confident that he could turn the Dark God into a scum.

It's not a level at all.

How about first in the gods list

God list is an insult to Levi!

The gods above the nine heavens will not participate in the list of mortals!

At this time, the Dark God approached Levi step by step, and said coldly: "Tell me, who opened the dark cage?"

The Protector Novel Levi Garrison Chapter 2251 – 2252

Chapter 2251

At this moment, Levi could obviously feel that the dark god's breathing was stagnant.

She is obviously nervous!

I want to know who opened it, but I feel scared...

Others were more afraid, almost suffocated.

This answer is too important to them.

Levi smiled and said, "Who opened it? It's me!"

But when Levi said this, everyone looked calm.

Obviously no one believes in him.

What are you talking about?

You are average, how can you open the dark prison?

"Levi is not that I don't believe you! It's that no one knows how terrible the dark cage is better than me! You are locked in it! To be honest, you can't open it for a thousand years!"

The Dark God became a little impatient, and his voice suddenly lowered: "Say! Who on earth helped you open the dark cage?"

"Say! Speak up quickly! Otherwise, I will kill you!"

Underworld God and they are also threatening.

Levi smiled helplessly: "I answered it long ago! I opened it myself!"

"you....."

Everyone in the Bible organization is going to be furious.

Levi was really stubborn.

They are all dying.

The mouth is still so hard!

The Dark God said: "I thought it was you! So I specially designed to test your strength!"

"Even before you came, I thought it might be you! But I checked you carefully! Even this base has the most advanced instruments of Maya Industry, which has already been scanned and analyzed for you! You can't! "

"In this era, you can only be regarded as medium strength! You are a thousand miles away from me! Not to mention opening the dark cage!"

Levi smiled: "Is it difficult to open the dark cage? Can't you also open it?"

The reason why Levi said this was because he wanted to make a fool of himself, and wanted to know how the dark god could open the dark prison.

The dark god didn't notice at all, and sneered: "To be honest! There is no switch outside the dark cage! As for me, I can't open it with my own strength!"

"Um?"

Levi was taken aback.

"But I have an earth knife in my hand! With my level of strength and the magical earth knife, I can barely open the dark cage!"

The dark god is arrogant.

Seeing that Levi didn't understand.

The Dark God specifically explained: “The earth sword is an artifact that is as famous as the sky sword!”

“It’s just that the people of the world don’t know it. Now the earth sword is the veritable number one artifact in the world!”

Others boasted.

Levi frowned: “Is it amazing? It’s not something that can be broken with a finger!”

Levi discovered that the current person is purely sick.

Boasting a piece of waste to the heavens and the earth.

What artifact?

It’s all scrap!

Moreover, Levi had contacted the Heavenly Sword, he knew that if he was trapped in the dark cage, even with the strength of the Dark God, with the Heavenly Sword and Earth Sword in it, it would be impossible to open the dark cage.

The reason why the Dark God can barely open the dark cage with the help of the earth knife is because the Dark God is outside.

Outside the dark cage, the reason is that the energy transfer device between the two metal walls of the dark cage does not work.

This energy transfer device can only transfer and resolve the force received by the metal wall in the dark cage, but not the force received by the outer wall.

Therefore, the dark god can open it outside by relying on the earth knife.

The Dark God himself understands a little.

It's impossible to open inside!

That's a goddamn god!

The difficulty of opening inside is dozens or even a hundred times that of outside.

The energy transfer device is scary.

It is impossible to open the inside, and there is still a chance to open it outside.

Dark God himself can, and he thought of several possibilities.

So I have to call Levi to ask.

The Dark God said: "But the strong man who knocked the Heavenly Sword with two fingers you said can open it! He can even open it inside!"

Chapter 2252

The Dark God added: "But I don't know who that person is! He should be the patron saint behind Tiance Mansion and Baolong clan!"

"Levi, did you hear? Only the one who knocked the broken sky sword with two fingers can open the dark cage inside! If others want to open it, they can only open it outside! The difficulty of opening inside is the same as that of opening outside. hundred times!"

The evil god shouted, let Levi understand this fact!

Levi smiled and said, "Yes, I am the one who knocked off the Heavenly Sword with two fingers!"

"Pump!"

No one can believe Levi who runs the train with his mouth full.

It's impossible to think about it.

"Levi, my patience is limited! Don't say it again! I will kill people immediately!"

"I know you are not afraid of death, but what about Sarah? I want to kill her easily!"

The dark god sneered.

Upon hearing this, Levi's face changed.

Dark God they all laughed.

Sure enough, Levi's weakness is his family.

"Don't worry! As long as you say it, I will let you go! I'm just looking for an answer!"

"To me, you are like ants, you have no experience in killing you!"

This is the heart of the dark god.

Levi is really as easy as squeezing a mouse to the dark god.

His life is really not important.

The dark god only wants what he wants to know.

"I said it was me, don't you believe me, what should I do? I'll make up one temporarily!"

Levi smiled helplessly.

"Okay, you can make up! We will believe it if you make up one!"

Dark God, they all stared at Levi.

Today, Levi tells the truth, no one believes it. If you make up one, they will believe it.

“Wait, let me think about it... Actually, it was Tiance, the commander of the Tiance Mansion, who saved me! When he was traveling in retreat, he happened to pass by wherever he went and saved me!”

Levi really pulled out a character casually.

The reason for talking about the superintendent of Tiance Mansion is because two days ago I heard someone say that the last owner of the Heavenly Sword was the superintendent of Tiance Mansion.

Because he relied on the Heaven Sword too much, he gave up on it and sealed it in the depths of the ice field.

So he temporarily pulled out the superintendent of Tiance Mansion.

I didn't know that when he said the god of Tiance Mansion, the body of the dark god suddenly trembled.

There was a complicated look in the eyes under the mask.

“It's... it's him... it really is him... I guessed it was him...”

Out of control!

The Dark God is completely out of control!

Even Levi didn't expect that his mother would say a name casually, the dark god is crazy...

Is it just such a coincidence?

It just happened to be the result of the Dark God's guess?

“It’s him! It’s him! I didn’t expect that after such a long time, the gap between me and him is still so big! It must be him!

According to his strength, he can easily open the dark cage outside with the help of an artifact! And the artifact level does not require top-level swords and swords!
“

The Dark God looked at the Eighteen Dark Angels and said, “Do you know? The reason why I didn’t dare to enter Velador is him! I thought I could challenge him if I got the Heaven Sword and Earth Sword to be combined! The result was broken!
“

“In recent years, I have used Sarah to plunder resources everywhere, lay down sites everywhere, and constantly expand the strength of the Bible organization! I want to firmly control the world in my own hands! Now one-third of the world’s power is under the control of the Bible organization!

I strengthen myself frequently, not just to be able to fight him! Enter Velador again? “

“But did he open the dark cage? Did he open it with his bare hands, or did he open it with some kind of weapon...”

The dark god is crazy.

Levi was dumbfounded.

The Dark God has a past with the gods of Tiance Mansion...

“Hey, what is your identity?”

Levi asked.

The Protector Novel Levi Garrison Chapter 2253 – 2254

Chapter 2253

In the past, Levi felt that the God of Darkness was foreign.

But today he seems to understand that this guy belongs to Velador.

Also has a close relationship with the gods of Tiance Mansion.

All of this has something to do with him!

He didn't even expect that the Bible Organization already controlled one-third of the world's power.

This is also terrible.

The threat of the Bible organization is second only to the laboratory of the gods, right?

This dark god has a lot to come!

The Dark God seemed to think of something and looked at Ye Qingfeng vigilantly.

“What do you want to do? Can you ask me about my identity?”

The dark god said immediately.

Others also bowed their heads.

Obviously they also want to know the identity of the dark god.

Levi smiled and said, "Okay, it doesn't matter! I don't want to say that I don't want to know! Now I tell you, what are you going to do with me?"

One of the Eighteen Dark Angels immediately said: "Kill it, I have tolerated him for a long time!"

"Yes! Kill it! I put up with him three years ago!"

...

Many people still hate Levi.

Tolerated his arrogance for a long time.

I wanted to kill it a long time ago.

Levi silently wrote down these people.

Underworld God glanced at Levi: "Let him go back! We already know what we want! There is no need to kill him!"

Levi at this moment was of no value in his eyes.

He didn't bother to kill.

"Yeah, it's not Levi before, now he wants to kill as much as he wants! I don't even bother to do it!"

"Yes, it's better to let him go back! Levi has many enemies! Let him appreciate the cruelty of this era!"

"Also, he has been injured by a Maya Industry weapon. It will be a matter of time before death! It is cheaper to kill him now!"

...

Many people felt that Levi should be let go.

...

“But kill him directly, aren’t we more refreshed?”

“Yes, kill him! Even if he has no power anymore! But this person has scheming and wrists, maybe he will become a threat to us!”

...

So this group of people was divided into two waves, and they strongly discussed whether Levi should die or live.

The two sides quarreled violently.

As if they were the gods in charge of human life and death.

They could decide Levi’s life or death with a single thought.

It felt like Levi was an experimental mouse.

Let anyone play and be killed at any time.

Levi watched them arguing, he was really happy.

When did his wheel of life and death be mastered by a group of chickens?

It couldn’t be like this three years ago, and no one can control it three years later!

But Levi thought it was funny and didn’t interrupt.

Watching a group of weak chickens decide their own life and death is not uncommon.

The two groups of people broke into the blood and began to disagree.

Seeing Levi's heart tickled, he wanted to join.

He thinks he should kill himself!

...

Just as everyone was arguing fiercely, the voice of the Dark God sounded:
"Enough! Don't make any noise!"

Everyone stopped and looked at the dark god.

Waiting for the decision of the dark god.

"Well, God of Darkness, everything is up to you! Ye Jun is about to die or live!
You decide!"

Everyone looked forward to the dark god.

The Dark God is also thinking about this issue.

I want to kill Levi, but I don't want to kill...

Very contradictory.

"I can't make a decision for a while! Why don't you lock up Levi first? Take a
long-term plan!"

Said the dark god.

"do not!"

Everyone opposed it.

I want to make a decision right away.

The evil god suggested: “Why not do this! Let’s vote to decide? More votes to decide the life and death of Levi!”

“Agree! Vote! Fair and just!”

The other side also agreed.

The Dark God smiled: “It’s really exciting to vote for a person’s life and death!”

Chapter 2254

These members of the Bible Organization were all excited, and regarded Levi’s life and death as a game.

Try to think about it, isn’t it exciting to decide the life and death of a former king?

Even the haze of the God of Darkness just swept away, and he actively participated in it.

“Okay, I’ll be the referee! I’ll count the votes!”

The Dark God said loudly.

Everyone wrote their answers on the slips of paper-dead or alive.

Except for the Dark God, there are a total of 4,323 in the base of this unknown island!

Among them are the core members of the Bible organization, as well as slave servants and so on.

The Dark God has everyone involved.

Everyone has the opportunity to vote, and everyone has the opportunity to decide the life and death of Levi.

This is really exciting and fun.

There is no waiver of votes, so life or death can be separated!

Levi stood there without saying a word, waiting for them to vote.

He is like a slave to play with.

Be the fun of their game!

His life is just a tool for others to have fun.

“Well, the voting has officially started!”

The dark god shouted.

All the votes came together, and the dark god began to shout.

“Death!”

“Death!”

“Live a vote!”

...

The Dark God looked very excited, and read out more than four thousand tickets one by one.

Someone is counting votes.

The number of votes for life or death rose almost flat!

It looked like it was not at the end, and I absolutely don't know what Levi's final fate was.

Levi still didn't make a sound, his face was dull, and he didn't know what he was thinking.

In the eyes of others, most of Levi had already given up and was slaughtered by others.

"Is this Levi? Back then, he was a man who could contend with the Lab of the Gods! One person made the Lab of the Gods scorched! Now it is up to others to decide how to degenerate to life and death?"

"Well, now and then! Levi can't help him! If he is strong enough, will it be our turn to decide his life and death? Didn't we die early?"

"Now he has absolutely no strength to fight, so we can only decide life and death!"

...

The eyes of all the people who finished voting fell on Levi.

Levi smiled helplessly.

Naive!

How naive!

"Levi is really quiet now! Don't say a word! What about the violent temper in the past?"

"Yes, three years ago, when I called the headquarters, I had to fight the Dark God directly and asked for Sarah to be handed over!"

"Time is not forgiving! He has become like this!"

...

Various ridicules continued.

Voting is also continuing.

Dark God read the ticket, getting more and more excited.

It's been a long time since I was so exciting.

This kind of game of life and death is so nervous that everyone is almost breathless, almost suffocating.

One thousand votes!

Two thousand votes!

Three thousand votes!

...

Four thousand votes!

...

Finally all the votes are counted!

Everyone stared at the dark god.

Waiting for the final result.

This moment is the most tense!

Levi is also looking forward to the final result.

After all, this is the time to decide fate!

The Dark God wiped his cold sweat, cleared his throat and said: “The final result is that 2,285 people chose Ye Jun to die!”

“So! Ye Jun is dying! This is the final judgment result!”

...

“it is good!!!”

“Hahahahaha...”

“We won! Levi is dead!”

The part that chose Ye Jun to die began to cheer.

As for the Evil God and others, their faces were a little dim.

They even wanted to see Levi’s torment, and it was the most refreshing to die slowly.

“You chose to die, right? Very good! Then die!”

Suddenly Levi’s voice sounded.
