

# The Return of the God of War [The Protector]

## Chapter 2701 - 2710

### Chapter 2701

Substantial evidence must prove that this matter is true! We will start the plan to do what you said! Otherwise, nothing is possible! "

Others felt that Xiao Liejun's words were reasonable, and they all agreed.

"You also know that Yan Longwei's decision is related to Da Xia's destiny! It is not sloppy, it is that no problem can be raised! Nothing is allowed!"

Jiang Ye even asked again and again: "If the nation's strength is activated to build the national defense wall, who will bear the responsibility if there is a mistake? If it is out of touch with the times and disconnected from other countries in the world, who will bear it?

What if you are suddenly attacked by enemies or mysterious forces?

In case of a major mistake, the entire Daxia will be ruined? Who will bear the risk?

Besides, your guess is wrong? The disaster did not happen, but the entire Daxia was greatly injured. Who will bear it?

Two months is short, but for a country, if it is stranded for two months, it is out of touch with the times and it is likely to be eliminated...

Have you thought about all these risks? Just guess there! Who dares? "

Hong Qingcang also agreed and nodded: "Yes! It's hard to manage Daxia to this day, but it can't be ruined in our hands! We can't bear this responsibility! Let alone become sinners through the ages!"

Levi Garrison can actually understand them.

This matter is too big and too big.

A decision may lead to an eternal mistake!

All will be stinking for years!

He is also betting!

It is normal for these people to dare not make decisions.

“There is another way! That is, you have to solve or protect the risks we raised in advance! Otherwise, don’t think about it!”

“Furthermore! Even if the disaster really comes! Those Big Macs are indestructible! But Daxia is united and can fight foreign enemies together! You may not lose!”

“Who in the world is not afraid of the united power of Daxia? That is invincible!”

“What’s more, our Tiance Mansion Baolong clan is so powerful. Now there are Kunlun Academy and the top three of the gods. Who can be the enemy?”

Xiao Liejun’s statement is reasonable and well-founded.

It was difficult for Levi Garrison to continue to persevere.

“Hey!”

Levi Garrison sighed.

This is the information gap!

You know too much, but how can you make others believe in the future!

Even if you say Po Tian, no one believes it.

Especially what Levi Garrison is going to do this time is so big...

It is unimaginable!

It is even more impossible!

“One word side by side, I think your current state is not suitable for participating in great events in Daxia! You should rest a lot!”

The implication of Xiao Liejun’s words was that Levi Garrison had mixed up with him when he was leaving.

Especially this kind of undesirable thing.

Levi Garrison guessed completely.

To say an exaggeration is that Levi Garrison has delusions of persecution...

“How sure are you sure about the word side by side?”

Suddenly someone appeared.

Looking at Levi Garrison seriously and asked.

Lu Xiong, one of the four leaders!

Lu Xiong was born as a soldier.

Once was an invincible killer in the army!

Hot-tempered, vigorous and resolute.

He believed in Levi Garrison.

Because he had a similar experience with Levi Garrison in his career.

He foresaw the enemy’s plan in a month, but no one on his side could listen.

All feel too absurd.

Too unreasonable.

As a result, the battle suffered heavy losses.

Fortunately, Lu Xiong did his best to make arrangements in advance, which reduced casualties.

Otherwise it will be a big defeat.

Lu Xiong now only has eight fingers, and the two fingers were interrupted by that battle.

Therefore he has a nickname-Eight Fingers God of War.

He hadn't talked a while ago and had been observing Levi Garrison.

In fact, this matter is also extremely absurd to him, and it is really too risky.

But he saw the helplessness in Levi Garrison's eyes...

He is exactly the same as he was back then.

So he felt the same way, and felt that Levi Garrison might be right.

Levi Garrison turned around and looked at him and said, "To be honest! Seventy to eighty percent!"

## Chapter 2702

"But! Just follow my plan! Disasters can be prevented! But the risks and losses you mentioned all exist!"

After hearing what Levi Garrison said, Lu Xiong's brows clenched.

Levi Garrison meant to say that according to his plan, whether this disaster comes or does not occur.

It can be prevented!

But all kinds of risks exist!

This is equivalent to betting again.

But putting aside the risk, Levi Garrison is still sure!

Lu Xiong could see this.

“Do you dare to bet?”

Lu Xiong asked.

Levi Garrison nodded: “I dare to bet! Even if I am a sinner through the ages, I dare to bet!”

“Okay! Just wait for your words! Then I, Lu Xiong, will support you unconditionally!”

Lu Xiong said.

“Lao Lu, calm down! Do you know what you are doing?”

“You have to understand your identity, you are not suitable for making such a decision!”

The others are anxious.

Shouted immediately.

“I know! My bet is on him! I will take it if something happens! I am willing to take any responsibility!”

Lu Xiong said calmly.

“No! You can't bear the responsibility! You bear thousands of people! It's the entire Daxia! What are you responsible for? Death? Is it useful?”

Xiao Liejun said.

The others also said: "Yes! Once this matter starts, there is no way back! No one can afford to take responsibility!"

Lu Xiong still unswervingly supported Levi Garrison: "I choose to trust him! I have intuition, and he can turn the sky over! He can definitely!"

"Then let's vote for Yanlongwei internally! Fair and just!"

Hong Qingcang proposed.

"Okay! Voting is fair and just!"

Everyone agreed.

"you....."

Lu Xiong glared at the crowd fiercely.

Isn't this obvious?

Do I still need to vote?

"Okay, support the king's raise of the word side by side!"

Hong Qingcang shouted.

Only Lu Xiong raised his hand in the court.

Everyone else looked at each other.

"Well, don't support the raising of the hand of the word side by side king!"

"Wow!"

"Wow!"

...

Everyone raised their hands one by one.

The situation is obvious.

The results of Yanlongwei's internal voting that Daxia decided on came out...

Of course it does not support Levi Garrison!

"I tried my best... I have no idea..."

Lu Xiong looked at Levi Garrison helplessly.

"One word side by side, this is the result! No one can support you!"

Everyone said.

"Nothing! I'm satisfied with one vote!"

Levi Garrison smiled.

"But it is possible that what the king said side by side is also possible. Next, we will send people to investigate and find clues..."

Xiao Liejun's words were comforting.

After leaving Yanlongwei.

He took a deep look.

What should I do next?

Let the disaster come?

Regardless?

# Chapter 2703

That definitely won't work!

The only way out of retreat is for him to shoot directly!

He and the super powers he cultivated, who were originally going to be given to the chief priest of the Gods Lab, were exposed in advance.

Used on these giants.

no!

I still have to defend myself!

Fortunately, I still control the Bible organization and the ancient Ye clan!

Although it is impossible to build a defensive wall around Daxia.

However, relying on the human resources in his hand, Levi Garrison still has no problems in building several safety islands.

Save people as much as possible!

Otherwise, what else can he do?

I can only rely on my best efforts...

But he wanted to ask the gods of Tiance about their thoughts, to see if there was any good way, and if they could get a little help or something.

the other side.

The great disciple of the Dark God came to Daxia after receiving the information from the Gods' Laboratory.

And went to Kunlun College.

When Ce Shenshuai saw him that day, he was also taken aback.

After knowing it was his own child.

There was a thump in his head.

“I just want to know the God of Darkness today, who is the one who killed my mother...”

“You tell me one to five! Who is the murderer of my mother???”

“At this time, you won’t lie, right? Of course you can lie to me! After all, you never had this son in your heart!”

The big disciple of the Dark God gritted his teeth and questioned Tiance, the master.

he is very smart.

After saying this, Tiance Shenshuai was under a lot of psychological pressure.

After all, it involved him deep in his heart.

One is a younger sister, and the other is a son.

Even if the younger sister is the one who killed his wife.

But the child in front of him is his own flesh and blood.

The appearance of this one was completely unexpected by the superintendent Tiance.

really.

The words of the great apprentice of the dark god came out.

Even Tiance Shenshuai’s body was trembling, and his face was tangled.

I can’t say it!

Don’t say it!

"You hesitate? Will you participate in my mother's death, right?"

The great disciple of the dark god poke the gods of the sky with a word.

"No! I don't know! When I came back from retreat, she...she was gone!"

Tiance Shenshuai's voice trembled.

"Then tell me who he is???"

The great apprentice of the Dark God suddenly raised his tone.

Tiance Shenshuai said painfully: "I can't say it! It's not good for you! You can't get revenge! Don't think about it!"

"Even if I die, I have to take revenge!"

The great disciple of the Dark God persists.

"I killed it! What happened?"

On the day when the strategy master was entangled.

A figure appeared.

It was Levi Garrison who had just rushed back.

He had received the message some time ago-the former great apprentice of the Dark God had secretly investigated in the Bible organization.

He had guessed that this kid was inseparable from the laboratory of the gods.

Unexpectedly, he would come directly to ask Tiance the superintendent.

This is a good way.

## Chapter 2704

“you.....”

Seeing Levi Garrison who appeared as a dark god, he was really frightened.

Back again and again.

“Don’t you want to know who I am? Come, follow me!”

Levi Garrison directly asked him to leave.

“Please don’t kill him!”

Tiance Shenshuai shouted anxiously behind him.

After all, this is his flesh and blood.

Brought the former great apprentice of the dark god to a remote place in Kunlun College.

The big apprentices began to tremble.

He could obviously feel the powerful aura of Levi Garrison’s body.

revenge?

That is absolutely impossible!

Moreover, his words of revenge were for Tiance Shenshuai.

Belongs to Kou Hi.

Really let him take revenge, he dare!

Especially after seeing Levi Garrison.

Give him ten courage!

“I won’t kill you for the sake of Tiance’s handsome face!”

“But if you want revenge, please remember this face!”

Levi Garrison slowly took off the mask.

The big apprentice swallowed fiercely.

Looking at the face under the mask.

He also hardly remembered this face.

He can't get revenge.

It can only be pinned on the laboratory of the gods.

The big apprentice couldn't help asking: “By the way, I have a question! Why are you cooperating with Tiance Mansion? What is the relationship between you?”

Previously, this was a concern of the Gods Laboratory.

Now he is also very confused about this.

Tiance Shenshuai won't avenge himself, but why does he get involved with the new Dark God?

“Come here, I will tell you quietly...”

Levi Garrison beckoned.

The big apprentice heard the words and moved his ears over.

After listening to Levi Garrison's words.

His whole face changed drastically.

The eyes are full of disbelief!

“Understood!”

After he listened, he said three words faintly.

Then he left.

Levi Garrison looked at the back of him leaving with a smile.

After dealing with this matter.

Levi Garrison gathered the gods of Tiance and the others together.

Told them about this.

Everyone looked embarrassed: "There is one thing to say, this matter is too much. The power of the whole country! It is normal for Yanlongwei not to agree!"

"Yeah, who is sitting in that position! I'm afraid of making such a decision! After all, it's desperate!"

"This matter, I am afraid that our Tiance Mansion is also powerless! After all, we are only the highest ancient martial arts organization, and cannot call on Quan Daxia's power! If you really want to call, it must be the Yanlong Guard!"

"Yes, it is estimated that Yan Longwei will not adopt our suggestion!"

...

"I want to hear your opinions!"

Levi Garrison looked at everyone.

"It's impossible to build a national defense wall! I can only think about it from other aspects!"

"Use our existing power to create as many buildings as safe islands and the like! If there is a problem at that time, more ordinary people can be brought here!"

Upon hearing this, Levi Garrison nodded: "Yeah. This is in my plan!"

“Secondly, you and the super-powerful seedlings that you want to build must not be exposed before this incident. If the disaster you said is coming, and the Big Mac strikes! We will gather people to deal with it!”

“With our strength not to mention extinction, there should still be hope to resist, right?”

“Yes! Let’s be the defense wall at that time!”

The gods of Tiance said the plan.

“That’s all! I hope you can stop it!”

Levi Garrison sighed.

## Chapter 2705

I just hope that the Big Mac made by the Dark Doctor can be weaker, not so strong...

He didn’t want to see the brothers of Tiance Mansion all sacrifice in order to resist the Big Mac.

Human flesh walls are still undesirable!

He will continue to collect information and continue to prepare...

Minimize casualties.

Now the next step is to establish a safe island!

Although he controls the biblical organization.

But if enough safety islands are to be built, human resources are still insufficient.

After all, the major forces are strong, and using them to build a safe island is really overkill.

Fortunately, Tiance Mansion and them support...

the other side.

The former great apprentice of the Dark God has joined Mr. X.

“What? Did you see clearly?”

Everyone was shocked.

“Yes, that’s wrong! The Dark God made me remember that face! I looked very carefully! It looks exactly like the one you describe! In his eyes...his nose...”

The big apprentice began to describe to everyone the appearance of the dark God he saw.

They were all surprised by Mr. X.

Sure enough...

This time it is really sure!

The gods in Forbidden Land No. 76!

Wrong.

The face that Levi Garrison showed to the big apprentice was actually the face of No. 76 Forbidden Land God.

He is not clear about the purpose of the big apprentice.

When the big apprentice said this.

Everyone posted it subconsciously.

Mr. X almost posted it on his body.

These days, since I know that it is forbidden land No. 76 what the gods have done.

They have been wondering why they would cooperate with Daxia.

It was not the god of Forbidden Land No. 76 that threatened them.

After all, Doctor Dark is their natural enemy, and facing the God of Forbidden Land No. 76 is an indiscriminate massacre.

So they never worry about this.

But why the God of Forbidden Land No. 76 cooperated with Daxia.

Before they can figure it out, this is the most terrifying thing they fear.

Like a thorn in the eye.

If you do not take it off.

Mr. X can't even sleep well.

This is what I even think about when I have nightmares...

"what reason?"

So the big apprentice said this.

Everyone got together.

Very curious.

"The reason why the gods of Forbidden Land No. 76 cooperated with Daxia is superficial! In fact, they want to slowly swallow Daxia!"

Now the great disciple of the dark god has finished speaking.

Everyone present gasped.

Ambitious!

The gods in Forbidden Land No. 76 are really not fuel-efficient lamps!

Think about how many forces controlled by the Bible Organization, Maya Industry, etc., they all won.

Now even the ancient Ye clan was taken by them.

The God of Forbidden Land No. 76 has been expanding his power and territory...

Now cooperate with Daxia.

This purpose is obvious. The god of Forbidden Land No. 76 is raising his own power, and when the time is right, he will swallow Daxia in one bite.

Next are other countries...

Mr. X laughed straight out: "Hahaha...understood...I'll just say, how can they cooperate with Daxia? It is the most necessary to cooperate with War Eagle Nation, and the least should be to cooperate with Daxia. It turned out to be the reason for the cooperation! They are so ambitious!"

Others also understood.

Everyone knows that forbidden ground No. 76 is playing a big game.

"Let me just say it! The guys in Forbidden Area No. 76 call themselves gods! How can they be willing to survive in a world ruled by ordinary people. They must dominate!"

## Chapter 2706

They couldn't think of it anyway.

This is what Levi Garrison said casually.

The great disciple of the dark god believed.

Everyone in the Lab of the Gods believed it.

All think that is the case.

The big stone in Mr. X's heart was put down, and the whole person was even more ecstatic: "This is a good thing for us! This threat is completely absent! The threats I expected have been resolved!"

"Then we can ask the Dark Doctor to strike one by one against the gods in Forbidden Land No. 76?"

Lucifer and they couldn't wait.

I want to quickly determine the list of gods in No. 76 Forbidden Land, so that I can catch them all in one go.

Mr. X shook his head: "No, no, no...As long as we know everything about them, they will no longer be a threat. We can do it anytime!"

All the time.

The threat to the Lab of the Gods is that they don't know who the top three of the gods are, and there is a lot of room for imagination.

Therefore, it poses a threat.

But now they know it all right.

Then these are no longer threats, you can do it anytime, not in a hurry.

"What's more, we now know their purpose! They are now ambitious and want to swallow Daxia! In fact, their purpose is similar to ours! Why should we get rid of them?"

Upon hearing this.

Everyone nodded: "Yes, now they are my invisible ally! We are all dealing with Daxia!"

Mr. X looked sinister: "Not only will we not get rid of them, we will help them! It would be great if Daxia's two types of existence can be drawn out!"

"They fight each other half to death, we sit on the mountain and watch the tiger fight, and then sit back and reap the benefits of the fisherman! Wouldn't it be better?"

"Hahaha...wonderful!"

"That's right! Let Daxia and No. 76 forbidden land fight each other, it is us who profited!"

"If Daxia's two types of existence can really be drawn out, that would be great! It would be best if the detective of No. 76 Forbidden Land can get rid of the reality or get rid of it!

Even if it cannot be removed, it will leave us with a lot of information, and we will fully understand Daxia's two types of existence! Kill two birds with one stone! "

...

Everyone praised Mr. X's wonderful plan.

The great clown looked at Mr. X: "What should we do now? Is the plan going on normally?"

Mr. X looked forward first, the big apprentice of the dark god and said: "Next, you must always dangle in front of the gods and the gods! You must even take revenge frequently!

Collect more information for us! We not only help you avenge, but also make you stronger! "

After the former disciple of the dark god left.

Mr. X then continued: "The plan cannot be heard by outsiders!"

"The plan remains the same! Next, we will use the plan to plunge the entire Daxia into hell! Once the entire Daxia is in chaos, the opportunity will come. At that time, the gods in Forbidden Land No. 76 will definitely be lured to take action in advance to swallow Daxia. summer....."

"When they both lose and both lose, we will shoot again!"

Mr. X has already imagined the picture.

“Hahaha...absolutely! The Big Mac experimented by Doctor Dark, plus these guys in Forbidden Land No. 76, Daxia can't bear it...”

“Tiance Mansion and Baolong Clan, they absolutely can't keep it! Now Kunlun Snow College and other seedlings cultivated, Daxia thinks it is for her own cultivation, but she does not know that they are all forbidden areas in Renjia No. 76...”

## Chapter 2707

When Da Xia was hollowed out, his stomach and back would be attacked...”

Everyone laughed.

“It feels like those two types of existence are not far off the field, and our chances of winning will be almost 100% by then!”

Everyone is very confident.

“If that's the case! Then I must notify the chief priest, notify the dark doctor! Let them speed up a little bit! The time must be shortened to one and a half months!”

Mr. X again ordered: “Let the black eagle of the Sky Shield come to see me! I want to investigate whether the energy power station can hide these giants... First test with a few similar giant creatures!”

“Okay, understand!”

Mr. X gives an order.

Everyone immediately executed it.

They want to speed up.

I want to make Daxia mess up ahead of time, and let the gods of No. 76 Forbidden Land do something.

When Doctor Dark heard it for a month and a half, he became more and more crazy, and directly agreed.

All parties in the laboratory of the gods are busy.

the other side.

Levi Garrison also secretly used a force in the Bible organization.

Come to build a safe island.

Four places were selected, and four islands were planned to be built first.

There is really not enough manpower.

And the Bible organization is actually a mob.

Can't stand together.

It would be bad if Levi Garrison did a lot of fanfare.

Known by too many people, this matter is even revealed.

But the four islands are far from enough.

A safe island is estimated to be tens of thousands, with the limit of 100,000.

Where are four enough?

Hundreds of them can at least top one.

So Levi Garrison was very sad.

With the help of Tiance, it is still possible to build twenty or thirty.

However, if there are hundreds of them, Daxia's power must be used.

Otherwise it is absolutely impossible!

In the early stage, Levi Garrison also participated in the design of the safety island.

After all, the data is in his hands.

What materials need to be used to resist the attacks of the Big Mac.

These are all he is checking.

The metal resources and other substances in Forbidden Area No. 76 are of course okay.

But what if it is replaced with other materials?

Which one needs to be used?

It's impossible to use all the resources of Forbidden Land No. 76 here, right?

You know, the resources of Forbidden Land No. 76 are Levi Garrison's material support against the laboratory of the gods.

It is impossible to use them all here.

Levi Garrison wanted to use other materials instead.

In any case, it is best to use the power of Daxia.

There are many problems.

Levi Garrison needs to do it personally.

The time is too short.

Every second must be counted.

...

In the hinterland of the Arctic ice sea, seldom populated.

The howling hurricane swept through everything.

Large chunks of ice floes above the sea are floating, and the environment is extremely harsh.

But there are still people here.

## Chapter 2708

There are still quite a few people who are looking for strange travel.

Large cruise ships cannot come here, after all, there are too many ice floes.

But their cruise ship stopped far away, and they came here in a small boat.

“The front can’t continue! That’s the territory of the War Eagle Nation! Maybe there is a secret base! Don’t break through! Otherwise, you will all be captured and experiment...”

Heard this.

These tourists have regarded the front as a forbidden place.

Don’t dare to go one step further...

However.

Many people choose to wear tools and dive in this place.

I want to see what different scenery I can see when I dive to a position of one or two hundred meters.

After all, this is the North Pole, or the sea of ice.

It must be different from other places.

“Puff!”

"Puff!"

...

Dozens of people jumped into the ice sea one by one and dived into the ice sea.

Sure enough, the scenery below is beautiful.

Icebergs sinking to the bottom of the sea are faintly visible.

The diver can't help but take out the equipment to shoot...

"Rumble..."

But at this moment, there was a sudden earth-shaking movement from the bottom of the sea.

The entire bottom of the sea is shaking.

The sea churned, forming one after another whirlpool.

A huge force came and almost knocked everyone out.

The earth is shaking and the mountains are shaking.

"Buzzing..."

At the same time, a huge whistling sound hits, like shattering the eardrum.

"Has the submarine volcano erupted?"

"Or is the tsunami coming?"

...

There was too much movement.

So that everyone thought it was a disaster.

Fortunately, everyone's equipment is very professional and can escape in time.

But everyone was really frightened.

Just as they were about to escape, it suddenly became dark in front of them.

It seems that there is a huge object covering the sky and the sun.

"Rumble..."

At the same time, more and more movement came.

Everyone was almost washed away by the vortex.

"Look! That is!"

"God, what did I see???"

...

At this time, everyone was in the sea and saw a huge monster moving at a rapid speed.

It is hundreds of meters long, and at least 100 meters high.

"This, this...what kind of creature is this, my goodness! It's terrible, isn't it?"

Everyone was terrified when they saw such a creature for the first time.

The camera equipment they brought quickly recorded this scene.

## Chapter 2709

However, the giant creatures are not limited to this one.

There is...

One, two, three...

Twenty in full.

Wrong!

Twenty giant creatures drove to the War Eagle Country Energy Power Station not far away in the sea.

To test whether it can be hidden underneath.

Twenty behemoths will leave clues even if they pass under the seabed.

However, around this is the energy power station of the War Eagle Nation.

It is normal to produce some energy fluctuations.

The anomaly in this place, everyone will naturally be attributed to the territory of the war eagle country.

As long as the Eagle Nation has no problems on its own, of course others have no problems.

To find anomalies, it must be discovered by the Eagle Nation.

However, the Black Hawk agent had already arranged this matter.

...

soon.

These diving enthusiasts, upload the video.

In small circles began to discuss...

The influence is also expanding further.

Quite a few say that this video was made by myself.

Not real shot.

After all, there is no evidence to show the appearance of such giant creatures.

Twenty at a time, in an orderly manner.

So most people think it is fake.

But some people say it is true.

Some people with strong technology found that this video did not contain any artificial traces, and it was actually shot.

Capital.

In the Yanlongwei base.

The four leaders happened to be together.

At this time, Cao Zhiguo, the second in command of the Yanlongwei Intelligence Department, hurriedly arrived with his computer.

“Maybe the king is right to say the word side by side...”

“What’s wrong???”

The expressions of the four of Xiao Liejun changed drastically.

Recently.

They never mentioned Levi Garrison again.

Lu Xiong just paid attention to it.

When I mentioned it now, the faces of the four and the others in the room changed wildly.

“Someone photographed terrifying giant creatures while diving under the depths of the Arctic ice sea... It’s almost the same as the description of the King of Side by Side...”

Cao Zhiguo quickly put the computer on the table and played the video.

Seeing the giant creature in the video, everyone was stunned.

Does the giant creature described by Levi Garrison really exist?

Was it still photographed?

Lu Xiong was thrilled: "The size, height, and appearance are all the same! What the king said side by side is true! He really has the ability to predict!"

Originally, he supported Levi Garrison from the bottom of his heart.

## Chapter 2710

Now that I have substantive evidence, I want to support Levi Garrison more and more.

The three of Xiao Liejun looked serious, and he asked, "Have you verified the authenticity of the video?"

"Well, it has been technically appraised, and the video is not fake! It is real!"

Cao Zhiguo replied.

"real?"

Lu Xiong's eyes lit up.

"The video is real! But this matter needs to be checked!"

"Old Cao, take someone to investigate! Who did it? When? Where? Everything must be checked clearly!"

Xiao Liejun and the others will not turn to support Levi Garrison just because of a video.

Even if the video is real.

This is too sloppy.

You must find it clearly.

“This is definitely a problem...”

“I just received a message that all the videos released on the Internet have been forcibly deleted! Nothing is left! Nothing is seen...”

“Someone used means to delete everything... It’s too fast... We only got this video for a few minutes...”

Cao Zhiguo just received the message.

“So fast?”

“Then you need to check it more quickly! Hurry, hurry...”

Under the order of Xiao Liejun.

Cao Zhiguo immediately went to investigate...

About half a day’s work.

Cao Zhiguo returned in a hurry.

“The evidence is destroyed! Nothing is left! All the people who filmed the video are dead, and no complete body can be found...”

“All clues are broken...”

Cao Zhiguo’s face was gloomy.

Lu Xiong also frowned: “The more this is, the more it explains the seriousness of the problem! It also shows the accuracy of what the king says! We should prepare early! Follow what the king says!”

Lu Xiong no longer wanted any substantive evidence.

I believe Levi Garrison is here.

I want to start preparing immediately.

What are you doing?

This thing must be true now...

Xiao Liejun, Hong Qingcang and Jiang Ye looked at each other.

“No! Still can’t be too hasty!”

“This matter must have definite evidence, otherwise it can’t be carried out!”

Xiao Liejun rejected Lu Xiong’s proposal.

Jiang Ye suddenly thought of Levi Garrison: “By the way, this time there is a video thing! Isn’t the king staring side by side all the time? We call him to investigate!”

“If he can produce substantive evidence, he can also prove himself!”

The other two nodded: “Well, yes, please come side by side with the king!”
