

# The Return of the God of War [The Protector]

## Chapter 2671 - 2680

### Chapter 2671

Before, Levi Garrison had been entangled in how to make people a peerless powerhouse!

But none of them will work!

They don't have power absorption\*\* to absorb power.

Levi Garrison also couldn't inject crystal energy into their bodies.

It's okay if you can bear it, but if you can't bear it, it will explode one by one.

He can't experiment with people.

No one!

He dare not go even if Tiance is handsome and so on!

But Levi Garrison just changed his mind, not necessarily the super strong must be human!

Can start in other ways.

For example, machinery can even be carried out on the living dead, a variant of Maya Industry.

There are a lot of them and they can be used for experiments.

And once you become a super strong, you can control it.

Not as complicated as people.

I also have my own ideas.

After thinking of this.

Levi Garrison immediately came to the mysterious base of Maya Industry.

“Calling all the variants of the living dead, I have an urgent need!”

Levi Garrison gave an order.

All variants of the living dead are arranged.

A full 300,000 variants of the living dead.

The quantity scared Levi Garrison.

It can be seen how frantic the Maya Industry was before...

Under the special training of Maya Industry, this group of living dead has mastered offensive skills and has super combat effectiveness.

This is a terrible force that cannot be ignored.

But it didn't work for Levi Garrison.

The Lab of the Gods had known this kind of existence for a long time, and there was no threat to them.

Moreover, the original experimental plan to create the living dead belongs to the laboratory of the gods.

Their plan was to use it on super-sized creatures, but it was only used by Maya Industry on humans.

But now to Levi Garrison, nothing matters anymore.

He didn't think of what he was going to do in the laboratory of the gods.

In the next few days, Levi Garrison personally checked the physique and other various conditions of each mutant living dead.

In the end, three hundred and sixty-five qualified ones were selected.

Next, Levi Garrison started planning directly.

Combine the crystal energy and the various energies of Forbidden Land No. 76, including the golden blood of the gods and so on.

Inject them a little bit into the bodies of these mutant living dead to see how they endure.

Then phase out and pick out the best.

In the blink of an eye, seven days passed.

## Chapter 2672

Three hundred and sixty-five living dead have been eliminated to less than fifty.

But it will continue to be eliminated.

the other side.

Levi Garrison asked the Bible Organization to use the metal and other resources of the No. 76 Forbidden Land to create several combat machines.

Infused with terrible energy, even equipped with a divine tool refined by Levi Garrison.

No matter what level the technology of the Gods Lab has reached.

Levi Garrison's theory is that the robots developed by the Bible Organization can not use high-tech, but the only point: the combat effectiveness should be super strong.

You can gather majestic energy and use artifacts!

So these machines are violent fighters!

It is worthy of the resources of No. 76, which can really meet the requirements of Levi Garrison's super power.

People can't exert their power.

But these machines can.

Especially with some artifacts refined by Levi Garrison, the power is even more terrifying!

There are a total of four such fighter machines.

Levi Garrison named them the Four King Kong.

As for the variant living dead.

Levi Garrison expects that there will eventually be eliminated and the remaining thirteen.

Enter his real super power plan.

These thirteen will use up the remaining crystal energy.

Levi Garrison had roughly judged which thirteen it was.

Numbered them early.

Number one to number 13.

This time it is really to build a super strong at all costs.

Fortunately, the forbidden area No. 76 is supported by huge resources.

Otherwise, Levi Garrison has no idea.

With these super powers, Levi Garrison's heart is quite stable.

Seven days are up.

Levi Garrison asked Kunlun College to pick seedlings.

The rule of selection is to compare each other first to show their talents.

All the students in the morning stood on the playground, waiting for the start.

For everyone, this is an opportunity!

Whether you want to improve your strength, or a spy in the laboratory of the gods.

Looking forward to it!

Soon, all the mentors came to the court.

Levi Garrison was among them.

“Huh? What about Levi Garrison’s students? Why is he alone? How about the others? Don’t they participate?”

“Yeah, this is the best opportunity for those people!”

“Aren’t we here just to be the disciples of the dean and deputy dean?”

“Now everyone has only been here for a month. Even if we have expert advice, the gap with them is not that big. This is the time with the smallest gap between us and their only opportunity. If we miss this time, we won’t be the next time!

The gap between us will grow bigger and bigger in the future! They don’t have the slightest chance! “

...

Everyone said one after another.

Yin Zhengping and the others sneered: "Don't think about it! They won't come! This is a group of stunned greens! All of them are a tendon! I really gave up such a great opportunity for Levi Garrison!"

"Fool! What a fool!"

## Chapter 2673

Listening to everyone's discussion, Zoey Lopez felt very uncomfortable in their hearts.

Sure enough, Levi Garrison delayed them all.

This kind of opportunity does not come.

They wanted to talk to Levi Garrison and let all the people come to participate.

Although the chance is slim, if you don't come, there is really no chance at all.

That was an opportunity for the dean and the two deputy deans to personally pick someone.

They just gave up?

This renunciation meant that their career at Kunlun College was completely abolished.

There will no longer be any opportunities.

He could only be planted in Levi Garrison's hands all his life.

It's all a bunch of poor people!

Guilt!

Zoey Lopez and several people plan to compensate them a little in other ways, and they can't delay them in vain.

At first, everyone wanted to give Jiao Tianyu and the others an injustice.

But at this moment, everyone is thinking about how to play.

Regardless of other things.

“Except for the one word side by side without participating in the king’s sect, everyone else must participate! This time the main individual battle, show your talent! Then the two began to fight...”

Tiance Marshal announced the start.

Thousands of people began to fight in the huge square.

The tutors took their seats in the seats arranged in advance.

The students all looked nervously at the instructor’s seat.

Looking forward to the appearance of the dean and deputy dean.

After all, they are here to pick someone today.

Don’t know if they will appear directly?

Or choose in the dark?

But after a while, everyone was disappointed.

Only one seat of the instructor is vacant.

And this seat belongs to Levi Garrison.

But Levi Garrison stood up and walked to the front anxiously, watching.

From time to time, he would intervene in the battle, observe closely, not to miss any details.

The next battle was fierce, and everyone was struggling to show themselves.

But Levi Garrison was the busiest.

He has to observe closely in almost every team's battle.

His busy identity can be seen everywhere.

The gods of Tiance and they knew what Levi Garrison was going to do, so naturally they looked calm.

But others saw Levi Garrison's weird behavior.

I remembered that some people said that Levi Garrison was stealing school, but now it seems to be the case.

He was on the scene with the identity of a mentor, and he was openly stealing!

Unfortunately, there is no way for him.

Everything about the artifact last time is gone.

What can this be considered?

Zoey Lopez was watching Levi Garrison while they were fighting.

Know that Levi Garrison is a person who wants face.

## Chapter 2674

Improve yourself in this way.

Some people can tolerate it.

But some people can't tolerate it.

Especially I don't know where the dean is observing.

Fan Zhisheng was eager to win, and scolded Levi Garrison and said, "Can you go farther? It has affected my performance!"

For spies like Fan Zhisheng and Yin Zhengping, they must show themselves, they must show themselves, and let the dark gods choose.

Only this can accomplish their task.

But Levi Garrison walked around, distracting them.

Fan Zhisheng couldn't help them anymore.

Then more people stopped and accused Levi Garrison of affecting them.

One by one, they blushed and shouted Levi Garrison to get out.

Levi Garrison glanced at Fan Zhisheng and said, "Don't worry, I won't choose you anyway!"

"You...who do you think you are? You didn't choose it! You said I couldn't get it if I didn't get it?"

Fan Zhisheng was going to explode.

"Get out! You disturbed us too much!"

Others shouted.

"If you can't even stand this interference, how to choose you? Can you guarantee that there will be no interference when you encounter enemies in the future? Let you fight one-on-one? Can you still let the enemy not interfere with you? ?"

It doesn't matter if the spies say that.

But some people said that, Levi Garrison was very angry.

Can't even stand this interference?

How to bear the burden?

No matter how talented he is, he is just a glass man.

Can't become a device.

Levi Garrison would not choose them.

On the one hand, Levi Garrison was observing them, and on the other hand, Levi Garrison was observing others.

Those who are completely unaffected...

"Levi Garrison is not what I said about you! Where are all the tutors sitting there! Only you have to run over to join in the heat? Do you choose a time even if you steal your studies?"

"First, you are disrupting the performance of the students; second, the dean and the two deputy deans are picking people, and you are also influencing them!"

Shura God of War also said.

He even stared at Levi Garrison and said: "Don't tell me that you can't stand interference on the battlefield! If you encounter interference like yours on the battlefield, I will definitely kill you first! Then kill the enemy! But now You can't kill again!"

After hearing the words of the God of War, everyone felt reasonable.

Refute Levi Garrison one by one.

## Chapter 2675

"Don't talk to us about your set of theories! It's not you who are choosing people! It's the dean and the deputy dean who are choosing people!"

Levi Garrison smiled.

It's a coincidence.

It is he who is choosing people.

The reason why he is interspersed among the people is actually to choose people.

The deeper he goes, the more careful he is.

“Okay, everyone, don’t quarrel. Don’t forget, the dean and deputy dean may be watching. If you stop, it may affect performance...”

At a critical time, Zoey Lopez reminded him.

Everyone reacted.

One by one quickly joined the battle like crazy...

At this moment, Levi Garrison is not important anymore.

He doesn’t affect it anymore.

Where is he important to the dean.

The inspiring battle continues.

Everyone struggled to express themselves.

Levi Garrison finally observed it.

This time, I got a comprehensive understanding of every student.

Also selected the right person in mind.

It is impossible to create the super power you want.

But there is hope for the quasi-superpower.

This month, their respective tutors have passed on their utmost knowledge.

The corresponding foundation has been laid.

Next, Levi Garrison only needs to point them to special training.

Practice their respective exercises to the strongest position.

That is to say, the master of Tiance, Ye Zhantian and the others.

The field is still going on.

Everyone's performance is too strong.

Some people started out one-on-one.

To the back is one-to-many...

Especially a few spies, in the end directly confronted hundreds of them.

Look at the posture and wait for one to deal with all.

But where do they know, what they are doing now is useless.

No one saw it at all.

The person who was observant had already turned around.

Levi Garrison turned and walked out of the crowd, standing on a high place, shouting: "Okay, let's go here!"

## Chapter 2676

But after Levi Garrison shouted out, everyone didn't react in any way.

Still fighting.

Seeing this, Levi Garrison couldn't help raising his tone and shouting: "Stop! It's all over!"

This sound is very penetrating.

Enough to hear the entire Kunlun Academy.

When everyone in the fight heard it, they stopped one after another.

stunned.

Everyone looked at Levi Garrison incredulously.

“Levi Garrison, did you deliberately?”

“I really want to kill you! Are you deliberately making trouble?”

...

Seeing that it was Levi Garrison shouting, no one agreed.

I felt that Levi Garrison was sabotaging on purpose.

“The selection is over. If you continue to fight, who are you calling?”

Levi Garrison sneered.

Everyone was about to condemn.

The superintendent Tiance stood up and said: “Wrong! It is indeed over!”

“The selection list for the dean and deputy dean has come out! I will announce it later! Those who are selected can directly report to the dean and deputy dean!”

Tiance Shenshuai continued.

This word came out.

No one pays attention to Levi Garrison anymore.

Don't even know when he left.

All of them just think about whether they have been selected...

Excited to the extreme!

“Next, I... wait a moment...

Um? It seems that there is no need to announce it! “

When Tiance was about to make an announcement, he realized that Levi Garrison didn't give him a list at all.

Just as he was melancholy, he glanced.

But saw a scene in the field.

He smiled.

It turned out that Levi Garrison had arranged it a long time ago.

“Ah? No need to announce? What's the matter?”

All the students in the field were dumbfounded.

They are scared.

Could it be that something has changed?

But don't!

One by one looked at Tiance Shenshuai with worry and fear.

“No need to announce it!”

The handsome Tiance nodded.

“Touch your face! The red blood is chosen!”

Tiance Shenshuai continued.

He just glanced.

It was found that some people in the crowd were marked with red blood on their faces.

## Chapter 2677

It must have been left by Levi Garrison just now.

Those with red blood are selected!

As soon as Tiance Shenshuai said this, the crowd immediately exploded.

“Wow, I don’t have it on my face! You have it on your face!”

“I have it on my face, this is blood!”

“I smell blood! I have it on my face!”

“He has it on his face too! Where’s mine? I don’t have it!”

...

There was chaos among the crowd.

But after all, few people have blood on their faces.

There are basically one or two for each door, rarely more than three.

It is estimated that the total number does not exceed one hundred.

This is a preliminary screening.

Levi Garrison has to be phased out.

In the end, it is estimated that there will be one third left.

This is the super strong reserve team!

There are blood-marked people in the crowd, and one by one, happiness has blossomed.

Everyone around looked enviously.

And it's not about who is strong and who is weak.

See who is suitable and who has the potential.

"I don't have one!"

Fan Zhisheng wiped his face and looked in the mirror again.

Repeatedly confirm that he is not the one chosen.

Did Levi Garrison really get it right?

There are also people like Yin Zhengping who have not been selected!

But Shura God of War was selected, and Levi Garrison looked around and found that he was very suitable for Ye Zhantian's set.

It is possible to become Ye Zhantian.

Kirin (Qilin) and Tiger (Bai Hu) were also selected, and they fit Ye Qingtian's set.

Azure Dragon (Qinglong) and Xuanwu were also selected, suitable for some sturdy and violent exercises in Tiance Mansion.

...

It wasn't Levi Garrison's partiality, this opportunity was all given by everyone.

Xiao Feng and the Evil Sword God were also selected.

They are suitable for some of the Garrison family's techniques, and they can become quasi-super powers if they practice well.

They were not selected by Zoey Lopez.

Because of the cultivation method, Levi Garrison was not able to teach a lot, so he still gave it to his instructor.

Suddenly a terrible question appeared in everyone's mind.

How did the blood marks on their faces come from?

Just thought of this.

Everyone's look changed drastically.

Showed a look of horror.

It's like hell.

You know, the dean and the deputy dean never showed up.

## Chapter 2678

How could he leave a blood mark on the face of number one hundred and ten silently?

This is also amazing.

unimaginable!

Everyone has a numb scalp.

A cold air blasted directly from the soles of the feet to the heavenly spirit cover.

The whole body's blood is clotting.

Incredible!

The silent appearance of people can still be understood.

But there is blood mark on the face, how can no one notice it.

This is amazing.

Dean, in what state did they appear?

Ghost?

Or is it a god?

Said to observe in the dark, in fact, like Levi Garrison, he carefully observed from close to them.

So they know the characteristics of each individual.

Think of someone watching you by your side, but you don't know it.

Even if he leaves a mark on your face, you don't even know it.

How terrible is this?

If you kill them, you won't know how to die if you die.

Thinking of this, everyone shuddered.

The fear deep in my heart was all hooked out.

Horrible!

How did it do it?

This is far beyond their cognition.

Thousands of strong people don't even know it.

They don't even know how daunting the tutors are.

This is too powerful, right?

They only knew that the god list was actually faulty.

Between the third and the fourth is like a moat!

How strong are the Dark Gods?

How high is the ceiling of Shenbang?

The spies in the Lab of the Gods were the most shocked.

The stronger these three people are, the more disadvantaged they are to the Lab of the Gods.

But where do they want it.

Often the most unbelievable thing is the simplest and simplest way-Levi Garrison observes the distance one by one.

It's like destroying the enemy's network system.

Generally, you have to ask advanced hackers to hack the network...

But the simplest and most effective way is to unplug the enemy's power...

I bought the security guard who managed the switch and pulled the switch.

The network system is self-defeating.

...

However, the stronger the Dark God trio, the more excited the selected students.

It means that their upper limit will be higher and higher.

They were not selected despite Yin Zhengping and Fan Zhisheng.

But there are still other spies selected.

There are seven in total.

This of course was deliberately selected by Levi Garrison.

The path of Black Hawk Agent alone is not reliable.

He also needs to start with these people.

Multiple choices will not work, and fewer choices will not work.

## Chapter 2679

Seven or eight are most suitable.

“Okay, you guys are going to prepare and report to the dean and them!”

Tiance Shenshuai said.

“Although you have been selected, don’t be proud! It’s just a preliminary screening! Will continue to be eliminated!”

“Others still have opportunities! Entering Kunlun Academy means more opportunities!”

He also comforted others.

Zoey Lopez clenched his fists, a little annoyed.

This time she was not lucky enough.

I feel very upset.

Others who were not selected were also very upset.

“We have been mocking Jiao Tianyu and the others. Now that we can’t make it, aren’t we the same as them?”

“That’s still different! We are just not selected by the strongest! But our tutor is still in the top ten, and we are still strong!”

“They are completely abolished! How does it compare to us?”

...

“Come, come, all the selected people are in line!”

Under the organization of Tiance Superintendent.

All people with blood marks on their faces stand in line.

“Teacher, where are we going now?”

One of the spies Yang Yaofeng asked.

“You can go in this direction, and you will understand when you reach the end!”

Tiance Shenshuai pointed a direction.

“Huh? There? Isn’t there where Levi Garrison and his students are? Where are we going to do?”

Everyone was surprised to find that the direction that Tiance God Commander was pointing was where Levi Garrison was...

Could it be...

Everyone thinks of a possibility!

The dean is related to Levi Garrison?

After all, only Levi Garrison had been to the scene just now, and he had observed them carefully.

If it is him, then everything makes sense.

But they don’t believe it!

I’ll understand when I see it.

But for the spies, no matter who they are, it will do.

They only need the information of the three dark gods.

Nothing else matters.

Levi Garrison is also good, so are cats and dogs.

As long as you can make a deal.

With a sense of anxiety, the team set off and headed towards each other.

Soon, everyone passed the place where Levi Garrison's students practiced.

Go deep into the snow-capped mountains.

"Everyone is there, right?"

A voice came.

## Chapter 2680

On the peak not far away, a figure appeared.

Dark God!

He was wearing his iconic mask, and standing there, a powerful coercion struck him.

The crowd was a bit out of breath.

Later, two figures appeared.

Same powerful!

"Is this the top three on the gods list? My God, the first time I saw it!"

“We should be the first wave in the world to see three people on the same stage, right?”

...

Everyone was extremely excited.

Even suffocated.

The spies called out one after another.

It's been a month.

Finally, I'm about to see the true appearance of these three people.

Finally there is a clue.

You can talk to the Gods Lab.

“Huh? Three people??? Really three people showed up together?”

On that day, when the Ce Shen Shuai saw three figures appearing at the same time, they were all shocked.

They knew that these three people were actually Levi Garrison.

I thought it was still Levi Garrison who appeared alone.

Unexpectedly, there are three people.

Incredible.

Who are the other two?

The other two, they certainly don't know who they are...

Because one of them was selected by Levi Garrison from the mutant living dead.

He plans to eventually create thirteen superpowers, numbered one to thirteen.

The one standing to his left is number one now.

The other is a robot that everyone can't think of.

It is one of the Four King Kong.

Due to advanced technology, the appearance of the four diamonds is no longer a mechanical surface, but a human appearance.

Levi Garrison has instilled the ideas of the ancient clan master of the Garrison family and the master of Yizhi in the robot and Mutant One.

From now on, these two are the second and third on the list of gods.

In addition, Levi Garrison also instilled the skills of the major instructors of Kunlun College.

Therefore, they can directly guide these students.

Let the students practice their respective exercises to the highest level.

No less than his personal guidance.

Of course there is no difference between this and himself.

In layman's terms, these two were controlled by Levi Garrison.

Plus the combat power value is super high.

Nothing will be exposed at all.

One more point-Levi Garrison certainly knew that several spies had been selected.

He must give these guys some clues to confuse the Gods Lab.
